# HOME MATTERS.

Destructive Fire.—A fire broke out yesterday afternoon in Mr. Jacob Hays' carpenter shop, on an alley near Chatham street, which at once spread to the buildings around. Owing to the dryness of the roofs, the flames ran from building to building with great rapidity, so that before any engine could possibly arrive, they were under great headway. Fourteen houses altogether were either wholly destroyed, or very much injured, before the fire was extinguished, and the furniture in them was consumed, or so much injured as to render it almost useless.

Mr. Francis Stevenson lost a two story brick house on the corner of Wylie and Chatham streets, and two frame houses on each side. There was some insurance on this property, but not enough to cover the loss.

Mr. McGuire, undertaker, lost two frame houses on Wylie street, together with a work shop in the rear. Insurance, $300.

A very valuable horse belonging to this gentleman, was burned in a stable near his work-shop.

The fine three story brick building, on Wylie street, occupied by Th. Umbstaetter, Esq., and owned by Mr. Jacob Hays, was much injured, though the loss is fully covered by insurance.—Mr. U.'s furniture was nearly destroyed but the loss is covered by insurance.

A three story brick building on Wylie street, next to Mr. Umbstaetter's house, occupied as a boarding house by Mr. Mustin, and owned by Mr. Lafferty, a bricklayer, was very much injured, and we understand that the policy of insurance on it had recently expired. Mr. Mustin's boarders lost nearly all their baggage, and the furniture was either burned, or broken to pieces.

Two small brick houses in the rear of Mr. Lafferty's property, belonging to Mr. John Phillips, were much injured, but were insured to their full value.

Mr. Hay's carpenter shop was consumed.—There were a large number of tools in it, which were also lost. No insurance on building or contents. This gentleman also lost two small frame houses on Chatham street, which were insured for two hundred and fifty dollars each.—Two brick dwellings, on the same street, were also somewhat injured, though the loss is fully covered.

A frame house on Wiley street, belonging to Mr. Barnes, was destroyed. Insured for three hundred dollars. Mr. Robinson also lost a frame house on Wiley street.

The buildings on the opposite side of Wiley street were frequently on fire, and were only saved by the strenuous exertions of the firemen. The total loss is estimated at about twenty thousand dollars. It is said that the fire originated from a pot of glue, which was on a stove in Mr. Hay's carpenter shop, boiling over.

DISTRICT COURT.

Monday, May 26.

Before the Honorable Walter H. Lowry.

James McCracken vs. Joseph D. Abell. No. 274 April term 1851. On motion of Mitchell & Palmer, attorneys for Joseph D. Abell, the auditor in this case is authorised to investigate and report upon the exceptions filed by the defendant.

Elizabeth Craig vs. Joseph Craig. No. 122 July 1850, list No. 6. Verdict for plaintiff two hundred and thirty-one dollars.

George A. Bayard and John Arthurs, surviving assignees of McClurg, Wade & Co vs. Alexander McClurg. No 220, November 1849. Case not concluded.

Mayor, Aldermen, and citizens of Allegheny for use of George S. Selden vs. John McGill, No. 635, April 1851. No 108 July 1851, Ex. On motion of William M. Shinn, defendant has leave to pay into Court the sum of $650, to abide the decision of the Court. Proceedings stayed in the meantime.

Legal Decision.—We learn from the Despatch that a man named Oliphant, prosecuted John Robinson, of the Robin Hood House, Ohio street, Allegheny, last Monday, for selling him some liquor on the previous day. The case came before Alderman Hays, of the Third Ward, when Archibald Montgomery, Esq., appeared as counsel for the defence, attacking the constitutionality of the law upon which the prosecution was based, in a luminous argument—after which the magistrate *decided the law unconstitutional*, and dismissed the case. In the afternoon, Oliphant prosecuted Mr. R. and also —— Hartmeyer, (Fourth Ward, above the Aqueduct,) before Mayor Fleming, who fined them fifty dollars each—upon which they gave bail for an appeal.

Accident.—A little child, of about five years of age, the son of Mr. Steer, of Washington Street, fell from the porch of the house in which his father resides, yesterday afternoon, while the fire was raging, and was so severely injured by falling on his head, as to bring on a concussion of the brain. He is now very dangerously ill.

