HOW TO CURE HAMS.

The committee on bacon hams, of the second annual exhibition of the Frederick (Md.) County Agricultural Society awarded the first premium to Mrs. Geo. M. Potts, and the second to W. H. Lease, Esq., and observed that the hams were "remarkable for their excellent flavor, and were at the same time juicy and tender." We publish the receipts for the information of our readers:—

MRS. POTTS' RECEIPT.—To each green ham of 18 lbs. weight, 1 dessert spoonful of saltpetre, ¼ lb. brown sugar applied to the fleshy side of the ham and about the hock. Cover the fleshy side with fine salt half an inch thick, and pack away in tubs; to remain from three to six weeks, according to size. Before smoking, rub off any salt that may remain on the ham, and cover well with ground black pepper, particularly about the bone and hock.

Hang up and drain for two days; smoke with green hickory wood for eight weeks, or until the rind assumes a light chestnut color. The pepper is an effectual preventative of the fly. I never bag hams. First premium.

Fountain Rock, Oct. 11, 1854.

MR. LEASE'S RECEIPT.—When the hams were cool I salted them down in a tight cask, putting a bushel of salt well mixed with 6 oz. saltpetre to about 1000 lbs. pork; after it had been salted four or five days I made a strong brine sufficient to float an egg, and cured the meat with it, and left it remain five weeks longer, then hung it up, dusting the flesh with black pepper, then smoked with green hickory wood. Second premium.

The following is the method by which the prize ham presented at the Petersburg (Va.) Fair was cured. It is furnished by Mrs. E. M. Henry, of Charlotte, the lady who was the successful contestant. The judges, we may add, agree in pronouncing the ham in question perfectly superb:

"After cutting out my pork, I rub the skin side of each with about a half teaspoonful of saltpetre well rubbed in. I rub the pieces all over with salt, leaving them well covered on the fleshy side. I then lay the hams in large tight troughs, skin side down. I continue the process until it is all salted down. I let them remain in the troughs without touching or troubling them for four or five weeks, according to the size of the hog, no matter how warm or changeable the weather is. I then take them out of the trough and string them on white oak splints, wash all the salt off with brine, if sufficient, if not, with water; then rub them well and thoroughly with hickory ashes. Let them then hang up and remain twenty-four hours, or even two or three days, before I make the smoke under them for five or six weeks. After I stop the smoke, I let the hams remain hanging all the time. Shoulders I cure in the same way."

"N. B.—My hogs are killed in the morning, and I always let them remain all that day and the next night before I cut them up."

☞We often hear ladies expressing a wish to know by what process the gloss on new linens, shirt bosoms, etc., is produced, in order to gratify them, we subjoin the following receipe:

"Take two ounces of fine white gum arabic powder—put it in a pitcher, and pour on a pint or more of boiling water, according to the degree of strength you desire—and then having covered it, let it stand all night—in the morning pour it carefully from the dregs into a clean bottle, cork it, and keep it for use. A tablespoonful of gum water stirred into a pint of starch, made in the usual manner, will give to lawn, either white or printed, a look of newness, when nothing else can restore them after they have been washed."

SINGULAR OCCURRENCE.—In Louisville, Ky., a couple of foolish fellows having a lot of knotty saw logs, butts of trees, &c., which they could not chop, saw or split a part, got them together in a pile, on Thursday evening last, at the corner of Twelfth and Main streets, bored a hole in the largest log, filled it with powder, and blew up the whole lot with an explosion which caused the splinters to fly in all directions. One chunk went through a wagon standing on Main street, killing two men who were standing on the sidewalk, one of whom was much bruised and his clothes nearly torn from him.—The same splinter also knocked a hole in the door of a house, and another fragment demolished a window on each side of the house.

TOO MANY MERCHANTS.—The Cincinnati *Commercial* says:—The great bane of the present day is that intense desire to become merchants; and, instead of being at the plow or in the work-shops, crowds have, during the last few years, roosting about all our cities, towns, villages and cross-roads *merchandizing*.

