NAVY RECRUITING OFFICE IN BELLEFONTE CLOSED

Norval B. Davis, Yeomon First Class, USNR, announced today the closing of the Bellefonte Navy Recruiting station in the Postoffice building. Yeoman Davis explained that the closing was in response to government orders, and is being carried out as a general policy.

Before leaving Bellefonte Davis told the Centre Democrat that his new orders will mean the cessation of all Navy recruiting in Bellefonte, but those who have applications on file with him will be notified from Altoona when to appear for final examinations. For the present he will be stationed at the Navy Recruiting Station, Altoona, subject to further orders.

Parents should warn boys and girls about coasting on city streets or skating on thin ice.

PUBLIC SALE REGISTER

SATURDAY, FEB. 20—L. A. Heaton will offer at public sale on the Hettinger farm, 6 miles east of Centre Hall, along Brush Valley road, livestock and farm implements. Sale at 12 o'clock. E. M. Smith, auct. 1-tf

SATURDAY, FEB. 27—The John H. Beck estate will offer at public sale at the homestead in Snydertown, Pa., Walker township, a full line of household goods, including some antiques. Sale at 10 a. m. sharp. Terms cash. Lunch will be served by a church organization. E. M. Smith, auct. 4-tf

THURSDAY, MARCH 4—W. E. Yearick will offer at public sale on his farm, one-fourth mile east of McClane's Mill, along Cedar Run road, or about 6 miles west of Mill Hall, Clinton county, livestock, farm implements and some household goods. Sale at 10 a. m. Wise and Hubler, aucts.

FRIDAY, MARCH 5—I. E. Shultz will offer at public sale at his farm, 2 miles north of Millheim, along State road, in Spring Bank, a full line of farm stock and farm implements. Clean-up sale, at 10 a. m. Wise and Hubler, aucts. 53-tf

SATURDAY, MARCH 6—Earl Strouse will offer at public sale one mile west of Cedar Springs, along Jacksonville road, live stock and farming implements. Sale at 10:30 o'clock. E. E. Hubler, auct. 49-tf

MONDAY MARCH 8—James E. Wasson will offer at public sale on the Frank M. Fisher farm at Penn Hall, one mile east of Spring Mills, Pa., live stock and farm implements. Sale at 10 a. m. E. M. Smith, auct.

TUESDAY, MARCH 9—S. C. Yearick will offer at public sale at his farm, 2½ miles west of Madisonburg, Pa., a full line of farm implements and farm stock. Sale at 10 a. m. Wise and Hubler, aucts. 42-tf

WEDNESDAY, MARCH 10 — Mrs. Charles Lyons will offer at public sale on her farm, near the Fishing Creek school house, about four miles south of Bellefonte, livestock farm implements and some household goods. Clean-up sale. Sale at 9 a. m. E. M. Smith, auct. W. C. Smeltzer, clerk. 42-tf

WEDNESDAY MARCH 10—L. R. McGill will offer at public sale about two miles southeast of Salona on the road between Rote and Mackeyville, 30 head of cattle, a full line of farm machinery and some household goods. This is a clean-up sale. Sale at 10 a. m. Wise & Hubler, aucts.

THURSDAY, MARCH 11—Forrest J. Stover, 3 miles southeast of Aaronsburg, on the Meyer Lumber Company farm, will offer at public sale a full line of farming implements and farm stock; also some household goods. Clean-up sale. Wise & Hubler, aucts. 50-tf

THURSDAY, MARCH 11—George E. Long will offer at public sale on his farm in Howard borough, livestock and farm implements. Sale at 10 a. m. Roy Oyler, auct.

THURSDAY, MARCH 11—F. J. Stover will offer at public sale on his farm three miles southeast of Aaronsburg, Pa., livestock and farm implements. Sale at 10 a. m. Wise and Hubler, aucts.

THURSDAY, MARCH 11—Ralph P. Ritter will offer at public sale on the Dale farm, south of State College on Route 322, a full line of livestock, including 40 head of purebred Guernseys, farming implements and household goods. Sale at 9:30 a. m. E. M. Smith, auct.

FRIDAY, MARCH 12—James T. (Jim) Walizer will offer at public sale on the Porter farm located at Mackeyville, Pa., a full line of livestock, farm implements and some household goods. This is a clean-up sale. Sale at 9:30 a. m. E. E. Hubler, auct. C. E. Frazier, clerk

FRIDAY, MARCH 12 — N. S. Heckman will offer at public sale at his farm located one mile southeast of Spring Mills livestock, farm implements and some household goods. This is a clean-up sale. Sale at 12 o'clock noon. E. M. Smith, auct.