Arrival of the Canada.—The news by the steamer Canada, which arrived at Halifax last evening, will be published, simultaneously, this morning, in Halifax, Boston, New York, Philadelphia, Baltimore, Pittsburgh, Cincinnati, Louisville and St. Louis, being forwarded to those points by O'Reilly's telegraph line.

The Riot on the Sabbath.—A man named Johnson was arrested and taken before the Mayor, yesterday, charged with being concerned in the riot on Prospect Street, last Sunday afternoon. He was admitted to bail. Three women were also taken into custody, but were discharged on payment of a trifling fine and the costs of prosecution. We learn that a number of warrants have been issued for the arrest of other parties implicated in the disturbance.

Fell in a Fit.—A stranger, named John Jackson, late of Cincinnati, and on his way to New Jersey, fell in a fit, opposite the office of the Morning Post, yesterday. He was taken into Mr. Joshua Robinson's store, where every attention was paid to him. We understand that he had been robbed, coming up the river on a steamboat, of all he possessed, and the anxiety which he experienced, is supposed to have brought on the illness which superinduced the fit.

Episcopal Convention.—The annual Convention of the Protestantant Episcopal Church of the State of Pennsylvania convened in this city, on Tuesday afternoon, at St. Luke's Church; Bishop Potter presided.

The Convention organized, and proceeded with the usual preliminary business.

Yesterday morning the customary sermon was preached.

After the religious services, the Convention went into regular session.

The proceedings of this intelligent, learned and pious body are always watched with much interest, and its sessions largely attended.—*North Amer.*

Susquehanna Railroad Convention.—We learn from a gentleman of the Baltimore delegation, who returned in the cars last night, that the Convention which was held at Sunbury, Pa., on Tuesday last, for the purpose of furthering the construction of the Susquehanna Railroad, was very largely attended, and the evidences of enthusiasm and of a hearty willingness to cooperate in this most important improvement were of a highly gratifying character.

Delegations were in attendance from all parts of the State through which the railroad will pass as far as Williamsport, and on the part of all the greatest anxiety was exhibited to adopt such measures as would ensure the construction of the road with the least possible delay. The Hon. Simon Cameron was elected President of the Convention, and a large number of Vice Presidents appointed. Gen. Packer was present and made one of his eloquent, practicable and forcible speeches. The Convention was also addressed by the Hon. J. P. Kennedy, Chairman of the Baltimore delegation, and by other prominent and distinguished gentlemen.

We were unable to obtain, last night, a copy of the resolutions adopted; but understand that they are of the most practical character, and look to the immediate adoption of measures for securing the necessary stock, and the commencement of the work.

The gentlemen composing the delegation from Baltimore, as well as the President and Directors of the Baltimore and Susquehanna Railroad, who accompanied them, were received with the utmost cordiality and good feeling, and every attention and hospitality extended to them. The delegation, we understand, intend preparing a report of their proceedings, and those of the Convention, for the consideration of their fellow citizens.—*Balt. Amer.*

Mormons in St. Louis.—The St. Louis Republican of the 11th inst., states that two hundred Mormons left that city, on the day previous, for Salt Lake, via. Council Bluffs. One-fourth of the party are from the Eastern States, and the remainder from England and Wales. The Republican also states that the numerical strength of the Mormons in that city, is much greater than would at first be imagined. It is the great thoroughfare for those moving westward. There are now in the city about three thousand English Mormons. They have no church, but attend divine service twice each day, at Concert Hall; and they celebrate their feasts, and perform their devotional duties, with the same regularity, if not in the same style, as their brethren in the Valley. They have also theatrical performances, especially for members of their own persuasion. The spring Mormon emigration for this year will soon close. The last ship load, consisting of several hundreds, started from Liverpool some thirty or thirty-five days since, and is expected to arrive daily.

There are now in England and Wales from 80,000 to 100,000 persons of the Mormon persuasion, who are patiently biding their chance for a voyage to the Mormon home in Salt Lake Valley. They are aided in their efforts by well organized societies and agencies. They are mostly persons of limited means, however, and twenty years hence, probably they will not all have reached our country. The in-pouring during the coming fall, will probably be unusually large.

POLITICAL INTELLIGENCE—ENGLAND.

In the House of Commons, the Ecclestical Tythes Bill was postponed to the 19th inst.

