ABOUT HUSBANDS: TO THE GIRLS.

A man is, in general, better pleased when he has a good dinner upon his table than when his wife speaks Greek.—*Dr. Johnson.*

Johnson was right. I don't agree to all
The solemn dogmas of the rough old stager;
But very much approve what one may call
The minor morals of the "Ursa Major."

Johnson was right. Although some men adore
Wisdom in woman, and with wisdom cram her,
There isn't one in ten but thinks far more
Of his own grub than of his spouse's grammar.

I know it is the greatest shame in life:
But who among them (save, perhaps, myself),
Returning home, but asks his wife
What beer—not books—she has upon the shelf?

Though Greek and Latin be the lady's boast,
They're little valued by her loving mate;
The kind of tongue that husbands relish most,
Is modern, boiled and served upon a plate.

Or if, as fond ambition may command,
Some home-made verse the happy matron show him,
What moral spouse, but from her dainty hand
Would sooner see a pudding than a poem?

Young lady—deep in love with Tom or Harry,
'Tis sad to tell you such a tale as this:
But here is the moral of it: Do not marry,
Or, marrying, take your lover as he is—

A very Mars—with something of the brute,
Unless he proves a sentimental noddy,
With passions strong and appetite to boot,
A thirsty soul within a hungry body.

A very man, not one of nature's clods
With human failing, whether saint or sinner,
Endowed, perhaps, with genius from the gods,
But apt to take his temper from his dinner.

—*John G. Saxe.*

IMPROVING OUR LOCAL STOCK.

The Farm of Amos Souders and the Blooded Animals There.

Among the Lancaster county farmers who have deserved credit for their enterprising efforts to improve their own stock and that of their neighbors conspicuous are Amos Souders, of Manor township, and his son David. Their farm, residence and stock stables are situated near Masonville, about four miles west of Millersville, and are reached by a beautiful drive through one of the richest and most picturesque sections of this fair county. There is to be seen a variety of blooded stock such as few farmers keep on hand. First among the animals in importance and value is the fine bred stallion, "Dr. Arward" a three year old horse, of the Black Hawk-Ethan Allen-Whalebone blood, brought by David C. Souders, his owner, from Livingston county, N. Y. He stands 16 hands, 3 inches high; his coat is a beautiful bright bay; his only mark a small white star; his trotting movement is remarkably true, and he has the standard qualities for trotting and endurance in a degree rarely found. A fine filley, of the same stock, brought by Mr. Souders from New York, gives excellent promise.

Mr. Amos Souders' Clydesdale stallion, "Samson Second," is a very handsome brown, 6 years old; stands 16 hands high, on legs of great bone and substance, and has excellent movement. He is of the Garibaldi stock, and was bred in Westmoreland county. In the Souders stable a couple of fine Jersey bulls and a number of Jersey and Guernsey cows attest his interest and success in introducing good blood into his herd. He makes a specialty of Berkshire pigs, and his pen is well filled with shoats and breeders.

The Wyandotte Chicken.

Mr. Souders, from a few choice Wyandotte pullets and cockerels, has raised and is raising a fine yard of this famous breed of poultry, which is rapidly coming into favor and popularity in Lancaster county. Mr. Harry Schroyer, of this city, is also one of the breeders of this fowl; and H. M. Stauffer, at Bareville, Lancaster county. Mr. Souders also has a few Golden Spangled Hamburgs; and Mr. Stauffer has Langshans and R. C. B. Leghorns. The Wyandotte eggs have sold earlier in the season at $2 per setting of thirteen, and now can be had for $1.

This breed, of which our cut affords a fair picture, seems to be equally a favorite for a flesh fowl and layers, and combines all the points of highest excellence. No other breed of fowls ever gained public favor so rapidly as this one. They grow three weeks quicker than the Plymouth Rocks and fully one month quicker to roasting size than the Light Brahma. They will not fly over a 4-foot fence. The hens make good setters and mothers, but are not so persistently broody that they cannot be easily broken up; as winter layers they excel all others, laying through the coldest weather; in fact, as all-the-year layers they have no equal, surprising all who have bred them at the amount of eggs they lay. The general appearance of them and markings of plumage may be learned from our illustration. In color they are black and white. They do not get their best plumage until after they moult. They have clean, yellow legs and low rose combs. Cocks weigh about 8½ pounds; hens, 6½; cockerels, 7½, and pullets, 5½.

A Good Record for Plymouth Rocks.

Geo. W. Gundaker, of this city, No. 222 West Chestnut street, thinks the Plymouth Rock fowl as good as any, and his experience justifies that belief. He has one cock and six hens; and in two weeks in April they gave him 72 eggs. He brought two eggs of a more recent laying down to the INTELLIGENCER office to-day; they each measured 6 inches by 7, and were certainly a pair of beauties.

Care of Hens and Chicks.