TUESDAY, MARCH 16—F. A. Esterline will offer at public sale on the C. M. Miller farm, near Millheim, Pa., livestock and farm implements. Sale at 10 o'clock. Wise & Hubler, aucts. 1-tf

SATURDAY, MARCH 13—Charles S. Stoner will offer at public sale at his farm at Tusseyville, on route 322, livestock, farming implements and household goods. Sale at 10:30 a. m. E. M. Smith, auct.

WEDNESDAY, MARCH 17—John I. Rudy will offer at public sale on the Kennedy farm, one mile west of Centre Hall, Pa., along the Brush Valley road, livestock and farm implements. Sale at 10:30 a. m. E. M. Smith, auct. This is a clean up sale. 48-tf

THURSDAY, MARCH 18—Lewis Fetzer will offer at public sale on the Shugerts farm located at the Fish Hatchery in Benner township, near Pleasant Gap, 8 horses, 14 milch cows, hogs and a full and complete line of farming implements. This is a clean-up sale. Sale at 9:30 a. m. A detailed description will appear in these columns later. Mayes & Stover, aucts.

FRIDAY, MARCH 19—H. L. Musick will offer at public sale on the Harris Stover farm 3½ miles southwest of Millheim, livestock, farm implements and household goods. Sale at 10 o'clock. Mayes and Stover, aucts. 53-tf

FRIDAY, MARCH 19—Andrew Rockey will offer at public sale on the Clevenstine farm below Zion, along the road leading to Lock Haven, a number of purebred cattle and some farming implements. Sale at 11 a. m. E. M. Smith, auct.

SATURDAY, MARCH 20—B. C. Dotterer will offer at public sale on his farm near Lamar, Pa., livestock and farm implements.

SATURDAY, MARCH 20 — Epley R. Gentzel will offer at public sale at his farm in the village of Zion, a span of mules, cows, and a full line of farm equipment. This is a clean-up sale. Sale at 12:30 p. m. Detailed description will appear in these columns later. Mayes and Stover, aucts.

TUESDAY, MARCH 23—C. E. Wells will offer at public sale on his farm at Lamar, Pa., live stock and farm implements. This is a clean-up sale. 50-tf

WEDNESDAY, MARCH 24—W. Steele Patterson will offer at public sale on the Wilson farm, 2½ miles east of Tyrone, along route 550, livestock, farm implements and some household goods. Sale at 9:30. Terms made known on day of sale. E. M. Smith, auct. W. C. Morrow, clerk. 53-tf

WEDNES. MARCH 24—W. L. Weaver will offer at public sale at the Reformed church farm located between Hecla Park and Hublersburg, livestock, farm implements and household goods. This is a clean-up sale. Sale at 10:30. Mayes and Stover, aucts. 49-tf

WEDNESDAY, MARCH 24—R. F. Neill will offer at public sale on the Swartz farm located three miles west of Potters Mills, and one-half mile south of Tusseyville, full line of live stock and farm implements. This is a clean-up sale. Sale at 10 o'clock. E. E. Hubler, auct. 2-tf

THURSDAY, MARCH 25—William C. Hoffman will offer at public sale on the William Hoffman estate farm, two miles east of Pleasant Gap, livestock, farming implements and household goods. Sale at 11 a. m. E. M. Smith, auct. W. C. Smeltzer and Lee Smeltzer, clerks.

Thursday, February 4

SAMUEL B. WASSON

will offer at public sale on the Alwourth Dairy Farm, 4 miles southwest of State College, on the highway leading from Boalsburg to Pine Grove Mills, the following described personal property:

LIVESTOCK — 11 head of horses and mules, consisting of bay team of mares, weight 1600 each, a good work team; bay team, mare and gelding, 1500 each, a real farm team that will give satisfaction; team gray mules, weight 2950 pounds, a good team to work sound; team of mules, weight 2550, good handy pair of mules; single mule weighing 1600 pounds; 45 head of registered and high grade Guernsey and Holstein cattle, consisting of 26 milch cows, 12 of them registered Guernseys, 17 fresh since November, 5 fresh by time of sale, balance springers; 7 Guernsey heifers, springers; 9 head of young cattle, Guernseys 3 to 8 months old; 2 registered Holstein cows; 1 registered Guernsey bull, 2 years old; 1 Guernsey bull, 1½ years old, eligible to registry.

