WHEELER'S REMEDIES.

SENSIBLE MEN

and Women know ere this that of the many diseases and derangements of the body each has a separate cause or origin, and that each needs a different method of treatment in order to effect a cure, and a moment's reflection must convince that any of the quack nostrums foisted upon the public claiming to cure all or a number of diametrically different diseases must prove failures, even if we do not call them humbugs.

POOR PEOPLE

and people of moderate means, and even people well-to-do or wealthy, find that the *enormous charges* of practising physicians are a serious burden to them, and also find that after paying themselves poor that no benefit has accrued to them, that in fact they have thrown their money away. To overcome these evils we offer *Wheeler's No. 36 Sure Remedies* to the sick and suffering *one Remedy* for each disease, with out for a moment claiming that one remedy will cure any other disease than the one claimed for it, and as these remedies have stood the test of years without a single failure, we agree to *refund the money* paid in every instance where a cure is not positively effected. The remedies are entirely vegetable, can do no harm, and will positively cure every disease for which they are prescribed.

RHEUMATISM,

Gout, Lameness of Joints, Sciatica and Neuralgia are relieved at once and positively cured by the use of Wheeler's No. 36 Rheumatic Remedy. We say boldly that in the worst of cases of no matter how *long standing*, how *serious*, or how *painful*, we can not only give relief but *positively cure* for all time. Failing to do this we will positively refund the money paid for the treatment, and if your sufferings are not positively stopped for all time you have not thrown your money away as you would on any other than these guaranteed remedies. The price of Wheeler's No. 36 Rheumatic Remedy is only 50 cents, obtainable from any druggists, or sent free by mail on receipt of price. Stamps taken.

SUFFERING WOMEN.

Many a lady, endowed by nature with a pretty face, beautiful figure, faultless complexion, as well as the sweetest of tempers and faultless mental qualities grows prematurely old, gray and wrinkled, her form loses its perfect contour, the complexion becomes sallow, the brightness leaves the eye, a feeling of languor takes the place of the once buoyant spirits, an irritable nervous fractiousness makes life a burden, things that once were trifles worry her until life becomes unbearable. All this being caused by the physical derangements so common to women, which the innate modesty of feminine nature prevents their making known, and of which the *ignorance* of the medical profession prevents a cure. *Lady Reader, pause* and consider, 'tis a duty you owe yourself, your family and your God, that you should cure yourself of these troubles and once more feel the glow of perfect health and spirits that nature intended for you. *Wheeler's No. 36 Prescriptions* are pleasant and palatable to take, contain nothing of an injurious nature, and may be taken by all ages, at all times and in all conditions, *without possibility of ill effects*, and will positively cure any of the peculiar diseases to which females are subject. Failing to produce a perfect cure the proprietors will *refund the money* paid for the treatment. *If you have a sallow complexion*, constant or intermittant headache, backache, restlessness, loss of appetite, suppressions of monthly flow, or irregularities thereof accompanied by headaches, nervousness, hysteria and similar symptoms, *Wheeler's No. 36 Prescription "B"* will positively restore you to health. If you have a sensation of heat and throbbing in the back, frequent fainting spells, Leucorrhea or white discharge, painful or scalding sensation in urinating, reddish or white deposit in urine, hot and dry skin, *Wheeler's No. 36 Prescription "C"* will give immediate and lasting relief. The price of Wheeler' No. 36 Prescriptions "B" and "C" are 50 cents each, obtainable from druggists or sent by mail secure from observation post paid on receipt of price. Postage stamps taken.

CATARRH.

It is needless to describe the symptoms of this nauseous disease that is sapping the life and strength of only too many of the fairest and best of both sexes, old and young, suffering alike from the poisonous dripping in the throat, the poisonous nasal discharges, the fetid breath and general weakness, debility and languor, aside from the acute sufferings of this disease, which if not checked can only end in *loss of palate, weakened sight, loss of memory, deafness, and premature death* if not checked before it is too late. Labor, study and research in America, Europe and Eastern Lands have resulted in *Wheeler's No. 36 Instant Relief and Sure Cure for Catarrh*, a remedy which contains no harmful ingredients, and that is guaranteed to cure every case of acute or chronic Catarrh or money refunded. *Wheeler's No. 36 Instant Relief and Sure Cure for Catarrh* will cure every case of catarrh, hay fever or asthma, price $1.00 per package, from druggists, or sent by mail postpaid on receipt of price.

