LOCAL AND GENERAL.

TIME TABLE.—The following is the Time Table of the Pennsylvania and New York Canal and Rail Road Company, which took effect on Monday, Nov. 23, 1868:

SOUTHWARD.

	P. M.	P. M.	A. M.
WAVERLY	6.35	12.30	8.40
ATHENS	6.50	12.45	8.55
MILAN	7.03	12.58	9.08
ULSTER	7.18	1.13	9.23
TOWANDA	7.40	1.35	9.45

NORTHWARD.

WAVERLY	8.10	12.00	6.00
ATHENS	7.50	11.40	5.40
MILAN	7.37	11.27	5.27
ULSTER	7.22	11.12	5.12
TOWANDA	7.00	10.50	4.50
	A. M.	A. M.	P. M.

JOHN P. COX, *Superintendent.*

☞ BRICK POMEROY and JOHN C. BRECKINRIDGE were amongst the arrivals at the American Hotel, Elmira, last week.

☞ The *Waverly Advocate* says that the Erie Railway Company contemplate building a large number of coal pockets at that place, in the Spring, the present being entirely inadequate to the business.

☞ The Danville *Express* says: "A company of over eighty persons living in the town of Cohocton, Steuben county, started for Kansas last Monday morning, where they will found a settlement. Many others are making preparations to follow."

☞ Last Wednesday evening, the store of William Vose, of West Candor, was broken into and about $40 worth of goods taken therefrom. No clue has been obtained as to who the burglars were, or which way they went.—*Candor Press.*

SEVERE ACCIDENT.—A man by the name of James Ives, met with a serious accident this morning at Card's Mills, about six miles below Wellsburg. He was lifting a block on a shingle machine, when his foot slipped, and his right hand came in contact with the saw, and took off the thumb and two fingers of his right hand.—*Elmira Gazette.*

☞ The *Northern Tier Gazette* has recovered partially from the effects of the late fire, and comes to us a half-sheet.—Though not burned out, HOOKER'S establishment was turned topsy-turvy, in the excitement of the occasion. One such hasty removal is as bad in a printing office, as a fire.

☞ A trial of Steam Fire Engines took place at Elmira, on Friday, and excited considerable interest. Amongst those present to see it, were Burgess RUSSELL and Councilman HUMPHREY, of this place. The contest was between Senaca Falls rotary and the Amoskeag piston engines. The tests were very severe, and the Amoskeag gave out before the trial was finished.

☞ The sufferers at the late fire at Troy, are preparing with their accustomed enterprise to build a new Troy, upon the ruins of the old. V. M. LONG will replace the Troy House with a Hotel proportioned to the wants of the place, and Messrs. POMEROYS will put up a brick block, which will be an ornament. Their banking-house will be reconstructed, we presume, in the same splendid style, in which it was first built.

Others are also making preparations to commence re-building, and the fire, though its present effect is depressing, will eventually prove beneficial to the architectural appearance of the place. There is too much wealth and energy in Troy to be overcome by one fire.

NEW YORK STATE FAIR.—The citizens of Elmira have been doing their "level best" to have their city designated as the place for holding the next State Agricultural Fair. The *Advertiser* says that their efforts have been successful, and that the State Agricultural Society held their annual meeting in the Assembly Chamber in Albany, Wednesday, and that the city of Elmira was selected as the place for holding the next State Fair.

This is the third time that Elmira has been chosen by the State Society as the place for holding its Fair, it having been located there in 1855, in 1860, and now in 1869. Our hotel and other accomodations are much superior now to what they were on either of the former occasions, and we have no doubt the arrangements this year will be satisfactory to the Society and to the thousands of people who will be in attendance at the Fair.

BUTTER MAKING.—Our neighbors in Tioga and Susquehanna counties are bragging in the line of butter making.

The *Agitator* says that Mr. BATEMAN MONROE, of Sullivan, Tioga county, last year kept a dairy of 14 old cows and 3 two-year old heifers—equal to 15 head. From the milk of these cows he made $1,040 worth of butter for market, and from the buttermilk realized, in calves and pork, $135. Total $1,175; or $73.40 to each cow, counting the heifers as cows of full growth.