Also 26 head of Dorset ewes; HOGS—Poland China sow; 6 Hampshire pigs from 40 to 50 pounds; Hampshire sow; 6 purebred Hampshire gilts, weighing 100 to 125 pounds; 2 purebred sows, farrowing April 1.

100 laying hens, consisting of 50 White Leghorns and the balance New Hampshire Reds.

FARMING MACHINERY—(All machinery will be sold in the morning). Allis Chalmers tractor on rubber, in very good condition; John Deere 3-bottom disk plow, practically new; Allis Chalmers 12-inch 2-bottom tractor plow; John Deere corn binder in good condition; 6-roll New Idea corn husker, like new; 7-foot McCormick-Deering grain binder, practically new; 7-foot John Deere grain binder, good condition; John Deere hay loader with drop web; John Deere side-delivery rake, practically new; McCormick 5-foot mower; 5-foot Moline mower; 10-hoe disk Superior grain drill, good condition; Superior 20-disk clover seed sower, practically new; 4-inch tire Conklin wagon in good shape; 4-inch tire steel wheel wagon; Kramer wagon with bed in good condition; 2 sets of good hay ladders; 2 two-horse cultivators; 4 18-tooth Perry harrows in good condition; spike harrow; Blizzard ensilage cutter with 13-inch throat; good condition; windmill; milk wagon; DeLaval milking machine, practically new, 2-unit; Esso 4-can milk cooler, electric, practically new; 10 new milk cans; International potato planter, practically new; International potato raiser in good condition; 8-foot tractor disk harrow; Superior corn planter with fertilizer attachment; 2 Syracuse steel-beam walking plows; 2 Syracuse metal-beam walking plows, 20-78; New Idea manure spreader in A-1 shape; bobsled; hog hangers; harness for 6 head of horses, complete; 2 sets good tug harness; set tug harness, fair shape; collars, bridles, etc.; pair of steelyards; oil brooder stove, 1000-chick capacity, good as new; coal oil stove, with oven; shovels, forks, log chains, butt chains.

Also lot of household goods.

Terms of Sale: Cash. Nothing to be removed until settled for. Lunch will be served by the women of the Lemont Presbyterian Church.

This is a clean-up sale. Sale begins at 9:30 a. m. sharp.

E. M. Smith, auctioneer, State College, Pa. Phone 4144.

Foster Musser, clerk. x4

Saturday, March 6

IDA M. WEAVER, EVELYN M. WEAVER, and THE FIRST NATIONAL BANK OF MIDDLEBURG

will offer at public sale at 728 South Pugh Street, State College, Pennsylvania, at 12:30 o'clock p. m., the following personal property:

HOUSEHOLD GOODS—Upright piano and bench; rocking chairs, two davenports; roll-top desk; swivel chair; two student tables; kerosene room heater; two double deck beds; iron and metal beds; cot; two gas ranges with oven; one two-burner gas plate, one three-burner gas plate; kerosene hot water heater; floor lamps; four ice refrigerators; four dressers; extension table and chairs; sideboard; clothes rack; three 9x12 rugs; two 6x9 rugs; wash stand; Majestic combination radio; Chrysler sedan car; and many other items of personal property too numerous to mention.

REAL ESTATE—A thirteen-room brick dwelling house located at 728 South Pugh street, State College, Pennsylvania, all modern conveniences; new furnace; house in good state of repair.

Four vacant lots fronting on East Beaver Avenue, known as lots Nos. 40, 61, 62, and 70, on plan of lots known as Beaver lawn.

E. M. Smith, auct. Harold D. Albright, clerk.

A WEEK OF THE WAR

In 15 months of Lend-Lease aid to Russia, the U. S. has shipped about 2,600 planes, 3,200 tanks and 81,000 military motor vehicles for Russian use against the Axis. The United Kingdom, also on a lend-lease basis, has supplied Russia with more than 2,600 tanks and more than 2,000 planes.

