Pudder & Ford,
MANUFACTURERS AND DEALERS IN
MANCHESTER MINERAL PAINT,
ALLEGHENY CITY PA.
New York, December 15, 1851.
I have analyzed a sample of MANCHESTER MINERAL PAINT, for Pudder & Ford, and find it to contain the following:

Silica	67,21
Alumina	6,34
Per Oxide of Iron	18,41
Lime	63
Magnesia	24
Oxide of Manganese	12
Water and Loss	8,00
	100,00

The Powdered Sample, contained in the box, which I suppose was the one you desired also to have analysed, I find to differ from any average of the lumps powdered, and mixed together. This last yields as follows:

For Oxide of Iron	53,60
Silica and Alumina	33,00
Lime	83
Magnesia	16
Water and Loss	7,96
	100,40

This difference I presume arises from the mineral not being uniform, some portions containing more Iron than others. The analysis shows the article to be well suited for a durable paint. I find that by calcining the powder by a pretty high heat, the color is much improved, or at least converted into a red.

The furnace was then pulled off from the Safe was opened, and found the books, papers and money safe. The brass melt off the brass mountings. SPIRAL SPRING MATTRESS
S. W. Cor. Baltimore and Frederick streets, Baltimore, and No. 92 Walnut st., Philadelphia.
FIVE SILVER MEDALS AWARDED, VIZ:—
By { AMERICAN INSTITUTE, New-York; FRANKLIN INSTITUTE, Philadelphia; MARYLAND INSTITUTE, Baltimore.
THIS peculiar improvement in the construction of this Mattress is, that all the *clumsey and heavy wooden frame-work* is entirely dispensed with, and its place supplied by a lighter and much more durable frame. The springs are all connected by harness leather hinges, securely riveted; rendering it impossible for a single spring to fall down or get out of place, and making a Bed so elastic that any part may be raised or bent up, and is thereby admirably fitted to the wants of the sick or asthmetic, who may require a sitting posture. It has all the luxurious softness of the best feather bed, with the lightness and facility of handling of the common hair mattress.
These improved Spring Beds are invariably made of the best materials, and will last many years without repairs.
Persons having Hair Mattresses can have them altered in to Spring Beds.
These Beds are well adapted for Hotels, berths of Ships, Steamboats and Hospitals.

Prof. Alex. C. Barry's Tricopherous, or Medicated Compound,
FOR beautifying, Curling, Preserving, Restoring and Strengthening the HAIR, relieving diseases of the Skin, curing Rheumatic Pains and healing external wounds. Bounded by no geographical lines, the reputation of Barry's Tricopherous pervades the Union. The sales of the article of late years have increased in a ratio that almost exceeds belief. Professor Barry, after a careful examination of his sales book, finds that the number of bottles delivered to order, in quantities of from half a gross upward, during the year 1852, was within a trifle of 950,000.
It is unnecessary to present at length the evidence of the wonderful properties of the Tricopherous, when the public have furnished such an endorsement as this. The cheapness of the article, and the explanations given of its chemical action upon the hair, the scalp, and in all cases of superficial irritation, first recommended it to the attention of the people. This was all that the inventor desired. Every bottle advertised itself. The effects of the fluid exceeded expectation. It acted like a charm. The ladies would not be without it. Country dealers in every section of the United States found they must have it; and thus was built up a wholesale trade of an extent hitherto unheard of as regards articles of this kind. The highest point has not yet been reached, and it is believed that the sales this year will be a million and a half of bottles.
Depot and Manufactory, 137 Broadway, New York. Retail price 25 cents a large bottle.
Liberal discounts to purchasers by the quantity. Sold by all the principal Druggists and Merchants throughout the United States and Canada, Mexico, West Indies, Great Britain, France, &c., and by R. E. SELLERS and B. A. FAHNESTOCK & CO., Pittsburgh. Jel8:3m

MARBLEIZED IRON
Mantles, Columns, Pedestals, Table Tops, &c., &c.
THE SALAMANDER MARBLE COMPANY invite public attention to their Marbleized Iron, as one of the greatest discoveries of the age, and for which discovery they received the GOLD MEDAL at the last Fair of the American Institute, and THE MEDAL at the Fair of the Metropolitan Mechanics' Institute, held at Washington, in February and March of this year.
This material, having a metallic basis, is more durable and cheaper than Marble; its representations of precious Stones and the choicest Marbles, in more than sixty different varieties, are exact and surpassingly beautiful; it is capable of resisting a greater degree of heat, and it cannot be injured by the action of acids or oil.

THE above Company, having just completed a new and most extensive Foundry, beg leave to call the attention of Architects, Builders, and the Public generally, to their assortment of Marbelized Iron Mantles, which they are now manufacturing on the most enlarged scale; the beauty and design of which, and their exquisite finish, has never been equalled, and cannot be excelled.
