Miscellaneous.

Tin Roofing.

THE subscribers most respectfully announce to their fellow-citizens that they have perfected their arrangement to carry on the business of Tin Roofing on an extensive scale.

It is now close on four years since we first introduced tin roofing in this city. During that time we have covered over fifty thousand square feet of roofs with tin plate, and in all cases we believe we have given the most entire satisfaction. This kind of roof has been applied to the very best buildings in this city; including, among a large number of others, the two superb buildings on Penn street, owned by John L. Shoenberger and John Bissell, Esqrs. That tin roofing (when skilfully laid out) is both permanent and durable, there can be no doubt; in proof of this, we can refer to the almost universal application of this kind of roofing in the large cities on the sea-board during the last twenty years; and from enquiring on the subject, we have yet to learn of any one of those roofs having been worn out. The roofs covered with tin in our own city are open to the examination of all who take an interest in the matter. We have also prepared a miniature plan of roofs, which may be seen at our establishment, where any other information will be given with pleasure. JOHN DUNLAP & CO.

The Areometer.

THE ATTENTION OF THE PUBLIC is respectfully called to the following certificates:—

MR. S. EAKINS—Having tested a quantity of Gold weighed by your Areometer, I find the result proves your instrument correct; and recommend the use of it to those going to California, as the best method for obtaining the real value of Gold. Resp. yours,
J. B. DUNLEVY,
Pittsburgh, March 9, '49. Gold Beater.

PITTSBURGH, March 7, 1849.
MR. EAKINS—*Dear Sir:* Having examined the "Areometer," manufactured at your rooms, I do not hesitate to commend it to the use of those gentlemen who are about removing to California, in search of Gold.

It gives a close approximation to the specific gravity of metals, and will certainly enable the adventurer to ascertain when his placer is yielding Gold.—

Gold Washers.

H. PARRY has invented a machine for washing Gold, for which he has made application for a patent.—They are now offered for sale at the Warehouse of PARRY, SCOTT & Co., No. 103 Wood st., Pittsburgh.

Adventurers to California are invited to call and examine these labor-saving machines. They are simple in their construction, easily transported on the back of mules or horses, weighing eighty pounds each, and can be put in operation in half an hour. They can be filled with provisions. It is the opinion of those who have seen the trial of one of these machines of smallest size, that two men will wash the mineral from 150 bushels of sand or earth in a day, without the loss of a particle of the mineral. They can be increased in size and worked by water or mule power, if expedient. The operators work without going into the water or being exposed to wet weather or wet, and consequently without endangering their health. They will require but a small stream of water, and can be used the whole season, and can be put into operation where there is not sufficient water to wash in the usual way.

Price of smallest size $35. Orders from abroad, accompanied by cash, will be promptly filled.

READ THIS LETTER.—Who will be without a beautiful head of hair, when they can have one for three shillings? Twenty years' loss of hair and wonderful restoration!

BALTIMORE, July 17, 1847.

"Dear Sir—The wonderful effects of Jones' Coral Hair Restorative has been decisively demonstrated in the cases of several respectable citizens of the town, who, on account of your selling three shilling trial bottles, try it without fear. One instance, which has attracted particular attention, is the case of a gentleman who had little or no hair for twenty years; he had tried numerous preparations in vain, and ultimately had his head shaved and wore a wig. At my recommendation, he tried the Restorative, and after using it according to the direction, for a short time, the young hair appeared, and he has now as fine a head of hair as any person in Baltimore.

"Yours, &c., JOHN ELLINGTON."

It causes eyebrows to grow, prevents the hair from turning grey, and the first application causes it to curl beautifully, frees it from scurf, and stops it from falling off.

LIPPENCOTT & BARR,
(LATE J. S. STRICKLER & CO.)
Manufacturers of Phœnix Fire Proof Safes,
Second street, between Wood and Smithfield.

ON Tuesday afternoon, July 25, 1848, the undersigned were called upon by Messrs. Lippencott & Barr, to witness an honest and fair test of one of their Phœnix Safes. The furnace being prepared, the Safe was placed inside thereof, with books, papers and some money; when the door of the Safe was closed and the fire kindled at a quarter past 2 o'clock, and in a short time the Safe was red hot, and continued till half past 6 o'clock, being about four and a half hours, when the committee expressed their satisfaction that the time occupied, with such heat was sufficient. The furnace was then pulled down, Safe cooled, and door opened—the books, papers and money safe. The heat was so great as to melt off the brass mountings. We therefore take pleasure in recommending these Safes to the public, as being, in our judgment, entirely fire proof.

Hale's Patent Rotary Machine,

APPLICABLE TO THE USES OF
FORCING AND SUCTION PUMP, FIRE ENGINE,
Steam Engine, Ventilator, and Water Wheel.

THIS remarkable Machine was invented by ELIJAH HALE, of New York, and bids fair to supersede, in all its above applications, the machines now in use. It has been visited by thousands, and tried, in many of its applications, and its success has outstripped everything in the history of useful inventions. The compact form of the machine, its simplicity of construction and new application of established principles, renders it an object of admiration to all who see it.

As a common Pump, for the use of families, its portability and the facility with which it can be converted into a *Fire Engine,* are among its advantages. It is equally useful for all purposes to which Pumps can be applied on *steamboats or vessels,* to supply boilers, washing of decks, pumping the holds, &c., &c.

For Mines and Hydraulic Works of all kinds, it requires less power to do the same amount of work, and is less liable to get out of repair than any pump ever before invented. It throws a continuous stream of water without the use of an air chamber, or any complicated double acting apparatus.

As a Fire Engine, not one half the number of men are required as upon the machines now in use, and they can work a much longer time without fatigue, owing to the manner of the application of the power—either by crank or capstan.

As a Rotary Steam Engine, this machine has supplied that great desideratum among scientific men, viz: obtaining a constant rotary action, which can be satisfactorily applied to practical purposes.

As a Ventilator for Mines, Wells and Vessels, or a Blower for Furnaces, it is equally and efficiently applied.

As a Water Wheel, working either by departing or entering water, it is something entirely new and eminently useful. It can be used to obviate much of the expense in laying foundations of mills, digging of water courses, &c. &c.

One of the Machines can be seen and some of its applications tested, by calling at "UNION HALL," corner of Fifth and Smithfield streets, entrance on Fifth st.

Rights for individuals, Counties, &c., within the State of Pennsylvania, can be obtained of the subscribers, as above, and any information relative to it given.

To the Public—County Scrip.

THE Commissioners of Allegheny County avail themselves of the earliest opportunity to inform the holders of County Scrip, that the Board have under consideration the adoption of measures for the prompt redemption of every dollar of Scrip issued heretofore in anticipation of claims against said County, and the Commissioners now give assurance that, in the course of a few days, the resolves of the Board for the speedy and full redemption of the County Scrip now in circulation, will be published, to relieve the anxiety of the public mind on this subject.

The credit of Allegheny County cannot suffer by a momentary interruption of a circulating medium, based upon the undoubted solvency of the richest and most patriotic population of the State. By order of the Board,

If immediate use could be made of B. A. Fahnestock & Co.'s Rubefacient, and the bruised part well saturated, and the remedy rubbed in, it would give relief, ease the pain.
