FIREMEN'S CONVENTION.

Reception of the America of Allentown—Resolutions Relative to the City Appropriation.

Last evening a firemen's convention was held at the American engine house. In the absence of C. M. Howell, president, Sher. Smith, of the Friendship, was elected president *pro tem*, and Andrew F. Hammond, of the Washington, acted as secretary. Every company except the Empire was represented. The committee on reception of the America of Allentown formed the following route:

Form at Reading outer depot at 7½ p. m., march down Prince to Lemon, to North Queen, to Walnut, to Duke, to Orange, to Mary, to West King, to Prince to Hazel, to South Queen, to Vine to Lime, to East King, to Ann, countermarch to Shippen and dismiss.

Capt. E. McMellen was unanimously elected chief marshal.

The following resolutions were passed:

Resolved, That we, the representatives of the different fire companies of Lancaster, in convention assembled, consider it unjust and uncalled for in the finance committee of councils withholding our yearly appropriation to which we are entitled, and which is entirely inadequate for the support of any company in the department, and allowing us but one-half of such appropriation as passed by councils.

Resolved, That we further consider this pittance dearly earned, and demand our appropriation as passed and allotted to us by the city.

Adjourned.

The Empire Will Turn Out

The Empire hook and ladder company held a meeting at their truck house last evening. They resolved to turn out on the evening that the America company of Allentown will arrive here. Samuel S. Sprecher was elected chief marshal, with John C. Carter and Jacob P. Shirk as aids. Horses will be driven in the truck upon which there will be a calcium light, provided one can be procured. It was owing to the length of the meeting that there was no one at the firemen's convention to represent the company. The parade will occur on the 15th inst.

The Lampeter Pole Raising.

Our Lampeter correspondent sends us a graphic account of the Republican pole raising at that village on Saturday, but we have not room for its insertion in full. Our correspondent states that with their usual bad luck the Republicans had a hard time getting the pole from the woods to the village. The wagon on which it was being dragged upset and deposited it in the mud. At another point in the road several panels of fence were knocked down. With the assistance of Democrats the pole was finally put up and speeches were made by "Hon." John H. Landis, Jake Amwake, Dr. Gatchell and Senator Mylin, all of whom failed to raise any enthusiasm for the cause or candidates. Of Amwake's speech our correspondent says: After relieving himself of a surplus amount of tobacco juice he commenced his speech, if speech it might be called. All know the man, and can well imagine the nature of his harangue. His vulgarity and blasphemy caused the most radical Republican to blush and some were heard to say "pull him down!" This speech would have been a disgrace to any party. Even the vile tongue of the sand-lot orator could not have surpassed it. He told the boys that before the campaign is over he will come out and give them some of his experiences in the work, but I venture the assertion that if the voices of the respectable people have anything to do with future engagements Jake Amwake will never again address a West Lampeter meeting."

FALLING FROM GRACE.

Orator Weaver in the Sunday School.

Wm. D. Weaver, esq., the Republican orator, was called upon on Sunday to take charge of a class of boys in the Presbyterian mission Sunday school. The lesson was the story of the fall of Sodom and Gomorrah on account of their wickedness, and the teacher took occasion to impress upon his youthful hearers the enormity of the wickedness of those who fall from grace by sinning against light and knowledge. He then asked the boys if they could name any eminent men who had thus fallen. One of the boys named Judas Iscariot, who betrayed his Lord; another named Benedict Arnold, who betrayed his country; another, Aaron Burr, who betrayed the Democracy and strove to build up an empire on the ruins of the union. Mr. Weaver was delighted with the readiness with which the boys named the men of bad eminence who had fallen from grace because of their own wickedness, and asked whether they could name any more of them. One little white-head, who probably got hold of Judge Poland's congressional report, startled his teacher by naming James A. Garfield, the man who sold his vote and took a $5,000 bribe, and—

Mr. Weaver brought the examination to a hasty close—made a "shorter catechism" than he had intended—and did not permit the youngster to tell anything more about Garfield's fall from grace.

Bids for Trenching.

The following are the bids for digging trenches for laying water pipes in different sections of the city, received by the water committee and opened by them last evening.