Where there are a large number of hens kept it is not a wise plan to allow all the broods to run together. A hen may be very stupid at first, and may not be able to distinguish a young duck from a chick before she comes off the nest, but it does not require a long time for her to find out a strange chick that gets among her own, and she will destroy it if she has an opportunity. Hence where there are several broods, the hens should be separated, and the coops placed far enough apart to prevent the chicks of different broods coming together. The hens should be confined for two weeks after they come off the nests and under no circumstances should the chicks be allowed to run in the grass, or upon wet ground. The matter of feeding chicks with hens should be carefully attended to. Young chicks need feed often, but every time they are fed the refuse of the previous feeding should be carefully removed, or the result will be gapes. Gapes and lice come from filth, and the countryman can save himself much annoyance by keeping all the surroundings clean. Be careful not to attempt to raise chicks without guarding against hawks. It is better not to raise them at all than to waste the eggs, and devote the time of the hen to hatching them, if a large portion of them are to be devoted to feeding hawks. Better raise them in little runs altogether than to suffer the loss.

Young Girls

are at a critical period when they are about maturing and developing into women. The lack of watchful care at this time may result in fixing irregularities upon delicate organs and entailing a long list of "female weaknesses." All this may be avoided, and the young woman come through this period clothed in all the beauty and strength of a perfectly healthy organization by the aid of Dr. Pierce's "Favorite Prescription," prepared especially for female troubles by one of the most successful physicians of the day. W,S&w

JAMES J. MITCHELL, Supt. Stone Dept. New Capital at Albany, N. Y., writes: "419 Lark street, June 25, 1885. I have been using Allcock's Porous Plasters on my own person and in my family for the last thirty years. I deem it a matter of duty to bear public testimony to their exceeding usefulness as an external remedy. Placed upon the pit of the stomach, they warm and tone the digestive organs. On the small of the back, they give vigor to the nervous system and act as a wonderful diuretic. I think in all cases of dyspepsia they should be worn both on the back and on the pit of the stomach. In this way they act as a stimulus to the whole system." ma6-1wd

CUTICURA REMEDIES.

From 115 lbs. to 161 lbs.

To the Cuticura Remedies I Owe My Health, My Happiness and My Life.

A day never passes that I do not think and speak kindly of the CUTICURA REMEDIES. Seven years ago, all of a dozen lumps formed on my neck, ranging in size from a cherry stone to an orange. The large ones were frightful to look at, and painful to bear; people turned aside when they saw me, in disgust, and I was ashamed to be on the street or in society. Physicians and their treatment, and all medicines failed to do any good. In a moment of despair I tried the CUTICURA REMEDIES—CUTICURA, the great Skin Cure, and CUTICURA SOAP, an exquisite Skin Beautifier, externally, and CUTICURA RESOLVENT, the new Blood Purifier, internally; the small lumps (as I call them) gradually disappeared, and the large ones broke, in about two weeks, discharging large quantities of matter, leaving two slight scars in my neck to day to tell the story of my suffering. My weight then was one hundred and fifteen sickly pounds; my weight now is one hundred and sixty-one solid healthy pounds, and my health is only five feet, five inches. In my travels I praised the CUTICURA REMEDIES, North, South, East and West. TO CUTICURA REMEDIES I OWE MY HEALTH, MY HAPPINESS and MY LIFE. A prominent New York druggist asked me the other day, "Do you still use the CUTICURA REMEDIES; you look to be in perfect health?" My reply was, "I do, and shall always. I have never known what sickness is since I commenced using the CUTICURA REMEDIES." Sometimes I am laughed at by praising them to people not acquainted with their merits, but sooner or later they will come to their senses and believe the same as those that use them, as dozens have whom I have told. May the time come when there shall be a large CUTICURA Supply House in every city in the world, for the benefit of humanity, where the CUTICURA REMEDIES shall be sold ONLY, so that there will be rarely a need of ever entering a drug store.

Sneezing Catarrh.

The distressing sneeze, sneeze, sneeze, the acrid, watery discharges from the eyes and nose, the painful inflammation extending to the throat, the swelling of the mucous lining, causing choking sensations, cough, ringing noises in the head and splitting headaches,—how familiar these symptoms are to thousands who suffer periodically from head colds or influenza, and who live in ignorance of the fact that a simple application of SANFORD'S RADICAL CURE FOR CATARRH will afford *instantaneous relief.*

But this treatment in cases of simple Catarrh gives but a faint idea of what this remedy will do in the chronic forms, where the breathing is obstructed by choking, putrid mucous accumulations, the hearing affected, smell and taste gone, throat ulcerated and hacking cough gradually fastening itself upon the debilitated system. Then it is that the marvellous curative power of SANFORD'S RADICAL CURE manifests itself in instantaneous and grateful relief. Cure begins from the first application. It is rapid, radical, permanent, economical, safe.

SANFORD'S RADICAL CURE consists of one bottle of the RADICAL CURE, one box CATARRHAL SOLVENT and an IMPROVED INHALER; price, $1.
