☞ A great eclipse of the sun is announced to take place on the 18th of August next. It is said that the darkness on that occasion will be unusually prolonged.

☞ On Monday, 11th inst., work was resumed on the Sullivan & Erie Railroad, and it is expected that the entire line from Dushore to Towanda will be graded and bridged this year.—*Sullivan Free Press.*

BODY FOUND.—The body of an unknown woman, says the *Northern Pennsylvanian*, Great Bend, was found lodged in the driftwood in the river a quarter of a mile east of this place, last Monday morning.—A man came from Susquehanna on hearing it, and identified her as his daughter. Her name was PALMER, and she was aged eighteen years. Her father stated that she had been "out of her head" for some time previous to her disappearance. The body had been in the water for two weeks.

☞ The lateness of the present season though unusual is not without parallel. On the 8th of May, 1803, snow fell to the depth of six inches. On the 4th of May, the same year, snow fell, and on the 5th the snow was six inches on a level. On the 25th of May, 1832, the ground was covered with snow, and ice formed in tubs and pails. May 15, 1834, the ground was covered with snow, and ice half an inch thick formed. So our season is not as backward as seasons in the past have been.

☞ There was a law passed by the last Legislature appointing Commissioners to select a site on which to locate a new Hospital for the Insane of the northern district of the State composed of the counties of Monroe, Carbon, Pike, Wayne, Susquehanna, Wyoming, Luzerne, Columbia, Sullivan, Bradford, Lycoming, Tioga, Potter, Clinton, Centre, Clearfield, Elk, Cameron and McKean. We learn that some of the commissioners have been looking at several locations near this place.—*Columbia County Republican.*

BURGLARY.—The Hardware Store of Stanbrough & Strattons, of this village, says the Owego *Gazette*, was burglariously entered on Tuesday night, May 19th, and robbed of Pocket-knives and Cutlery, to the amount of about $400, together with a bar of silver, belonging to a Nevada Silver Mining Company, valued at $75 or $80. The store was entered by climbing upon the awning to the second story, and removing a window, then passing down stairs emptying boxes and replacing them back upon the shelves, or in their proper places. The door of the store was found open in the morning, and the lock taken off and laid upon the counter.

Towanda, May 25, 1868.

There will be a special meeting held at the Odd Fellow's Hall on Saturday, May 30th, at 12 o'clock noon, for the purpose of joining with other societies of this place to decorate the graves of our comrades who have fallen in the late Rebellion. A full attendance is requested

May 28, 1868. J. S. CARE, Sec'y.

☞ By direction of the commander of Post No. 88, G. A. R., *all honorably discharged soldiers and sailors* are requested to meet at the Hall of the G. A. R. on Saturday, May 30, at 12½ P. M.

A. G. MASON, A. A. G.

☞ In consequence of poor health L. L. MOODY, of Rome, is preparing to quit the mercantile business and will now sell his store to a good business man on very reasonable terms. We think it an excellent place for business and have no doubt but he will have plenty of good applicants.

NOTICE.—There will be a Strawberry Festival and Picnic in Tuscarora, July 4th, in the vicinity of the new Free Baptist Church, to aid in furnishing and finishing their new house of worship. Good speakers and good music will be in attendance, and no pains spared to make it pleasant for all.

By order of the Committee. May 28.

SHORT STEMMED IMPROVED BRUNSWICK CABBAGE.—"This improved Cabbage is of fine quality, very flat and hard, measuring, with good culture, from one foot to eighteen inches in diameter. We consider it the best, either for early or late planting; it is easily cultivated, every plant producing a fine head when fully grown. It is highly esteemed among gardeners, and is used in preference to all others."

This is represented by respectable and reliable parties to be a very early, quick maturing Drumhead Cabbage, of large size, fine quality, few outside leaves, sure to head, and not liable to burst open when fully grown. Very fine either as an early cabbage, or as a late cabbage. Its quick growth allows of very late planting as a second crop, after peas and other early vegetables.

In the Spring of 1867, the Boston market gardeners were eager to buy the little seed, to be had of this cabbage, at $5 per ounce.

This season is the first that the seed has been obtainable; and it is still high priced. My plants are stocky and fine.

Price of early hot bed plants per doz 15 cts.

