Reese's Patent Coupling and Foreplate, FOR RAIL-PLATE AND SHEET-ROLLS, CAN NOW BE SEEN IN OPERATION at Messrs Bally, Brown & Co's Rolling Mill, Pittsburgh, or the "Sharon Works," Mercer county, Pa. The advantages of my improvement are—that it obviates the necessity of stopping the engine or throwing off the crab to connect or disconnect the plate, as the top roll is allowed to connect and disconnect in an instant without respect to the engine, crab or anything else. The FOREPLATE is also connected so simple and complete that it is placed or displaced in half a minute, without removing a bolt, screw, pin, bolt, or nut. The last, though not least advantage of my improvement is, that by it you are enabled to season the Roll to almost heat, thus making a blacker polish on Rail-plate and Sheet-iron than has ever been got out before. Further information, or a right to use the same, can be obtained by addressing

JACOB REESE,

Manager of "Sharon Rolling Mill," Pittsburgh.
