BEAUTIFUL LETTER.—Who will be without a beautiful head of hair, when there has been proof shown for shillings? Twenty years' loss of hair and wonderful restoration!

"BALTIMORE, July 17, 1847.

"Dear Sir—The wonderful effects of Jones' Coral Hair Restorative has been decisively demonstrated in the cases of several respectable citizens of the town, who, on account of your selling three shilling trial bottles, try it without fee. The mixture, which has attracted public attention, is the case of a gentleman who had little or no hair for twenty years; he had tried numerous preparations but vain, and abandoned the idea of ever being more a wig. At my recommendation, he tried the Restorative, and after using it, according to the direction, in about a fortnight the young hair appeared, and he has now as fine a head of hair as any person in Baltimore.

"Yours, &c. JOHN KILVINGTON.

It causes the hair to grow, prevents the hair from turning grey, and the first application causes it to curl beautifully, frees it from scurf, and stops it from falling off.

Sold with full directions at 82 Chatham st. N.Y. and by Wm. Jackson, Agent, 89 Liberty st. Pittsburgh. (sep20

Tin Roofing.

THE subscribers most respectfully announce to their fellow-citizens that they have perfected their arrangement to carry on the business of Tin Roofing on an extensive scale.

It is now close on four years since we first introduced tin roofing in this city. During that time we have covered over fifty thousand square feet of roofs with tin plate, and in all cases we believe we have given the most entire satisfaction. This kind of roof has been applied to the very best buildings in this city, including among a large number of others, the two superb buildings on Penn street, owned by John L. Shoenberger and John Bissel, Esqrs. That tin roofing (when skillfully laid on) is both permanent and durable, there can be no doubt; in proof of this, we can refer to the almost universal application of this kind of roofing in the large cities on the sea-board during the last twenty years; and from enquiring on the subject, we have yet to learn of any one of those roofs having been worn out. The roofs covered with tin in our own city are open to the examination of all who take an interest in the matter. We have also prepared a miniature plan of roofs, which may be seen at our establishment, where any other information will be given with pleasure.

It gives a close approximation to the specific gravity of metals, and will *certainly* enable the adventurer to ascertain when his placer is yielding Gold.

Yours, respy., J. R. McCLINTOCK.
