spirit, and the army will be beyond the Pamunky by noon. Breckinridge is at Hanover Court House with a force variously reported at from 3,000 to 10,000. Wickhams and Lomigin's brigade of cavalry are also reported there. The dispatch further states that after seizing Hanover Ferry, yesterday, Gen. Lorbert captured seventy-five cavalry, including six officers, and that the rebel cavalry is exceedingly demoralized and flees before ours on every occasion.

A dispatch from Gen. Sherman, dated May 23, 6 p. m., near Dallas, reports that the enemy, discovering his move to turn Altoona, moved to meet our forces at Dallas. Our columns met the enemy about one mile east of the point in view, and we pushed them back about three miles to the point where the roads fork to Atlanta and Marietta. Here Johnson has chosen a strong line, and made hasty but strong parapets of lumber and earth. General Sherman's right is at Dallas and the centre at about three miles north.—The country is densely wooded, and broken. There are no roads of any consequence. We have had many spirited encounters, but nothing decisive.

No dispatches from any other field of operations have been received to-day.

Universal Clothes Wringer.

No Iron Frame to Break, or Rust and Spoil the Clothes.

53,818 sold in 1863.

IT was pronounced superior to all others at the World's Fair at London, 1862. It took the First Premium at the great Fair of the American Institute, in New York City, 1863, and wherever exhibited.

SELF-ADJUSTING AND ADJUSTABLE!

The only Wringer with the Patent COG WHEEL REGULATOR, which positively prevents the rolls from

Breaking or Twisting on the Shaft.

Without cog wheels, the whole strain of forcing the cloth through the machine is put upon the lower roll, causing three times as much strain upon the lower roll as when cog wheels with our Patent Regulator are used, besides the extra strain upon the cloth.

In reply to the question, "How Long Will it Last?" we can only say, "As long as a wash tub, cooking stove, or any other family utensil." See testimony of Orange Judd, of the American Agriculturalist, No. 41 Park Row, N. Y., who says of the

UNIVERSAL CLOTHES WRINGER,

"We think the machine much more than *pays for itself every year* in the saving of garment! We consider it important that the Wringer be fitted with Cogs, otherwise a mass of garments may clog the rollers, and the rollers upon the crank-shaft slip and tear the clothes, or the rudder break loose the shaft. Our own is one of the first made, and it is as *good as new* after nearly *four years' constant use.*"

IT SAVES TIME, LABOR, CLOTHES AND MONEY.

It is easily and firmly secured to the tub or washing machine, and will fit tubs of any size or shape.

It will save its cost every six months in the saving of clothes. Those with COG WHEELS ARE WARRANTED in every particular.

This means, especially, that after a few months' use the lower roll *will not twist on the shaft*, and tear the clothing.

☞ Furnished to families, on trial, free of expense by
