MARK THESE FACTS.

The Testimony of the Whole World.

HOLLOWAY'S OINTMENT.

Bad Legs, Bad Breasts, Sores and Ulcers.

All description of sore sure remediable by the proper and diligent use of this inestimable preparation. To attempt to cure bad legs by plastering the edges of the wound together is folly, for should the skin on a foggy diseased condition remains underneath to break out with ten fold fury in a few days. The only rational and successful treatment, as indicated by nature, is to reduce the inflammation and shut the wound down, and to soothe the irritating parts by rubbing in plenty of the Ointment as salt is forced into meat.

Diptheria, Ulcerated Sore Throat, and Scarlet and Other Fevers.

Any of the above diseases may be cured by well rubbing the Ointment three times a day into the chest, throat and neck of the patient, it will soon penetrate and give immediate relief. Medicine taken by the mouth must operate upon the whole system ere its influence can be felt in any local part, whereas the Ointment will do its work at once. When practice the unguent in the above manner for the diseases named, or any similar disorders affecting the chest or throat, will find themselves relieved as by a charm.

Piles, Fistulas, Strictures.

The above class of complaints will be removed by nightly fomenting the parts with warm water, and then by most effectually rubbing in the Ointment.—Persons suffering from these direful complaints should lose not a moment in arresting their progress. It should be understood that it is not sufficient merely to smear the Ointment on the affected parts, but it must be well rubbed in for some considerable time two or three times a day, that it may be taken into the system, whence it will remove any hidden sore or wound as effectually as though palpable to the eye. There again bread and water poultices, after the rubbing in of the Ointment, will do great service.—This is the only sure treatment for females, cases of cancer in the stomach, or where there may be a general tendency to dropsy.

Indiscretions of Youth; Sores and Ulcers.

Blotches, as also swellings, can, with certainty, be radically cured if the Ointment be used freely, and the Pills be taken night and morning as recommended in the printed instructions. When treated in any other way they only dry up in one place to break out in another, whereas the Ointment will remove the humor from the system, and leave the patient a vigorous and healthy being. It will require time with the use of the Pills to ensure a lasting cure.

Dropsical Swellings, Paralysis and Stiff Joints.

Although the above complaints differ widely in their origin and nature, yet they all require local treatment. Many of the worst cases, of such diseases, will yield in a comparatively short space of time when the Ointment is generally rubbed into the parts affected, even after every other means have failed. In all serious maladies the Pills should be taken according to the printed directions accompanying each box.

Both the Ointment and Pills should be used in the following cases:

Bad Legs,	Corns (Soft)	Rheumatism,
Bad Breasts,	Cancers,	Scalds,
Burns,	Contracted and	Sore Nipples,
Bunions,	Stiff Joints,	Sore Throats,
Bite for Moschetoes or Sand Flies,	Elephantiasis,	Skin Diseases,
Piles,	Gout,	Scurvy,
Coldsores,	Glandular Swellings,	Sore Heads,
Piles,	Piles,	Tumors,
Fistulas,	Lumbagos,	Ulcers,
Chilblained Hands,	Piles,	Wounds,
		Yaws.

ACTION.—None are genuine unless the words "Holloway, New York and London," are discernible as a water mark in every leaf of the book of directions, and can be seen by holding the leaf to the light. A hand one word would be worth to any one rendering such information as may lead to the detection of any party counterfeiting the medicines or vending the same knowing them to be spurious.

Sold at the Manufactory of Professor Holloway, Maiden Lane, New York, and by all respectable druggists and Dealers in Medicine throughout the civilized world, in boxes at 25 cents, 62 cents and $1 each.

There is a considerable saving by taking the larger sizes.

N. B.—Directions for the guidance of patients in every disorder are affixed to each box.

"Unquestionably the best sustained Work of the kind in the World."

HARPER'S MAGAZINE.

THE most popular Monthly in the world.—*New York Observer.*

No Magazine in Europe or America is so well known; none has half so many readers; and, we may safely say, none has received so large a tribute of admiration from the cultivated classes that delight in a healthy, diversified, elevating periodical literature.—It is the foremost Magazine of the day. The fireside never had a more delightful companion, nor the million a more entertaining friend, than Harper's Magazine.—*Methodist Protestant* (Baltimore).