The *Montrose Republican* says that Mr. THOMAS S. BALDWIN, of Bridgewater township, Susquehanna county, had on the 15th of April, 1868, a dairy of eleven cows and heifers; three being heifers, and one of them only two years old. From this dairy he sold, between that date and December 25th, 1850 pounds of butter.

We don't believe our Bradford farmers can be outdone in the quantity or quality of their butter. We should like to hear from some of them.

DROWNED.—Patrick Manyon, who for several months past has been working for H. B. Morgan, on the R. R. at this place and at Meshoppen, was drowned in the pool of the Horse-race dam, near Mehoopany, on Tuesday of last week.

Patrick, who with a friend named James Riley, had put themselves outside of rather too much "fusil oil,"—commonly called whiskey,—to be any way at all cautious, started from the dam to Mehoopany across the ice. When nearly across the river, they walked straight into an opening or air-hole, and of course went down, clinging desperately to each other. They struggled and arose to the surface two or three times, until persons who saw their danger had come to their assistance. Riley was rescued in a senseless and strangled condition, and after proper restoratives was revived. Manyon though still struggling when assistance came, had sunk in the water under the ice, so that it was impossible to reach him except by a hook and pole. The body was brought out after it had been in the water for an hour or upwards; but too late for resuscitation.

His remains were taken to his friends in Pittston or Scranton. He had in his pockets about $70 in money saved from several months of industry and sobriety. Those who have known him here, during the past few months, speak of him as an honorable, industrious and,—up to this fatal spree—a temperate man.—*Tunkhannock Democrat.*

☞ The warm weather of the past week, raised the streams sufficiently to move the ice from the pool of the dam, Sunday night, but without doing any damage. A heavy fall of rain Sunday evening helped very materially to melt the snow, though there is yet a large body of it remaining in the woods.

MR. HAMMOND'S MEETING.—Rev. Mr. HAMMOND has been holding a series of meetings in Rochester for home time past.—Those held last week in the Central church have been intensely interesting. Numbers have come in from the country to attend them. Each evening a large proportion have remained at the second meeting, and often not less than a dozen ministers and Christians of different denominations are engaged in earnest conversation with groups all over the church. The singing of Mr. HAMMOND'S new hymns and tunes, many of which he brought from Great Britain, has been an attractive feature. The prayer meeting in the First Presbyterian church is crowded every morning, between 9 and 10 o'clock.

PERSONAL.—We are extremely gratified to observe that the people of Towanda and vicinity are cultivating a taste for paintings, pictures and works of art, before, as we believe, imperfectly developed more for want of opportunity than disposition. The past year and especially the past winter has afforded them a splendid opportunity for this purpose, if we may judge from the display upon the counters and from the shelves and show-windows of our book-stores and walls of our picture galleys.

They have had chromos in abundance, and many pictures and colored photographs all most beautiful. And yet while these are very nice with which to decorate the walls of our houses we should feel that there was a very great desideratum were there no Artist with us by whose skill we could obtain just as beautiful pictures of the members of our own families. But fortunately we have such a one in the person of Mr. G. W. GUSTIN. This gentleman came to us last fall well recommended, and his work since done speaks very highly of his skill and ability as a painter. We have been favored with a peep at some of his productions and confess that they were very ably executed. They consist principally of India Ink work, Water Color and Oil Paintings.—Those in India Ink are chiefly copies from pictures of deceased persons or others who wish fine large pictures from small ones in their possession, and yet copies of this kind can also be worked up splendidly in oil.—These are good, the copying and enlarging being done at Messrs. HARDING & SMALLEY'S Gallery, in connection with which Mr. G. is principally employed, and where also all sittings for other works whether in oil or otherwise are given. Those done in oil especially attracted our attention and elicited our praise. The rotundity of the figure, the beautiful arrangement of complimentary colors, the artistic blending of light and shade, and the very life-like expression, render these very pleasing and compel us to pronounce them not only most artistic but in many cases surpassingly beautiful

A specimen of this work may be seen at the News Room of ALVORD & BARKER in Post Office building.

COURT PROCEEDINGS.—The following business was done in the Common Pleas:—Subpœnas in Divorce and alias subpœnas were directed to issue in the following cases:

Witherell vs. Witherell.
Rebecca Heath vs. Wm. P. Heath.
Frances G. Crater vs. Fred E. Crater.
Frances A. Ridall vs. John Ridall.
Lois A. Lewis vs. Geo. H. Lewis.
L. R. Bowman vs. Nancy M. Bowman.
John C. Pierce vs. Esther J. Pierce.
Mary Carrier vs. Eldad Carrier.
Wealthy S. Phelps vs. Victor Phelps.
Emma K. Woodward vs. Alram M. Woodward.
Ellen Green vs. Francis Green.

