The Hotel has a number of dining rooms, private parlors, within bed rooms adjoining, a large ornamental terraced garden, so situated that it can be kept accessible only to parlor boarders, enabling parties visiting this coal region for health, fine air, and beautiful mountain scenry, to remain as retired in the Hotel as a private residence. THE PROOF POSITIVE.

MR. KINSY—

My wife was afflicted with pain in the breast, and a severe Cough, for the period of five years. About the first of May last, she became so reduced, that she was confined to her bed for several weeks, entirely unable to move. I called in our family physician, who, after some inquiry, &c., left her a few pills. The next day the Doctor paid her another visit, and then told me that medicine was entirely useless, as her recovery was impossible. I then procured a bottle of Dr. Swayne's Compound Syrup of Wild Cherry, which she commenced using according to the directions, and from which she derived considerable benefit. I continued the use of the Syrup until she had used 10 bottles. By this time she had recovered perfectly, and now enjoys good health, and attends to her household duties as usual. I would most cheerfully recommend this medicine to all similarly afflicted. What is the price of 10 or 15 bottles, compared to good health? Yours respectfully,

JACOB HAEE.

Montgomery Township, Franklin Co., Pa., February 3, 1843.

Mr. Haee is an old and respectable Farmer of this county, well known to the major part of our citizens. He resides about 12 miles from this borough.

Patent Wire Ropes,

For the use of Incline Planes in Mines, Railways &c. for sale or imported to order, by the subscriber.

THESE Ropes are now almost exclusively used in the Collieries, and on the Railways in Great Britain, and are found to be greatly superior to Hempen ones, as regards safety, durability and economy.

The "Patent Wire Ropes," have proved after three years service, to be still in good condition, where Hempen ones, of double the size and weight, never lasted longer than 9 or 10 months.

Testimonials can be shown, from the best authorities in England, as to their efficiency, and every information respecting the different descriptions, and application will be given by

That which has been longest at work, and which is I believe, which was the first used in the Counties of Durham and Lunderland, has given the greatest satisfaction. The bank upon which it works, rises 1 in 27, and the weight of train, exclusive of friction, is 81 tons. The size of the Rope is 2¼ inches, weighing 6¼ lbs. and fathom, and its length 1¼ miles. This Rope was put to work on the 12th
