AN INVALUABLE GIFT.—As the season is approaching when gifts are particularly in season, we would early suggest that the most sensible, because the most useful and valuable, gift to a lady is a Wheeler & Wilson Sewing Machine.—These machines are the best for family use.

WOMAN'S GREATEST BOON.—We would advise a man to forego a thresher and thresh wheat with a flail rather than to see a wife wear her health, vigor and life away, in the everlasting "stitch, stitch, stitch," when a Sewing-Machine can be obtained. The Wheeler & Wilson is an invaluable aid in every household. We have had several different kinds on trial, and after six years' service, the Wheeler & Wilson has taken the precedence as the best where all kinds of sewing are to be done in a family—AMERICAN AGRICULTURIST.

CONSUMPTION CURABLE BY DR. SCHENK'S MEDICINES.—To cure consumption, the system must be prepared so that the lungs will heal. To accomplish this, the liver and stomach must first be cleansed and an appetite created for good wholesome food, which, by these medicines will be digested properly, and good healthy blood made; thus building up the constitution.—Schenck's Mandrake Pills cleanse the stomach of all bilious or mucous accumulations; and, by using the Sea Weed Tonic in connection, the appetite is restored.

Schenck's Pulmonic Syrup is nutritious as well as medical, and, by using the three remedies, all impurities are expelled from the system, and good wholesome blood made, which will repel all disease. If patients will take these medicines according to directions, consumption very frequently in its last stage yields readily to their action. Take the pills frequently, to cleanse the liver and stomach. It does not follow that because the bowels are not costive they are not required, for sometimes in diarrhœa they are necessary. The stomach must be kept healthy, and an appetite created to allow the Pulmonic Syrup to act on the respiratory organs properly and allay any irritation. Then all that is required to perform a permanent cure is, to prevent taking cold. Exercise about the rooms as much as possible, eat all the richest food—fat meat, game, and in fact, anything the appetite craves; but be particular and masticate well.

THE HORSE!

Your attention is invited to a new and valuable invention known as

"HALL'S PATENT ELASTIC CUSHION"

for the preservation of HORSES FEET. It is made of Rubber, and by its peculiar form will prevent stones from clinging to the horse's feet, also, prevent their "balling up" in winter with snow. It can also be so adjusted as to prevent the animal from interfering and is very beneficial to tender footed horses, and those used in travelling over turn-pikes and hard roads, as the "Cushion" when placed between the hoof and the iron shoe, prevents the concussion of the blow when the foot is brought in contact with hard substances and prevents their feet from getting sore. It will cure a pinched foot by three months wear. To farmers, teamsters and livery men it will save thousands of dollars in the wear and tear of Horse flesh. For sale at the cheap Hardware Store of
