BUSINESS NOTES

Primary cotton goods last week regained the strength lost in the decline begun two weeks ago and went almost to price records established a few weeks ago.

The hide market was very quiet last week and little business was transacted. Dry hides were nominally on the old basis of forty-eight cents for Mountain Bogotas and Orinocos, but virtually no interest was displayed by buyers at this price.

Interest in the woolen goods trade is centered on the sale of Australian wool to be held this month in Boston under the auspices of the British Government. Several of the leading mills have withheld naming prices on goods for next fall pending the outcome of the Boston sale.

More activity was noted in all branches of the fur trade last week. Colder weather stimulated retail sales. Jobbers and manufacturers received good repeat orders from retailers in the South, West and Middle West. The bulk of these orders called for coats, although neckpieces and small furs were in greater demand than earlier in the season.

Opportunities for American electrical goods in Argentina, Uruguay and Brazil are described in a booklet now being distributed by the bureau of foreign and domestic commerce. It is the work of Trade Commissioner Philip S. Smith, whose reports on other Latin-American markets are well known to the trade.

STERLING BELOW $4 MARK

Franc checks made a new low record today, being quoted at 9.85 for the American dollar. Lire checks also fell 9 centimes to 12.36 for the dollar, while German marks were quoted at 2.35 cents each.

The market opened weak this morning except for francs, which were a shade better. Sterling and lire were near the previous low records.

Sales of New Crop Sugars Small

New York, Dec. 1.—With refiners showing little interest and engaging largely in toll business, sales of new crop sugars reported in small amounts to operators only. The market is generally classed as uncertain in the face of the new shipping board arrangement with the larger ship operators, charging shippers of part cargoes an extra of 5 cents a hundred on their own shipment and of all other sugars in the cargo. No sales were reported by the United States sugar equalization board. Refined sugar is unchanged at 9-cents, less 2 per cent for cash, for fine granulated.

Financial Briefs

The average price of twenty active industrial stocks declined 0.12 per cent on Saturday to 106.60, while twenty rails advanced 0.53 per cent to 75.86.

A prominent uptown banker remarked today, "It would be well to bear in mind that Congress is with us again." Curiously, he has made the same remark for the last thirty years on the eve of the reconvening of the lawmakers at Washington.

Between labor troubles, tight money markets and politics the average market skipper has great difficulty in finding his bearings in the troubled speculative seas these days.

Viewed in its broader prospective the collapse of the stock market boom is having a salutary effect in that it has drawn attention sharply to the serious situation in respect to foreign credit.

The coal strike, the money situation and the money markets are the three factors which are likely to govern the course of stock values in the immediate future.

As Wall street almost invariably goes to extremes and the present market is no exception there is some hope of a sudden turn in the temper of speculation.

The New York Subtreasury lost $22,772,000 to the banks on Saturday, making a cash net loss since Friday of $23,666,000.

Heavy buying of Liberty issues at sharp rallies from last week's low levels featured the bond market.

The railroad stocks were traded in on an usually large scale and nearly all those issues made good advances during the forenoon. Union Pacific, which sold ex a 2½ per cent dividend, opened at 122 and advanced to 124½. Baltimore and Ohio moved up over 1 point to 34, and Northern Pacific advanced over 1 point to 30½. Southern Pacific, after yielding to 92¾, advanced to 93¼.

Brown Shoe Co. reports for year ended October 31, 1919: Surplus after Federal taxes, $1,508,974, equal after preferred dividends to $19.48 a share on $6,300,000 common stock, against $1,338,384, or $18.23 a share, in 1918 on $6,000,000 stock then outstanding.

The earnings for the month of October of the Philadelphia Co. and subsidiary natural gas companies, together with the Philadelphia Oil Co. reflect the effect of the steel strike on the natural gas business of the Philadelphia Co. The steel mills of the Pittsburgh district are large customers of the natural gas companies.

There has been stricken from the regular list of the Philadelphia Stock Exchange $1,128,000 Pittsburgh, Cincinnati, Chicago and St. Louis Railway consolidated mortgage bonds, canceled in the sinking fund; stricken off $107,000 Philadelphia and Reading Railway extended improvement 4 per cent mortgage bonds which have been converted into registered bonds.