Wheeler's No. 36 Sure Cure for Kidney and Liver Troubles cures all weakness and soreness of kidneys, inflammation of kidneys or liver, price $1.00.

Wheeler's Vegetable Pills is the only remedy that cures constipation, giving natural action of the bowels without physicing, purging, griping or pain. Price 25 cents, of druggists or by mail

Wheeler's Nervine Tonic for mental depression, loss of manhood, languor, weakness or over taxation of the brain is invaluable, price 25 cents.

WE GUARANTEE

Cures in every case or will refund the money paid. We place our price on these remedies at less than one-twentieth of the price asked by others for remedies upon which you take all the chances, and *we specially invite* the patronage of the many persons who have tried other remedies without effect or depleted their purses by paying doctor bills that benefitted them not.

HOW TO OBTAIN

These remedies. Go to your druggist and ask for them. If they have not got them, write at once to the proprietors, enclosing the price in money or stamps, and they will be sent you at once by mail postpaid. Correspondence solicited. Address plainly,

THE NUT HARVEST.

THE GENERAL INDICATIONS GOOD.

An Autumn Industry Among The Alleghanies—Uncertainty in the Chestnut Crop.

An industry of considerable importance among the farmers up around Port Jervis N. Y., at this season is that of nut gathering. Here are chestnuts, hickory nuts, black walnuts, and butternuts; and they have commercial value respectively in the order named.

In about two weeks more chestnuts will begin to come into the markets. The first instalment will consist of but a few quarts. They will come from the farm of the Widow Cuddeback, and will probably bring 25 or 30 cents a quart. The price for early chestnuts varies from $5 to $8 per bushel—depending somewhat on their quality as well as upon the prospects of a large or small crop. At present there is a great uncertainty as to what this crop will amount to. The burrs were plentiful and were filling nicely until checked by the drouth and the protracted cold, but the nut does not seem to be filling well now. And so the chances are that the crop will not be a very large nor good one, in which case the price per bushel is not likely to fall much below $1. When these nuts are plentiful the price sometimes falls to $2 and very rarely to $1 50 per bushel.

There is a popular belief that the chestnut burrs do not burst until touched by a sharp frost. This error is so easily dissipated by a little observation that one is surprised to hear farmers calculating upon an early harvest of nuts following an early frost. The burrs crack only upon maturing. There have already been several heavy frosts hereabouts, but the nut, not yet being ripened, has not fallen to the ground, and it will be nearly two weeks ere any will be brought into the markets.

Hickory nuts will be very plentiful this year. They have been scarce for some years, and the prices have ranged from $2 to $3 per bushel. The first nuts this year will bring probably $2 a bushel in the local markets, and after that they will rapidly decline in price, so that it is not unlikely that they can be purchased for 50 cents a bushel by the middle of November These nuts will come into market about October 1.

Black walnuts are also comparatively plentiful this year, although becoming more scarce every year. The producer rarely gets over 75 cents a bushel for these nuts, and the average price is from 30 to 50 cents, although they are occasionally a drug in the market at 10 cents.

Butternuts are not as plentiful as in some former years, but as they possess only a trifling mercantile value, no account is made of their scarcity. They rarely bring over 10 or 15 cents a bushel, but they possess a pleasant taste, and are to be found in the larder of every well regulated farm house for winter use.

The hazlenut (Corylus Americana) is plentiful this year. This nut is but a trifle smaller than the European filbert (Corylus Avellana), is nearly as delicious, but possesses a tougher shell. It has no standard commercial value, though it sometimes brings 50 cents and even $1 a bushel among those who desire the nuts for winter use.

In Sullivan and Delaware, counties beechesnuts are occasionally plentiful. They are shaped like buckwheat kernels, and are very sweet flavored. While having no commercial value, they are highly prized by the inhabitants, many of whom gather and eat them during the winter. When these nuts are abundant gray squirrels are plentiful.

DEFENDING HIS RIGHTS.

How a Plucky Citizen Prevented the Erection of Telephone Poles on his Property.

