All Lansdowne is on edge for the big championship game to be played tonight at the Playgrounds, Highland and Essex avenues.

The contesting teams are the Country Club of Lansdowne and American Legion, representing the Albert Clinton Wunderlich Post. The former won the championship of the Lansdowne Twilight League and the latter the Saturday section.

They will clash at 6:45 P. M. The league was organized at the start of the season by the Union A. A. to take the place of the former Lansdowne team, of the Delaware County League.

It is a strictly amateur organization and the net proceeds of all games are devoted to a fund for erecting a grandstand on the public playgrounds.

The officers of the organization are Albert Wunderlich, president of the Union A. A.; Herbert Barber, president of the Lansdowne League, and Charles P. Burt, business manager.

The line-ups of the contesting teams this evening and the other eight teams that played all season are composed of colleges and scholastic stars.

Leads Amateur League

HERBERT BARBER
He is president of the baseball circuit in the suburban town and has been a big factor in the success of the organization

Paddon-Arnst Match Off

Melbourne, Australia, July 24.—The sculling match between James Paddon and Richard Arnst for the world's championship has been declared off. The match was arranged after Paddon defeated Robert Hatfield for the title at Wanganui early in the year.

CARMAN NOW SETS PACE FOR POINTS

American Takes Lead From Linart for Motor-Paced Honors—Maddona Fourth

U. S.-ITALIAN TEAM RACE

FOR the third time this season a change has been made in the leadership for motor-paced points scored for 1922 laurels. Clarence Carman, American and citizen of Jamaica, L. I., is the new pace-setter with a margin of six points to the good.

Vincenzo Maddona, the Italian champion, was way in the lead until he was put out of commission through a fractured collar-bone. Then Victor Linart, Belgian title-holder and holder of the world's crown, went ahead. But two victories for Carman last week enabled the American to overcome the Belgian's score, and now Clarence is in front with a total of 82 points.

Linart is in the runner-up position with 80, Jules Miquel, the French speeder, is in third place, four points behind, while Maddona follows, ten points behind the invader from La Belle France.

George Wiley and George Chapman, a pair of Americans, the latter being a Philadelphian, are next in line, with 63 and 60 points, respectively.

Although Carman is leading Linart in the matter of points scored, the latter has a better record for victories, ten and a half to ten. The reason for the half victory advantage is the fact of a tie, ridden between Linart and Frank Corry, at New Bedford, Mass., May 29, the eight points for first and second being divided evenly between them.

The new points leader is to appear [illegible] at the Philadelphia Velodrome, Point Breeze Park, on Thursday night, when Carman, paired with Percy Lawrence, of California, will meet an Italian duo, Maddona and George Colombatto, in an international team match race. The four riders will compete in an hour competition, the winner to be decided by a point score system.

Besides this team-match race there will be a match sprint between Francisco Verri, Italian, who defeated Bobby Walthour, Jr., in straight heats, and Willie Spencer. Spencer and Verri are great rivals. Distance of their heats will be one mile, best two out of three.

How Paced Riders Stand For 1922 Points Honors

	1st	2d	3d	4th	Pts.
Clarence Carman	10	7	4	3	82
*Victor Linart	10½	6	3	3	80
Jules Miquel	9	6	3	1	70
Vincenzo Maddona	8	6	4	0	66
George Wiley	8	7	7	3	63
*Frank Corry	5½	6	2	2	57
George Chapman	7	5	2	0	50
Paul Verkeyn	5	3	3	2	38
George Seres	2	4	2	1	27
Frank Keenan	2	1	1	4	21
Morkey	2	2	1	1	19
Clark	0	4	4	2	20
Colombatto	1	0	4	5	18
Anderson	2	0	2	2	17
Keller	1	1	0	0	8
Spiers	1	1	0	0	8
Mitten	0	1	2	1	7
Gaffney	0	1	0	1	5
Marcella	1	0	0	0	5
Lawrence	0	1	2	0	7
Villa	0	1	0	0	3
Mitola	0	1	0	0	3
Upton	0	0	0	1	1
Gilson	0	0	1	0	1
Norantonip	0	0	0	1	1
Blomstrom	0	0	0	1	1

Points—First, 5; second, 3; third, 2; fourth, 1.

*Linart and Corry rode to a tie at New Bedford May 29, and points for first and second (5) were divided between them.

BIG GAME IN GERMANTOWN

Hilldale and Bennis' Club Meet for First Time This Season

Dave Bennis' Germantown team will play Hilldale tonight in a special game at Chelten avenue and Magnolia street.

It is the first meeting of the season between the two teams and the Suburbanites are playing the best ball of the year.

Germantown is the Lansdale team, of the Montgomery County League. The line-up is one of the best in the independent ranks. They are losing games by close scores, but are having fine success at Germantown.

Eddie Gerner has been hurling in wonderful form and has turned in four sensational victories in a row. He will probably face the Darbyites.

