There are a few communities in the United States that have not concluded that the nation is in the midst of a desperate fight for its existence.

According to the arguments that we hear advanced in some quarters, if the Russians are good enough to be fighting for the benefit of the United States, every Russian should be given the right to vote in our elections.

five tires including the spare, in addition to space for listing serial numbers of all tires in excess of five.

Gasoline ration books and automobile registration cards will be required in addition to owners' signatures on registration forms.

The Office of Price Administration has urged that persons having more than five tires turn in excess tires to the Railway Express Agency before re-registration, since the Board will be required to send out formal notice to dispose of all passenger car tires in excess of five before December 12.

Finishes Primary Training

Aviation Cadet Kurtz Weiser, son of Mr. and Mrs. D. D. Weiser of Millheim, has completed his primary training at Carlstrom Field, Arcadia, Fla., and is now attending the Basic Flying School at Bainbridge, Ga.

Upon completion of basic training, he will be sent to an advanced flying School from which he will receive the coveted "wings" of an army flier and be commissioned a second lieutenant in the U. S. Army Air Corps.

Cadet Weiser is the husband of the former Evelyn Bierly of Rebersburg, where she resides with her parents until he finishes his training.

After all, boys and girls, Senators and Representatives cannot serve their country unless they are re-elected; this explains what we refer to as political maneuvering.

The main reason why nobody understands life is that nobody attempts to understand it.

Selectees To Be Entertained

(Continued from page one)

tainment will include the Meyers brothers and a floor show. The program will last until 10:30 o'clock.

Special guests representing industries are W. W. Sieg, Titan; George Bingaman, American Lime & Stone Co.; Bayard Magee, National Gypsum Co.; Ray C. Noll, Whiterock Quarries; Egil T. Risan, Sutton Engineering Co.; Charles M. Thompson, Olde Tyme Bakery; Thomas Finigan, American Federation of Labor; Aaron D. Leitzell, Department of Highways.

Burgess Hardman P. Harris, Rev. Francis P. Davis, Rt. Rev. William E. Downes, Rev. William C. Thompson, and Henry A. Brockerhoff, of Bellefonte, and William K. Ulerich, of State College, will be among the guests.

The men to be honored at the affair, the first of its kind held for selectees from the Bellefonte Draft Board will leave for New Cumberland November 30 and December 1. All who pass examinations at Altoona will receive invitations. In case the men do not have transportation to Bellefonte for the program it is suggested that transportation be furnished by persons who are willing to do a service for the men who will enter the Army.

The committee in charge of the event is headed by Thomas Miller. Other members are George Miley and Henry Robertson.

Few Flaws In 2nd Air Drill

(Continued from page one)

Auxiliary police point out that in the event of an air raid drill, whether in daytime or at night, the motorist and all other persons in the car are required to leave it and seek shelter indoors immediately, after extinguishing all lights in the car, locking the ignition, and setting the hand brake. The car doors are not to be locked, however. If no shelter indoors is available the people are requested to lie flat on the ground. These regulations are from the latest ODC bulletin from state headquarters. Remaining in a car is a violation and in future drills will be considered as such, officials said.

In Bellefonte schools, pupils were kept in the halls and spent the half-hour of the air raid test in singing.

In State College school pupils were sent home on the preliminary warning. Penn State students were evacuated into previously designated shelters, emptying a number of buildings completely.

Lemont's warning siren was frozen and no signals could be given, but atmospheric conditions were such that the signals from State College and from Rockview penitentiary were audible there.

In the Bellefonte area some of the wardens were not permitted to go to their posts of duty because they had forgotten to carry identifying cards or armbands. Such identification is a "must" regulation, local defense officers said.

Admitted To Bar

(Continued from page one)

Prothonotary Bond C. White.

As his first act as a Centre county barrister, Captain Furst served in the capacity of District Attorney in presenting the guilty plea of a State College man.

Capt. Furst, graduate of the Dickinson School of Law and of Princeton University, entered the U. S. Army upon completing his education and received his captain's commission several months ago. He served for a time in the Army intelligence service, and now is in the Judge Advocate's Department which is in charge of legal matters for the Army.

Captain Furst, home on a furlough, will depart soon for New Orleans, La., where he will board a plane for the return trip to Panama.

Becomes Flying Cadet

Having completed pre-flight and primary training, Henry K. Weiser, Rebersburg, is now a basic flying cadet at the Bainbridge Army Air Field, Georgia. He received his pre-flight training at Maxwell Field, and his primary training at Carlstrom Field, Arcadia, Fla. Cadet Weiser, the son of Mr. and Mrs. David D. Weiser, is a graduate of Altoona High School. Before entering the Army Air Forces on February 2, 1942, he was employed by the Pennsylvania Railroad. The Bainbridge flying field, a unit of the vast Southeast Army Air Forces Training Center, is commanded by Colonel R. E. L. Choate, a veteran of 23 years Army experience.
