Bradford Reporter.

LOCAL AND GENERAL.

SALE.—To be sold *at once*, a house and lot. Good bargain offered.

JOHN N. CALIFF,
July 10, 1855. Office over News Room.

☞ School Treasurers of the different Townships having State drafts, must present them to the County Treasurer before the 20th inst., if they expect them to be paid here.

☞ The News Office will be open hereafter on Sunday mornings from 8 to 9 instead of from 9 to 10 a. m.

SYLVANIA OIL PROSPECTS.—We were favored with an opportunity, by Superintendent POMEROY of visiting the site selected by the Sylvania Oil Company, for boring on Monday last. We took no little pains to examine the Spring, the creek and surroundings, and must say, the indications far surpass our expectations, (though we have heard some marvellous stories about this locality) and we doubt not would be pronounced by more experienced individuals, as unmistakable. The engine is now on the ground, the house for its occupancy already built and the work of erecting the Derrick progressing rapidly. Mr. P. informs us, he feels confident of being able to determine within three months, whether oil is to be found in that locality or not. As near as can be ascertained by the oldest inhabitants, and the wells in this vicinity, there will be but little or no rock to contend with, at least for the first 100 feet or such a matter, and the boring will of course be much faster than through rock.—*Troy Times.*

WANTED.—One million feet of pine, hemlock, oak, ash, beech, birch, maple and whitewood lumber in the log, to be delivered at Wilkes-Barre during this Summer and coming Fall, for which a liberal price will be paid. Also, a large amount wanted next spring. Address J. E. PATTERSON & Co., Clark's Greene, Luzerne Co., Pa., until Aug. 1st, 1865, after which orders will be received at Wilkes-Barre, Pa. June 5—3m.

☞ On the morning of the 4th a boy of about a dozen years, son of Wm. Campbell of Litchfield, Pa., was quite seriously injured while playing with fire crackers in this village. He had a quantity of fire crackers and matches in his pocket, and by some means, accidental or otherwise, they took fire, burning and lacerating his flesh quite alarmingly. We learn he is doing well, and will undoubtedly recover.—*Waverley Advocate.*

ARRIVAL OF ABOUT TWENTY LEROY BOYS FROM NORTH CAROLINA.—On Wednesday evening, 12th instant, the citizens of LeRoy were very agreeably surprised by the unexpected return of some twenty discharged soldiers, who enlisted in September last in Co. I, 12th N. Y. Cavalry, and have been doing duty near Newbern, N. C.

☞ On Thursday evening, GOULD, son of WASHBURN (late of Waverley, now residing in this borough,) aged about ten years, fell through the "high bridge" across third street, a distance of nearly 40 feet to the ground below, breaking his thigh bone, and receiving other severe injuries. The fractured limb was set by Dr. Mason, and the little sufferer is in a fair way of recovery. It seems almost miraculous that he was not killed by the fall.

7-30 LOAN—3D SERIES.—The First National Bank is now selling the Third Series of this very popular Loan. It is due July 15th, 1868, and is issued in notes of the usual denominations—

$50	$100
$500	$1000.

Bearing interest at the rate of 2 cents per day on every $100! The Government reserving the right of paying the amount in Gold at the rate of six per cent. per annum.

The notes will be dated July 15, and the interest will be paid to the purchaser in advance up to that time at the rate of SEVEN AND THREE-TENTHS PER CENT.

This is the last Loan the Government will make bearing so high a rate of interest, and as it will undoubtedly all be taken in a very short time, it becomes every one who has the money to secure the investment as soon as possible. Its freedom from all state, county and town taxes; its perfect safety; and being exchangeable for the famous 5-20 Bonds, make it, like the former Series, the most desirable Loan offered by the Government.

☞ This Bank, will, as usual, render to investors every facility for taking the Loan. Any information in regard to it will be cheerfully given.