For digging trench in West Lemon street: Thos. Madden, per yard for earth 15 cents; Nicholas Nary, for rock 50 cents and for earth 14 cents.

For trench in Mifflin street, Rogers & Geiter, for rock 40@45 cents, for earth 16 cents; Nicholas Nary for rock 50 cents, for earth 14 cents.

For trench on Plum street: Nicholas Nary for rock 50 cents, for earth 14 cents. For lead for joints Flinn & Breneman were the only bidders,—5⅞ cents per pound, and to them was awarded the contract.

The contract for work on Mifflin street was awarded to Rogers & Geiter, on condition that the prices for excavating rock be 40 cents. The work on Lemon and Plum street was awarded to Nicholas Nary.

Bids for the repair of the pumps run by water power at the city water works, were also opened, but were not made public, nor was the contract awarded.

The Hancock Veterans.

The members of companies A and B, of the Hancock veteran club, met at the club rooms in Centre square, last evening and elected the following officers:

Company A—Captain, Geo. W. Zecher; 1st Lieutenant, Peter Dommel; 2d Lieutenant, Theo. Wenditz. Capt. Zecher was authorized to appoint all the non-commissioned officers. They will probably be announced at the general meeting of the veterans to be held to-night.

Company B—Captain, Lawrence Boyle; 1st Lieutenant, Emanuel Gundaker; 2d Lieutenant, John J. Hartley; 1st Sergeant, L. E. Fulmer; 2d Sergeant, Andrew Shay; 3d Sergeant, John Miller; 4th Sergeant, Jesse Nye; 5th Sergeant, Samuel Watson.

The selection of corporals was for the present laid over. They will probably be chosen at the meeting this evening, at which time companies C and D will also organize.

Birthday Party.

Yesterday, John Schoenberger, mine host of the Tremont house, completed his 58th year. In celebration of the event he was called upon by his fellow members of the Maennerchor and Liederkranz societies and scores of other old friends, all of whom he entertained right royally, with a bounteous lunch set in the yard connected with the hotel. The festivities were kept up until after midnight, and many a "health" was drank to Mr. Schoenberger.

COLUMBIA NEWS.

OUR REGULAR CORRESPONDENCE.

Over a Thousand School Children—Prospective Reopening of the Shawnee Furnace—Borough Locals.

More than one thousand—1,035 is the exact number—children were enrolled as pupils of the public schools on yesterday, the opening day, and it is thought that before the end of the week the number will be increased at least a hundred. The opening, in point of numbers, compares favorably with that of last year. The normal class teachers have been positioned in the order of their election by the school board and yesterday took their initial steps in disciplining and teaching—a separate duty to each. In the more advanced departments the machinery has been put in motion and the wheels are now steadily revolving.

We have it on excellent authority that an effort will be made to start the Shawnee rolling mill next week. Mr. J. W. Thomas, superintendent of the works, who has been out of town for several weeks, has returned, and it is understood he is making every effort to get the works in motion once more. The mill can be started in very short order when the company is ready to make the start.

This morning, while turning into Locust street, at Front street, the wheel of Filbert's ice wagon was broken into pieces and that portion of the wagon fell to the ground resting on its axle. The brake-lock was also broken off. The ice was transferred to a coal wagon and the rounds of the town were made and the customers served.

With reference to the invitation to Company H. to participate in the exhibition to be given in Frederick City, Md., in October next, a committee was appointed last evening to see what arrangements could be made.

The minstrel performance given in the opera house last evening is said to have been very poor and to have been given to a poor house.

The Pennsylvania railroad company will run a special excursion train to the state fair at Philadelphia on Friday, September 10. The tickets will be good for two days and will sell from Columbia at $1.60.

The narrow gauge track of the Chestnut Hill iron ore company will extend from the Shawnee furnace to the Pennsylvania railroad siding near the Susquehanna rolling mill. The latter company purchase heavily in pig iron from the former and it is for convenience in delivery to the mill, as well as to the Pennsylvania railroad company at their sidings, that the track will be laid.

J. W. Steacy's horse attached to a buggy broke loose near the postoffice last evening and running up Locust street, turned into Second, where he was grabbed and held fast by a man. No damage to horse, buggy or man.