Twenty-five cents buys in—the cheapest, richest, and most lasting luxury for the money that we know. Three dollars secures it for one year, and what three dollars ever went so far? Put the same amount in clothes, eating, drinking, furniture, and how much of a substantial thing is obtained? If ideas, facts, and sentiments have a monetary value—above all, if the humor that refreshes, the pleasantries that bring a gentle smile, and brighten the passage of truth to your brain, and the happy combination of the real and imaginative, without which no one can live a life above the animal, are to be put into the scale opposite to dollars and cents, then you may be certain, that if Harper were three or four times as dear, it would amply repay its price. It is a Magazine proper, with the idea and purpose of a Magazine—not a book, nor a scientific periodical, nor yet a supplier of light gossip and chatty anecdotes—but a Magazine that takes every form of interesting, dignified, and attractive literature in its grasp.—*Southern Times*

The volumes bound constitute of themselves a library of miscellaneous reading, such as can not be found in the same compass in any other publication in it has become under our notice.—*Boston Courier.*

Undoubtedly it is the best-sustained work of the kind in the language; that is to say in the world. The splendid monthly essays from the Editor's Table are above price.—*N. Y. Christian Advocate and Journal.*

We must refer in terms of eulogy to the high tone and varied excellence of Harper's Magazine, a journal with a monthly circulation of about 170,000 copies in whose pages are to be found some of the choicest light and general literature of the day. We speak of this work as an evidence of the American people, and the popularity it has acquired is merited. Each number contains fully 144 pages of instructive matter, appropriately illustrated with good wood-cuts; and it combines in itself the cheapest, readable, and the most philosophical quarterly, blended with the best features of the daily journal. It has great power in the creation and dissemination of a love of pure literature.—TUCKER'S *Guide to American Literature, London.*

TERMS:

The Magazine may be obtained of Booksellers, Periodical Agents, or from the Publishers, at Three Dollars a year, or Twenty Cents per Number. The Semi-Annual Volumes, as completed, neatly bound in Cloth, are sent at Two Dollars each; and Muslin Covers are furnished to those who wish their back Numbers uniformly bound, at Twenty-five Cents each.—Twenty Volumes are now ready, bound in Cloth, and also in Half Calf.

The Publishers will supply Specimen Numbers gratuitously to Agents and Postmasters, and will make liberal arrangements with them for circulating the Magazine. They will also supply Clubs of Five Persons at Five Dollars a year; or Five Persons at Ten Dollars. Clergymen and Teachers supplied at Two Dollars a year. Numbers from the commencement can now be supplied. Also, the bound Volumes.

The Magazine weighs over seven and not over eight ounces. The Postage upon each Number, which must be paid quarterly in advance at the office where the Magazine is received, is THREE CENTS.

The Best, Cheapest, and most Successful Family Paper in the Union.

HARPER'S WEEKLY,

Price Five cents a number; $2,50 per year.

THE variety, the sprightliness and the value of the contents. There is a complete history of nearly all the public events of the year—there are ample discussions on the leading topics—there are the graceful trifles (not always trivial, however, but profoundly instructive) of the Lounger—there are the tales and stories of Bulwer, Dickens, Thackeray, &c.—there are the new and old—and, above all, there are those striking wood cut representations of contemporary men and things, of office and fashions, and of customs and countries—all condensed within a single volume, and to be had for a song. It is a grand picture book of the human life of the nineteenth century, in all its phases, and in nearly all unions. Every class of readers, moreover, may be interested by the old and thoughtful, the young and gay; the man of business, the child and the woman.—*N. Y. Evening Post.*

We would not so often call attention to *Harper's Weekly* if we were not well satisfied that it is the family paper published in the United States, and for that reason, and that alone, we desire to see it undermine and root out a certain kind of literature too prevalent, which blunts the morals of its readers, vitiates their taste for sensible reading, and is altogether bad in its effect.—*New London Advertiser.*

As Harper's Magazine has done much to drive out the yellow covered literature, so we should be glad to see this new Weekly take the place of those papers which depend for excitement on poor, trashy novels.—*New York Evangelist.*

It (Harper's Weekly) is the proper size for binding, and an excellent opportunity is afforded for any one who wishes to preserve the history of the country as it is made, to do so by filing Harper's Weekly.—*Pontiac (Mich.) Jacksonian.*

Its fresh leaves, its clear type, its entertaining variety, its severe but just criticisms upon the follies of the times, its elegantly written and instructive articles and its able correspondence, all combine to make it the model newspaper of our country, and one that every family must prize. Its condensed weekly summary of Foreign and Domestic Intelligence is altogether superior to that contained in any other journal. Being published too, in a form for preservation and binding, (take care of as it deserves to be, it will be found in future years as welcome a companion for the family and fireside as the day on which it was first perused.—*McConnelsville (O.) Inquirer.*

Harper's Weekly is electrotyped, and back numbers can be furnish d at any time.

Johnson's Patent Hog Trough.

THE subscribers having purchased the right to manufacture and sell this invention in Lancaster county, desire to introduce it to general use. It is a cast iron trough with a shifting top, of sufficient capacity to hold the feed of one hog. It is so constructed that the animal cannot get its feet into it, and must take its feed without the usual scrambling and splashing. By the arrangement of the top the hog is prevented from feeding until the trough is filled; when the top can be shifted at will. The trough will be found a great convenience in feeding, and must, when known, become popular. The troughs are for sale at the shops in Second street below Union, Columbia, Pa.