N. N. BETTS, JR.,
TOWANDA, May 22, 1865. *Cashier.*

HEROISM.—Thursday, at Painted Post, as the Mail train going west stood on the outer track awaiting the passage of the Express east, a soldier stood on the inner track, which is close to the platform, as the Express was coming at full speed behind. He was warned of the danger, but either bewildered or intoxicated did not stir or look around. JAMES HURDICK, of Addison, Baggage Master of the Mail, jumped from the baggage car, caught the soldier, as the Express was within twenty feet, lifted him by a tremendous exertion upon the platform, and fell over him. It was the work of a moment, but it saved one man from instant death, and showed the humanity and heroism of Mr. HURDICK, who, in this brave deed, exhibited a courage not surpassed in storming a battery.—*Corning Journal.*

A MIRACULOUS ESCAPE.—On last Saturday, 8th inst., MRS. FREDERICK JAKEWAY, of Newark, on her way to visit her friends in Nichols, in passing through the Narrows, below the village, on the other side of the river, in her buggy, was met by a drunken ruffian, who wilfully and maliciously drove his wagon in contact with hers, throwing her with the horse and carriage down the steep bank. The carriage did not stop till it reached the river, but the lady and horse managed to lodge before reaching the water, and both escaped without any serious injury. The ruffian pursued his onward course unmindful of the lady's screams of distress. Mrs. J. had gathered together in a heap her harness, cushions and other loose property, when the wretch returned and deliberately loaded the fragments into his own carriage and put whip to his horse. Sheriff Upham was soon upon his track but he had escaped over the borders of Pennsylvania.—*Owego Times.*

MOWING TRIAL ON TOWANDA FLATS.—The invitation to meet at 6 o'clock on Tuesday evening to choose judges, &c. The Hubbard was the only one on the ground; after a slight parley in the evening, was agreed to choose judges about half past nine on the morrow at the lot; when brother Snipman hove in sight, in the morning, a load of hay had blockaded the Hubbard in a barn in Towanda, tired of waiting, engaged a man to take it down as soon as the embargo was removed. Shipman went no further; on arrival, saw brother Farmer go in; shortly our machine arrived, no rules had been agreed on, no judges appointed. I hesitated a little to see the order of the day, was much pressed by the crowd to go in, after a while brother Farmer invited me in, which I promptly complied with, (having no use for machinist to clip away with cold chisel,) not over ten minutes elapsed from being taken from the wagon, before its quick vibrations showed that it was under way; the team not being use to machinery made its appearance awkward, which those accustomed to horsemanship at once conceded. The machine not only cut the strongly lodged clover without clogging, but went the whole length of the piece in the mown grass, knives playing without any difficulty or dental application; after *I was in the field to work*, (and not before as has been stated), brother Star drove up, its trained team aided its appearance on the field, the lodged, wet clover revealed a heavy side draft. The brother Cayuga Chief—with more gearing than a common farmer cares to look after—waited till the day was far spent, and the wet had nearly left the grass, they gained nothing by coming under those circumstances. Brother Farmer, with a powerful array of help, one party coming all the way from Harrisburg, one of their machinists present, one agent and two sub-agents, meant to teach the young ideas "how to shoot." From circulating opinion among the bystanders of its merits and demerits, should think that the farmers will not send in a request for the manufactures of the Farmer to enlarge their factory to supply their wants. The Hubbard had not mowed over ten minutes before it was apparant it rallied friends among strangers. Strong indications exist that it is considered one of the very first machines in the County.

The dynamometer test, I regret, was to late to be witnessed by the great majority of farmers, not having a committee to decide for us, I was overruled in numbers, that the machinery should be allowed to do its own work on said test. The Star asked the privilege of an extra hand to keep the odged grass off the Track clearer. I firmly objected as the Hubbard is built to do all such kinds of jobs without a servant. Star insisted, a man followed and pulled grass off the track clearer, all the time under the test. Hubbard went in *and done its own work alone.* Cayuga Chief had a hand very busy to keep the lodged grass from clogging. Farmer had a man true as steel to keep off the grass, he was only outdone by the clogging on return, all hands stopped and another friend helped remove the gathered clog, being great for one to masticate. The Star, Hubbard, and Cayuga Chief, had to have an extra splice on the tongue to make room for the dynamometer to work, this brought the team some eighteen inches further from the machine. The Farmer had an arrangement under the tongue so that the common short tongue was used in the test: I objected, as that would give lower figures, as it was with variation in length of tongue. The length of cutting bar, is as described by the Farmer.

