Bradford Reporter.

LOCAL AND GENERAL.

☞ The *Reporter* is printed upon Campbell's Country and Job Press, Office No. 56 Gold st., New York. Thomas H. Senior, agent.

☞ On Saturday night last, between the hours of 11 P. M. and 2 A. M. the Railroad Ticket office at Binghamton was entered by burglars. The safe was opened with a key, and about eight thousand dollars belonging to the U. S. Express Co., and four or five hundred dollars, the property of the Erie Railway Company, were taken away. The thieves left several packages of money and valuable papers, amounting in value to about $35,000, untouched. No clue to the perpetrators of this daring roberry has yet been obtained.

☞ On the night of the 10th inst. a fine pair of horses, belonging to George Reasor, were stolen from his premises on Martin's Hill, near Corning. There was also taken at the same time two setts of harness. The thieves did not stop their rascally work here, as afterwards, it appears, they stole, of another party, a democrat wagon, and thus thoroughly equipped with horses, harness and wagon, they made off, and had not, at last accounts, been apprehended.—*Elmira Gaz.*

Religious Interest.—Never perhaps in the history of the present generation, has there been such a general interest upon the subject of religion as pervades this community. Within the past few weeks, there have been over one hundred and fifty conversions, and at the present writing the Rev. Edward Payson Hammond is assisting the respective Pastors, in a series of Union Meetings at the Court House, and hundreds are inquiring the way of salvation. How long this servant of God will remain here we know not, but as this interest has been on the increase for the past few weeks, and the public mind becoming daily more interested, we may fondly hope that yet many more will embrace Christ as their savior, in this the time of refreshing from our Heavenly Father. —*Williamsport Bulletin.*

Robbery.—The Elmira post-office was broken into on Sunday night, and robbed of money and postage stamps to the amount of eighty dollars. The letters were not taken, and a pile of pennies lying in plain sight, was untouched. The entrance was made through one of the back doors, which was pried off its hinges.

A Melancholy Death.—A little boy, aged about nine years, belonging to Mr. Horrigan, who works in the bridge shop, in this village was lost sometime on Tuesday afternoon last, and his afflicted parents searched high and low for him.—Yesterday, about noon, his body was found in a cistern, by a person drawing water.—*Owego Times.*

☞ Hovey Griswold, the young man who shot himself in a room in his father's house, at Chemung I st week, was buried on Friday. There was no circumstances to lead to the belief that the act was in any way premeditated, and the general supposition is that it was accidental. He had made an arrangement with some companions to go hunting, and had gone to his room to make ready. Soon after a report of a gun was heard from the room, and on opening the door his lifeless body was found upon the floor, with the discharged gun lying by its side. The charge had gone through the heart. His pockets contained cartridges, and everything showed that he was engaged in making ready for a hunt. While engaged in so doing, it is supposed that the gun was accidentally discharged, thus causing the death of the unfortunate young man.—*Elmira Adv.*

Ithaca and Towanda Railroad.—It is gratifying to be able to state, that the prospects of the early construction of a Railroad, connecting this thriving town with Towanda, Pa., are quite encouraging. A new impulse has lately been given to the enterprise; and a committee, to wit: Messrs. U. Grant, J. H. Selkreg and William Halsey, have been appointed to take measures for a preliminary survey of the route, and for obtaining the right of way. The committee are now completing a form of contract for the several land owners to sign, and the same will soon be in the hands of the printer.

Any one taking a map and tracing the proposed route, will wonder the road has never before been constructed. It is almost a straight line. The route commencing at Ithaca goes up the Cayuga Inlet in the vicinity of the Spencer road. The grade to the summit, a distance of about thirteen miles, will not exceed fifty feet to the mile. From the summit the descent is gentle, down through the Spencer valley. From Spencer to Waverley there are two routes in view, one down the valley of Shepard's creek, and the other through Dean hollow, the latter being the shortest by, we are informed, about five miles. Of course the saving of that distance will be controling provided other things are equal. The distance to Waverly is only thirty-five miles, which is the present railroad distance between us and Owego, taking into consideration the vexatious switching back and forth to get the level of our valley. Of course, with the distance saved over our present railway communication with Waverly will be that between Owego and Waverly, an embarrassed too, with the total want of connection at Owego. Once at Waverly, the communication will be complete to Towanda, for we learn from the Ithaca Journal in a sensible article on this same subject, that a route is now in progress between these points.

