CHEOPLASTIC PROCESS
Of Mounting Artificial Teeth.

PATENTED by Dr. Blandy, formerly Professor in the Baltimore College of Dental Surgery, is certainly one of the greatest discoveries of the present age, and destined to work a great change in mechanical dentistry.

The undersigned having used the Cleoplastic Process in more than forty cases, with perfect success, not one having failed to give entire satisfaction, is being preferred to gold plate by all who have tried both it feels no hesitation in recommending it as superior to any other method of mounting artificial teeth heretofore known. The same security in fitting, perfect cleanliness, beauty and durability, can not be obtained by any other process.

Partial sets can be inserted with perfect success, without the use of clasps which are so destructive to the natural organs, and ought to be discontinued by every operator regarding the good of his patients.

Professor Thomas Hood, of the Baltimore College of Dental Surgery, after using and testing the "Cheoplastic Process" for himself, in a letter to Dr Blandy, says, "My opinion is, that your patent in the hands of skillful operators, must supersede all others, now in use, for this advantage over all them, but none has any advantages over it."

The public are respectfully invited to call at the office of the undersigned who alone is authorized to use and sell the Cheoplastic Process, in Lancaster city and to dispose of office rights in counties of Lancaster, Chester, Berks, Dauphin and York.

HERRING'S SAFE!

THE ACKNOWLEDGED CHAMPION.

The recent trials at Reading have endorsed the current of public opinion, and confirmed the verdict of more than 200 accidental fires, proving conclusively that "Herring's" is the Only Safe that will not burn

Extract from the Committee's Report on the Trial of Iron Safes at Reading:

"On the 20th of February all the members of the committee met to witness the Safes and books and papers, (placed in them) and were perfectly satisfied that all was right. The day following, the burning took place, under the superintendence of the Committee. After a fair and impartial burning for five hours the Safe of Messrs Evans & Watson was first opened, the Safe being on fire inside, and the contents partially consumed, while the contents in the Safe of Messrs. Farrels & Herring were in good condition, and no fire inside."

Reading, March 2, 1857.
(Signed.) H. F FELIX, P N. COLEMAN, A H PEACOCK } Committee.

And endorsed by over 50 of the best men of Reading.

The above Safes can be inspected at 51 Walnut Street, where the public can satisfy themselves of the great superiority of the Herring's Patent Champion, over the defeated and *used up* inside Iron Door Salamander."

The attempt made by other parties to bolster up the reputation of a Safe which has *failed so signally in accidental fires* in Philadelphia, (Rockwood Pease) by taking one out of an burning store, (H A Lantz,) made *double thickness*, different from those they sell to "burn up" one of Herring's, (but as it didn't last met with its true reward. Herring's Safe *could not be burnt*, proving conclusively that the only reliable Safe now made is "*Herring's*," of which over 15000 are now in actual use, and more than 200 have been tried by fire *without a single loss*

MR. JOSEPH E HOVER—A trial of your Liquid Hair Dye will convince the most skeptical, that it is a safe, elegant and efficacious preparation. EVANS & WATSON,

PHILADELPHIA Manufactured SALAMANDER SAFES No 26 S Fourth street, Phila.

Truth is mighty and must prevail.

Report of the Committee appointed to superintend the burning of the Iron Safes, at Reading, February 27, 1857.

READING, March 4.

The undersigned, members of the committee, do respectfully report, that we saw the two Safes originally agreed upon by Farrel & Herring, and Evans & Watson, placed side by side in a furnace, viz: The Safe in use by the Paymaster of the Philadelphia and Reading Railroad Company, in his office at Reading manufactured by Farrels & Herring, and the Safe in use by H A Lantz, in his store manufactured by Evans & Watson, and put in books precisely alike.

The fire was started at 5½ o'clock A. M., and kept up until four cords of green hickory, two cords dry oak and half chestnut top wood were entirely consumed. The whole under the immediate care of the *subscribers, members of the committee.* The Safes were then cooled off with water, after which they were opened and the books and papers taken out by the committee and sent to H. A. Lantz's store for public examination. We then first examined and marked by the Committee. The books and papers taken from the Safe manufactured by Evans and Watson were but slightly affected by the intense heat while those taken from the Safe manufactured by Farrels and Herring were in our judgment damaged fully fifteen per cent. more than those taken from Evans & Watson's Safe.

We believe the above to have been a fair and impartial trial of the respective qualities of both safes.

JACOB H. DYSHER,
DANIEL S. HUNTER.

Having been absent during the burning, we fully concide with the above statement of the condition of the papers and books taken out of the respective Safes.

G. A. NICOLLS,
H H. MUHLENBERG,
JAMES MILHOLLAND.

The following named gentlemen, residents of Reading and its vicinity, who saw the above fire, have purchased twenty-eight Safes from Evans & Watson since the burning up to May 1st, 1857:—

G. A. Nicolls, 1, Leopold Hirsh, 1; Isaac Ruth, 1; Kirk & Heister, 1, W. Rhoads & Son, 1; Henry W. Messinger, 2, Dr. Wm Moore 1, Solomon Rhoads, 1; Levi J. Smith 1; High & Craig, 1; Wm.