Result, two men to do the labor that one did on the Hubbard is obtained in going in, figures as low as the lowest, and in cutting off its beaten down grass back in return; fifty pounds less draught than any of its competitors which went direct through without stopping, as reported and taken from the papers at the time of our judge Dr. McAffee. THE LITTLE HUBBARD MOWER.

Orwell Pa., July 5, 1865.

☞ Report of the Bradford County Sabbath School Missionary for May and June, 1865:

Schools newly organized	15
Scholars in the same	673
Officers and Teachers	133
Schools visited and aided including the above	25
Amount in books sold	$406,00
" " and papers given away	110,18
Addresses delivered	21
Families visited	124
Miles traveled	404

It becomes more and more manifest that the Association is growing in the confidence of all who become acquainted with its aims and operations. From reports and letters received, it is further evident that the Sunday Schools of our County were never more flourishing than at the present time. While we thus have occasion to thank God and take courage, it should not be forgotten that the work is yet hardly begun. The future results of our efforts will find a feeble comparison in their present beginning. It is now an undertaking; it will be a glorious achievement.

The Missionary makes special acknowledgement of his obligations to the Christian young men of Towanda, and others who, with much self-denial have cheerfully cooperated with him in the prosecution of the work thus far. "Instant in season and out of season" let us, Christian friends, "weary not in well doing," and "pray without ceasing" for the Divine blessing upon what we are endeavoring to do in the name of our common Lord and Saviour Jesus Christ. R. CRITTENDEN.

Towanda, July 10th, 1865.

☞ Dr. T. S. UP DE GRAFF, Oculist and Aurist, at his office opposite the Brainard House, is constantly performing some feat of scientific surgery, in the way of opening people's eyes or ears, or relieving a patient of some embarrassing deformity. We have repeatedly seen him bring the blind to sight, and in one instance put into successful operation the organ of an ear for a child which was born with a head as smooth as a whistle in the place where the ears ought to be. The Doctor bored a hole, or cut a hole, or by some sort of magic made a hole, into which he adroitly inserted a hearing apparatus on the similitude of those made by nature, and lo, the child heard. The delight of the mother when she knew that her infant noticed a noise can be imagined but not described. The pleasure of Dr. Up De Graff in witnessing such a scene as the result of his skill and science must be worth more to him than any possible fee he can obtain for his work. This incident was noticed at the time of its occurrence in the columns of the *Daily Advertiser.*

On Friday last the Doctor operated for cataract upon an old man who resides in a neighboring township of Pennsylvania. The man, whose name is SILAS SMITH, has been entirely blind for seven years. He came to Dr. Up De Graff with a certificate from Archibald Fellows and T. M. Watts, Overseers of the Poor for the town of Canton, to the effect that he had been for forty years a resident of the town of Canton, was a very respectable man, but in indigent circumstances, and unable to incur a heavy bill of expenses for surgical operation. His neighbors, out of sympathy for him, had contributed something to partially pay his expenses, and they asked Dr. Up De Graff, in consideration of the facts, to make his charges in accordance with the circumstances of the patient, and if possible in justice to himself to remit the entere bill.

It was just such a case as the Doctor liked to get a hold of. He therefore took Mr. SMITH in hand, and in fifteen minutes showed him the sunlight of heaven. It is needless to say that in accordance with the request of Mr. SMITH's friends and neighbors, he remitted the entire bill, and sent him on his way rejoicing. He not only did this in the case of Mr. SMITH, but has done it a hundred times before, and holds himself ready every day to do it to all cases similarly authenticated and worthy. We saw the man when he first began to see, and really envied the Doctor the skill which enabled him in so little time, and apparently so easily, to accomplish such remarkable things. We imagine also the Doctor enjoys it, for he seemed as happy as his patient, and since he did it for nothing had a right to be.

