BOILS.—Like the volcano, Boils give issue to the foul and fiery contents of the deep interior. To remove the cause of such suffering it is only necessary to vitalize the Blood by supplying it with its *Life Element*, IRON.

THE PERUVIAN SYRUP,

(a protected solution of the Protoxide of Iron) will do this effectually, and give *strength, vigor* and *new life* to the whole system.

Extract of a Letter from REV. RICHARD S. EDES, *of Bolton, Mass.*

"For years I was a sufferer from Boils, so that my life became wearisome through their frequent and persistent recurrence; finally a carbuncle formed in the small of my back. During its progress large pieces of decomposed flesh were every day or two cut away, and the prostration and general disturbance of the system were great.—Before I had recovered from this attack two smaller carbuncles broke out higher up, and I was again threatened with a recurrence of the sufferings to to which I had so long been subjected. It was at this time that I commenced taking the PERUVIAN SYRUP. I continued taking it until I had used five bottles; since then I have had nothing of the kind. For years I was one of the greatest sufferers. Other medicines gave me partial and temporary relief, but this remarkable remedy, with a kind and intuitive sense, went directly to the root of the evil, and did its work with a thoroughness worthy of its established character."

A USEFUL INVENTION.—The new wire for clothes lines bids fair to supersede every other in use. The patent is on the coating of the wire, and this is well nigh indestructible. From the evidences we have seen and the testimony as to its durability and value, we have no hesitation in recommending this wire to our friends and patrons as all that its inventors claim for it.—Whoever now wilfully inflicts upon his family the troubles of the Rope Clothes Line, deserves to receive his fresh linen soiled.

There is not another remedy known to equal this for the cure of Syphilus, Ulcers, Sores, Scrofula, in all its forms, Tetters, Scales, Boils, Mercurial Diseases and eruptions of the Skin. This is no experiment; it is a well tested remedy in the United States Hospitals, where those diseases assumed their worst forms; mild cases soon yield—six bottles will cure any case. It is a common saying, "I have tried everything without effect. To such we say, use the *Samaritan Root and Herb Juices*, and if it fails to cure any disease of the blood or skin, your money will be refunded by our agents. Price $1.25 per bottle.

CONSUMPTIVES READ!

A Physician, who had consumption for several years, with frequent bleedings of the lungs, cured himself with a medicine unknown to the profession, when his case appeared hopeless. He is the only physician who has used it in his own person, or who has any knowledge of its virtues; and he can ascribe the degree of health he now enjoys to nothing but the use of this medicine; and nothing but utter despair and entire extinction of all hope of recovery, together with a want of confidence in all others, induced him to hazard the experiment. To those suffering with this malady, he proffers a treatment which he confidently believes will eradicate the disease. Medicine forwarded by express. Send for circular, or call on DR. E. THE

UNION PACIFIC

RAILROAD COMPANY

OFFER A LIMITED AMOUNT OF THEIR

FIRST MORTGAGE BONDS

AT PAR,

PRINCIPAL AND INTEREST

PAYABLE IN GOLD.

The Great Pacific Railroad Line, extending 1731 miles from Omaha, on the Missouri River, to the tide-waters of the Pacific Ocean, is being built by two powerful Companies—THE UNION PACIFIC, beginning at Omaha, building West, and the Central Pacific of California, beginning at Sacramento, building East, until the two roads shall meet.

Both Companies have prosecuted the work with great vigor, the Union Pacific having already expended over

THIRTY MILLION DOLLARS

and the Central over *Twenty Millions*, upon their respective parts of the undertaking. The UNION PACIFIC HAVE COMPLETED 550 MILES—have iron and other materials for two hundred miles more upon the ground, and one hundred additional miles are ready for the track. They will have a much larger force employed this year than ever before, and it is expected that between

800 AND 900 MILES

will be in operation during 1868. There seems to be no reasonable doubt that the distance between Omaha and Sacramento will be traversed by rail in 1870.

THE GOVERNMENT GRANTS 12,800 acres of land, and its Bonds to the average amount of $28,000 per mile, to aid in the construction of the line, and authorizes the issue of the First Mortgage Bonds now offered for sale, to the same amount and no more. The Government takes a *second* lein, and gives to the First Mortgage Bondholders a prior lein for their security, to which a large paid-up capital is added. The Bonds cannot be issued except as each section of twenty miles is accepted by Government commission, so that they always represent a real property.

It is universally admitted that on the completion of the Union Pacific Railroad, its through business will make it one of the most profitable in the world—but its *way or local* business is already several times the interest on its bonds; so that, if not another mile were built, they would be a secure investment.

THE NET EARNINGS for eight months of last year on an average of 338 miles are officially reported at $1,069,136, while the interest on all the Bonds it could issue on that length of road for that time, reduced to currency, was only $315,856.

The amount paid by the Government for the transportation of troops, munitions, stores and mails has been, and doubtless will continue to be, much more than the interest on the United States Second Mortgage Bonds. If it is not, the charter provides that after the road is completed, and until said bonds and interest are paid, at least five per cent. of the net earnings of the road shall be applied to such payment.

The Union Pacific Bonds are for $1,000 each, and have coupons attached. They have thirty years to run, and bear annual interest, payable on the first days of January and July at the Company's Office in the City of New York, at the rate of six per cent. in gold. The principal is payable in gold at maturity. At the present rate of gold, these bonds pay an annual income on their cost of

NEARLY NINE PER CENT.,

AND IT IS BELIEVED THAT THEY WILL SOON BE AT PREMIUM.

The Company have but a very limited supply of their Bonds remaining on hand, but any subscriptions to a greater amount than can be filled from Bonds now in the Company's possession, will be supplied from the Second Bonds to be issued on that portion of the road completed in the Spring, in the order in which they are received.

The Company reserve the right to advance the price of their bonds to a rate above par at any time and will not fill any orders or receive any subscriptions on which the money has not been actually paid at the Company's office before the time of such advance.

Parties subscribing will remit the par value of the bonds and the accrued interest in currency at the rate of six per cent. per annum, from the date on which the last coupon was paid. Subscriptions will be received in Carlisle by A. L. SPONSLER, and in New York

AT THE COMPANY'S OFFICE, No. 20 Nassau St.,

AND BY

JOHN J. CISCO & SON, Bankers, No 59 Wall St.,

And by the Company's advertised agents throughout the United States.

Remittances should be made in drafts or other funds par in New York, and the Bonds will be sent free of charge by return express. Parties subscribing through local agents will look to them for their safe delivery.

A PAMPHLET AND MAP FOR 1868 has just been published by the Company, giving fuller information than is possible in an advertisement, respecting the Progress of the Work, the Resources of the County traversed by the Road, the Means for Construction, and the Value of the Bonds, which will be sent free on application at the Company's offices or to any of the advertised agents.