Divorces were granted in the following cases:—

Geo. F. Brown vs. Sylva S. Brown.
S. F. Edsall vs. S. M. Edsall.

The case involving the validity of the will of the late Daniel McDuffie dec'd, of Athens township came on for trial on Tuesday, Feb. 8, and a jury was called and sworn, and the remaining jurors discharged.—The trial was continued from day to day, until Saturday afternoon when it was adjourned until Monday, at 2 p. m., to allow the jury to visit their homes. The case was recommenced on Monday, when the jurors drawn for third week were discharged with the exception of a jury drawn and kept to try the case of Storrs vs. Smith. At the time of going to press (Wednesday afternoon) the McDuffie case is not terminated.

In the matter of application for incorporation of the Terrytown Cemetery Association the Court grant the application.

☞ Attention is called to the new advertisement of CODDING, RUSSELL & Co. The old firm of CODDING & RUSSELL have admitted JAS. H. CODDING and CHAS. M. HALL, as partners, and the business will hereafter be conducted under the above name.

WATER WORKS.—The question of a supply of water for domestic purposes and as a protection against fire, is always one of great importance to a flourishing village, and one which excites more or less discussion. The present unprotected state of our town as regards a supply of water, has brought the subject prominently forward. On Thursday of last week, upon the invitation of B. B. BIONELL, of Owego, N. Y., agent for the Holly Manufacturing Company, the Burgess and Council of this place, visited Binghamton, to examine Holly's system of Fire Protection and Water Supply, works having been recently put up in that city. A thorough inspection of the works was made, and the power of the machinery tested, as applicable to fire purposes, and the unanimous and irresistable conclusion was, that this method of procuring water was preferable to any other where machinery is required.

The works are located near the river—the water is procured from two large wells, and forced by powerful machinery through the pipes, of which about thirteen miles are already laid down. A pressure of 40 lbs. to the inch is sufficient to supply the town, while for fires a force of three times that amount can be applied. An ingenious mechanism sounds a whistle at the works, whenever a hydrant is opened, notifying the engineer that a fire has broken out, and that more pressure is required.

VELOCIPEDE EXHIBITION AND SCHOOL.—HARRY THOMAS, has opened Mercur's New Hall, for a Velocipede Exhibition, and to enable such of the public as may be desirous of learning the art and science of guiding and driving these universally popular machines, an opportunity. The school will be open day and evening, until further notice. We shall expect, in a few days, to see the bicycle a common mode of conveyance in our town.

☞ A Sunday School Institute for Bradford County will be held in Athens on Tuesday and Wednesday, the 23d and 24th inst., commencing on Tuesday at 2 o'clock p. m., in the Reform Church.

Addresses on practical topics of interest to all will be delivered by Rev. W. A. NILES D. D., Rev. WM. HARRIS, Rev. S. T. FISH, Rev. T. J. B. HOUSE, Rev. R. CRITTENDEN and others.

No superintendent or teacher in the vicinity, will fail to improve this opportunity for instruction.

All persons will be welcome at every session of the Institute.

O. A. BLICK, Sec'y.

☞ At an informal meeting of the Insurance Agents of Towanda, held at the Office of H. B. MCKEAN, on Saturday evening Feb. 13, 1869, for the purpose of forming a Bradford county board of Underwriters, C. S. RUSSELL was called to the chair and JOHN W. MIX was chosen Secretary.

On motion of Mr. MCKEAN it was resolved "that the officers of this meeting should correspond with the several Insurance Agents of this County and request them to meet with us at the office of H. B. MCKEAN in Towanda, on Tuesday the 2d day of March 18 69, at 2 P. M., for the purpose of further organizing a County Board and transact such other business as may be deemed expedient.

C. S. RUSSELL, Chairman.
JOHN W. MIX, Sec'y.

SUSQUEHANNA COUNTY.—On the 26th ult. a little son of Henry Shelp, of Forest Lake township, about two years old, fell backwards into a tub of hot water and was scalded to death.

