## EDITORIAL.

The Beef Barons tell us that they made their money, not out of he meat, but out of the hide, hoofs and fat. Instead of being on the inside, it seems that the Barons were working the outside. Then who the deuce got the profits when beef was put up from 15 cents until it reached 28 cents per pound. Why the beef trust, got it too.

Woodrow Wilson, governor of New Jersey, still continues to be the favorite of the democracy of this state for President. He also has a large following outside of Pennsylvania, and, if nominated, will be a strong candidate, receiving the full democratic support as well as the votes of thousands of republicans who are tired of the rule of the corporations and trust domination.

Last week the "Republican" ventured the information that the following gentlemen were likely to be candidates for the republican nomination for legislature in Centre county this year: Harry C. Valentine, and J. Linn Harris, both of Bellefonte; David Chambers, of Clarence; and Prof. C. L. Gramley, of Rebersburg. That is a fine line and most anyone of them would make a splendid political corpse. The effect of the last election seems to have taught them very little. Thus far no democrats have publicly announced an aching desire to go to the state capitol to help make our laws and do other dignified stunts—several have the bee buzzing in their bonnets but they won't let them out, just now.

The Republicans seem to have a first class contest for congress on hand in this district. The present representative is anxious to have a second term—as is the custom to accord all decent officials. W. T. DeHaas, of Clearfield, has shied his cady into the ring and has come to the conclusion that he would like to represent this district at the national capitol. DeHaas has the advantage of starting off with the support of all the fellows who wanted postoffices and did not get them; and especially all the fellows who had postoffices and got kicked out, will be for DeHaas—a conglomeration of disgruntled political hacks and "has beens." DeHaas has some friends and money that he made in holding fat offices, and will be in shape to give Patton a tussle. Patton never as much as attracted attention at Washington in the last session and we doubt if DeHaas is a pickaune better—both are small guns of limited calibre—more money than brains.

## "WORLD WIDE" CAUSES.

Already during this session of Congress many of the orators among the standpat Republicans have tried to explain the prevailing high prices with the argument that the high price wave is world-wide. This is another of the half truths which the Republicans seek to have the people accept as a whole excuse.

Mr. R. H. Hooker, of London, read a paper before the Royal Statistical Society of England recently, in which he showed that the increased cost of "all commodities" was twice as much in high-protection Germany and high-protection United States, as in free trade England.

"Comparing food prices for this year with 1899," said Mr. Hooker, "we find there has been an increase of 1 per cent in France; 8 per cent in England; 25 per cent in Germany; 28 per cent in Canada, and 34 per cent in the United States."

Why is it that "world wide causes" result in an increase of 1 and 8 per cent in France and England, and 34 per cent in this country?

### War Upon Wilson.

"Even more than Roosevelt does Big Business fear the nomination for the presidency of Woodrow Wilson, the man who believes that the best way to curb malignant trusts is to put their promoters in jail. With the safe, prudent and indecisive Mr. Taft Big Business can generally get what it wants. At least, it is sure of reactionary court appointments. With Gov. Harmon in the White House, Big Business could worry along, but the idea of that man Wilson as president gives Big Business an acute attack of delirium tremens. A vivid fear of prison bars and convict stripes is the actuating principle back of the shrewd and crafty campaign that Big Business is waging against the nomination of Gov. Wilson. There is not the slightest doubt that Wilson is the choice of the great majority of Democrats of he country. In a primary he would win hands down. But Big Business is financing (with other people's money) a stealthy campaign for "favorite sons" that threatens to rob Wilson of the nomination. And the rank and file of the Democracy, on the eve of the greatest opportunity that has come to them within half a century, appear to be hopelessly asleep at the switch."—Grit.

The above is from the Grit, an independent paper and it comes as near to the truth as anything we know of.

### Fight on Hand.

The President, to be elected next fall, will have the appointment of a postmaster for Philipsburg, and there are a half dozen aspirants for the place. According to the Ledger the situation seems entirely like it was in Bellefonte, some five years ago, when a successor to Mr. Montgomery, dec'd, was appointed. Here is the picture the Ledger draws and it is a double of that had here. The Ledger says: "Several old soldiers have an eye on the coveted place, and as many staunch party men who just know they could hold the place down to the satisfaction of all concerned, even if they never did carry a musket, are doing some preliminary survey work, nothing definite, you know, but getting the lay of the land and setting a few stakes."

### Candidates Take Note.

Last day for filing petitions for nomination, for spring primary, with the Secretary of the Commonwealth, Saturday, March 16.

Last day for filing petitions for nomination for party offices and for delegates to national and State conventions, for spring primary, with the county commissioners, Saturday, March 23.

