PITTSBURGH GAZETTE.
WEDNESDAY MORNING, JUNE 22, 1853.

"COULDN'T, OR HE SAID SO."—Leaning idly over a fence a few days since, we noticed a little four-year old "lord of the creation" amusing himself in the grass by watching the frolicsome flight of birds which were playing around him. At length a beautiful bobolink perched himself upon a drooping bough of an apple tree, which extended to within a few yards of the place where the urchin sat, and maintained his position apparently unconscious of the close proximity to one whom birds usually consider a dangerous neighbor. The boy seemed astonished at his impudence, and after regarding him steadily for a minute or two, obeying the instinct of his baser part, he picked up a stone lying at his feet and was preparing to throw it, steadying himself carefully for a good aim. The little arm was reached backward without alarming the bird, and Bob was within an ace of damage, when lo! his throat swelled, and forth came Nature's plea: "A-link—a-link—a-li-i-n-k—bob-o-link—no-wer—a-no-wer—I know it—I know it—a-link—a-link—a-link—a-link—don't—throw it—throw it—throw it," &c.—and he didn't. Slowly the little arm subsided to its natural position, and the despised stone dropped. The minstrel charmed the murderer. We heard the songster through, and watched his unharmed flight, as did the boy, with a sorrowful countenance. Anxious to hear an expression of the little fellow's feeling, we approached him and inquired, "Why didn't you stone him, my boy? You might have killed him and carried him home." The poor little fellow looked up doubtingly, as though he suspected our meaning, and with an expression half shame and half sorrow, he replied, "Couldn't, cos he sung so."

We may say that our nature is *wholly* depraved after that, or ever that music hath no charm to soothe the savage breast? Melody awakened Humanity, and Humanity Mercy. The angels who sang at the creation whispered to the child's heart. The bird was saved, and God was glorified by the deed. Dear little boys, don't stone the birds.—*Clinton Courant.*

MISCELLANEOUS.

IMPORTANT TO HOUSE KEEPERS.

SOMETHING better and more economical than Soda, Cream Tartar, or any other preparation in existence, for Baking—DUNKEE'S CHEMICAL SALERATUS is warranted to make Biscuit, Cakes, Fried, Griddle and Johnny Cakes, Puddings, Pot-pies, Corn bread, &c., &c., quite as healthy, light and good. Tots article is one that every Family, Hotel, Boarding House, Saloon, Steamboat, Factory, Bakery, Camp Ball Room, etc., will find, upon a careful trial, to be the very thing needed every single day of their existence.

It is one important article every the old system, try:

1. It saves the expense of milk, eggs, shortening, spoiled dough, and the trouble and expense of procuring good yeast—water only being necessary.

2. It can be left on the dough to rise before baking; consequently bread may be made in a few minutes.

3. A cook can always depend upon having light, sweet, tender and palatable bread and biscuit, whether the flour be of the best quality or not.

4. Bread, made of this process is much more nutritious, easier of digestion, better fitted for a weak stomach, sweeter, lighter and lighter, than when made with yeast.

5. The bread made by fermentation, does not afford the same amount of nourishment to the system, that it does when made with this preparation, because the carbonic acid contained in fermented bread, prevents the proper amount of oxygen from being taken in, and consequently a part only goes to nourish the body, while the acids tend to produce dyspepsia and its attendant ills.

This article has been thoroughly tested, and is unlive, warranted to suit.

Be careful to ask for DUNKEE'S BAKING POWDER, and take no other, and you will not be deceived. Principal office, 129 Water street, New York. Sold by the best grocers and druggists generally.

Prescribed by Physicians.

PHYSICIANS everywhere prescribe B. A. FAHNESTOCK'S VERMIFUGE, for the reason that they can place implicit confidence in it. Read the following testimonial from a gentleman whom we have known many years:

BURNSVILLE, Ind., Sept. 21, 1852.

Messrs. B. A. Fahnestock & Co.—Gentlemen: It gives me pleasure to inform you that I have been using your Vermifuge for some ten or twelve years, and during that time I have prescribed your Vermifuge and prepared it as, and I can conscientiously say that you have universally given satisfaction to all who have used it, and was generally used and esteemed in my practice, and in the town of this Blanton, Ky., and its vicinity, where I did business up to the 1st of last April, since which time I have not in my own family with entire satisfaction, when other preparations failed to give the desired effect.

Yours, truly, THOMAS FOX, JR.

The above is a sample of testimonials I have received from all by all the principal druggists and country merchants throughout the U. States. [my9

GREAT DEMAND for the only true and genuine LIVER PILLS, prepared by R. E. Sellers. Mr. R. E. Sellers:—I have purchased, occasionally, some of your Pills and Vermifuge, from a peddler who has been in the habit of paying through our place, but as he has not been through here lately, the great demand for your Medicines induced me to send to Philadelphia for a few supply, some four or five kinds of Pills, but your liver Pills are the only ones that I can recommend. I have ever kept. Please write me directly, and oblige.

TESTIMONY FROM TENNESSEE IN FAVOR OF B. A. FAHNESTOCK'S VERMIFUGE.—The Nashville Union says: "We call the attention of our readers to the certificate of Mr. John Herriford, in favor of B. A. Fahnestock's Vermifuge. The gentleman is well known in this community, and anything he says can be relied on."

Messrs. B. A. Fahnestock & Co.—Gentlemen: For the benefit of others, I take pleasure in testifying to the valuable qualities of your vermifuge. About ten years ago, my attention was first called to it by a friend, an officer in one of the Banks in Nashville, who informed me that it was their a standard article, having used it in his family with the most satisfactory results. By repeated trials in my own home for one of my children, who had until then been very feeble and subject to frequent attacks. The Vermifuge expelled a great number of Worms, and the child afterwards gradually recovered good health. I have since used it regularly in my family for most of the ailments of children, and generally with good effect.