☞A crusty old bachelor objects to baby shows, on the ground that it begets competition. He is of opinion that the produce is sufficiently great already for practical purposes.

THE POCKET ASCULAPIUS,
OR, EVERY MAN HIS OWN PHYSICIAN

THE POCKET ASCULAPIUS, being the highest production of the Medical Department, is intended to restore health to, or to preserve health in, the male or female. By WILLIAM YOUNG, M. D.

Let no father be ashamed to present a copy of the ASCULAPIUS to his child. It may save him from an early grave. Let no young man or woman enter into the married state without carefully reading the POCKET ASCULAPIUS. Let no one suffering from a lacerated Cough, Pain in the Side, restless nights, nervous feelings, and the whole train of Dyspeptic sensations, and given up by their physicians, be another moment without consulting the ASCULAPIUS. Have the married, or those about to be married any hopeless maladies, read this truly useful book, as it has been the means of saving thousands of unfortunate creatures from the very jaws of death.

☞Any person sending TWENTY-FIVE CENTS enclosed in a letter, will receive one copy of this work by mail, or five copies will be sent for ONE DOLLAR.

HYGEANA.

Brought Home to the Door of the Million.

A WONDERFUL DISCOVERY has recently been made by Dr. Curtis, of this city, in the treatment of Consumption, Asthma and all diseases of the Lung. We refer to "Dr. Curtis' Hygeana, or Inhaling Hygean Vapor and Cherry Syrup."—With this new method Dr. C. has restored many afflicted ones to perfect health; as an evidence of which he has innumerable certificates. Speaking of the treatment, a physician remarks: It is evident that inhaling—constantly breathing an agreeable, healing vapor—the medicinal properties must come in direct contact with the whole of the aerial cavity of the lungs, and thus escape the many and varied changes produced upon them when introduced into the stomach, and subjected to the process of digestion. The Hygeana is for sale at all the druggists' throughout the country.

N. Y. Dutchman, of Jan. 14.

The Inhaler is worn on the breast under the linen without the least inconvenience—the heat of the body being sufficient to evaporate the fluid.

Hundreds of CASES of CURES like the following might be named. One Package of Hygeana has cured me of the ASTHMA of six years standing.

Jas. F. Keesberry, P. M. Dansville, Pa.

I am cured of the ASTHMA of 10 years standing by Dr. Curtis' Hygeana.

Margaret Eaton, Brooklyn, N. Y.

Mrs. Paul of No. 5, Mammond st., N. Y., was cured of a severe case of bronchitis by the Hygeana.

My sister has been cured of a DISTRESSING COUGH of several years standing, and decided to be incurable by her Physicians.

She was CURED in one month by the Hygeana.

J. H. Gaubert, P. M., Richmond, Mo.

Price three dollars a Package.—Sold by CURTIS & PERKINS & BOYD & PAUL, No. 140 Chambers street, N. Y.—4 Packages sent free by express to any part of the United States for $10.

N. B.—Dr. Curtis' Hygeana is the ORIGINAL and ONLY GENUINE ARTICLE, all others are base imitations or vile and INJURIOUS counterfeits. Shun them as you would POISON.

BY ROYAL LETTERS PATENT.

THE HYDROMAGEN,
OR, WATERPROOF, ANTI-CONSUMPTIVE,
CORK SOLES,

Manufactured by HARCOURT, BRADLEY & Co., 44 *Market street, Manchester, England.*

Principal Warehouse, 102 *Wood street, Cheapside, London, England.*

American Establishments, 38 *Ann street & 102 Nassau street, N. Y.*

THE Hydromagen is a valuable discovery for protecting the feet from damp or cold, and therefore a preventive of many Lung diseases, without any shortening whatever. The Hydromagen is in the form of a sole, and worn inside the boot or shoe. Its *medicated* character is a powerful antidote to disease.