Dr. Up De Graff informs us that he has performed more operations in this and other classes of surgery during the last few weeks than ever before. His rooms are at all times thronged with patients from all sections of the country. He never fails in any case which is not absolutely incurable. The fact that his large and profitable practice continues to increase for year after year, rendering his Eye and Ear Infirmary a fixed and permanent institution in Elmira, is evidence enough of the real and genuine quality of his skill. Quacks can live and prosper for a brief time on a manufactured sensation, but only those in any profession who are equal to what they advertise can outlive the test of time, and remain permanently and increasingly successful. The reputation of Dr. Up De Graff as one of the most skillful and scientific Oculists and Aurists in the whole country was long since thoroughly established. He needs no certificates to that effect, and yet so well are we impressed with the excellence and value of his Institution that we esteem it both a pleasure and a duty to draw the attention of the public occasionally to it.—*Elmira Advertiser.*

☞ THE Bradford County Teacher's Association met at Ulster, June 16, 1865, at 10 A. M., was called to order by O. F. Young, President, who read a portion of Scripture. Prayer was offered by C. R. Coburn. Minutes of last meeting called for, read, and approved. On motion, the unfinished business was taken up. Resolution 4th read for discussion. C. R. Coburn offered an amendment, which was accepted. Resolution as amended: *That parents should have a voice in the selection of their teachers.* O. J. Chubbuck opened the discussion by making some explanatory remarks. C. R. Coburn followed in support of Resolution; stating that no question except one had created so much trouble in the Department as this, and that Directors have the power to engage any teacher, and under certain circumstances should exercise that right, even if it was in direct opposition to the wishes of parents although it was not always advisable. Question called for, voted on, and lost.

The Association then received a letter from Rev. A. F. Todd, of Athens, informing them, that owing to illness in his family, it was impossible for him to fulfill his engagement, which he deeply regretted. Moved and carried that the excuse of Rev. A. F. Todd be accepted and entered upon the record. The business committee not being prepared to report, Prof. F. A. Allen, of Mansfield, was introduced to the House, who made some appropriate remarks upon the necessity of teachers storing their minds with wisdom, every-day knowledge, current items, improvements of the age, etc., that they should instruct, amuse, and interest their pupils. "be as a new book every day, well worth the reading." Partial report of committee was read and accepted. The Association then adjourned till 1½ o'clock, P. M. Friday, 2 o'clock, P. M.

Met pursuant to adjournment. On motion the 1st Resolution was taken up:

Resolved, That the practice prevailing to a great extent in this County of paying uniform salaries to teachers irrespective of their qualifications, grade, or size of the school, is unjust and ought to be discontinued.

An earnest and spirited discussion ensued. Nathan Young, jr., M. S. Harkness, Wm. P. Horton, Prof. Coburn, Prof. Allen engaged. Discussion arrested, time having arrived for the next order of business. Declamation by Wm. P. Horton. It was moved and carried that our worthy State Superintendent should give information concerning the amendments to the school law, which he cheerfully did; making them so clear that all present could understand. Discussion resumed, resolution passed without a dissenting vote. A committee consisting of Misses L. A. Lyon, Lottie Case and Emma Stillwell were appointed to solicit names for new members. The 3d Resolution was read for discussion.

Resolved, That School Directors ought not employ persons of doubtful qualifications or doubtful loyalty for teachers when good experienced teachers can be had.

Prof. Coburn, Allen, Chubbuck, and McLane participated in discussion. Resolution carried.—Prof. F. A. Allen, then, by request, answered question proposed by teachers, relating to Normal Schools. Music. Report of Critic. Adjourned to meet at 7½ o'clock, P. M.

Evening Session. Opened with Music by the Ulster Brass Band. Prof. F. A. Allen, of Mansfield, delivered a lecture. Subject: "Teachers and their qualifications." His theme practical, his arguments able and conclusive, his manner earnest though rich in expression. All who listened should have realized that a great work awaits them. Music by the Choir. Miss Emily Preston, of Elmira, was then introduced to the audience, who read an essay. Subject: "Work and Woman." She treated her subject in a praiseworthy manner, clearly portraying the views of society in the regard to labor of woman, the difference in the employment, and salaries of man and woman, urged woman to be true to her highest mission, faithful in the discharge of every duty, and patiently waiz for the "good time coming." Music by the Band. Adjourned to meet at 8½ o'clock, A. M.