—The Grist mill of William Waterson in Brooklyn township, was destroyed by fire on Saturday night, January 30th. Total loss, $8,000. Insurance, $4,000. The fire is supposed to have been caused by friction of the gearing.

Special Notices.

☞ The Spring style of Gent's Silk Hats has just been received by Clonney & Amsbry, South side Mercur's new block.

☞ The Children's Musical Convention of Wyalusing, Pa., will hold its closing Concerts on Saturday and Monday evenings, Feb. 20, and 22, in the Town Hall, under the management of JAMES MCGRANAHAN, of Lindenville, O.

Tickets, 25 cents.

Mr. MCGRANAHAN will also hold a Convention at Stevensville, Pa., commencing Monday, Feb. 22d.

In these Conventions, which consist of a course of 20 lessons, (two each day), a thorough investigation of the rudiments, reading notes, &c., forms a *leading feature.* (and terms are such as cannot fail to suit). As his time in this part of the country is somewhat limited, those desiring his services should address as *early* as possible, at Stevensville, Bradford Co., Pa.

Feb. 8.—2w*

WASHINGTON'S BIRTH-DAY PARTY.—The Public are cordially invited to attend a Washington's Birth-Day Party, to be given at the Milan House, in Milan, Pa., on Monday evening, Feb. 22, 1869. Music: Keeler's Full Band. Bill $2 50.

Feb. 10. S. WATKINS, Prop'r.

TEMPERANCE LECTURES IN EAST BRADFORD.—Rev. Jas. A. Davidson, State Lecturer for the Grand Lodge of I. O. of G. T., who has been lecturing to crowded houses and making many Temperance converts in West Bradford, will lecture at the following places in East Bradford:

PARK RESTAURANT.—G. W. COON, proprietor. Meals served at all hours, and in every style. Ale drawn from the wood. Under Chamberlin's Jewelry Store, Main St., Towanda Pa. Dec. 23.

AYER'S HAIR VIGOR, *For restoring Gray Hair to its natural Vitality and Color.*—A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *Faded or gray hair is restored to its original color with the gloss and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a hair dressing, nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and grateful perfume.

Prepared by Dr. J. C. Ayer & Co., Practical and Analytical Chemists, Lowell, Mass. Price $1,00.

Sold by Dr. H. C. Porter Towanda, & all Druggists & Dealers in medicines every where, Nov. 26, 1868.y

Agents for Elias Howe, Jr.'s

SEWING MACHINES.

Towanda, February 15, 1869.

Miscellaneous.

THE NEW AND IMPROVED

ELIAS HOWE,

FAMILY SEWING MACHINES,

Were awarded the First Prize at the Paris Exposition 1867, over 62 other Machines.

Also, the following State Fairs of 1868 have awarded this Machine the first premium.

New York, Ohio, Pennsylvania, Massachusetts, New Hampshire, Vermont, Wisconsin, and Indiana.

At the County Fairs of Madison, Onandaga, Oswego, Wayne, Orleans, Tompkins, Seneca, Monroe, Herkimer, Schuyler, Livingston, and a host of others.

Report of the Committee on Sewing Machines, at the State Fair held in Rochester, Fall of 1868.—"Your Committee have examined the different Sewing Machines to which their attention was called, and would recommend as the best Family and Machine for all work, Elias Howe's Sewing Machine, and for the following reasons: 1st—Simplicity of construction. 2d—Regularity of tension on both upper and lower threads. 3d—Ease of management. 4th—Great range of work upon all materials. 5th—The perfect attachments to the Machine for felling, hemming, tucking, braiding, quilting, binding and cording, and the ease with which they are applied, 6th—The durability of the machine, it being made of hardened steel, and adjusted in its bearings. We recommend a medal."

New style Hemmer, Braider, Tucker, Quilter, Corder, Embroiderer, Binder, Feller and Improved Tuck Marker.

It will use any and every kind of thread, from the finest to the coarsest, with a much smaller needle than other machines. Be sure and examine one before you purchase. Price from $60 to $200, and every machine warranted. The real value of our Manufacturing Machines for Tailors, Boot, Shoe, Harness and Carriage Makers, is too well known to require comment.—Don't fail to call and see them.

SHEPARD & TERNEUR, Gen. Agt's.