For Gentlemen it will be found agreeable, warm, and healthy, to wear in the coldest or rainiest weather, as the feet cannot become wet if the Hydromagen is inserted. Ladies may wear the lightest kind boots and shoes in the most inclement weather with impunity; while Consumption, so prevalent among the young of our country, may be thwarted by their general adoption. They entirely supersede over-shoes, as the latter cause the feet to perspire in a very unhealthy manner; and, besides, are not dangerous wear to pedestrians in any weather, like India rubbers. While the latter cause the feet to appear extremely large, the Hydromagen, being a mere thin slice of cork prepared, peculiarly placed inside, does not increase the size of the foot, so cause the feet to appear easily. To children they are extremely valuable, as they may engage in exercise with comfort and healthy effects. Their expense is so slight as to course need mention; besides, those who patronize them will find their *yearly doctor's bills much diminished thereby.*

As the Hydromagen is becoming more known, its sale is increasing to an almost incredible extent. Last year in London, Manchester, Birmingham, Liverpool, Glasgow, Leeds, Dublin, Paris, Antwerp, Hamburgh, and Berlin, our sales reached 1,702,458 pairs of Cork Soles. This year the number will far surpass that.

Ask the Faculty their opinion of their value as a preventive for *Coughs, colds, Bronchitis, Asthma, and consumption.*

Men's size, per pair,	75 cents.

DR. J. B. MARCHISI'S
CELEBRATED CATHOLICON.

THIS VALUABLE MEDICINE is now offered to the afflicted with the confidence that it will fully sustain the character it has acquired of being the most powerful and efficacious remedy in all the diseases for which it is recommended namely, all Venereal Complaints, Gleet, Stricture, Gravel, Pain in the Back, Lumbago, Pain in the Kidneys, or Bladder, Weakness of the Womb, Falling of the Womb, Fluor Albus, or Whites, Chronic Inflammation and Ulceration of the Womb, Incontinence of Urine, Hemorrhage, or Bleeding, Painful, Suppressed, and Irregular Menstruation, &c., with all their accompanying evils, (Cancer excepted,) no matter how severe or of how long standing.

The Catholicon far surpasses other remedies, in being more certain, less expensive, and leaving the system in a better condition. Let all interested call and obtain a pamphlet (free) containing ample proof, from the most respectable sources, of the beneficial results of its use; together with letters from highly experienced Physicians, who have used it in their practice, and speak from their own observations.

AFFLICTED READ!

PHILADELPHIA MEDICAL HOUSE.—Established 20 years ago by Dr. KINKELIN, corner of Third and Union sts., between Spruce and Pine, Philadelphia, Pa.

INVALIDS are apprised that DR. KINKELIN confines his practice to a particular branch of medicine, which engages his undivided attention. He cautions the unfortunate against the abuse of Mercury; thousands are annually unnecessarily cut off by this. Recent affections are promptly extinguished.

TWENTY YEARS OF EXPERIENCE in the treatment of a class of diseases hitherto neglected and imperfectly understood, has enabled Dr. KINKELIN, (Author of a work of Self-Preservation,) to prove that nine-tenths of the causes of nervous debility, local and constitutional weakness, mental and physical suffering, are traceable to certain habits, forming the most secret, yet deadly and fatal springs of domestic misery and premature mortality.

TAKE PARTICULAR NOTICE.—There is an evil habit sometimes indulged in by boys, in solitude, often growing up with them to manhood, and which if not reformed in due time, not only begets serious obstacles to matrimonial happiness, but gives rise to a series of protracted maladies and devastating affections. Few of those who give way to this pernicious practice are aware of the consequences, until they find the nervous system shattered, feel strange and unaccountable feelings and vague fears in the mind.

The unfortunate thus affected becomes feeble, is unable to labor with accustomed vigor, or to apply his mind to study; his step is tardy and weak, he is dull, irresolute, and engages in sport with less energy than usual.

If he attempts himself before the practice has done its worst, and enter matrimony, his marriage is unfruitful, and his cause tells him that this is caused by early follies. These are considerations which should awaken the attention of those similarly situated.