Thursday morning the workmen in the employ of the New York and New Jersey telephone company resumed the work of putting up poles in Red Bank, New Jersey. They began digging a hole in front of John W. Stout's property on Front street. No sooner had they commenced work than the foreman of Stout's canning factory arrived with several of the hands, who threw the dirt back into the hole as fast as the company's workmen excavated it. Finding themselves baffled the latter made a pretense of going away, and Stout's men returned to their work. In a short time, however, another gang of workmen appeared on the scene and the digging was resumed. Thereupon Mr. Stout's team arrived with a load of stones, which his employes prepared to throw into the hole when dug. Mr. Stout then warned the foreman of the gang against further proceeding under pain of arrest, upon which the latter ordered his men to desist. In the afternoon it was decided to place the pole on the other side of the street, and the workmen are now erecting the pole there. Several other citizens, in front of whose places of business poles have been erected, seeing Mr. Stout's determined stand, have taken fresh courage and boast that they will compel the company to remove the poles. The foreman of the workmen made a canvass of the town to ascertain what citizens would allow poles to be erected in their back yards. He found several so inclined. The company now says that telephonic communication will be established in Red Bank inside of two days.

Objecting to Telephone Poles.

Philadelphia Record.

The most determined opposition has been manifested by the residents along Haddon pike, between Collingswood and Haddonfield, over the proposed erection of poles for the telephone line between Camden and Haddonfield. The poles have been put up as far as Collinswood. There the trouble began. Joseph Day, L. H. French, W. B. Mann, Dr. Hobensack, Justice Fowler, John Story and others, threatened to cut down the poles if they were placed in front of their properties. The company is trying to compromise the matter.

JAY-EYE-SEE'S GREAT RACE.

He Trots a Mile at Narragansett Park in 2:10 3-4.

Four thousand persons witnessed the trotting event in the grand circuit at Narragansett park on Saturday. The great interest of the day centered upon the attempt of Jay-Eye See to beat his record of 2:14, for a purse of $2,000. He made the most remarkable exhibition of trotting ever seen on the track. His time to the first quarter was 32 seconds; to the half, 1:06½; to the three-quarters, 1:39 and he finished in 2:10¾. He went over the entire course without a skip or a break of any kind, and when he came under the wire showed no signs of distress. The enthusiasm was great, the spectators standing in their seats and cheering wildly as the plucky little flyer came down the homestretch.

The foregoing is the nearest approach ever made to the record of Maud S.—2:10¼ made at Rochester, N. Y., August 11, 1881. Hitherto the record of St. Julian—2:11¼, made at Hartford, Conn., August 26, 1880—had stood as the nearest approximation to the record of Mr. Vanderbilt's wonderful mare.

The International Baby.

"That Paterson (N. J.) baby" engages the pen of a women who writes to the St. Paul *Pioneer Press*: "About a mile from Monterey is a ranch called Bella Sista, owned by Gen Trevina, who is also the proprietor of the 'international baby,' about which such an enormous fuss was made at the christening some months ago. Gen. Diaz is the child's godfather, and was at the ceremony. He gave the baby a valuable estate, whose income is to be laid aside until the boy reaches his majority, when it will amount to a large fortune. But it is said that the international weakling will not live to grow up. Mrs. Trevina, the daughter of Gen. Ord of Texas, has not many months to live. She is a very white, silent, subdued woman—a breathing skeleton, in whom it is difficult to recognize the gay and dashing Bertha Ord of two years ago. The secret of Gen Diaz's generosity to the Trevina baby lies in the fact that both generals were at one time rivals for the coming presidency of Mexico."

St. Petersburg Hotels.

A correspondent writes from St. Petersburg: "The larger and more important hotels here could be converted into prisons in an hour. Some, even to the very doors, seem hewn out of solid stone. Nobody thinks of laying carpet on 'grand staircases.' You walk on granite. Long and badly lighted corridors lead to rows in which there is an abundance of furniture, but where the high ceiling, waxed floor and something not easily described in the appearance of the walls and the general arrangement leave a sense of frigidity on the hottest day. Strong are the staircases, gloomy the corridors; but most suggestive of all, perhaps, is the man who sometimes precedes, sometimes follows you, rattling his keys. The serious phase of hotel life in St. Petersburg, however, is the drainage. The science of hygiene is in its infancy, and I have been witness of arrangements in some of the 'grands' which in England would be considered disgraceful in a common lodging house.