Late Plants in June and July, stocky and fine, 12 cts per dozen, 75 cents per 100.

R. M. WELLES.
Towanda Market Gardens, May 12.

EARLY CABBAGE PLANTS.—I have a good stock of superior early cabbage plants, of unusual and extra quality; all grown in separate hot-beds. They are very hardy, and ready for immediate planting.

A friend, who has had scores of my plants this season; and, who has had 12 years experience with hot-beds, writes, under date of May 7th: "They were very stocky; I never could raise such plants in a hot-bed with Tomato and Peppers." The following are the best varieties in order of heading: Little Pixie, Burnell's King of the Dwarfs, Early Jersey Wakefield and Winningstadt.

Price 10 cts per doz., 35 cts per 50, 60 cts per 100. R. M. WELLES.
Towanda, May 12.

TOMATO PLANTS.—Fine, stocky and and acclimated plants of Tilden, Keyes' Prolific, Foard, Early Large Smooth Red, Fegee and Yellow Plum, all grown in separate apartments separate from other plants, from seed of my own growing, and selected only from best and first ripened specimens. All have been transplanted into cold frames

Price 10 cts per dozen, 35 cts per 50, and 60 cts per 100.

CEDAR HILL EARLY TOMATO.—For the first time introduced to the notice of the public. "It combines the qualities of Earliness, Good Size, Solidity and Productiveness, in a greater degree than any other variety, and consequently we consider it superior to any other in cultivation, for private use or for market purposes.

Plants of this Tomato sell in N. Y. City at the rate of three dollars per hundred.

I got my seed from the originator, Mr. John Sill of Cedar Hill, N. Y.

Price 20 cts per dozen.

R. M. WELLES.
Towanda Market Gardens, May 12.

PEPPERS, EGG PLANTS, SWEET POTATOES, &c. Sweet Mountain, Squash and Bull Nose Peppers; fine plants. 10 cts per dozen.

CAULIFLOWERS.—Dwarf Mammoth, Early Paris, and Nonpariel; both early and late plants. Hardy and stocky plants. Price 8 to 10 cents per dozen. R. M. WELLES.
Towanda, May 12.

A PATENT RIGHT AND NO HUMBUG.—The best and most sensible thing in the shape of a patent right is D. B. Sturdevant & Co.'s milk shelves, and Provision Rack, combined. It gives shelf room to a large amount of milk, each Rack holding seventy-two pans of milk, occupying but four feet ssace of room, saver a woman much labor, as each pan of milk can be taken from or put on to the rack without taking a step; it can be taken apart and moved from cellar to kitchen, in five minutes, and is a splendid thing to dry fruit upon.

Orders received for the rack at Codding & Russell's Hardware Store, Towanda.—Tawnship Rights for sale by Wm. Durand, Herrick, Bradford Co., Pa. May, 6.

A GOOD TOMATOR—CEDAR HILL EARLY.—Some seven years since we received plants of a tomato from John Sill, Esq., of Albany Co., N. Y., with a statement that among a large number of varieties cultivated by him, this was the earliest and best.—The plants were placed separate from all others in our garden, and no more than ordinary pains taken in their cultivation. The fruit ripened the latter part of July, in advance of two or three other varieties, and was superior to them in every respect. We carefully saved the seed, and have since cultivated the variety side by side with each season's novelty. Thus far no tomato has equalled it in earliness, freedom from indentations, productiveness, solidity, or flavor. Many kinds produce a full crop which ripens up at once and is gone, and the vine, exhausted by its efforts, ceases growth and further production of fruit during the season; while the kind under consideration will continue in fruit until cut down by October frosts. Our neighbors all strive to be ahead of us with their early vegetables, and sometimes succeed in doing so with peas and corn, but for the past four years we have been able to send them baskets of tomatoes before their own were scarcely tinged with red. The fruit is of a medium size, very uniform, has few seeds, and as far as our observation goes, is distinct in appearance from any other variety. Mr. Sill informs us that he has grown the variety extensively for the Albany market, and has found it more profitable than any other.

In our notice of this tomato we have no private interests to serve, but simply desire to call the attention of our readers to a tomato, that an experience of seven years in its cultivation justifies us in saying, has with us surpassed all the much lauded varieties of former years.—*Editorial in the Horticulturist for December 1867.*
