Our wire is galvanized after it is woven, which welds the wires together.
Our bronze wire is made from pure copper and contains sufficient alloy to make the wire rigid to prevent stretching and to overcome the tendency to corrode in salt air, which so often occurs with pure copper wire.
We carry a full line of knockdown screens. We also carry all classes of screen fitting, including bronze fittings for seashore use.

SPRING TOURING
Is one of the real joys of motoring, providing the owner does not have to worry about his car. It takes all the pleasure out of the trip to be constantly in fear of "this or that" and wondering what "that noise is"—in fact, you almost wish you hadn't started.

A Pierce-Arrow Touring Car will eliminate all this, and will bring that satisfied feeling of knowing that no matter how far you go, or where, it will bring you safely and easily back home. We have them in stock ranging in price from $1500 on up, and all of them are good-looking, really dependable cars.
