ULSTER	7:22	11:12	5:12
TOWANDA	7:00	10:50	4:50

JOHN P. COX, *Superintendent.*

☞ Rev. W. A. NILES will occupy the pulpit of the First Presbyterian Church in this place on Sunday morning next.

☞ Rev. S. J. LUSK, late of Orleans, N. Y. has accepted the call of the Towanda Baptist Church, and has entered upon his labors as pastor. Regular Sabbath services at 10:30 a. m. and 7:30 p. m.

☞ On Saturday last a beautiful black horse belonging to Lloyd Fish of Sheshequin, one of a finely matched team, and worth at least $300, was kicked by its mate, and one hind leg so badly shattered that killing became necessary.

☞ Rev. W. A. NILES, of Corning, N. Y., will de deliver a discourse before the Young Men's Christian Association of this place, in the Presbyterian Church, on Sunday evening next, 11th inst. Services in the other Churches will be omitted on that evening.

INSTALLATIONS.—The officers elect of Bradford Lodge No. 167, I. O. of O. F. for the current term were installed by Dist. Deputy CALKINS, on Monday evening.

D. D. G. W. P. BLACK installed the officers of Towanda Division, No. 103, Sons of Temperance, on Tuesday evening.

☞ The *Bradford Argus* I am told, has been somewhat concerned for some weeks past, as to my whereabouts. If the editor of that paper will call at the Custom House, in Philadelphia, I shall be happy to relieve his anxiety. E. O. G.

☞ Business outside, incident to making his arrangements for his departure for Philadelphia, has prevented Mr. Goodrich from bestowing his usual attention to the interests of the paper this week, while the junior has been so much occupied in disposing of his other business, preparatory to entering upon his duties in the office, that we must ask the indulgence of the reader for omissions and short comings this week.

☞ In the list of appointments sent to the Senate on Friday last, we find the name of CHARLES G. FAIRMAN, as Post Master at Elmira. Mr. F. is the chief editor of the *Advertiser*, to whose labors that paper owes much of its wide-spread reputation as an able and sprightly daily. He has maintained the Republican cause in its columns with great vigor and ability, and more than deserves this mark of encouragement and support. He will moreover make a popular and efficient officer.

☞ Considerable anxiety is manifested to know what are the duties to be performed by the Surveyor of the Port of Philadelphia, which office is now or about to be filled by the former editor of these columns. We are not exactly posted, but we suppose his principal duty is to go down every morning to the Delaware river and take a survey of the Port—he being, like Alexander Selkirk, on the island of Juan Fenandez, "monarch of all he surveys."

—We don't believe the rumor that the new Surveyor has been making or procuring a set of instruments.

NARROW ESCAPE FROM DROWNING.—On Sunday morning last, two young men, named Wm. Dow and Thos. McCarthy, attempted to cross the river above the mill-dam at Apalachin, and fearing that they would be carried over the dam, both jumped from the boat into the river and swam for the shore, which McCarthy succeeded in reaching. Dow not being as good a swimmer, was carried by the current over the dam, but was successful, however, in grasping around one of the mill-posts, where he hung until a boat reached him.—*Chicago Gazette.*

DEATH OF JOHN KINGSLAND.—JOHN KINGSLAND, the unfortunate man who was convicted of the crime of wife-murder in this County, about two years since, committed suicide in the Eastern Penitentiary, on Saturday last. The following notice in the Philadelphia *Press*, explains how the deed was accomplished:

"Coroner DANIELS held an inquest on Saturday last, at the Eastern Penitentiary, on the body of a convict named JOHN KINGSLAND, who committed suicide by stabbing himself through the heart with a knife which he had made out of a piece of iron found in his cell. KINGSLAND had been in the institution two years. He was convicted in one of the upper counties of this State for the murder of his wife, and sentenced to twelve years' imprisonment."

CURE FOR HYDROPHOBIA.—We have not much faith in cures for hydrophobia, but as the cases seem to be more numerous this season than usual, it may be well enough to have some remedy at hand for immediate use when any one is bitten. The following is said to have been tried with great success:

"Take of the root of elecampane (green or dry) one and a half ounces; bruise it well, add one pint of new milk, take at one dose, in the morning, fasting until four o'clock in the afternoon, or, at least, take it at a light diet at noon. Miss one morning, and repeat as before, except take two ounces of the root. Miss the fourth morning, and repeat on the fifth, as before. This is the last. After this no one need fear the bite of a rabid dog."

