The result is known. The army of officeholders and sycophants of power has been routed by the noble sons of liberty in "the old dominion." The shout of victory has reached us—it was raised by the patriotic district of Wise—it has been re-echoed from the Alleghanies, and now reverberates along the vallies of Middle Virginia; ere long will reach, and be echoed back by faithful, REPUBLICAN Tennessee. It sends a thrill of joy through the breast of every patriotic Whig in the Union, and is but a prelude to that grand shout of victory which they will raise in 1840.—*U. S. Gazette.*

The Popular Vote in Virginia.

It is stated, though we have not had time to make the calculation, that the popular Congressional vote in Virginia shows a majority of about 2500 against the Administration. This is perhaps the best test of the sentiments of the people of Virginia, in regard to the Administration we could have. The Baltimore Patriot, with much truth, says:—

"It is to be remarked that the present division of the Congressional districts of Virginia are particularly favorable to the Loco Focos—counties giving small Whig majorities being attached to a county giving a Loco Foco majority large enough to overbalance them, and sometimes Whig counties being thrown into one district—by the first arrangement we lost the Norfolk and Campbell districts, and by the second, the Whig districts of Richmond city and London are but slightly felt in the general result. Under these disadvantageous circumstances, the Whigs have done wonderfully well in increasing their vote in the Congressional delegation."

The Whigs—The Next Congress—and the Presidency.

The recent election in Virginia, so far, at least as Congress is concerned, has resulted in a manner truly gratifying. The Whigs have unquestionably maintained their old strength, while we indulge a strong hope that the official returns will show the election of a MAJORITY OF WHIGS and CONSERVATIVES, and thus exhibit a decided gain. This result is of the deepest importance, and may be considered as settling the political character of the next Congress. To demonstrate this still more fully, we subjoin the following table from the Boston Atlas, made up, it would seem, before the editor had the better news from Virginia, and under the impression that the Whigs would only elect nine members of Congress in that State.

The committee embrace this opportunity of calling the attention of the public to the increasing usefulness and efficacy of instruction afforded by the Common School System.

From a careful examination of the reports of the Visiting Committees appointed weekly by the Board, it is found that the improvement of the pupils taught in the Public Schools is equal to the progress made by those instructed in private schools, and that many children are instructed in the Common Schools, whose parents could not afford to pay for their tuition.

The parents and guardians of children who are taught in the Common Schools, as well as the Citizens generally, would, no doubt, be gratified by visiting the Schools frequently, as it would afford them pleasure to mark the good order and regularity maintained in the Schools, and the application and progress of the Scholars in their several studies.—The Scholars would thereby be stimulated to use greater exertions in learning—visitors would be enabled from actual observation, to form correct opinions of the merits and defects of the Common School System of instruction—parents and guardians would discharge a duty which they owe to the Pupils who are under their direction, and all parties be benefitted.

Tickets of admission are issued EVERY MONDAY to applicants by the following persons, who have been elected Directors for the present year:—Messrs Benjamin F. Pomroy, Benjamin Coombe, Jun., Andrew Russel, Robert Woodside, Nathan Evans, and Peter F. Mudey.
