Miscellaneous.

Tin Roofing.

THE subscribers most respectfully announce to their fellow-citizens that they have perfected their arrangement to carry on the business of Tin Roofing on an extensive scale.

It is now close on four years since we first introduced tin roofing in this city. During that time we have covered over fifty thousand square feet of roofs with tin plate, and in all cases we believe we have given the most entire satisfaction. This kind of roof has been applied to the very best buildings in this city, including among a large number of others, the two superb buildings on Penn street, owned by John L. Shoenberger and John Espy, Esqrs. That tin roofing (when skillfully laid on) is both permanent and durable, there can be no doubt; in proof of this, we can refer to the almost universal application of this kind of roofing in the large cities on the sea-board during the last twenty years; and from enquiring on the subject, we have yet to learn of any one of those roofs having been worn out. The roofs covered with tin in our own city are open to the examination of all who take an interest in the matter. We have also prepared a minature plan of roofs, which may be seen at our establishment, where any other information will be given with pleasure. JOHN DUNLAP & CO.,

THE ATTENTION OF THE PUBLIC is respectfully called to the following certificate:—

MR. S. EAKINS—Having tested a quantity of Gold weighed by your Areometer, I find the result proves your instrument correct; and recommend the use of it to those going to California, as the best method for obtaining the real value of Gold. Resp. yours,

PITTSBURGH, March 7, 1849.

MR. EAKINS—*Dear Sir*: Having examined the "Areometer," manufactured at your rooms, I do not hesitate to commend it to the use of those gentlemen who are about removing to California, in search of Gold.

I give a close approximation to the specific gravity of metals, and will *certainly* enable the adventurer to ascertain when his placer is yielding Gold.

Yours, respy., J. R. MCCLINTOCK.

Gold Washers.

H. PARRY has invented a machine for washing Gold, which he has made application to get a patent. They are now offered for sale at the Warehouse of JOHN H. SCOTT & Co., No. 103 Wood st., Pittsburgh.

Adventurers will find it to their interest to examine these labor-saving machines. They are simple in construction, easily transported on the back of mules or horses, weighing eighty pounds each, and can be put in operation in half an hour. They can be filled by persons unskilled. It is the opinion of those who have been the trial of one of these machines of Gold washers, that two men will wash the mineral from 150 bushels of sand or earth in a day, without the loss of a particle of the mineral. They can be increased in size and worked by water or mule power, if expedient. The operators will be saved from going into the water or being exposed to their hurtful effects. They will require but a small stream of water, and can be used the whole season, and can be put into operation where there is not sufficient water to wash in the usual way.

Price of smallest size $35. Orders from abroad, accompanied by cash, will be promptly filled.

READ THIS LETTER.—Who will be without a beautiful head of hair, when they can have one for three shillings? Twenty years' loss of hair and wonderful restoration!

"BALTIMORE, July 17, 1847.

"Dear Sir—The wonderful effects of Jones' Cora Hair Restorative has been decisively demonstrated in the case of several respectable citizens of the town, who, on account of your selling three shilling trial bottles, try it without fear. One instance, which has attracted particular notice, is the case of a gentleman who had little or no hair for twenty years; he had tried numerous preparations in vain, and ultimately had his head shaved and wore a wig. At my recommendation, he tried the Restorative, and after using it, according to the direction, in a short time, the young hair appeared, and he has now as fine a head of hair as any gentleman in Baltimore.

"Yours, &c. JOHN KILVINGTON."

It creates and strengthens to grow, prevents the hair from turning grey, and the first application makes the hair beautifully, frees it from scurf, and stops it from falling off.
