HERRING'S SAFE!

THE ACKNOWLEDGED CHAMPION.

The recent trials at Reading have endorsed the current public opinion, and confirmed the verdict of more than 200 accidental fires, proving conclusively that "Herring's" is the Only Safe that will not burn. Extract from the Committee's Report on the Trial of Iron Safes at Reading:

"On the 28th of February all the members of the committee met to witness the safes and books and papers, (placed in them,) and were perfectly satisfied that all was right. The day following, the burning took place, under the superintendence of the Committee. After a fair and impartial burning for five hours, the Safes of Messrs. Evans & Watson were hard opened, the Safe being on fire inside, and the contents partially consumed, while the contents in the Safe of Messrs. Farrels & Herring were in good condition, and no fire inside."

Reading, March 2, 1857.

And endorsed by over 50 of the best men of Reading.

The above Safes can be inspected at 34 Walnut Street, where the public can satisfy themselves of the great superiority of the "Herring's Patent Champion," over the defeated and *used up* inside Iron Door Salamander."

FARRELS & HERRING,

Only makers in this State of Herring's Patent Champion Safes.

The attempt made by other parties to bolster up the reputation of a safe which *has failed* to signally in *accidental fires* in Philadelphia (Banks and Place) by taking one out of an agent's store (H. A. Lantz,) made *doubly sure* that persons (others than those they sell) to "burn up one of Herring's," (but as they have met with its true reward, Herring's safe *could not be burnt*, proving conclusively it is the only reliable Safe now made is *"Herring's,"* of which over 15,000 are now in actual use and more than 200 have been tried by fire *without a single loss.*

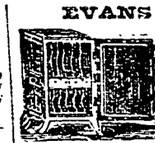
EVANS & WATSON,



PHILADELPHIA Manufactured SALAMANDER SAFES No. 26 S. Fourth street, Phila.

Truth is mighty and must prevail.

Report of the Committee appointed to superintend the burning of the Iron Safes, at Reading, February 27, 1857.

READING, March 4.

The undersigned, members of the committee, do respectfully report, that we saw the two Safes originally agreed upon by Farrel & Herring, and Evans & Watson, placed edge by edge in a furnace, viz: The Safe in use by the Paymaster of the Philadelphia and Reading Railroad Company, in his office at Reading, manufactured by Farrels & Herring, and the Safe in use by H. A. Lantz, in his store, manufactured by Evans & Watson, and put in books precisely alike.

The fire was started at 84 o'clock A. M., and kept up until four cords of green hickory, two cords dry oak and half chestnut top wood were entirely consumed, the whole under the superintendence of the subscribers, members of the committee. The Safes were then cooled off with water, after which they were opened and the books and papers taken out by the committee and sent to H. A. Lantz's store for public examination. After they were first examined and marked by the Committee. The books and papers taken from the Safe manufactured by Evans and Watson were but slightly affected by the intense heat while those taken from the Safe manufactured by Farrels and Herring were in our judgment damaged fully fifteen per cent. more than those taken from Evans & Watson's Safe.

We believe the above to have been a fair and impartial trial of the respective qualities of both safes.

JACOB H. DYSHER,
DANIEL S. HUNTER,

Having been absent during the burning, we fully coincide with the above statement of the condition of the papers and books taken out of the respective Safes.

G. A. NICOLLS,
H. H. MUHLENBERG,
JAMES MILHOLLAND
