MEDICAL HOUSE,

ESTABLISHED FIFTEEN YEARS AGO, BY

DR. KINKELIN,

North-West corner of Third and Union streets, between Spruce and Pine.

PAILADELPHIA.

FIFTEEN YEARS experience and uninterrupted practice in this city have rendered DR. K. the most expert and successful practitioner far and near in the treatment of all diseases of a private nature. Persons afflicted with ulcers on the body, throat or legs, pains in the head or bones, imprudence, rheumatism, stricture, gravel, diseases arising from youthful excesses or impurities of the blood, whereby the constitution has become enfeebled, are all treated with success.

He who places himself under the care of DR. K., may rely upon the honor of a gentleman, and confidently rely upon his skill as a physician.

Take Particular Notice.

YOUNG MEN who have injured themselves by a certain practice introduced by bad companions, and habitually followed for years, can be assured of a speedy cure, the effect of which are nightly felt, even when asleep, and destroy both mind and body, should be applied immediately. Weakness and constitutional debility, loss of memory, secrecy, physical incapacity, and general prostration, instability and all nervous affections, indigestion, sluggishness of the liver, and every disease in any way connected with the digestive organs of the human frame, cured, and full vigor restored.

FANNING MILLS.

MESSRS. DOYLE & LAIRD would respectfully announce to the FARMERS of CLEARFIELD and the adjoining counties, that they still continue to manufacture, in Philipsburg, Centre county, their superior FANNING Mill. Having made every arrangement necessary for the construction of this article, and being prepared to deliver them to any customer not living over five hundred miles distant, on the shortest notice, we feel satisfied in saying SEND ON YOUR ORDERS AND YOU WILL THEM FILLED. As to the qualities of this mill in the cleansing of grain from all dross, there can no longer be a doubt, since the experience of thousands who have used them during the last year and who have found them to do all they are said to, and even more, has convinced the most prejudiced, and secured for them an unprecedented sale. They are made of the best material, by workmen who acknowledge no superiors, and may therefore be presented to the public with entire confidence, knowing that they need but a trial to secure general approbation, and force them into an acquaintance. The success that has crowned their labors during the past year gives striking proof of the advancement of the age, and leads us to tender our grateful acknowledgements to the many who have made use of our Mills. To all who wish an article of the kind, we would say MAKE YOUR WANTS KNOWN, and you shall not be the exception. Before your barn with the very article you "READ ABOUT."

Besides the advantages which this Mill possesses over all others, we have made a improvement on the winding power which enables it to turn one third easier than it did last year.

LITTELL'S LIVING AGE.

Extracts of Letters from Judge Story, Chancellor Kent and John Quincy Adams.

Cambridge, April 24, 1844.

I HAVE read the prospectus with great pleasure; and entirely approve the plan. If it can only obtain the public patronage long enough, and far enough, and securely enough to attain its true ends, it will contribute to an eminent degree to give a healthy tone not only to our literature, but to public opinion. It will enable us to possess, in a moderate compass, a select library of the best productions of the age. It will do more: It will redeem our periodical literature from the reproach of being devoted to light and superficial reading, to transitory speculations, to sickly and ephemeral sentimentalities, and to wild and extravagant sketches of life and character. JOSEPH STORY.

New York, 7th May, 1844

I approve very much of the plan of the "Living Age," and if it be conducted with the intelligence, spirit and taste that the prospectus indicates, (of which I have no reason to doubt,) it will be one of the most instructive and popular periodicals of the day. JAMES KENT.

Washington, 27 Dec., 1845.

Of all the Periodical journals devoted to literature and science which abound in Europe and in this country, this has appeared to me the most useful. It contains indeed the entire substance of the current literature of the English language, but this, by its immense extent and comprehension, includes a portraiture of the human mind in the utmost expansion of the present age. J. Q. ADAMS.

TERMS—The Living Age is published every Saturday, by E. LITTELL & CO., corner of Tremont and Broomfield streets, Boston; Price 12½ a number, or SIX DOLLARS a year in advance. Remittances for any period will be thankfully received and promptly attended to.

POSTAGE FREE.

To subscribers within 1500 miles, who remit in advance—directly to the office of publication at Boston—the sum of SIX DOLLARS, we will continue the work beyond the year, as long as that be an equivalent for the cost of postage;—thus virtually carrying out the plan of sending every man's copy to him Postage Free; placing our distant subscribers on the same footing as those nearer to us; and making the whole country a neighborhood.

We hope for such future changes in the law, or the interpretation thereof, as will enable us to make this offer to subscribers at any distance.

GODEY'S LADY'S BOOK

FOR 1852.

Increase of Reading Matter!!!

THE LADY'S BOOK for the ensuing year, will present many novel features called for by the advanced intelligence of the public taste. It has ever been the object of the publisher

TO TAKE THE LEAD

Among the popular Magazines of this country, and the host of imitators, who have been constantly following—telling after him in vain"—are sufficient to attest his brilliant success. The promptness with which every new idea that he suggests is adopted by others, is a sufficient reason for his not being very explicit and exact in his promises of what is yet to come. He does not wish to lay out plans for others to follow, it is sufficient, however, to say that all the exciting popular features of the Lady's Book will be retained, and many new ones, particularly attractive to a Lady's Book and Family Magazine, will be introduced. The useful and the elegant will always be kept in view.

To the Magazines alone we must look for the effusions of the master-minds of literature. It is useless to publish a list of names—suffice it to say, that we have published articles, and have others to publish, from

All the best American Authors—Male and Female!

GODEY'S LADY'S BOOK for January, 1852, will contain in addition to the most beautiful and numerous Engravings—Three of which are Colored—an additional quantity of reading by American authors. There is no question about the fact, and the tens of thousands of notices that we have from the contemporary press will establish it, that it is

THE MOST MAGNIFICENT PERIODICAL IN THE WORLD.

The publisher will give 12 Nos. for 1852, that the London Arts Union would be proud of, and their price is TEN DOLLARS a year.

It must be acknowledged that the Lady's Book caters to the taste of the American Ladies. It furnishes them with every thing that can interest a Lady—and among others is the following—