The regular monthly meeting of the Vigilant fire company will be held this evening in the engine house parlors. Final arrangements will be made for the company's participation in the twenty-fifth anniversary of the Washington county agricultural and mechanical association of Hagerstown, Md., to be held on October 20, and to attend which the company has been invited.

A son of Cormick McCall, while working at the Susquehanna rolling mill a day or two ago, stepped into some hot cinder and severely burned one of his feet.

Gallagher, the original *Owl* man, was in Columbia yesterday.

There was a brilliant, keen and cutting intellect at work on the Frederick division of the Pennsylvania railroad yesterday. It was decided to take a number of empty cars from this place to run on an excursion train leaving some point on that road to-day. To do this required the running of two sections to the Frederick accommodation train, leaving here at 2:45 p. m. A long string of these empty cars were attached to the first section, or regular train. The second section left here half a minute after the first, and consisted of—an engine with no cars. Why the empty cars, which overloaded the first train, were not sent with the second engine is a mystery.

John S. Grier, of Lock Haven, Pa., is visiting in town to day.

The Protestant ministers of Columbia held a meeting yesterday. Another meeting will be held on next Monday, when the question of canvassing the town to find out how many Bibles there are in it will come up.

A string of very fine bass at Black's hotel attracted some attention last evening.

The bricklayers have not yet finished laying the new pavement in front of the P. R. R. depot.

The members of the Citizens' band are decorating the Company H armory where their fair, beginning on Thursday next and continuing one week, will be held. If work is a harbinger of success the boys will have it.

A man was swung beautifully in attempting to jump on the Harrisburg accommodation train east evening before last at the Locust street crossing. He lit on a pile of cinders and had his face scratched almost beyond recognition.

THE REPUBLICAN BANNER.

Its Political Significance.

The Young Men's Republican club, having at last received their banner, swung it out across East King street opposite the club room yesterday afternoon. It is about the size of the Democratic banner on North Queen street, and contains portraits of Garfield and Arthur. Above them is an alleged American eagle holding in its talons something that looks suspiciously like the Confederate stars and bars, but which is probably intended to represent the Northern half of the American shield—the Southern half being cut off. This is not an inappropriate emblem of the disunion Republican party. The alleged eagle has its neck stretched out at full length and is looking due south, as though in search of the missing portion of the shield. On either end of the scroll containing the names of the candidates are a collection of Chinese hieroglyphics, which are probably intended to set forth Garfield's opinion on the Chinese questions. The faces of both Garfield and Arthur wear an anxious expression; the former (on the west side of the banner) looking apprehensively towards the Eighth ward and the latter towards the Ninth. On the east side Garfield's troubled face looks towards the Sixth and Arthur's towards the Seventh.

Court Notes.

The jurors, who were drawn for the court, which was to have been held next week, will not be wanted as the cases set down for trial that week have been continued.

Court will meet on Saturday morning at 10 o'clock.

On next Monday the argument court will commence.

Animal Pictures.

The programmers of Cooper & Bailey's show arrived in town this morning. One of them gave an exhibition of his drawing by making large pictures of elephants and other animals on the stone pavements of North Queen and other streets. He certainly is an artist in his line.

Wild Harry.

This remarkable marksman was at New Holland on Saturday and gave and exhibition of his wonderful proficiency in handling the rifle. Harry has received flattering proposals to join his old companions in the Far West and may possibly close with their offers.

MADAME RENTZ'S MINSTRELS.

Their Performance Last Evening.

Last evening Madame Rentz's minstrels appeared in the opera house. The weather was warm; but notwithstanding the gallery was full, while two-thirds of the seats down stairs were occupied. The performance began with a minstrel overture in which eight young ladies and five men were seen. The music and singing were better by far than that of most organizations of the kind. The second part of the performance was of the variety order, and the feature of it were the sketches by Miss Georgie and Jen Powers, and Louisa Bliss and B. S. Hodges. Alf Lawton is a good comedian, and his old says were really funny. Alice Witherell and E. F. Lindsey gave a fine musical act, which pleased all, as did the performance of most of the actors. The entertainment closed with a laughable musical burlesque, entitled "Penn's Aunts among the Pirates." There was nothing said or done during the evening which was calculated to offend anyone, and those who went with the expectation of seeing an unclean show were sadly disappointed.