☞ Miss GRIFFIN will open her new spring Millinery Goods, Saturday, April 10.

SUSQUEHANNA COLLEGIATE INSTITUTE.—The Spring term will commence on Monday, April 19th, and continue eleven weeks.

☞ Col. SAMUEL KNORR, of Bloomsburg, has been appointed assessor for this District, *vice* ROBERT F. CLARK removed. The appointment is one which is highly creditable to the "powers that be," and entirely satisfactory to the party.

☞ Dr. P. JOHN, late of the Columbia Co. *Republican*, is about to remove to Elizabeth City, N. C., where he will establish a Republican paper. Dr. J. is one of the ablest republicans in this district, and we regret to lose him. However, the principle he has so nobly battled for in Columbia county, will still find in him an earnest and eloquent advocate.

☞ Mr. FRED. J. CALKINS, of Troy, has purchased a half interest in the Book Store of ALVORD & BARBER. The name of the firm will now be CALKINS & BARBER. Mr. C. is a gentleman of good business qualifications, strictly honest and upright in all his dealings, and is worthy the patronage and confidence of our people. We cordially welcome him to Towanda. We bespeak for the new firm a liberal trade.

DUSHORE ITEMS.—ED. FREE PRESS—*Dear Sir*:—As it may interest some of the numerous readers of your paper, I send you the following facts relative to the progress of the Sullivan & Erie Railroad:

Col. Deegan, on the north, and Breen, MacDonald & Burgess on the south, are pushing the road towards a speedy completion. Several hundred men are employed on the road at present, and I understand that when spring opens fairly, the Contractors intend to double their force and pay promptly about the middle of each month.

The trestle work over the creek at Dushore is completed, and will compare favorably with any work of the kind in the State. Its dimensions are as follows:

Height above the creek, 50 feet; length 340 feet and contains about 90,000 feet of hewed and sawed timber. The trestle is braced in every possible shape to give strength and solidity to the structure. Mr. George Collins, the contractor and superintendent is a skillful and energetic mechanic, thoroughly understanding his business in every particular. R. W. H.

☞ The following changes in the Constable and road laws of this county, will be of interest to our readers:

That so much of the second section of an act entitled, "A further supplement to the road laws of Bradford county" approved February 27th, 1867, as authorizes the pathmasters appointed by the road commissioners in said county of Bradford, to do all necessary work upon the roads and bridges within their respective limits after the settlement of their duplicates, and receive compensation from treasury, be and the same is hereby repealed.

That so much of any law as requires constables of the several townships and boroughs in the counties of Bradford and Susquehanna, to make returns to the several courts of quarter session, and over and terminer, be and the same is hereby repealed.

SECTION 2. That the attendance of constables upon general special township and borough elections in said county, shall be paid by the respective townships and boroughs of said county.

This bill became a law March 19 1869.

ITHACA AND WAVERLY RAILROAD.—Books have been opened at the office of G. G. Manning, in Factoryville, for subscribing stock to the Ithaca and Waverly Railroad. Mr. Manning has taken hold of this matter earnestly and vigorously—has subscribed liberally himself, and already secured the subscriptions of others. Every business man, and owner of real estate in this village and vicinity, who is able, should take stock, though it be but little. The road would be of incalculable benefit to this locality, and the people ought to manifest their interest in it in such substantial way as will tend to secure its construction.—Such a manifestation of interest, and spirit of liberality would be of manifest benefit to us, aside from the aid it would render the road itself. We are aware that Waverly and vicinity are not overstocked with surplus means; but what there is would be well invested in this enterprise, and, now is the time to use it. We hope to be able to give a good account of the liberality and enterprise of our people in this undertaking.—*Waverly Advocate.*