Towanda is now connected with Wilkes-barre by the North Branch canal, and it is a matter of small expense, comparatively, to extend the proposed road along the tow path of this canal. There is now a railway connection between Wilkesbarre and Philadelphia.

The importance of these works to Ithaca and the country around and through which they run, cannot be estimated. We gain a direct and shorter route to New York free from the vexatious delays at Owego. But what is of far more importance, we gain access to the richest coal fields of Pennsylvania, and break up that monopoly which has so harshly and unfeelingly burdened us with respect to the price of fuel.

To the land owners along the route we have a word to say. It will most assuredly increase the value of your lands and for an indefinite period in the future, because it will open up the country to an increase of population and improvement. Suppose you should subscribe to the capital stock ten dollars per acre, for every acre contained within one and a half miles on each side of the road for a mile distance. This would build the road, your lands would be increased in value at least that amount, and you would have a paying stock. —*Ithaca Democrat.*

Great Mail Robbery—$25,000 in Drafts Stolen.—The through mail bag from this city to Philadelphia was stolen on Thursday night. It was taken to the depot by the carrier, and handed to the baggage master, who takes charge of it, being no mail agent on the 9:50 train). This is the last known of it until it was found on a truck near the depot, yesterday morning. It had been rifled, all its contents being taken away. It is ascertained that over $25,000 in drafts were in the bag, besides other v luables. No clue has been obtained of the robbers.—*West Branch Bulletin Williamsport Pa.*)

☞ Rev. Wm. DeLong (Universalist) will preach at the Court House in this Borough, next Saturday evening.

A Sad Accident.—Mr Stephen D. Gifford, formerly of Troy in this county, a young man of sterling worth and one who early enlisted in our late struggle for freedom, and served his country faithfully until honorably discharged. Then again enlisted and bravely faced all the dangers incident to the life of a soldier until the close of the war, when he was discharged with honors, and shortly af er his return home, (July 13, 1865,) he was married to Miss Eleanor J. Coon of LeRoy; and viewing only the bright side of life, they were with every thing to encourage them, looking forward to long years of happiness. But suddenly on the morning of January 31, 1866, while he was unloading a load of logs at a mill a short distance from her father's, he received a severe blow on the head which terminated his earthly existance, yet he lived some time in the most excrutiating agony, and all was done that superior medical skill could devise, together with the kind care and fervent prayers of his many friends and neighbors; but all i i vain; and on his twenty-third birthday (Feb. 9, 1866,) in the ever welcome home of his father-in-law John Coon, death came and put an end to his sufferings. His funeral was attended in Troy on the 11th, by a very large concourse of mourning friends, who deeply feel their loss. And may his young companions, and widowed mother, together whith all his friends and relatives, receive that consolation in this their hour of affliction, which Jesus alone can give. S. A. R.

Camptown, Feg. 15th, 1866.

Ed. Reporter:—We had the most powerful lecture in our Academy here, last evening, from Gen. Patton, of Towanda, on temperance, that our people ever listened to. From his known reputation as a lecturer, persons came to hear him from a distance of 7 or 8 miles; and notwithstanding the unfavorable roads and weather the house was crowded, with an attentive and delighted audience.