Reporting on United Nations aid to the Soviet Union, Lend-Lease Administrator Stettinius said we have shiuued more planes and tanks to the U. S. S. R. than to any other country since the beginning of the Lend-Lease program, and since sufficent supplies of food are as necessary to Soviet Army success as are planes and tanks, we are now sending more food to Russia than to the United Kingdom. Although the Lend-Lease program began in March of 1941, aid to Russia did not begin until October, 1941. After a slow start, shipments began to increase and are still increasing in spite of shipping shortages and enemy attacks along the supply routes.

The weapons that got through from the U. S. to Russia were only a trickle compared to Russian production, but at the same time American machines and parts, sent to replace vital elements lost when Russian industries moved to safety behind the Urals, were helping Russian factories to keep operating.

Thus American products have had a part in the fight these courageous people are waging against our common enemies—in the great drive westward, the battles that have destroyed quantities of Axis equipment and supplies and killed more Germans than all the United Nations put together.

But, the OWI points out, Lend-Lease is doing a job all over the world. The $7,496,000,000 in goods transferred and services rendered by the U. S. up to the end of last November strengthened the fronts from Russia to Australia, Africa, for example, has proved that Lend-Lease and fighting the war are the same thing. The supplies, installations and equipment brought in with Lend-Lease funds, the ports built up along the Persian Gulf and the Red Sea, the airfields, docks, warehouses, assembly and repair shops, pipelines, communications and railroads built with Lend-Lease aid—these are the facilities and bases now being used by U. S. forces to fight the war in Tunisia, in the Middle East, and all the way to China.

Little War Labor Boards.

Under a sweeping decentralization program, the National War Labor Board is establishing 12 regional War Labor Boards, with full authority to make final decisions in labor disputes and in voluntary wage and salary adjustment cases. Each of the regional boards will be set up on the NWLB tripartite system of public, employer and labor representatives. William Davis, chairman of the NWLB, said that under this plan wage stabilization will be done primarily in the field, with the NWLB in Washington sitting as a sort of supreme court selecting its own cases for decision by orders for review. Only policy defining cases will be brought to the National Board.

In October, 1941, the NWLB was given the task of stabilizing wages and salaries, of assuming jurisdiction over the wage and salary rates of roughly 31,000,000 employees of some 300,000 non-agricultural business enterprises, ranging from restaurants to huge war factories.

The Board found that between January, 1941, and May, 1942, when the President announced his seven-point anti-inflation program, the cost of living had gone up 15 percent. During that time, about two-thirds of all manufacturing wages had also risen at least 15 per cent. Therefore, in ruling on wage increases, the Board felt that those whose wages had alread risen high enough to cover the cost of living increase should not be granted further general increases, but that all others were entitled to have their average straight-time rates brought up to a point 15 per cent above the January 1941 level.

The War Front.

Japanese pockets of resistance in the Sanananda area of Papuan New Guinea—all that is left of the Japanese Papuan army of 15,000 shock troops—are rapidly dissolving before American and Australian troops.

The American position on Guadalcanal has improved much in the past week, since the capture by U. S. troops of Mount Austen, last Japanese position dominating Henderson Field, and the United Nations' position in the Pacific war is now more favorable than at any time since the Marines first landed on Guadalcanal in August, 1942. Incidentally, although for several months the Marines have been operating jointly with Army troops in the Solomons area, most of the Marines have not been replaced by Army personnel. This week Maj. Gen. Alexander M. Patch, U. S. Army, took command of American forces on Guadalcanal, relieving Maj. Gen. Alexander A. Vandergrift, U. S. Marine Corps.

During the five-day period of January 13 to 17 inclusive, our forces killed over 1,000 Japanese in various actions on Guadalcanal. Even in the air, Japanese strength in the Solomons is growing steadily weaker. Maj. Gen. Millard Harmon, commander of Allied air and ground troops in New Zealand, pointing to the enemy's dwindling supplies of all categories of combat aircraft and lack of pilots, said the Japanese are definitely short in meeting the requirements of their air forces.

From North Africa the Middle Eastern Command, reporting the progress of the British Eighth Army toward and into Tripoli, said American and British planes are keeping up their relentless attacks against Tripoli and against Castel Benito airdrome. The raids on Tripoli harbor have been aimed at facilities the Axis might try to use for evacuation. Air activity in Tunisia continues.

Size of Armed Forces.

