A COMPLETE WORKS OF EDWARD PAYSON: being his Memoir, Select Thoughts, and Sermons. 3 vols., 8vo.

NOTICES OF THE PRESS.

As this is a day of Surprise Presents, we know of no book which would be a more suitable present to a pastor than this. If you surprise your pastor by giving him these volumes, he may surprise you some day should he, while studying the Life and Writings of Dr. Payson, receive of the same spirit of which he was baptised—Presbyterian Witness.

No minister who has ever lived in our country has left a better impression by his life and labors than the man whose writings and memoirs are introduced in these splendid volumes.—New York Observer.

A DESCRIPTION OF Its Inhabitants, Customs, Mines, Minerals, Early History, Modern Filibusterism, Proposed Inter-Oceanic Canal, and Manifest Destiny.

By PETER F. STOUT, Esq., Late United States Vice-Consul.

As Vice-Consul Mr. Stout had unusual facilities for becoming acquainted with the productions of the country, the character of its people, and the political affairs of this and adjoining States. He saw most of the leaders of the Central American forces, and gives a history of the Filibusters, with a graphic but truthful and impartial pen. His book will serve to throw much light on the great Central American problem now occupying the attention of statesmen and others in our country.

SIMES'S PURE COD-LIVER OIL, PERFECTLY SWEET AND PALATABLE, manufactured at Newfoundland for the Proprietors, from fresh and healthy livers, by steam, at a low temperature, thus preserving the sweetness and purity of the Oil, while the natural fishy flavor is perfectly covered, and the Oil rendered palatable and agreeable to the taste.

The Proprietors of this Oil spare no expense in having their Oil properly prepared at Newfoundland, the only place where the Gadus morrhua is found in abundance. The true Oil is frequently impaired by admixtures with oil from other species of the Gadus family, and only that coming from the "Banks" can be relied upon as the genuine.

Our Oil has been analyzed, and pronounced to be pure and the perfection of fine quality—characteristics which enable it to maintain its superiority over all other kinds.
