WIRE RAILING.
SECURED BY LETTERS PATENT.
PUBLIC ATTENTION is solicited to an entire new article of RAILING, made of wrought iron bars, and soft annealed rods, or wire, and expressly designed for enclosing Cottages, Cemeteries, Balconies, Public Grounds, &c., at prices varying from 50 cents to $3.00 the running foot. It is made in panels of various lengths, 2½ to 4 feet high, with wrought iron posts 1½ inch square, at intervening distances of 8 to 10 feet. If desired, the panels can be made of any height, in continuous spans of 50 to 50 feet, with or without posts. No extra charge for posts.

The comparative lightness, great strength and durability of the WIRE RAILING, the beauty of its varied ornamental designs, together with the extremely low price at which it is sold, are causing it to supersede the Cast Iron Railing, wherever their comparative merits have been tested. Hardware, Cutlery, Saddlery, &c.
JOHN WALKER, *Importer and Dealer in Foreign and Domestic Hardware*, respectfully announces to his friends and the public generally, that he is now receiving his Spring supply of Hardware, Cutlery, Saddlery, &c., at his stand, No. 85 Wood street, which he will dispose of on the most reasonable terms.

He will continually be receiving fresh supplies, direct from the manufacturers in Europe and this country, which will enable him to compete with any house, East or West.

He particularly invites the attention of customers to his excellent assortment of Table and Spring Cutlery, &c., which is of fashionable patterns and from the most popular manufacturers.

His stock of Carpenter's Tools is large, and of excellent quality.

Of general Hardware stock, he has every variety of article.

Western Merchants and dealers, generally, are invited to call and examine his stock. mar29:6m

Colver's Patent Cheese Beater Churn!
BUTTER IN FIVE MINUTES!!

WE call the attention of the public to the article heading this advertisement, and invite the enquiring and curious to call and witness its operation. All advertisements in relation to this invention, to the hundreds who have seen it tested, is simply prescription.

1st. This Churn will produce Butter, gathering it in a mass, from sweet milk, in five to ten minutes; and from cream prepared, as families usually prepare it, in three to five minutes!

2d. The utility of this invention is apparent, as better Butter can be produced from sweet milk, or cream, than cream soured in the usual way; and by means of this Churn, a little girl or boy can perform, in five or ten minutes, what has heretofore required the labor of a woman, or man for one or two hours, and sometimes half a day.

3d. By simply turning a thumb screw, the wholesaide dasher is taken out, leaving nothing but the Butter and milk in the plain wooden box.

4th. It is the cheapest Churn ever invented, as the simplicity of its construction (though embodying a great philosophical principle) makes it but little to manufacture it.

5th. It is a common-sense Churn, as all will admit who will examine it.

We invite the public to call and witness its operation at our office in the Diamond, near the Black Bear Tavern, and at J. F. Beckham's, Federal st., Allegheny.
