RECIPES.

COTTAGE PUDDING.—Three cups of sugar, one of milk, two tablespoons of butter, two teaspoons of cream tartar, one egg, beat all together, then add one teaspoon of soda; flavor with lemon. Bake half an hour—serve with sauce.

FOAM SAUCE FOR PUDDINGS.—One teacup of sugar, two thirds of a cup of butter, one teaspoon of flour; beat all together until smooth; then place over the fire, and stir in rapidly two gills of boiling water, season with nutmeg, soda the size of a pea.

INDIAN CAKE.—Two pints of Indian meal, one pint of flour, one cup of molasses or sugar, two teaspoons of cream tartar, one of soda, milk to make it just soft enough to pour.

PLAIN COOKIES.—Three cups of sugar, one of butter, one of milk, one teaspoon of soda, two of cream tartar, three eggs, flour sufficient to knead soft. Cut in small cakes and bake.

MENDING BROKEN VESSELS—CEMENT.—To half a pint of milk put a sufficient quantity of vinegar in order to curdle it; separate the curd from the whey, and mix the whey with the whites of four eggs, beating the whole well together; when mixed, add a little quick lime through a sieve until it acquires the consistency of a paste.—With this cement broken vessels or cracks can be repaired; it dries quickly, and resists the action of water and fire.

WATERPROOF COMPOSITION FOR BOOTS AND SHOES.—Take boiled oil, 1 pint; oil of turpentine, black rosin and beeswax, of each 3 ounces. Melt the wax and rosin, then stir in the oil, remove the pot from the fire, and when it has cooled a little, add the turpentine.

HORSE MEDICINES.—A correspondent of the Northern Farmer, says: I find the following of much value to my horses.

When the blood is out of order, or to restore lost appetite, I use, one lb. good ginger, 4 oz. powdered gentine, 1 oz. nitre, ½ oz. crude antimony mixed; give one large spoonful every day in wet feed. It is perfectly safe.

COLIC OR INFLAMATION OF THE CHEST OR BOWELS.—One oz. sweet spirits of ether, 1 oz. tincture of opium, 1 oz. spirits of camphor, ½ drachm aconite; water, milk warm, 1 quart; give ½ and if no better in thirty minutes, give the balance.

INFLAMED BLADDER.—1 drachm tartar emetic, ½ oz. prepared kail, 1 drachm camphor rubbed to powder, with a few drops spirits of wine; to be given every few honrs, or three times a day in a pint of water gruel

SPRAIN IN HORSES.—A very good remedy for a sprain in the stifle joint, or elsewhere, is as follows: 1 oz. oil of origanum, 1 spirits of turpentine, 1 British oil, 1 spirits of nitre, 1 quart of alcohol. Mix and rub in well.

TO CURE POLL EVIL IN HORSES.—Mix copperas and hog's lard, and simmer over the fire in an iron pot; with this rub the part affected plentifully two or three times a week and let the hot sun drive it in. The application should be made before the disease has gone too far. Mind to keep rubbing until a cure is effected; it takes time.

Experience Proves there are only

TWO VALUABLE

Machine Stitches:

THE GROVER & BAKER

ELASTIC STITCH

AND THE

SHUTTLE OR LOCK STITCH.

THE Grover & Baker Elastic-Stitch Sewing Machines are superior to all others for the following reasons:

1. They sew direct from the spools, and require no rewinding of thread.
2. They are more easily understood and used, and less liable to derangement than other machines.
3. They are capable of executing perfectly, without change of adjustment, a much greater variety of work than other machines.
4. The stitch made by these machines is much more firm, elastic, and durable, especially upon articles which require to be washed and ironed, than any other stitch.
5. This stitch, owing to the manner in which the under thread is inwrought, is much the most plump and beautiful in use, and retains this plumpness and beauty even upon articles frequently washed and ironed until they are worn out.
6. The structure of the seam is such that though it be cut or broken at intervals of only a few stitches it will neither open, run, or ravel, but remains firm and durable.
7. Unlike other machines, these fasten both ends of the seam by their own operation.
8. With these machines, winte silk is used upon the right or face side of the seam, cotton may be used upon the other side without lessening the strength or durability of the seam. This can be done on no other machine, and is a great saving upon all articles stitched or made up with silk.
9. These machines, in addition to their superior merits as instruments for sewing, by a change of adjustment, easily learned and practiced, execute the most beautiful and permanent embroidery and ornamental work.

REAL ESTATE

REGISTER.

WANTED—A small improved farm of from 50 to 100 acres, either to purchase or to rent. If not too high in price, will purchase.

