Extend Time On Poor Home

(Continued from Page 1)

ning of construction was September 26. The extra period was approved when bids on the original plans for a building to house about 100 dependents were more than $38,000 in excess of the estimated costs.

Since the opening of the first set of bids, the Commissioners, working with the architects, Hunter & Caldwell, of Altoona, and the State Department of Welfare, have revised the plans to meet the funds available. The housing capacity of the proposed home has been cut from 100 to about 70 persons. The chapel and the men's room have been eliminated, and the superintendent's quarters, originally designed to have been located in a separate wing of the building, have been transferred to the first floor of the main structure.

Alterations made under the new set-up have resulted in shortening the main building by about 35 feet. Advertisements for bids on the new plans and specifications are expected to be made in the near future.

Secretary of Internal Affairs Thomas A. Logue has approved a $127,000 bond issue for the Centre County Institutional District for the purchase of land and for the construction of an institutional home.

The Commissioners are confident that work will begin before November 7, to meet Federal requirements. The contract will provide for the completion of the structure by September 6, 1939.