The Liverpool Journal says that in a week or two, the Ministers will resign, and give place to a new Ministry, with Lord Stanley at their head. The Government officials expect this result so soon as Mr. Ballies brings forward his motion in regard to the Ceylon question; as it is not doubted but that the present Ministry will be left in a hopeless minority.

THE METHODIST CHURCH CASE.

New York, May 26.

The Methodist Church case has been resumed. Mr. Choate commences the argument for the defendants.

Mr. Choate looked very feeble when he arose, but soon rallied, and proceeded with his accustomed ability and eloquence. Among other points, he contended that his clients were trustees of the property in dispute for a particular purpose connected with the church, and were not authorized to pay over any portion to any party not in connection with the church, and that as the plaintiffs were, by their own admission, seceders, they had forfeited all claim they may have had on the corporation property.

Professor A. C. Barry's Tricopherous,

OR MEDICATED COMPOUND, for restoring, preserving and beautifying the hair, eradicating scurf and dandruff, and curing diseases of the skin, glands and muscles, stings, cuts, bruises, sprains, etc. It has been ascertained by experiment, that Barry's Tricopherous has produced the same effect in curing diseases of the skin, etc. of the horse, and all the animal kingdom. The following testimonials, selected from hundreds of similar import, will serve to show the value of the preparation, and the estimation in which it is held by those who have given it a trial:

New York, Sept. 22, 1850.

Prof. Barry—Dear Sir—I have been afflicted with a cutaneous eruption of the scalp, of a most aggravated character, for the last sixteen years, and during that period have had the advice of some of the most eminent physicians, and have tried all the preparations for the hair and skin now known, without the least benefit. I was advised by a friend to try your Tricopherous. I did so, as a last resort, and, to my surprise and gratification, found myself cured in about two months. Such was the violence of the disorder that at times I was partially blind.

Respectfully, yours, G V M BAPELYE, 140 Columbia street, Brooklyn.

New York, Oct. 23, 1850.

Prof. Barry—My Dear Sir—About two years ago my hair came out a great deal, and my head was much afflicted with dandruff. I was told by a friend to try your Tricopherous, and I did so, and to my astonishment, my hair was firmly rooted, and all the dandruff disappeared, as the head now shows for itself.

With respect, I am your obed't serv't, J S TREADWELL, 683 Broadway.

If any lady or gentleman doubts the authenticity of the above, they will please call at Professor A C Barry's office, 137 Broadway, New York, where he will produce the original letters.

[From the Military and Naval Argus, Nov. 9, 1850.]

There is no remedy for the permanent cure of baldness and diseases of the cranium generally, that has reached the popularity enjoyed by the article known as Professor Barry's Tricopherous, or Medicated Compound. It is extensively used by the upper classes of the community; in almost every nursery in the land it is used in preference to other articles of the kind. It imparts vigor to the roots of the hair, and thus promotes its growth to a remarkable degree. It destroys the dandruff and scurf, and makes the hair fine and glossy. It will cure all diseases of the scalp, such as scald head, dew worm, and other obnoxious disorders of the skin; in cheapness as well as efficacy, it stands unrivalled. It is sold in large bottles, price 25 cents, at No. 137 Broadway, and at the Druggists generally, throughout the United States and Canada. ap29:tf

Murphy's Self-Sealing Advertising Envelopes.

NO. 263 MADISON ST., NEW YORK.—The subscriber, in soliciting the patronage of all who may see this advertisement, feels none of that hesitation with which a new article is brought before the public. The experience of years has established their superiority beyond all question, and he confidently refers to the testimony of this business men who have used these envelopes, and to his rapidly increasing sales, as proof of their excellence.

The following are a few of the reasons for their popularity:

1st. On the place occupied by the seal, a person may have his name, business, and address, conspicuously and beautifully embossed, colored or plain, thus affording perfect security against fraud.

2d. The Envelopes cannot be opened without being destroyed.

3d. Neither wax nor wafers are required to seal them.

4th. Upon the miscarriage of a letter, the seal insures its immediate return to the sender, instead of being buried months in the Dead Letter Office.

5th. The Envelopes are furnished at almost the same price as plain ones.

6th. Each letter mailed is a most effective advertisement, sure to attract the attention of all through whose hands it may pass.