According to Under Secretary of War Patterson, the size of the armed forces is a miltiary problem that should be left to the military leaders to work out. Citing President Roosevelt's figure of 7½ million in the Army by 1944 and estimates of more than 2 million in the Navy and Coast Guard, Mr. Patterson said 10 million men in the Army and Navy is less than one out of every 13 of our population. Germany has one out of every 10 under arms, Britain has one out of every 10, and Russia's proportion is fully as high. "To say that we Americans cannot maintain one in thirteen is . . . a note of defeatism. We cannot leave the hard work of fighting to the British, the Russians and the Chinese. And a war like this one cannot befought, certainly it cannot be won, without an Army and a Navy of a size adequate to the task."

Agriculture.

To help farmers increase production in 1943, Agriculture Secretary Wickard has made available through the Food Production Administration a new source of credit for the production of essential wartime food and fiber. Between $200,000,000 and $225,000,000 of additional funds will become immediately available at the county level, and the loans (short-time loans at five per cent interest), which will be made through the Regional Agricultural Credit Corporation, will be limited only by the amount needed to do the production job.

Cost of Food.

Although admitting that the farmer's share of the consumer's food dollar is now larger than it has been in many years, Mr. Wickard said the retail cost of food now represents the smallest share on record of the industrial worker's income. According to data available for the first 11 months of 1942, the retail cost of food for the average industrial worker's family amounted to 28 per cent of the worker's earnings, a record low in relation to income, while the farmer's share of the consumer's food dollar averaged 53 per cent, the largest share since 1929.

Farm Manpower.

The War Manpower Commission's Selective Service Bureau has liberalized the requirements for agricultural deferments, expected to keep many additional workers on the farms. The revised guide—approved by the Agriculture Department, the WMC, the farm organizations and other groups—provides that a local draft board may be justified in some cases in deferring an agricultural worker producing as little as eight war units of essential products. While emphasizing that the national objective is still a minimum per-worker production of 16 or more war units, the new guide no longer considers 16 units a standard.

HEALTH AND BEAUTY

YOU MUST CARE FOR BEAUTY No. 1

When you see an attractive woman who is middle aged, with clear skin, bright eyes, glistening, glossy hair, a neat, well proportioned figure, a springy step and a merry laugh, you may come to the following conclusion. Here is a human being whose daily habits of eating, sleeping, exercising, and thinking are worthy of investigation, perhaps of emulating.

It goes without saying that the lady in question enjoys good health, otherwise she would not present such a pleasing front to the world, nor would she feel so well nor enjoy life as she evidently does.

Now, you who are seekers after pulchritude, lend me your ears and give heed to my words. That is if you want to achieve the ultimate in attractiveness of which you are capable. And who is there among the younger generation, and older ones as well, who does not crave glamour?

Old Dame Nature called in all of the beauty creating fairies at the birth of some of her favored children. They bestowed upon the little darlings such beauty that even a Cinderella clothed in rags would be chosen by Prince Charming.

But alas, those who are naturally beautiful will lose their looks if they fail to care for their health. The ugly duckling sometimes develops into the lovely, graceful swan through following the road to health. This does not apply to the body only, but includes mental and spiritual health.

No face can be really beautiful if the possessor is shallow-brained, frivolous, and well-nigh destitute of the virtues of love, kindness, generosity, truth, and unselfishness. These are the attributes that create lasting beauty. The possessors of these virtues grow lovelier with the years. They possess a beauty which "age cannot wither nor custom stale." Long after youth is only a memory, they are lovely still.

And if you would be beautiful you must enjoy good health. You cannot do this unless you lay the foundation by good habits; one of the most important of which is correct eating. Paints and powders, if artistically used, may camouflage a multitude of sins, but if your skin is muddy, your eyes and hair dull and lusterless, they cannot give the illusion of being what they are not.

So begin your beauty building program on a sure foundation. You must be familiar with the fundamental facts about eating in order to select the proper diet.

You need nourishment rich in minerals and vitamins. These foods are potential beauty-builders "because they regulate and coordinate the work of body cells, and in the case of minerals, also supply the actual material for white teeth, strong bones, and red blood." True, you cannot see the minerals or the vitamins but they are in the foods upon which you must depend for a sound and beautiful body.

The farm labor situation may require the mobilization of school children to gather the crops. Why not? Food is essential to victory.

FARM AND HOME

Hens Must Eat Calcium For Sound Eggs Shells

If hens are to produce eggs with sound shells, they must consume enough calcium-bearing raw materials. This calcium should be in a form which can be converted readily by the body into egg shells.