One remarkable case, in the family of a near relation, I will mention in particular. The child was about four years of age, had always been puny, often attacked with severe pains, and, at the age mentioned, nearly lost the use of the lower extremities. I recommended the use of your Vermifuge in the case, and left the half of a vial behind afterwards that the child passed nine more by bulk of large Worms—the number not remembered—and, in a short time, by the use of the Vermifuge, the child recovered and health began to improve. When I next saw the child, she was walking and enjoying perfect health! This recovery, from the very jaws of death, the friends attribute to the use of your Vermifuge.

PROFESSOR ALEX. C. BARRY'S THEOPHOROUS, or Medicated Compound, for beautifying, improving and preserving the hair, curing cutaneous, burns, stings, rheumatism, and all irritations of the skin. A preparation, the sale of which amounts to one million of bottles annually, would seem to need no advertisement; but as the thousands who purchase, see and approve of it having probably no side of the enclosure, we subjoin a few of the hundred done by Professor Barry, he publishes a plain statement of the facts derived from his books, and with them tenders his earnest and hearty thanks to his innumerable patrons.

Professor Barry's accounts of sales for the year 1852, show that during that year about 900,000 bottles of his Theophorous were disposed of, and that the cash product of this immense sale was nearly $100,000.

This plain, unvarnished tale is a better commentary on the value of the article than anything its inventor could say. If it were not peerless in its effect upon the hair—if it were not invaluable as a household remedy for cuts, bruises, burns, skin diseases, &c., it would not, it cannot be so universally in demand. The wealthy portion of the public would buy it at any price, but Professor Barry has reduced it to a figure so low that the poorest may now avail themselves of its benefits.

Contract for regular supply, at uniform rates during the year, will be made with Keepers of Hotels, Eating Houses, Saloons, Steamboats, &c.

BOGLE'S HYPERION FLUID is the best article for the HAIR in use. The following speaks for itself. A letter from the Rev. Mr. Chapman, landwith, Miss., late of the "Olive Branch" office:

BOSTON, April 6, 1846.

Mr. Bogle—Sir: I consider it a duty I owe you as well as those who may be troubled with baldness and hair as I have been, to acknowledge the efficacy of your Hyperion Fluid, for the use of which I have been much benefited for twelve years. I was troubled with a scaly humor on my head, which at times would so irritate as to think coal of scaly humor, (or dandruff in its worst form) which entirely covered the person of the skin, and was so thick and so much like a coat of mail; my hair also grew dry and dead, and at last began to turn gray and fall over my head, which I had to shave off. Your Hyperion Fluid, (and their name is legion) without a single trial, cured me of the disease, and my hair grew as thick as ever, and although it was highly praised by those who had used it, yet I was afraid to use it for fear of the destruction of the scaly humor, which I was informed by one day but was induced by you to give it a trial upon the system of no cure no pay; and I am glad to say it has entirely succeeded. The skin of my head is now free from humor or dandruff, my hair is daily growing thicker, and it is in a fine healthy state. It is therefore with the utmost confidence I recommend your Hyperion Fluid to all my acquaintance.

I am, yours, truly, SAMUEL CHAPMAN.

THIRTY FEET OF TAPE WORM EXPELLED BY USING B. A. FAHNESTOCK'S VERMIFUGE.—Mr. Bosch is a gentleman well and favorably known in his place of business.

STORE, Mr. Wm. W. Both, Druggist.
PETERSVILLE, Miss., Feb. 8, 1853.

Messrs B. A. Fahnestock & Co.—I have had a great sale for your Vermifuge. Besides what you seen me, I sold it with Birdsall & Co. a stock of drugs, five dozen, nearly the whole of which is sold. It does great execution amongst the worms. My Joe Parker gave his son (nice years old) three bottles of your Vermifuge, and it brought away nearly thirty feet of Tapeworm! Daniel Odell gave two bottles to a child four years old, and it passed about one hundred worms nearly two feet long, and many smaller ones came away, and the child is well. As soon as navigation opens I shall order an additional supply.

Respectfully, yours, &c., WM. W. BOTH.

SAVE YOUR ICE.
Burnet's Patent Water Cooler.

WE are now prepared to offer our friends and customers a superior article of WATER COOLERS of entire new styles and at greatly reduced prices. These are the result of the application of scientific principles to the purpose intended, viz: to keep water as cool as possible, as long as possible, and with the least possible quantity of ice. The proprietor has long devoted his attention to this particular branch of domestic economy, and passing from one improvement to another, has at length arrived as near perfection as it is possible to reach. A proof of this is found in the very general use of these Coolers in all parts of the country. A simple statement of facts is offered in regard to these Coolers, will satisfy every one of their superiority. First, they are the only article of the kind ever patented. They are furnished with two distinct non-conducting chambers, by means of which, with two pounds of ice to the gallon, water is kept at a temperature of 40° all day long (or 24 hours, reading fall days). Thus, at a cost of some three cents per day, a family or ordinary size can be constantly supplied with water as cold as ice. Health is the result, and comfort in proportion. This has been found by actual experiment to be a saving of at least *seventy* five per cent. over the earthen jars formerly used for this purpose.

Again, these Coolers are economical in this way saving much unnecessary waste and impure.

Being manufactured in the most workmanlike style, and handsomely finished in every respect, they are a beautiful ornament of a dining room, hotel, or steamboat.

An important improvement has been made in the Cooler, viz: a small pan (capable of holding from six to eight p
