Tin Roofing.

THE subscribers most respectfully announce to their fellow-citizens that they have perfected their arrangement to carry on the business of Tin Roofing on an extensive scale.

Its now close on four years since we first introduced tin roofing in this city. During that time we have covered over fifty thousand square feet of roofs with tin plate, and in all cases we believe we have given the men entire satisfaction. This kind of roof has been applied to the very best buildings in this city, including, among a large number of others, the two superb buildings on Penn street, owned by John L. Shoenberger and John Bissel, Esqrs. That tin roofing (when skilfully laid on) is both permanent and durable, there can be no doubt; in proof of this, we can refer to the almost universal application of this kind of roofing in the large cities on the sea-board during the last twenty years; and from enquiring on the subject, we have yet to learn of any one of those roofs having been worn out. The roofs covered with tin in our own city are open to the examination of all who take an interest in the matter. We have also prepared a miniature plan of roofs, which may be seen at our establishment, where any other information will be given with pleasure. JOHN DUNLAP & CO.,

The Accometer.

THE ATTENTION OF THE PUBLIC is respectfully called to the following certificates:—

MR. S. EAKINS—Having tested a quantity of Gold weighed by your Accometer, I find the result proves your instrument correct; and recommend the use of it to those going to California, as the best method for obtaining the real value of Gold. Resp. yours,
Pittsburgh, March 9, '49. J. B. DUNLEVY, Gold Beater.

PITTSBURGH, March 7, 1849.
MR. EAKINS—*Dear Sir*: Having examined the "Accometer," manufactured at your rooms, I do not hesitate to commend it to the use of those gentlemen who are about removing to California, in search of Gold.

It gives a close approximation to the specific gravity of metals, and will *certainly* enable the adventurer to ascertain when his placer is yielding Gold.
mr10 Yours, resp'y, J. R. M'CLINTOCK.

Gold Washers.

HARRY has the finest pan for washing Gold, by far which he has made application for a patent.—They are offered for sale at the Tin Wareroom of PARRY, SCOTT & Co., No. 103 Wood st., Pittsburgh.

Adventurers to California are invited to call and examine the pan, before purchasing elsewhere. They are simple in their construction, easily transported on the back of mules or horses, weighing eighty pounds each, and can be put in operation in half an hour. They can be filled with provisions. It is the opinion of those who have seen the trial of one of these machines of smallest size, that it will wash the amount from 100 pounds of dirt a stand or earth in a day, without the loss of a particle of the amount. They can be in operation in size not worked by water or mule power, if expedient. The operators work without going into the water or being exposed to fever or cold, and consequently without endangering their health. They will require but a small stream of water, and can be used the whole season, and can be put into operation where there is not sufficient water to wash in the usual way.

Price of smallest size $35. Orders from abroad, accompanied by cash, will be promptly filled.

READ THIS LETTER.—You will be without a beautiful head of hair, when they can have one for three shillings? Twenty years' loss of hair and wonderful restoration!

"BALTIMORE, July 17, 1847.

"Dear Sir—The wonderful effects of Jones' Coral Hair Restorative has been decisively demonstrated in the case of several respectable citizens of the town, who, on account of your selling three shillings worth for one, without fear. One instance, which has attracted particular attention, is the case of a gentleman who had little or no hair for twenty years; he had tried numerous preparations in vain, and ultimately had his head shaved and wore a wig. At my recommendation, he tried the Restorative, according to the directions, and in a few days, for a short time, the young hair appeared, and he has now as fine a head of hair as any gentleman. Respectfully,
"