WINS 22 OUT OF 25 STARTS

Chestnut Hill Team Makes Fine Showing on Diamond

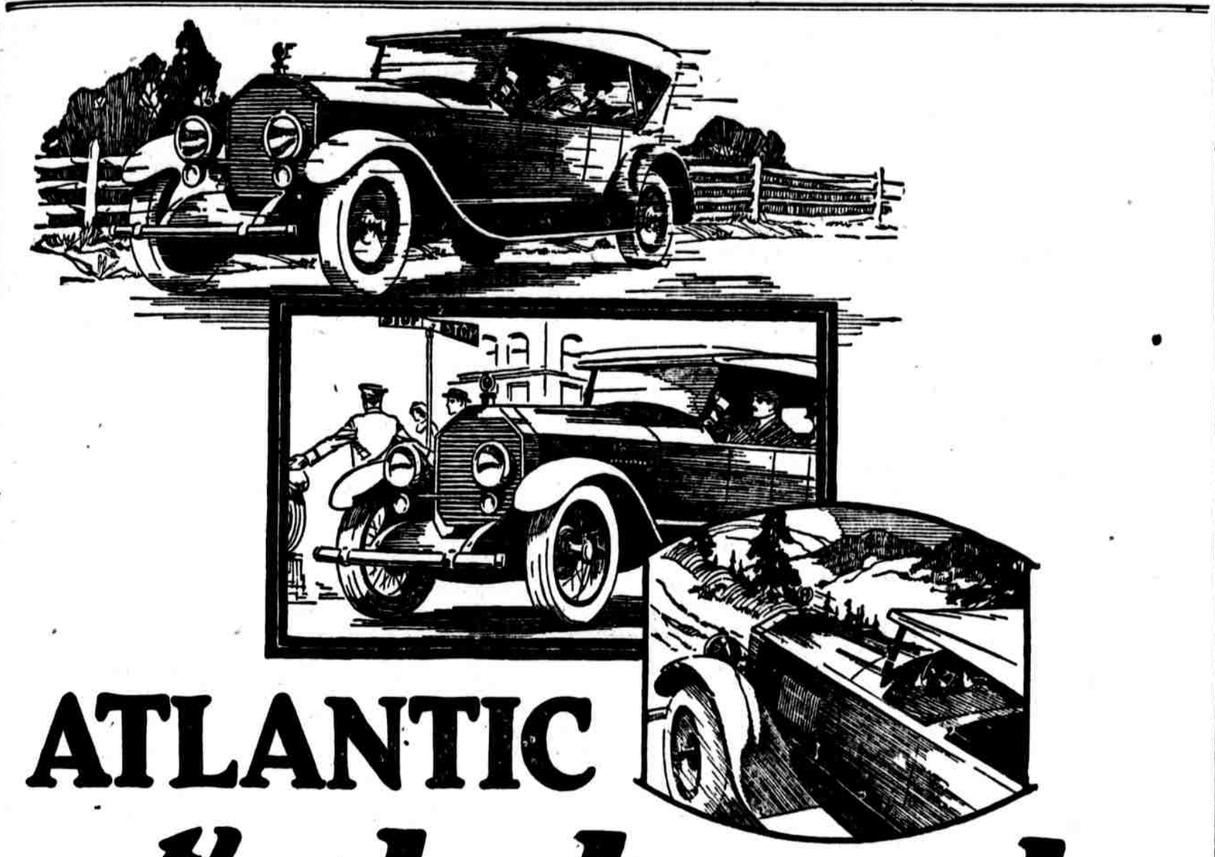
The Chestnut Hill baseball team is making a fine showing on the diamond this year and has won twenty-two out of twenty-five games played thus far.

Through the courtesy of the Chestnut Hill Academy it has secured its grounds, which compare favorably [illegible] any big league diamond.

Teams wishing games away [illegible] home are asked to get in touch [illegible] Charles Hill, 8408 Germantown [illegible] nue, or phone Chestnut Hill 2156.

Columbus Club Sale Denied

Minneapolis, July 24.—Denials of [illegible] that the Columbus Club of the American [illegible] sociation had been sold or that its sale [illegible] contemplated was made here by Cla[illegible] Rowland, manager.



ATLANTIC *the balanced* GASOLINE

For speed on the open road a gasoline must have *quickness.* For hard pulls on the hills it must have *stamina.* For get-away and pick-up in traffic it must have *both.*

Only a rangy, *balanced* gasoline can function efficiently and economically under all these conditions.

Atlantic does! It has both volatility and stability. Its low initial "boiling point" means easy vaporization and sure-fire ignition. Its complete chain of higher boiling points assures the full development of tremendous calorific force.

There are no weak spots in the Atlantic "chain" of boiling points. It is uniform. Atlantic all burns. It isn't wasted in misfires or incomplete combustion. It all translates to the utmost power that good gasoline and modern motor construction can produce.

Atlantic Gasoline is made by an organization which follows closely every advancement in automotive engineering and every improvement in refining methods. Atlantic is more than *good* gasoline—it is RIGHT gasoline!