## WEATHER OBSERVATIONS.

The recent arctic weather has caused universal inquiry as to the degrees of cold we had within the last few days. To properly understand why there is such a variation in the degrees registered, one must take into consideration that there are two kinds of thermometers, namely, the common upright or vertical instrument having only the single tube, and manufactured by houses for the trade. Then there is the official, or government set of instruments; two to a set, are constructed upon scientific principles, are self-registering, the one for maximum and the other for the minimum temperature of each day, and when the reading is taken in the evening the two instruments are reset, start in at the same degree. Other governments use the same instruments and they are considered accurate, whereas the merchantable instruments vary to a large degree, and lack the reliability of the government instruments although will answer well enough to give any one a fair idea of the weather temperature.

There are only three sets of these thermometers in this county: State College, Centre Hall Reporter office, and at the Centre Democrat office in Bellefonte. To show that the different localities in the county experienced a variety of temperatures during the past week we give the readings at the three stations in a comparative table below for each day as follows:

| | Bfte. | Cent. Hall. | Ste. Coll. |
|---|---|---|---|
| 11—Thursday | 3 | — 2 | 4 |
| 12—Friday | 8 | 4 | — 1 |
| 13—Saturday | —22 | —12 | —13 |
| 14—Sunday | —23 | —18 | —17 |
| 15—Monday | — 2 | — 6 | 8 |
| 16—Tuesday | — 2 | — 7 | — 5 |
| 17—Wednesday | 6 | 2 | 4 |

The above table where the dash mark (—) occurs before figures it means below Zero. Without the dash mark means above Zero.

## OUR NEW BOARD OF TRADE.

The effort to effect a permanent organization of what is hoped will prove a live wire Board of Trade in Bellefonte, came to a successful terminus at last Thursday night's meeting of the business men in the council chamber on Howard street.

The meeting was attended by a fair number of citizens, and after the object of the call for the meeting had been explained by the chairman, the following members were chosen to serve as officers of the new Board:

President—Col. W. F. Reynolds.

Vice presidents—J. Linn Harris and Dr. J. Brockerhoff.

Secretary—Wm. T. Kelley.

Treasurer—C. M. McCurdy.

More than one hundred and thirty citizens, who are heads of business firms or interested in the various lines of trade, have signed the roster as members of the Board, which at least shows a healthy enthusiasm, and adds a stimulus to the faith of those who have labored to this end. The new Board's initial officers are men of ability and energy upon whom reliance can be placed to do all in their power for the future business welfare of our town. After an organization had been effected, very little else was attempted at this meeting beyond a few suggestions by members.

It is desired that all members who have not paid their fee of $5 when their names were secured, remit the amount at once to the treasurer, C. M. McCurdy. Most of the members have already attended to this matter. A number of propositions will be taken up by the officials and thoroughly discussed, looking to the improvement of the business conditions in this community. There are a number of institutions that would prosper under proper encouragement and aid.

## PRIZE RAFFLE NOTICES.

### Even for Charity, Will Hereafter Be Excluded From Our Columns.

As we are frequently requested to publish items regarding drawings, lotteries, games of chance, etc., the following from the Lock Haven Democrat on Monday will prove interesting and a matter of general instruction:

"The Democrat is frequently requested by subscribers to publish notices of articles to be chanced off for the cause of charity or to make known the winners of articles so chanced off, and while we have exercised caution in handling such items, knowing that the United States post office department had made a ruling, forbidding the use of the mails to newspapers containing notices of raffles, chances or lotteries, the government officials have, nevertheless taken cognizance of the publication in a recent issue of the fact that John E. Shaffer won the piano chanced off by J. D. Bowe, for the benefit of the Modern Woodmen's home for consumptives, as will be seen by the following communication to Postmaster Peck:

"Post office department, office of the assistant attorney general.

"Washington, January 13, 1912.

"Postmaster, Lock Haven, Pa.

"Sir: On Page 1 of the December 18, 1911, issue of The Clinton Democrat is printed an article headed 'Lucky John E. Shaffer,' stating that the latter won a piano at a prize drawing conducted by the Modern Woodmen.

"This item plainly relates to a lottery enterprise, and the newspaper containing it should have been treated as unmailable under Sec. 490, PL&R 1912.

Respectfully,
R. P. GOODWIN,
"Assistant Attorney General.

"Inasmuch as the post office department makes no distinction as to whether the chancing off or lottery is for a worhy charity or private gain, The Democrat will hereafter be compelled to decline to accept for publication any notice of a raffle or chancing off, not matter how worthy the object, and hence it is requested that no such notice be sent to this office, either by churches, lodges or society or individual as The Democrat desires to fully comply with the rules of the post office department."