☞ We most heartily rejoice in the appointment of E. O. GOODRICH, the able editor of the Towanda *Reporter*, to the responsible and lucrative office of Surveyor of Customs for the port of Philadelphia.—The great Republican majority in Northern Pennsylvania is as much due to the labors and services of Mr. GOODRICH as any other man. He was the associate and compeer of WILMOT and GROW in the organization of the Republican party. He has never wavered from the faith. He has fought the battle earnestly, consistently, and conscientiously. In the distribution of political patronage such men are properly remembered. And there is no one any where in all the party more deserving than Mr. GOODRICH.—*Elmira Advertiser.*

E. O. GOODRICH, Esq., the able and accomplished editor of the *Bradford Reporter*, is recommended for Surveyor of the port of Philadelphia. It affords us pleasure to say that no man in Northern Pennsylvania deserves more at the hands of the new Administration than Mr. GOODRICH. He has done effective service as editor for many years. He is honest, honorable, urbane, and zealous for upright public service. He will, if preferred, receive the warm congratulations of his brethren of the press in this State. If faithful service merits reward, then his merits are undeniable. We hope to announce his appointment.—*Tioga Agitator.*

MR. EDITOR.—A very great revival of religion has taken place in the M. E. Church, of LeRoy, and many are beginning serve the Lord with full purpose of heart. Over one hundred have been earnestly seeking to know the Son of their Saviour and God as their Father, and now with truthfulness they can say that the kindness and love of God our Saviour toward man appeared to them, not by works of righteousness which they have wrought, but according to his mercy he saved them by the washing of regeneratin and renewing of the Holy Ghost, which he shed on them abundantly, that being justified by his grace they should be made heirs according to the hope of eternal life.

The tender young hearts of the Sabbath School children, were first led to see their danger, and flee for refuge and lay hold of that hope which is an anchor to the soul both sure and steadfast.

And many of the bible class witnessing the faith of the children humbled themselves before the Lord, that he would lift them up and bid them go on their way rejoicing.

Then came the harder hearts. The fathers and mothers of some of the new born children, and with bleeding hearts bowed at the alter and gave themselves wholly to God.

And now they are as new born babes, and desire the sincere milk of the word that they may grow in grace for they have tasted that the Lord is gracious.

Many are the prayers that the work may still be revived for there are some who are yet out of Christ. D. A. C.

HARRISVILLE, March 29, 1869.

FROM A RETIRED FARMER.—On our little place, in Herrickville, we had two cows only, we made and sold in 1868, of No. 1, first quality butter, 400 lbs.; family three grown persons, used all the milk, cream, and butter we desired, raised two noble calves, for which I was offered $42.

Respectfully,

WM. HUTCHINSON.

TROY ITEMS.—*From the Gazette.*—Work is going on vigorously on the cellar of the Troy House. The excavations are being made for the additional width, the stone are being hauled for the foundations, and everything betokens that the Judge means to keep his word and have a first-class hotel in good running order before the cold winds of autumn drive travelers from the highways.

—The President has appointed and the Senate confirmed, Chas. F. Sayles for Postmaster of our village. This is a fitting reward for the faithfulness of Mr. S. to the Republican party of which he has been a leading and influential member. We believe our people of all classes, are well suited by the selection that has been made, and we have not the slightest fear but that this good opinion will be confirmed by the manner in which the office will be conducted.

☞ The Ministers of the Wyalusing District that intend to go to the conference at Honesdale by way of the Lackawanna Valley, can get there best I am informed by Dr. G. C. Smith, via Tunkhannock, Pittston, Scranton and Carbondale, or by L. & Western, to Scranton &c. The train leaves Scranton at 10:30 a. m. A special train will leave Carbondale for Honesdale on Tuesday and Wednesday, 13th and 14th. Brethren come to the dedication of our new Church on Saturday the 10th and stay to the Quarterly Meeting on Sunday the 11th, the last one of the conference year held by our esteemed P. E. Bro. Olmstead. We are ready for you and as many others as will come. All will be hospitably entertained, and may the blessing of the Lord be with us.

S. F. BROWN.

Tunkhannock, April 24, 1869.

APPOINTMENT.—R. H. RICHARDS, of this County, was not selected by GRANT as one of his Cabinet officers, nor as a foreign minister, but he has been appointed agent for this County, for LITTLEFIELDS portrait of Gen. GRANT. This engraving is certainly a superior production, and promises a high value for all such as want a picture of GRANT just as he is. Mr. RICHARDS will sell these engravings by subscription at the following low figures: Campaign edition $2, plain print $3; India proofs $6.