MARRIAGE requires the fulfilment of several conditions, in order that it may really be the cause of mutual happiness. Could the veil which covers the origin of domestic wretchedness be raised, and its true source in every instance disclosed, in how many could it be traced to physical disqualifications and their attendant disappointments. Apply then while it is yet time, in order to have your nervous and relaxed organization restored, revivified and strengthened.

Remember he who places himself under Dr. Kinkelin's treatment may religiously confide in his honor as a gentleman, and rely upon the assurance, that the secrets of Dr. K.'s patients will never be disclosed.

Young man—let no false modesty deter you from making your case known to one who, from education and respectability can certainly befriend you.

Too many think they will conceal the secret in their own hearts, and cure themselves. Alas, how often is this a fatal delusion, and how many a promising young man, who might have been an ornament to society, has faded from the earth.

Strictures of the uretha are rapidly removed by the application of a new therapeutical agent, used only by Dr. K. Weakness and constitutional debility promptly cured, and full vigor restored.

Country invalids can have—by stating their case explicitly, together with all their symptoms, per letter, enclosing a remittance—Dr. K.'s medicine, appropriated accordingly. Forwarded to any part of the United States, and packed secure from damage or curiosity.

Read!! Youth and Manhood.

A Vigorous Life, or Premature Death. Kinkelin on Self-Preservation—Only twenty-five cents.

It is a work eminently required, as a means of reforming the vices of the age in which we live. Also,

Throw Physic to the Dogs.

DULVERMACHER'S HYDRO ELECTRIC VOLTAIC CHAINS. Producing instant relief from the most acute pain, and permanently curing all Neuralgic diseases, Rheumatism, painful and swollen Joints, Neuralgia of the Face, Deafness, Blindness, St. Vitus dance, Palpitation of the Heart, Periodical Headache, Pains in the Stomach, Indigestion, Dyspepsia, Uterine Pains, Paralysis, etc., etc.

These chains were first introduced into the city of New York less than one year since, and after being subjected to thorough trials in every hospital in the city, and applied by Drs. Valentine, Mott, Carnochan, Van Buren and others, it was discovered that they possess strange and wonderful power in the relief and cure of the above class of diseases, and their sale, and the success that has attended their use, is unparalleled.

Previous to their introduction into this country, they were used in every hospital in Europe, and are secured by patents in France, Germany, Austria, Prussia, and England; and also in the United States.

"THINK CLOSE AND PERCEIVE WELL."—The principles upon which it is claimed that the Chains produce their marvellous cures, are, first—that all Nervous Diseases are attended and produced by a deficient supply of nervous fluid, and an agent that resembles closely electricity, or electro magnetism; and second—that the electro magnetic chains, by being worn over and upon the part and organ diseased, furnish to the exhausted nervous fluid which is required to produce a healthy action through the entire system. No dissuading nostrum is allowed to be taken while using the chains, but a rigid observance of the general laws of health are required. Brisk friction upon the part diseased adds much to the effects of the chains, by increasing their magnetic power.

ONE THOUSAND DOLLARS will be given to any person who will produce so many well authenticated certificates of cures, both from intelligent patients and scientific physicians, as have been effected by the use of Pulvermacher's Electric Chains. They never fail to perform what they are advertised to do, and no person has ever been dissatisfied who has given them a trial.

IN FEMALE COMPLAINTS than one hundred permanent cures of Prolapsus Uteri have been effected within the last year by the use of these chains, by applying one end of the chain over the region of the abdomen, and the other upon the spine just above the hip, the most severe symptoms incident to that disease are at once removed.

HOW TO USE.—The chain should be moistened before use with common vinegar, and then one end of the chain should be applied directly to the seat of the pain or disease, and the other end opposed to it.

DO NOT DESPAIR! The Electric Chains are not to cure all diseases; but for Nervous Diseases it is claimed that NO Medical Agent in the world has produced so many cures in the last year as the Electric Chain.

INSTANT RELIEF from the most acute pain, is produced at the moment of application much more effectually than can be produced by opium, in any of its forms.