Too often the hoppers which contain the raw material for egg shells are too small and, as a result, the supply is quickly exhausted while replenishment may be neglected, or litter and dust accumulate on the surface, reminds County Agent R. C. Blaney. Sometimes the hoppers are located in a poorly lighted area of the pen. Then, too, hens like the coarser particles and fail to eat enough if the surface is covered with powdery shell-making material.

The supply should be replenished and stirred frequently. Occasionally small quantities can be scattered on the mash. Some poultrymen have fed additional shell materials, such as oyster shell or crushed limestone, in the scratch mixture at the rate of 5 pounds to 10 pounds of grain.

Sometimes poor shell structure is due to inadequate intake of vitamin D. This vitamin helps the body assimilate calcium and so has a part to play in shell structure as well. Extra quantities of vitamin D can be supplied through the regular dry mash and in daily supplies of wet mashes. When feeding oils are used, they also can be mixed with scratch grain that is hopper-fed.

There are times when the shell gland becomes fatigued. This occurs principally, however, with older fowls completing their year's production cycle. Occasionally, trouble is experienced in a flock suffering from chronic coccidiosis. Sound management then consists of eliminating the cause of the disturbance.

* * *

Clean Milk Production Aided By Cow Grooming

Clean milk is produced by cows that are carefully groomed. Part of the care of the cow includes clipping, says County Agent R. C. Blaney.

In clipping cows, the hair should be clipped against the grain. The flanks, the belly, and the udder should be clipped, starting at the tail and working diagonally down across to a point extending about a foot in front of the udder.

If the clippers are kept clean and frequently oiled, considerable time will be saved. When using clippers many farmers frequently immerse the blade in an oil-and-kerosene mixture.

Because the clipped areas contain no long hairs, they can be quite easily brushed and kept clean. Use a chlorine solution for washing the flanks, bellies, and udders. Each cow should be washed just before she is to be milked.

Through carelessness, disease may be introduced into herds by use of clippers previously used on infected herds and not properly sterilized. This emphasizes the need of careful sterilization of the clippers, cords, and hands and shoes of the man who does the clipping. Especially in the case of custom clipping, the herd owner should be sure that no infectious disease is being brought into his herd.

Tips to Satisfy Today's Coffee Drinkers

Many suggestions have been offered on how to get the most from the one pound of coffee allowed an adult every five weeks. Saving the grounds, drying and reusing them is recommended by some persons. Others prefer to add some fresh coffee to the used grounds. Neither method will produce coffee with the rich flavor and aroma we have been accustomed to in the past.

Miss Helen S. Butler, home economics extension representative of Centre county, says there are some things which every woman can do at home to help give coffee of good quality. These are her suggestions:

1. Buy coffee in small amounts and more frequently.
2. Keep coffee in a tightly covered container.
3. Keep coffee in the refrigerator or other equally cool place.
4. Keep the coffee pot immaculately clean.
5. Have coffee ground to suit the pot you use. Finely ground coffee goes further than coarsely ground coffee but it does not keep as well.
6. Measure coffee accurately.
7. Do not boil coffee.
8. Serve the coffee as soon as it is made.
9. Make only the exact amount you want to use. Save leftover coffee to use in coffee desserts.
10. Chickory, if available, may be added in the proportion of one part chickory to four parts coffee. However, more chickory than this will make the coffee bitter.

* * *

Start Now to Care For Kitchen Knives

Priorities on steel mean that fewer knives and small kitchen gadgets will be available for the duration, so it behooves every homemaker to take good care of the equipment she now has, reminds Miss Helen S. Butler, home economics extension representative of Centre county.

Knives are among the most used kitchen equipment. To perform their work most successfully, they must be sharp and kept in the most convenient places. A knife rack near the sink and one handy to the work table not only keeps the knives sharp but also saves time hunting for the right knife.

Washing and sharpening knives also take their toll. Always avoid putting sharp knives into a pan with other dishes. Keeping knives too long in water spoils some handles.

Proper sharpening will lengthen the life of a knife blade. The skillful use of a sharpening steel and stone is the best method. The disk knife sharpener gives good results, but in the grinding process a tiny rim of the dulled edge gets turned over unless the steel blade is very hard. It is a quick way to get a sharp edge, but is not recommended when knives are scarce.

Dairy Herd Group Hold Dinner Here

(Continued from page one)

average production per cow was 9,712 pounds of milk and 369.3 pounds of butterfat. This average places our Centre county dairy groups in a tie with Lancaster county for third high average production for D. H. I. A. members among county organizations in the State of Pennsylvania.

