SPLENDID FARM
AND
Valuable Timber Land
AT
Private Sale!

THE subscriber offers to sell, at a bargain, the following described valuable property, lying on the Susquehanna River, in Bell township, Clearfield county, bounded on the east by the river, on the south by lands of John Gamble, on the west by lands of Benj. Band, and on the west by lands of J. Y. Lee, containing 269 acres of land, partly bottom and partly ridge land, with fifty or sixty acres cleared, on which there is erected a good two-story dwelling house, a log barn and other outbuildings. The land is well calculated for either grain or hay, and lying immediately on the river, half way between McGhee's and Irvin's Mills—3 miles from each—the situation is most eligible for any kind of business, there being a good mill seat at the lower end of the place.

The unimproved land is well covered with White Pine and Oak Timber. There is also an abundance of timber for miles back from the river that must reach the river at this point, as there is a Rafting Beach on this land sufficient to accommodate thirty rafts.

There is also an abundance of Coal under the surface, and if there is coal oil anywhere in the valley of the Susquehanna, it will be found here.

The place is well watered, and is well calculated for the raising of stock.

It will be sold at a bargain. The title is indisputable.

☞ For further information apply at this office, and for terms, &c., to the subscriber on the premises. P. M. SMITH,

REIZENSTEIN BROS. & CO.

Clearfield, Nov 11, 1863, 3m.

This painful taint or infection which we call Scrofula lurks in the constitution of multitudes of men. It either produces or is produced by an enfeebled, vitiated state of the blood, wherein that fluid becomes incompetent to sustain the vital forces in their vigorous action, and leaves the system to fall into disorder and decay. The scrofulous contamination is rapidly caused by mercurial diseases, low living, disordered digestion from unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generations;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children." The diseases it originates take various names, according to the organs it attacks. In the lungs, Scrofula produces tubercles, and finally Consumption; in the glands, swellings which suppurate and become ulcerous sores; in the stomach and bowels, derangements which produce indigestion, dyspepsia, and liver complaints; on the skin, eruptive and cutaneous affections. These, all having the same origin, require the same remedy, viz., purification and invigoration of the blood. Purify the blood, and these dangerous distempers leave you. With feeble, foul, or corrupted blood, you cannot have health; with that "life of the flesh" healthy, you cannot have scrofulous disease.

Ayer's Sarsaparilla

is compounded from the most effectual antidotes that medical science has discovered for this afflicting distemper, and for the cure of the disorders it entails. That it is far superior to any other remedy yet devised, is known by all who have given it a trial. That it does combine virtues truly extraordinary in their effect upon this class of complaints, is indisputably proven by the great multitude of publicly known and remarkable cures it has made of the following diseases: King's Evil, or Glandular Swellings, Tumors, Eruptions, Pimples, Blotches and Sores, Erysipelas, Rose or St. Anthony's Fire, Salt Rheum, Scald Head, Coughs from tuberculous deposits in the lungs, White Swellings, Debility, Dropsy, Neuralgia, Dyspepsia or Indigestion, Syphilis and Syphilitic Infections, Mercurial Diseases, Female Weaknesses, and, indeed, the whole series of complaints that arise from impurity of the blood. Minute reports of individual cases may be found in AYER'S AMERICAN ALMANAC, which is furnished to the druggists for gratuitous distribution, wherein may be learned the directions for its use, and some of the remarkable cures which it has made when all other remedies had failed to afford relief. These cases are purposely selected from all sections of the country, in order that every reader may have some one near him who can speak to him of its benefits from personal experience. Scrofula depresses the vital energies, and thus leaves the system far more subject to disease and its fatal results than any healthy constitution. Hence it leads to shortens, and does greatly shorten, the average duration of human life. The vast importance of these considerations has led us to spend years in perfecting a remedy which is adequate to its cure. This we now offer to the public under the name of AYER'S SARSAPARILLA, although it is compounded of ingredients, some of which exceed the best of Sarsaparilla in alterative power. By its aid you may protect yourself from the suffering and danger of these disorders. Purge out the foul corruptions that rot and fester in the blood, purge out the causes of disease, and vigorous health will follow. By its peculiar virtues this remedy stimulates the vital functions, and thus expels the distempers which lack within the system or burst out on any part of it.

We know the public have been deceived by many compounds of *Sarsaparilla*, that promised much and did nothing; but they will neither be deceived nor disappointed in this. Its virtues have been proven by abundant trial, and there remains no question of its surpassing excellence for the cure of the afflicting diseases it is intended to reach. Although under the same name, it is a very different medicine from any other which has been before the people, and is far more effectual than any other which has ever been available to them.

AYER'S
CHERRY PECTORAL,
The World's Great Remedy for Coughs, Colds, Incipient Consumption, and for the relief of Consumptive patients in advanced stages of the disease.

This has been so long used and so universally known, that we need do no more than assure the public that its quality is kept up to the best it ever has been, and that it may be relied on to do all it has ever done.