Accident to a Milk Wagon.

This morning about 9 o'clock the horse attached to the milk wagon of Frank Roland, of Neffsville, while standing in front of Ginder's store, East King street, this city, took fright and running upon the pavement upset and badly broke the milk wagon, spilled all the milk and broke a number of articles of merchandise in front of Mr. Ginder's store. Mr. Roland was not hurt, being at the time in Ginder's store.

Fast in the Mud.

This morning about 10 o'clock a horse was discovered to be fast in the mud on the edge of the Conestoga creek, near Reigart's Landing. After several unsuccessful attempts by two young men to release the animal, another horse belonging to Mr. Homan, who lives near, was hitched to the horse bemired in the mud, and it was safely drawn to dry land.

The Battle of Antietam.

Marriott Brosius, esq., of this city, will be the orator on the occasion of the unveiling of a monument at Antietam, on the 17th inst, the anniversary of the battle of that place in 1862, when the rebels under General Longstreet, at present United States minister to Turkey, appointed by a Republican administration, was defeated by the Union army under General Hancock, now the Democratic candidate for president of the United States.

A Queer Nubbin.

We were shown last evening a tassel of corn grown on the farm of H. E. Leman, on the top of which was grown a pretty good-sized ear of corn. Such freaks of nature are not very uncommon, but it is seldom that so large an ear of the kind is seen.

Shooting Match

On Thursday, September 16, there will be a shooting match at Columbia between eight men from Port Deposit and eight from this county, for $100 a side. Several well-known shots from this city will enter.

More Improvements at Hager's.

Messrs. Hager & Brother, the enterprising dry goods firm, have added to the many other attractions of their large establishment an elevator running from the basement under the carpet room in the rear of the building to the top floor. It is of the Clem & Morse patent, and was erected by Mr. Pierre Rouillot, of that firm. A peculiar and valuable feature of the elevator is an automatic attachment with which it is provided, which opens and closes the hatchway in the floors while ascending and descending, thus guarding against the possibility of anyone falling through the opening; and security is assured in the event of the breaking of the cable by an arrangement in the shape of a ratchet, which in case of accident would hold the elevator fast and prevent it from falling. This elevator is the only one of the kind in the city, and Messrs. Hager & Brother are entitled to credit for this new evidence of their desire to provide for the comfort and convenience of their patrons and accommodate the demands of their rapidly-increasing trade. The rear portion of their building occupied as carpet, queensware and wareroom, recently damaged by fire, has been handsomely refitted and restocked with an attractive exhibit of goods.

Amusements.

"*Fun on the Pacific*" *To-night.*—We feel ample confidence in assuring our readers of a thoroughly enjoyable entertainment at Fulton opera house this evening, when Manager Ford's excellent company will produce the new musical comedy of "Fun on the Pacific." The piece has been received with unbounded popular favor wherever presented thus far. The music is bright and sparkling, comprising many of the favorite airs from half a dozen of the best comic operas, while the scenes and incidents are pronounced as mirth-provoking to a degree. Misses Belle Mackenzie, Marie Bockel and Blanche Thompson are in themselves a host, and they are supplemented by such favorites as Messrs. John Riebert, Herbert Archer, Frank Cushman and a dozen others. A Wilmington newspaper of yesterday accords the troupe high commendation.

Warm Weather and its Effects.

Many people, especially ladies, complain at this season of the year of a general weakness or debility. The use of Speer's Port Grape Wine prevents this. The wine is said to have a most wonderful effect in giving strength, vigor and tone to the whole system. It is extensively used by ladies nursing, or about to nurse infants. This wine is not a manufactured article—no liquor is added to it. It is no patent medicine or cordial humbug, but is a superior wine of the Oporto grape. It is pure, old, unadulterated wine, nothing more or less. Mr. Speer has been supplying hospitals with his wine for many years past. It is said to be unsurpassed for summer complaints, and for weakly persons. The price is low for so excellent a wine, and no family need be without it.

This wine is endorsed by Drs. Atlee and Davis, and sold by H. E. Slaymaker. au16-2wd&w