Mr. R. is also agent for the splendid steel engraving, "Christ weeping over Jerusalem" which represents one of the most touching events in the life of our Saviour. Price on white paper $3.

OCEAN COUNTY, N. J.

Editor of the REPORTER:—Thinking some of your readers might be interested in hearing something from this part of the country which has been so recently brought into notice, I take the liberty of writing you a few lines.

Ocean county is in the strip of Pines which runs south to the Gulf. The land was formerly considered unfit for agricultural purposes, the few inhabitants obtaining their living by burning charcoal, "coaling" as it is called, the little farming they did being done in a very superficial manner. There were extensive Iron Works called "Bergen Iron Works," which consumed immense quantities of coal. The owners of the works bought large tracts of land for the coal only, at merely nominal prices. These are the lands now being developed by the Bricksburg Land Co., they having about 25,000 acres. Bricksburg five years since consisted of one dwelling house, and store, now has about 800 inhabitants, and 10 or 12 stores, being peopled principally with New Englanders. The climate is exceedingly healthy, there are no malarious diseases, and persons threatened with consumption usually find it very beneficial. The winters are short and mild, this winter we have had but little cold weather, the frost being out of the ground nearly all the time, and at no time snow enough to make good sleighing. The land is a light sandy loam, but there are large deposits of peat and marl in apparently inexhaustable quantities; the land is very easily tilled and gives large returns for the fertilizers used, is well adapted to corn and other farm crops; sweet potatoes do finely and are raised to a considerable extent. It is especially adapted to small fruits and vegetables which find ready sale in the New York markets.

The discovery of marl has produced a most wonderful transformation in some parts of New Jersey. Land formerly worth but little, now bringing from $150 to $200 per acre; it does not act as a stimulent like guano, and leave the land in worse condition than before, but containing a large per centage of phosphate benefits the land permanently, one dressing of marl showing for years. Cranberry culture is attracting much notice, and pays better than any other crop for the attention it requires, in many instances paying 100 per cent on the capital invested. One person I know of realized this year, nearly 200 per cent on the original cost of his bog. They do not come into full bearing until the third year, after that they require very little attention and are a more certain crop than any other fruit. "PINEN."

THE AMERICAN COOKING STOVE.—ANOTHER IMPROVEMENT IN THIS STOVE, AND ANOTHER PATENT.—After a long series of experiments, we have added the Base Burning principle to the American Cooking Stove, by which a more uniform combustion is obtained in all parts of the Fire Box, and a continuous fire can be kept with a great saving of fuel. This is another great acquisition to this world renowned Stove, and is fully secured by Letters Patent. This Stove has now been before the people for eight years, and over fifty thousand of them are in use, to the entire satisfaction of the people, and they are eagerly sought after in all the States between the Atlantic and Pacific coasts. We have improved it from time to time, until it is admitted to be almost perfect as a Stove; and the strongest evidence of its great superiority over all others, is the numerous attempts to imitate its name and design. Whilst some of these imitations are infringements of our rights, and are being prosecuted, all will be found greatly inferior to the genuine article in their operations.

AYER'S HAIR VIGOR. *For restoring Gray Hair to its natural Vitality and Color.*—A dressing which is at once agreeable, healthy, and effectual for preserving the hair. *Faded or gray hair is restored to its original color with the gloss and freshness of youth.* Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a hair dressing, nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts long on the hair, giving it a rich glossy lustre and grateful perfume.

Prepared by Dr. J. C. Ayer & Co., Practical and Analytical Chemists, Lowell, Mass. Price $1,00.

☞ W. DITTRICH & Co., Towanda, Pa., respectfully call the attention of the public to the Piano Fortes, Organs and Melodeons. In doing so, they desire to state that their chief aim is always diverted to instruments which will meet all expectations and requirements that can be made, by the most cultivated performers. Feeling confident that there are no instruments in the United States or Europe superior to those we sell, we beg leave to mention the following principal features which we claim for them:

1. Strength and durability.
2. A sympathetic tone—powerful without harshness, round in bass, rich and singing in the middle octaves, and of clear brightness in high treble.
3. Elegance in style and finish.

Sheet music and music books always on hand. Prices moderate.