C. R. Gearhart, Dairy Extension Specialist of State College, in charge of D. H. I. A. work, pointed out the fact that these improvement associations were started in Centre county in 1924. The first year 250 cows were tested with an average production of 6,257 pounds of milk and 243.7 pounds of butterfat. This increase in production, he stated, shows the improvement in our dairy herds as a result of herd improvement association work.

Ivan E. Parkin, Dairy Extension Specialist of State College, discussed mastitis and its effects on the production of clean milk. The speaker pointed out the fact that the control of mastitis is a major problem among our dairymen. He also stated that cleanliness is one of the important things to keep in mind in eliminating this trouble.

The Pennsylvania Dairymen's Association recognizes members who have outstanding production. Ribbons and certificates were awarded to all herds having an average of over 300 pounds of butterfat. The following herds have produced over 400 pounds of butterfat:

Owner's Name and Address	No. Cows	Lbs. Milk	Lbs. Fat
Western Penitentiary, Bellefonte	87.14	18052	627.1
Ellis Rearick, Millheim	13.52	15054	523.6

Joins Association

Lewis W. Baylets, Bellefonte, has recently been granted membership in the largest purebred dairy cattle organization in the world, The Holstein-Friesian Association of America. By a unanimous vote of the directors, Mr. Baylets was elected to receive the advantages and privileges afforded a member of this association, which was established in 1885 for the purpose of fostering the continual advancement and improvement of the Holstein breed of dairy cattle.

Johnson, Henry W. McKinley, George P. Curtin, James P. Curtin, Earle R. Aikey, Walter E. Butler, Blair R. Markle, Clarence Hockenberry.

CAN STUDY GARDENING IN PENN STATE COURSE

Home gardeners who want to brush up on their practices can pick up some valuable points from a correspondence course offered free by the Pennsylvania State College. This course has been revised recently by J. M. Huffington, extension specialist, to fill the particular needs of victory gardeners.

W. R. White, in charge of correspondence courses in the School of Agriculture, says that there is time to complete this course before work on the soil begins and he explains that vegetable gardening is one way that nearly everyone can help to produce the food which will be so much needed this year. Application blanks, as well as a catalog of all the agricultural correspondence courses, can be obtained.

The per family stake in government war financing in this country now amounts to over $800, including $302 in war bonds and baby bonds directly owned, $284 through government bond holdings of the life insurance companies, and around $220 owned indirectly through savings deposits.

Legal Notices

EXECUTRIX'S NOTICE.

In the matter of the estate of Carrie H. Hall, late of Bellefonte Borough, deceased.

Letters testamentary on the above estate having been granted to the undersigned, all persons indebted to the said estate are requested to make immediate payment, and those having claims or demands against said estate to present the same without delay for settlement to EMMA C. HOY Executrix, 63 A Street, Niagara Falls, N. Y. Johnston and Johnston, attorneys for estate. x7

COURT PROCLAMATION

WHEREAS the Honorable Ivan Walker, President Judge of the Court of Common Pleas of the 49th Judicial District consisting of the County of Centre, having issued his precept bearing date of the 6th day of January 1943, to me directed for holding a Court of Common Pleas, Court of Quarter Session of the Peace, Oyer and Terminer and General Jail Delivery in Bellefonte, for the County of Centre.

And the Grand Jury will convene on Monday, the 8th day of February at 10 o'clock a. m., and the Traverse Jury called for the regular meeting of Quarter Session Court will convene on the 4th Monday in February, at 10 o'clock a. m., being February 22nd, and the Traverse Jury for the second week of Court will appear on the 1st Monday in March, at 10 o'clock a. m., being March 1st, 1943.

Notice is hereby given to the Coroner, Justice of the Peace, Alderman and such Constables (that may have business in their respective districts requiring to report to the Honorable Court) that they may be then and there in their proper person at the time specified above, with their records, inquisitions, examinations, and their own remembrance to do those things to their offices appertaining to be done and those who are bound in recognizance to prosecute against the prisoners that are and shall be in the Jail in Centre County, be then and there to prosecute them as shall be just.

Given under my hand in Bellefonte, the 8th day of January in the year of our Lord, 1943, and the 167th year of the Independence of the United States of America.

EDWARD R. MILLER,
Sheriff.

All time given is Eastern War Time. x5