The following is a list of prices for Dies, engraved on brass, and which will last for years; and of Envelopes, of the usual size, either white or buff, of good paper, and made as above, with name, address, &c.:

THE undersigned having entirely rebuilt and enlarged the above extensive establishment, containing in all about three hundred and fifty rooms, would respectfully give notice that it is now ready for the reception and accommodation of the travelling community.

An extended notice of the unsurpassed conveniences of this House is deemed superfluous, as the numerous improvements which have been made cannot be properly given in an advertisement. Suffice it to say, no expense has been spared to render any apartment perfect.

The furniture was made expressly to order, regardless of cost, and certain portions of it, especially the Drawing rooms, will be found to be of the most beautiful manufacture. The Dining rooms are capacious, and the hours for meals will be so arranged as to suit the convenience of the early and late.

Every department will be conducted in an unexceptionable manner, and the proprietor pledges himself that the American House shall be truly the Traveller's Home.

FURNISHING MAIL LOCKS & KEYS

Post Office Department, March 14, 1851.

IT BEING DESIRABLE to substitute locks and keys of some other kind for those now in use for the mail service of the United States, specimen locks and keys, with proposals to furnish the same, will be received and considered at the Post Office Department, until the 1st day of July next. The different locks will be submitted to a commission for examination and report. Upon this report, contracts will, as soon as practicable, be entered into for furnishing such locks and keys for four years, with the right on the part of the Postmaster General for the time being to extend and continue the contract in force for an additional term of four years, by giving to the contractor a written notice to that effect, not more than nine nor less than six months before the termination of the first term of four years.

With a view of procuring the best lock at the lowest price, no kind of lock is prescribed as a standard; the Department relying for a selection on the mechanical skill and ingenuity which a fair competition, now invited, may develope. It is, however, proper to state, that a lock suitable for the mail service should possess the following qualities, viz: durability, uniformity, lightness, and strength.

For the purpose of displacing simultaneously all the mail locks and keys now in use, about thirty thousand new locks and twenty thousand keys adapted thereto, will be required to be furnished by the contractor within seven months after the contract shall have been entered into; afterwards the annual supply will depend on the durability of the locks and keys adopted, as well as the increase of the mail service; but it will probably never exceed in amount three thousand of the former and one thousand of the latter.

No lock will be considered if it be like any already in general use; nor will any one with whom the contract may be made be allowed to make, sell, or furnish any lock or key, similar to those contracted for, for any other purpose or use than that of the Post Office Department.

The kind of locks adopted must be patented, and the patentee will be required, on entering into contract, to make an assignment of his patent for the exclusive use and benefit of the Department, if the Postmaster General shall deem such requirement essential to the interests of the service. In case of the failure of the contractor at any time to fulfil faithfully the terms and conditions of his contract, the Postmaster General shall have the right, besides a resort to the penal remedy hereinafter mentioned, to annul said contract, and to contract anew with any other party or parties as he may see fit, for furnishing similar locks and keys.

In deciding upon the proposals and specimens offered, the Postmaster General may deem it expedient to select for the through mails the lock of one bidder, and for the way mails that of another. He reserves, therefore, the right of contracting with different individuals for such different kinds of locks as he may select, and also the right to reject all the specimens and proposals, if he shall deem that course for the interest of the Department. The party or parties contracting will be required to give bond, with ample security, in the sum of thirty thousand dollars, for a faithful performance of the contract. The contract is to contain provisions for the due and proper inspection of the locks and keys, and also for guarding against their passing into improper hands; the terms of these provisions to be arranged between the Department and the successful bidder, if a bid should be accepted.

No applications will be considered if not accompanied with satisfactory evidence of the trustworthy character of the bidder, and of his ability to fulfil the contract. N. K. HALL, Postmaster General. mch22:d&w14t:S

—IN QUART BOTTLES—

FOR PURIFYING THE BLOOD—the best Female Medicine known. Incipient Consumption, Barrenness, Leucorrhea or Whites, Irregular Menstruation, Incontinence of Urine, General Prostration of the System, Depressed Spirits, and Gloomy State of Mind, are cured by *Dr. Guysott's Extract of Yellow Dock and Sarsaparilla*, which gives immediate relief by renewing the fountain of health and strength, the blood. It neutralizes bad humors, stops unnatural secretions, and gives healthy action to all the vital powers.

