A Stong test of two of Evans & WATSON'S Salamander Safes—Late Light Street Fire. Messers. E. & T. Fairbanks & Co. Gentlemen! We take much pleasure in recommending your Salamander Safes to merchants and others who may desire to purchase with a view to the preservation of their books and other valuables. The Safe we purchased of you in July last, and manufactured by Evans & Watson, of Philadelphia, remained in the fire at the burning of our store until the entire stock was consumed.

The heat was intense, as you may suppose, as there was about seventy barrels of liquor in the store, on the next floor over the safe, besides some seventy thousand pounds of rags, rope, and other combustible matter. We had the safe opened after the fire had ceased, and found our books and papers perfectly preserved.

Please get us up another of your Safes, of the same size, for our future use, as soon as possible, and oblige, R. & W. W. ISAAKS,

No. 116 Light street Wharf.

Baltimore, May 17, 1854.

Messrs. E & T. Fairbanks & Co.—Gentlemen: It gives me much pleasure to bear testimony to the excellency of your Salamander Safes. Caution! Caution!!—Thomas Armitage's Lightning Rods. Beware of Impostors and Swindlers. In order to prevent a repetition of the frauds so extensively carried on during the last two years, by a class of scoundrels who travelled over the country, and presented the inexperienced at every house, as the agents of Armitage, with certificates of agency, I now give notice that my agents carry with them a certificate of agency, authorizing them to act as my agents, legally executed and acknowledged before Alderman Henry Simpson, of Philadelphia; they have also my name and place of business on their wagons. I believe they all to be strictly honest, and fully acquainted with the business of putting up Lightning Rods, when they will do it as low a price as they can be obtained at the factory. As many schemes have been resorted to, to defraud myself and the public purchasers should be on their guard; thousands have been grossly deceived by purchasing useless articles in the shape of Lightning Rods, having pewter, lead, copper, zinc and iron points, either, or all of which are good for nothing. My Electro Magnet Lightning rods, have been examined by many of the most scientific men in the world, who have pronounced them to be the only rods that they have ever seen, which are calculated to save lives and property from destruction by lightning—among these are Professors Henry M'Murtrie, James M'Clintock, Walter R. Johnson, of the U. S. Patent Office, E. J. Carr, Dr. T. E. Waller and many others who recommend them in the highest terms of approbation.

All orders wholesale and retail, will meet with prompt attention. Spire rods and scrolls made to order. Cardinal points and all kinds of weather vanes, for sale cheap.

Silver's Plastic Paints, Cheap. Durable and Protective Weather and Fire Proof. This Paint will stand any climate, without crack or blister hardens by exposure, thus making in time an enamel of stone, protecting wood from decay, and Iron and other metals from rust and corrosion.

The Paint differs from the so-called Mineral Paints of the day, which are principally Ochres and Clays colored, and are entirely worthless.

Silver's Plastic Paints are purely Metalic, containing no Alumin or Clay.

They are levigated finely, mix readily with Linseed Oil, (without the trouble of grinding,) and flow under the brush as freely as the best White Lead.

These Paints excel all others in body or covering properties, one pound of which will cover as much surface, as two pounds of White Lead.

There are four natural colors, viz: Black or Slate, Brown, Olive and Chocolate.

Directions.—This Paint flows readily under the brush and its covering property is increased by using it mixed as thickly as possible with pure Linseed Oil; as the Paint is the lasting or protecting body and the Oil simply the medium or agent in spreading it.

We annex copies of two letters, one from the President of the Philadelphia and Reading Railroad Co., the other from a Gentleman, a well known resident of Augusta, Ga.

Office of the Phila. and Reading Railroad Co.
Philadelphia, May 3, 1852.

J. S. SILVER, Esq.

Dear Sir: We have used your "Plastic Paints" for more than a year, and for Painting Bridges, Depots, &c., &c., we have found it quite equal to any paint we have used. In fact, we now give it a preference over all others we have tried for such purposes. Yours Respectfully,

(Signed,) JOHN TUCKER, President.

Augusta, Ga., September 29, 1852.

Steam Planing Mills.

Dear Sir: You ask me for my opinion of "Silver's Mineral Paints," which you have put on my Machine Shop and Planing Mill. I give you with pleasure my full and hearty recommendation of it as a preventive of Fire communicating from Chimneys, or from adjoining buildings. The Paint which you put on my roofs, has now become as hard as slate, and I feel as secure from Fire, in this direction, as is possible. A few weeks after the roofs had been painted, I made an experiment on two or three shingles by placing them in the furnace under the boilers; the result was, that the portion uncovered was entirly consumed, while the painted part was apparently sound, though upon examination the wood was found to be charred; the Paint however was firm and little blistered. I consider this as severe a test as your Paint can be put to, and under the circumstances I do not hesitate to commend it as an invaluable preventive against Fire.

Respectfully, &c.

(Signed,) AMBROSE SPENCER.
