CURB OILS SHOW TENDENCY TO SAG

Cessation of Bullish Activity in Petroleum Group—Industrials Narrow

New York, Dec. 21.—The Curb developed a heavy tone today, nearly all active issues being in supply and showing some amount of loss. There was a cessation of bullish activities in petroleum stocks, these issues moving in sympathy with the same class of stocks on the New York Stock Exchange. Cities Service common was the weakest feature in this group, yielding from 204 to 201 in the first half of the day. Standard Oil of Indiana was traded in on a large scale, ranging from 50½ to 57½.

Imperial Oil of Canada was in active and dropped 2 points during the afternoon, to 19⅝. Low-priced independent issues were steadier than the higher-priced stocks, but showed little change in their position. Simms Petroleum sold at 11⅝ and 11¾, and Internal Oil of Delaware sold at 10 to 10⅛. International Petroleum and Cosden showed a fresh break in trading. There was another break in Anglo-American Oil, a large part of the loss being in the last hour. Industrial issues moved within a narrow range, but were also generally lower. Berry Brothers showed one point, to 33½, and Glen Alden Coal was down 1¼, to 43. Rending rights were steady at 18⅛. Motor stocks were quiet. Durant Motors showed a loss of ¼, and the Indiana stock was unchanged.

Swift Company of America was unchanged at 97½, and United Retail Candy sold at 5¾ and 5½. Swift International was exceptionally strong and made a gain of 3/16. Little McNeil was in the mining group. Boston and Montana [illegible]
