

Tuition Assurance...continued

the student has obtained his degree, provided that enrollment is continuous from the starting time of the benefit and provided also that the student abides fully by all academic and social regulations of the college.

There is no charge for the tuition assurance, and the plan is to go into effect immediately.

SURVEY OF TESTING & COUNSELING PROGRAM

Waylesha, Wis.-(I.P.) A survey of junior and senior men and women has been made by the Personnel Deans of Carroll College for the purpose of clarifying the college testing and counseling program. The following results, submitted by Dean of Men S.J. House, may be of interest to other administrators:

- 1) Students who have decided upon a major before starting college will probably change to another major by the end of their sophomore year; 67% of the men and 42% of the women who entered Carroll with a predetermined major changed to another field of study before their junior year.
- 2) Students who began college undecided as to a major determined one before their junior year and are least likely to make another change; 38% of the men and 31% of the women in this category changed to another major after deciding upon their first choice.
- 3) High average students are less likely to change majors than average students. The study indicates that more students changed majors because of lack of ability in a particular field than for other reasons. The second most common reason for making a change was the discovery of a new and more interesting subject.
- 4) Eighty-five per cent of the students who made their first selection of a

major or who changed majors did so by the end of their sophomore year, which indicates the importance of second year counseling.

FOREIGN STUDENTS TO DAVIDSON COLLEGE

Davidson, N.C.-(I.P.)- A scholarship program which will bring as many as sixteen foreign students to Davidson College each year for four years, has been made possible by grants from The Richardson Foundation, Inc., and the Mary Lynn Richardson Fund, both of Greensboro, N.C. These grants are subject to renewal.

In addition to tuition, fees, room, laundry, and books, the Richardson Foreign Scholars will receive a grant of \$200 for travel in the United States during the summer following their year at Davidson. The students will receive their board through arrangements with Davidson College fraternities and other student groups.

Included in the program are eight tuition grants totalling \$4,000 per year to Davidson to help cover the difference in the tuition paid by students and the actual cost of their education. The expanded Richardson Foreign Student Scholarship Program is the result of a successful four-year experimental program here.

Selection of the students to receive the scholarships will be made on a competitive basis with the cooperation of selection committees in each of the foreign countries and the Institute of International Education. Final selection of the winners will be made by Davidson College on the basis of the recommendations of the selection committees. Vick Chemical Co., operating in many of the foreign countries from which the Richardson Foreign Scholars are expected to come has offered the cooperation of its foreign representatives in furthering the program.