The meeting was organized by appointi ng C. F. Lafferty, Pres., and Rev. S. F. Brown, Sec; and was opened by prayer by Rev. D. Cook. After the lecture, the temperance pledge was circulated by Major C. Avery, A. A. Kinney, C. Fuller and Rev. S. F. Brown, who got 112 signers to it. While the pledge was being circulated, the meeting was ably addressed by Mr. S. Vosburg, of Wysox. In announcing the numbers who had signed the pledge, Gen. P, said he had the pleasure to announce that Camptown and its vicinity was now the banner town of temperance in Bradford county. The meeting gave Gen. P. a unanimous vote of thanks for his able and eloquent lecture; and a proposition was made to vote him something more substantial; but he thanked the mover for his generous offer, and refused to accept any compensation, and said that if his humble efforts should be the means of saving even one fellow being from a drunkard's grave, it would more than compensate him for his services. The meeting was then closed by a benediction from Rev. M. Brown, and adjourned, highly gratified with the entertainment.

Several of our oldest citizens called on the Gen. at Major Avery's, this morning, to pay him their respects; and he, in turn, called to see some of his old acquaintances. Yours, Respt'ly,

For the Reporter.

As Ministers of the Gospel of Christ, we gratefully acknowledge the goodness and the mercy of the Lord to the people of this Borough, the vicinity, and ourselves, as his servants.

During the series of religious meetings, held in this place, and which continue with increasing interest, not far from eighty persons have publicly manifested a personal interest in the "Great Salvation." The majority of these have obtained a satisfactory evidence of their adoption into the family of God, while *all* evince a sincerity and earnestness of purpose, to follow on to know the Lord more perfectly.

The brethren from Towanda, who prayed for us, and those who kindly came over and helped us, will please accept our sincerest thanks.

May the everlasting and all bounteous Father, evermore bless them.

Being in constant receipt of inquiries from our brethren respecting Sewing Machines, with requests to recommend and purchase, we have, in conjunction with some lady friends, carefully and thoroughly examined the various machines of practical value for family sewing, and find those made by Wheeler & Wilson to fully combine the essentials of a good instrument, and such as we can confidently recommend. Having seen so favorable results from their use, in our own and the households of our friends, we are desirous that their benefits should be shared by all our brethren, and hence have interested ourselves in their behalf.

VALUABLE STEAM FLOURING MILL FOR SALE.

That large five story stone Mill known as MOTT'S, in the Borough of Pittston, Luzerne County, Penn'a, situated in the heart of the Wyoming and Lackawanna Coal Fields, certainly possesses advantages of locality, water and railroad communications that no other Mill can compete with.

It has a water communication from its very door to Baltimore, Md., on the one side, and Buffalo, N. Y., on the other, while communication is had by Railroad with all parts of the country, and a bridge spanning the Susquehanna brings the grain of Wyoming valley and all business crossing the river past its doors.

The decease of JAMES MOTT, Esq., its proprietor, is the cause of this valuable property being thrown on the market. Mr. Mott, as is well known, was a practical miller, and after the destruction of his old Mill by fire, conceived the idea of erecting a model Mill, and from his ample means built the present structure, furnished with engine, four run of stone, and modern machinery, in the most ample manner. He built it on a rock, on which its massive foundation rests, and rises five stories high from the canal, the grinding floor being the middle story. It is the most solid structure in the county, and was ever after reviewed with honest pride, and justly, too, as an enduring monument of the owner's industry and perseverance.

The storage capacity of this Mill is enormous, and floor, grain, &c., are hoisted and unloaded from canal boats by improved elevators. There is machinery to convey grain to any part of the Mill it is required. A home market offers a ready sale for all the bran, shorts, and mill staff manufactured, at good prices.

There is a lot, dwelling house and barn, suitable for the miller, and a store and lot adjoining the Mill property, which will be sold with it if desired.

If not sold before the 20th of March it will be offered for rent.

Every practical business man who investigates the desirableness of its location and the permanence of its structure must be fully convinced that this is a most favorable opportunity to make a sure and profitable investment, and affords a rare chance to accumulate a fortune.

The Terms (if desired) might be one-quarter down, with ten equal yearly payments, with interest on whole sum of deferred payments annually.

☞ Further particulars can be learned by addressing either of the subscribers.
