Tin Roofing.
THE subscribers most respectfully announce to their fellow-citizens that they have perfected their arrangement to carry on the business of Tin Roofing on an extensive scale.
It is now close on four years since we first introduced tin roofing in this city. During that time we have covered over fifty thousand square feet of roofs with tin plate, and in all cases we believe we have given the most entire satisfaction. This kind of roof has been applied to the very best buildings in this city, including, among a large number of others, the two superb buildings on Penn street, owned by John L. Shoenberger and John Bissel, Esqrs. That tin roofing (when skillfully laid on) is both permanent and durable, there can be no doubt; in proof of this, we can refer to the almost universal application of this kind of roofing in the large cities on the sea-board during the last twenty years; and from enquiring on the subject, we have yet to learn of any one of those roofs having been worn out. The roofs covered with tin in our own city are open to the examination of all who take an interest in the matter. We have also prepared a miniature plan of roofs, which may be seen at our establishment, where any other information will be given with pleasure. JOHN DUNLAP & CO.

The Areometer.
THE ATTENTION OF THE PUBLIC is respectfully called to the following certificates:—
MR. S. EAKINS—*Having tested a quantity of Gold weighed by your Areometer, I find the result proves your instrument correct; and recommend the use of it to those going to California, as the best method for obtaining the real value of Gold.* Resp. yours,
J. B. DUNLEVY,
Pittsburgh, March 9, '49. Gold Benter.

PITTSBURGH, March 7, 1849.
MR. EAKINS—*Dear Sir:* Having examined the "Areometer," manufactured at your rooms, I do not hesitate to commend it to the use of those gentlemen who are about removing to California, in search of Gold.
It gives a close approximation to the specific gravity of metals, and will certainly guide the adventurer to a certain when his placer is yielding Gold.
mr10] Yours, resp'y, J. R. MCLINTOCK.

Gold Washers.
PARRY has invented a machine for washing Gold, for which he has made application for a patent.—The same now offered for sale at the Warehouse of PARRY, SCOTT & Co., No. 104 Wood st., Philadelphia.
Adventurers to California are invited to call and examine these labor-saving machines. They are simple, their construction, easily transported on the back of mules or horses, weighing eighty pounds each; and can be put together and taken in half an hour. They are filled with provisions. It is the opinion of those who have seen the trial of one of these machines of smallest size, that two good men will wash the mineral from 150 bushels of sand or earth in a day, without the loss of a particle of the mineral. They can be increased in size and worked by water or mule power, if expedient. The separate work without going into the water or being exposed to cold or rain, and consequently without endangering their health. They will separate a sufficient quantity of water, and can be used the whole season, and can be put where there is not sufficient water to wash in the usual way.
Price of smallest size $35. Orders from abroad, accompanied by cash, will be promptly filled.

READ THIS LETTER.—You may be without a beautiful head of hair, when they can have one for three shillings! Twenty years' loss of hair and wonderful restoration!

"BALTIMORE, July 17, 1847.
"Dear Sir.—The wonderful effects of Jones' Coral Hair Restorative has been declared astonishing by a host of respectable citizens of the town, who, on account of your selling three shilling trial bottles, try it themselves, and find it to be all that is represented. Without attention, is the case of a gentleman who had little hair for twenty years; he had tried numerous preparations in vain, and ultimately had his head shaved and wore a wig. At my recommendation, he tried the Restorative, and after using it, according to the direction, for a short time, the young hair appeared, and he now has as fine a head of hair as any person in Baltimore.
"Yours, &c. JOHN KILKINGTON."
It causes eyebrows to grow, prevents the hair from turning grey, and the first application causes it to curl beautifully, feed it from scurf, and stops it from falling off.

JOSEPH LIPPENCOTT. WM. C. BARR.
LIPPENCOTT & BARR,
(LATE J. S. STRICKLER & Co.)
Manufacturers of Phœnix Fire Proof Safes,
Second street, between Wood and Smithfield.
ON Tuesday afternoon, July 25, 1848, the undersigned were called upon by Messrs. Lippencott & Barr, to witness an honest and fair test of one of their Phœnix Safes. The furnace being prepared, the Safe was placed inside thereof, with books, papers and some money; when the door of the Safe was closed and the fire kindled at a quarter past 2 o'clock, and in a short time the Safe was red hot, and continued till half past 6 o'clock, being about four and a half hours, when the committee expressed their satisfaction that the time occupied with such heat was sufficient. The furnace was then pulled down, Safe cooled, and door opened—the books, papers and money safe. The heat was so great as to melt off the brass mountings. We therefore take pleasure in recommending these Safes to the public, as being, in our judgment, entirely fire proof. JARVIS & TRABUE,
NOCK & RAWSON,
CORNWALL & BROTHER,
BRANNON & THATCHER,
BENEDICT & CARTER,
ISAAC CROMIE.

I am engaged in the foundry business, and know something about furnaces and heat. I witnessed the burning of the above Safe, and can freely say there was no humbug about it, and with pleasure recommend them to the public as being, in my judgment, entirely fire-proof. WM. JAYE.

In calling upon the above gentlemen for their signatures, they all spoke in the highest terms of the fairness of the test, and their full confidence of the Safe's being entirely fire-proof. We have constantly on hand and for sale a full assortment of the above Safes.