I have on register for sale the following real estate:

A tract of Land containing 150 Acres, more or less, situate on the line of Oliver and Wayne townships, midway between McVeytown and Newton Hamilton, on the new road between those places. This land is limestone and flint of the best quality, and has frequently produced as heavy crops as farms costing double the money asked for this. About 30 acres are in timber. The improvements consist of a two story frame House, good Barn with new wagon shed and corn crib attached—an old orchard and another of young trees just beginning to bear. It is about one and a half miles from Vineyard Station, and convenient to mill and school. Possession can be had as may be desired. The owner is desirous of removing, and will take **$6000** if soon applied for.

Terms to suit purchasers.

A Farm of 133 Acres, in Wayne township, but a short distance from Atkinson's Mills, on road leading to Newton Hamilton, 110 acres of which are cleared and under cultivation, fenced and divided into convenient fields—remainder timber. The improvements consist of a Log House, weatherboarded, new Bank Barn and other outbuildings, excellent Orchard, &c.—There is a fine meadow on the premises, with running water, and a well at the door. Price, **$4000**—2000 cash, balance in two annual payments, with interest. Possession will be given on 1st April, if desired. This is a cheap farm, and will prove a bargain to any purchaser.

ALSO,

90 Acres of Land, situate in Granville township, on the Pennsylvania Canal, about 5 miles west of Lewistown, 82 acres cleared, well fenced, and in good order, and 8 acres in timber. The improvements consist of a two story Log House, weatherboarded, good Bank Barn, Corn Crib, Smoke House, Hog Pens, Blacksmith Shop, &c. This land is all arable, has an abundance of limestone on it, and a landing on the canal, so that coal can be procured with little trouble. It is only half a mile from a railroad station post office and store. Most of the fencing is post and rail—the posts locust—and about 500 locust posts could now be cut on the premises. There are three good springs on the place, two of them near the dwelling and some good fruit. **55 Dollars per Acre.** This is a fine property for a farmer, and has been noted for raising good crops.

ALSO,

A Farm of 170 Acres, 2½ miles west of McVeytown, the pike running through it, 150 acres cleared, well enclosed, water in every field, and 20 acres in good timber. Good Stone House, Bank Barn 50 by 80, Wagon Shed, Corn Crib, Hog Pens, Wash House with never failing stream flowing through it, Spring House, Smoke House, large Apple Orchard of choice grafted fruit, (worth as much on an annual average as the interest of the entire purchase money,) as well as pear, cherry, peach and plum trees. Price **$40** per acre—one-half cash, and remainder in one, two and three years, if desired, with interest—purchaser to pay one-half cost of surveying and making deed. This is a desirable property, and I believe the cheapest farm now for sale in Mifflin county. The land is all patented, and title indisputable.

ALSO,

Mt. Rock Mills, situate near Lewistown, with 23 acres of Land, machinery and fixtures all in good order, and noted for making as good flour as is manufactured in the county. Price, **$10,000,** part of which (say $3000,) can be arranged on a mortgage. This mill is now under rent at a sum which pays all the taxes and fully 8 per cent. on the price asked. The time for its sale is limited.

ALSO,

A Tract of 30 Acres, situate in Wayne township, about 5 miles from McVeytown, from 20 to 25 acres cleared and under cultivation. The soil is principally gravel and produces well. It is well watered, and has a fine patch of young timber on it. Price **$1000.**

Another Tract of 30 Acres, separated from the above by the road from McVeytown to Newton Hamilton, all cleared and tolerably well fenced, and in a good state of cultivation. It has on it a good two story Log House, plastered inside and weatherboarded and painted outside, together with Barn, Apple Orchard, ten years old, well at the door, two springs not far from the house, and other advantages. Price **$1500.**

Possession given 1st Nov., 1867. These tracts will be sold separately or together. If separate, one-half in hand, and balance in two equal yearly payments with interest, or in one yearly payment without interest. If together, half cash, and balance in two equal payments with interest, or if all paid cash, the half will be discounted at 6 per cent. These properties would make a desirable little farm, and are situate in a very pleasant neighborhood.

ALSO,

A Tract of Land in Derry township, one and a quarter miles from Lewistown, on the canal, with the old pike running through it, containing about 200 acres, 45 cleared and mostly fenced, with a two story Stone House, Bank Barn, an Old Orchard, and a number of young trees planted some years ago, consisting of apple, pear and cherry. The remainder of the tract is covered with pine, chestnut and oak, from which a large quantity of firewood could be cut, and as it can be easily hauled presents a strong inducement to an industrious man with a small capital. One corner of this tract strikes Jack's creek between the Edmiston and old saw mill tract, thus giving access to it by two roads. Price **$3000**—$1000 cash, balance in such payments as may be agreed on.