Saturday Morning. Called to order by President and opened with singing. First on Programme Miscellaneous business. Resolution 2d was then read and was as follows:

Resolved, That a graded school should be established in each district in which a sufficient number of pupils can conveniently attend to require the employment of two teachers.

It moved that the Resolution be laid on the table. Resolution 4th read for discussion, as follows:

Resolved, That we recommend, that as soon as practicable, the rule shall be enforced, that no teacher shall be licensed or employed, who shall not attend a Normal School, or spend some time in acquainting himself with the science of teaching.

A lively discussion followed in which many took in active part. Question called for, voted on and carried. A song, "Good bye Jeff." Declamation by J. H. Kingsbery. Music. Essay read by Lottie Clare. Report of Committee on membership. Reading a selected piece by L. A. Lyon. Rome was unanimously decided upon as place for next meeting, the second Friday and Saturday in September. President then made the following appointments for next meeting:

Lecturer.—Rev. James McWilliams, Towanda.
Declaimers.—R. S. Howse, Rome; J. M. Vought, Sheshequin.
Essayists.—L. A. Lyon, Towanda; Kate Ivison, Warren.
Readers.—O. H. Taylor, Louise Alger, Rome.
Com. on Business and Programme.—Rev. A. F. Harding, E. A. Ridgway, D. S. Maynard, Misses Dell Barnes, and Helen Vought.

A Resolution was then offered which was as follows:

Resoived, That the thanks of the Association are tendered to Prof. F. A. Allen, of Mansfield, Miss Emiily E. Preston, of Elmira, Lottie Clare, Wm. P. Horton, J. H. Kingsbery, for the Lecture, Essays, Declamations, and to our worthy State Superintendent, for the interest they have taken in the business of this Association, for the readiness and good feeling with which they have participated in our discussion contributing so much to the interest and benefit.

Resolved, That the thanks of the Association be cordially and respectfully tendered to the citizens of Ulster, for the warm and cheerful reception which has been extended to us in this place, also to the Brass Band for the excellent music they so kindly discoursed, and especially to the Trustees of this Church for their generosity in opening it for our use.

After singing the Doxology, Rev. James McWilliams offered a prayer. Meeting adjourned.

O. F. YOUNG, President.

C. H. SEAMAN, Sec'y.

MARRIED.

ROUGHT—McALLISTER.—July 4th by Rev. G. W. Jackson, at the house of the officiating clergyman, in Terry, Mr. Stephen Rought to Miss Margaret H. McAllister, both of Wyalusing, Pa.

DIED.

WARNER.—In Towanda, July 13th, William Warner, aged 69 years and 3 months.

Updegraff's Institute.

EYE AND EAR INSTITUTE.
DR. UP DE GRAFF,
OCULIST, AURIST AND GENERAL SURGEON, ELMIRA, N. Y.
Treats all Diseases of the Eye, Ear and Throat.

THE EYE.—He will operate upon Cataract, Artificial Pupil, Cross Eyes, Lachrymal Fistula, Pterygium, Entropion, (inversion of the eye-lid,) and treats all forms of "SORE EYES," such as Granulated Lids, Purulent Ophthalmia, Opacities of the Cornea, Scrofulous diseases of the Eye, and all diseases to which the Eye is subject.

THE EAR.—Treats successfully Discharges from the Ear, Noises in the Ear, Difficulty of Hearing, Deafness, (even when the Drum is entirely destroyed, will insert an artificial one, answering nearly all the purposes of the natural.

THE THROAT.—Ulcerated Throat, Enlarged Tonsils, together with
CATARRH
in all its forms, permanently cured.

GENERAL SURGERY.—He will operate upon Club Feet, Hare Lip, Cleft Palate, Tumors, Cancers, Morbid Growths, Deformities from Burns, and Hernia, and performs PLASTIC OPERATIONS—Where the Nose, Lips or any portion of the face is destroyed through disease or otherwise, by healing them on anew.

☞ Will attend to the Amputation of Limbs, ☜ and General Surgery in all its branches.