Its mild alterative properties render it peculiarly applicable to the slender and delicate constitution of the female. It immediately counteracts that distressing nervousness and lassitude so common to the female frame, and imparts an energy and buoyancy as surprising as they are grateful. We have evidence on file which induces us strongly to recommend this medicine to married people who have not been blessed with offspring.

Prolapsis Uteri, or Falling of the Womb, of five years standing, cured by Dr. Guysott's Extract of Yellow Dock and Sarsaparilla, after every other known remedy had been tried without relief:

Washington, O., Feb. 15, 1849.

This certifies that my wife, aged 27 years, has suffered under the above complaint for five years, nearly all that time confined to her bed. I have for four years constantly employed the best medical talent that could be procured in this section of the country, without any benefit whatever. I have also purchased every instrument recommended for the cure of such diseases, all of which proved worthless.

In the spring of 1848, I was induced by my friends to try Dr. Guysott's Yellow Dock and Sarsaparilla, which was used for four months. After she had used it for about four weeks, it was evident to all of us that she was improving, and from this time she improved rapidly, and gained flesh and strength, until she is now enjoying most excellent health. WM. MONFORT.

We, being neighbors to Wm. and Julia Monfort, know that the above statements, as to the sickness of Mrs. Monfort, and as to the cure being effected by Guysott's Yellow Dock and Sarsaparilla, are strictly true.

JANE EDDY,
SARAH POWERS.

*King's Evil—Case of O. M. Leonard.*

Blooming Grove, Dec. 1, 1849.

Messrs. S. F. Bennett & Co:—Gents: Some time in 1843 I was attacked with King's Evil in my arm, which became so sore I could not use it, and in 1845 mortification set in. I employed, at different times, each physician of celebrity within my reach; all told me my arm must be amputated. From the shoulder to the forearm was full of running sores. My strength at this time was completely exhausted, and my person much emaciated. I continued in this state until 1848, when I saw an advertisement (Guysott's Yellow Dock and Sarsaparilla) which I read, and sent for a bottle of the article. Guysott's Yellow Dock and Sarsaparilla cured me; I took no other remedy while using it; and felt myself perfectly well before using the sixth bottle. Had I used it at the first appearance of the malady, I am sure it would have saved me from years of pain and suffering. I most earnestly recommend every person suffering under any similar disease, to use Guysott's Yellow Dock and Sarsaparilla, which will restore them to health.

Yours, in gratitude, O. M. LEONARD.

*Cure of an aggravated case of Erysipelas.*

The cures performed by Dr. Guysott's Extract of Yellow Dock and Sarsaparilla, are lasting. The patient's general health continues to improve after disease is removed. Cures are not chronicled until time has fully tested that there can be no relapse or return of the disease.

Norway, Herkimer co., February, 1850.

S. F. Bennett & Co.—Gents: It is with great pleasure that I write you about the very happy effects of your Yellow Dock and Sarsaparilla upon my son, who has long been suffering under that dreadful and loathsome disease, Erysipelas, with which he was attacked in 1848, and was for several months attended by some of our best physicians, who tried their skill perseveringly for five months, without any beneficial results whatever. He became reduced to a perfect skeleton. He had ulcers from his hip to his knee, which were continually discharging disgustingly offensive matter. Medical and surgical skill was baffled. Physicians said that his case was hopeless: there could be nothing done to arrest those terrible gangrening ulcers. My neighbors and myself thought his dissolution near at hand. One of my neighbors (who had cured a child of Scrofula with your invaluable medicine) wished me to make trial of it; and, more from the restless desire to do something while life lasted, than from any hope of getting relief, I procured three bottles of your Yellow Dock and Sarsaparilla, and commenced using it; and to my astonishment he began to improve before he had used the third bottle; and before he had used a half dozen bottles, he could walk out. He used in all twelve bottles during the year 1849, and by October last he was perfectly restored. Every vestige of the disease, except the scars, is removed, and he remains in perfect health at the present time. His recovery, under the blessing of God, is entirely owing to the use of your Yellow Dock and Sarsaparilla: and I assure you that I feel myself under great obligations to you, and it is with great joy that I inform you of what your Sarsaparilla has done for my son. Respectfully, JAMES RUSSELL.