A WOMAN'S AFFAIR.

MRS. N. H. SMALL, the wife of the popular deputy sheriff and assessor of Topsham, Me., writes us on May 15, 1883: "That she had been severely afflicted during several years with kidney and liver disease, accompanied with severe pains and backache. Having tried many so-called cures, and medicines, and doctor's prescriptions, without receiving any benefit, and while seeking for a cure, she noticed the advertisement of Hunt's Remedy and decided to try it. Having bought a bottle at Mr. Johnson's drug store, commenced using it with such flattering results that she continued its use, and after using only five bottles the improvement in her health is so marked that she wishes all who are afflicted in like manner to know of this most valuable and reliable medicine; and she most cheerfully recommends Hunt's Remedy to all, and especially to females who are troubled with the complaints peculiar to the sex."

A FAMILY BLESSING.

Under date of May 10, 1883, we have received the following information from MR. LORENZO LOMBARD, of 18 Charles street, Portland, Me. MR. LOMBARD says: "For several years past I have been troubled with severe backache and pains in the side, and when I would lie down I could not rest well, as it seemed impossible for me to get into an easy position; and my aches and pains increased constantly to such an extent that I became convinced that I had a disease of the kidneys fastened to me, and after having used doctor' prescriptions and many of the so-called cures without getting any benefit, I was persuaded by a near neighbor, Mr. Jones, to try Hunt s Remedy, as himself and wife had been greatly benefited by its uses, and many others of our acquaintances spoke of its merits in the highest terms. I decided to try it, and purchased a bottle at Nichol's drug store, and as soon as I had taken a few doses of it the pains in my back were relieved, and after taking three bottles my sidesche and lame back are cured, and I can truly testify that Hunt's Remedy is an article of great merit, and will do all that is claimed for it, and I know of many other people in Fort and who have found a cure in Hunt's Remedy after all others failed to do any good, and I recommend it to all who have kidney or liver disease, hoping that this may be the means of relieving some sufferer who does not know of the merits of Hunt's Remedy."

CHOLERA!

CHOLERA!

PROF. DARBYS

Prophylactic Fluid.

The Most Powerful Antiseptic Known.

WILL PREVENT the CHOLERA.

IT DESTROYS THE GERMS OF DISEASE.

It is a fact established by science that many diseases are introduced by putrifaction, which reproduces itself and propogates the disease in ever widening circles.

These diseases generate contagion and fill the air with death. *Such is that dread Terror.*

Asiatic Cholera,

which is now devastating the East and advancing on its mission of death rapidly towards our shore. Other diseases of the same sort are *Diphtheria, Typhoid Fever, Scarlet Fever, Smallpox, Measles, Yellow Fever, Erysipelas*, etc. All these generate contagion. Other diseases *—Fever and Ague, Malarial Fever*, etc., arise from contagion which comes from dampness, unhealthy situation or uncleanliness.

All these Diseases can be cured only by stopping the production of Disease Germs and destroying those already produced. Both these results are *accomplished* by the use of Prof. Darby's preparation of Boracic Acid and Chlorine, known as DARBY'S PROPHYLACTIC FLUID.

The most powerful Antiseptic agent which chemistry has produced.

Its use either *internally or externally* renders all it comes in contact with, *pure, sweet and clean*, the production of disease-germs ceases and the patient recovers.

When used on Ulcers Scalds, Burns, Eruptions and Sores it stops all pain, sweetens the parts and promotes the rapid formation of healthy flesh.

IT PURIFIES THE ATMOSPHERE.

Its exposure in a Sick Room, Cellar, Closet or stable purifies the Atmosphere and drives away the germs of disease and death.

Taken internally, it purifies the stomach, giving it tone and healthy vigor. It is thus that it *cures* Indigestion and Dyspepsia.

When used as a Lotion it destroys all Freckles and Blotch-producing germs, leaving the skin clear, white and transparent as that of a little child.

IT RENDERS ALL IT COMES IN CONTACT WITH PURE AND HEALTHY.

Space does not permit us to name many of the uses to which this great Germ-Destroyer is applicable. Ask your druggist for printed matter descriptive of its usefulness, or address

J. H. ZEILIN & CO.,
Manufacturing Chemists, PHILADELPHIA.

50 cents per bottle. Pint bottles, $1.00.