INSERTS ARTIFICIAL EYES.—Giving them all the motion and expression of the natural, defying detection, they are inserted without removing the old one or producing pain.

The Doctor's collection of instruments comprises all the latest improvements, and is the largest in the State, the superior advantages he has had in perfecting himself in all that is new and valuable in Surgery, warrants him in saying that everything within the bounds of the profession may be expected of him.

The Institute has been greatly enlarged, so that we can now accommodate an increased number of patients from a distance. Comfortable Boarding Houses attached to the establishment.

No incurable cases received for Treatment or Operations. If a case is incurable he will be so informed.

Institute on Water street, opposite the Brainard House
Elmira, N. Y. Feb. 2, 1865.

Mowing Machines.

THE FARMER MOWING MACHINES!

The Subscriber again offers this unrivalled Mower for the patronage of the farming public. Notwithstanding trouble last year with some of the smaller castings on account of weak material, the Farmer established its reputation in this county as it has elsewere, of being *the Lightest Draught Mower in use* and of *doing the best mowing.*

I have a number of those
LAST YEARS FARMER MOWERS.
that have never been used and have been thoroughly renewed and repaired in those parts, that failed last year, with castings of the very best quality.

Price, - - - - - - - - - $100.

delivered at the purchaser's door.

With every reasonable opportunity for trial; the *machine warranted to give satisfaction, or no sale.* This will be found to be a good and cheap Mower and safe to try.

THIS YEAR'S IMPROVED FARMER
will be found to be a splendid Mower.

Price with malliable steel face - - - - $130

Warranted to mow, and do good work on as rough ground as any Mower in the State; and the *draught warranted as light, both of this and last year's farmer,* as any four feet Mower now known, *notwithstanding the Farmer is a standard or Large Mower; cutting 4 feet 6 inches in width!*

THE FINGER-BAR IS MADE OF BEST CAST-STEEL, and cuts a swarth 4 feet 6 inches in width. It is independent and flexible in its movements; rising and falling at either end, either *above* or *below* the plane of the two driving wheels. When the outer end falls, the crank-head rises, keeping the scythe and pitman at all times in line; thereby preventing the cramping and binding of scythe and pitman, common to folding-bar Mowers,

THE DRAUGHT BEING SO LIGHT
is caused by attaching the draught directly to the Finger Bar—a feature possessed by no other competing mower.

The Farmer is a convenient mower to handle and operate. The attention of persons desiring to buy mowers, is called to an examination of the Farmer and to its discriptive circulars.

ASSISTANT AGENTS.

L. D. JOHNSON Manufacturer's traveling agent, WM. K. WALKER, Athens; D. HANKINSON, Meshoppen; S. J. HARKNESS, Springfield; EDWARD MERRITT, Lacyville; BYRON AKIN, Alba; I. A. PAGE, South Hill; JOHN F. CHAMBERLAIN, Wyalusing.

Correspondence promptly attended to.

R. M. WELLES.
Towanda, July 18, 1865.

MOWING MACHINES!
HUBBARD'S LIGHT MOWER,
ORWELL, PENN'A.

It is unsurpassed for simplicity, durability, ease of working, light draft, convenience of folding up for transportation, as well as comfort for those using it. It cuts the grass when wet just as well as when dry, and at any speed you choose to drive. It operates as naturally on rough and uneven surface as upon level. Its draft is from 175 to 200 pounds. Also Horse Forks different paterns, Horse Rakes, Grindstones and Hardware, in great variety, at S. N. BRONSON'S
Metropolitan Combined Variety Store.
June 15 1845.

OHIO MOWING MACHINE!

The undersigned take pleasure in calling the attention of the farmers of Bradford county to the above machine. It has been used in this county several years and no machine has given better satisfaction. It is carefully made of the best materials and warranted by the manufacturers. Those who have used this machine pronounce it the best in the market. It has been improved and is as perfect a machine, and does its work as well, if not better, than any one yet offered to the public. Farmers wishing to purchase a machine will do well to examine the Ohio. The Agents will be ready at all times to show the machine and its manner of working, its improvements, &c., to those interested.
