Bradford Reporter.

LOCAL AND GENERAL.

☞ The Wilkes-Barre *Daily Union* has been discontinued.

☞ Material for the new wood pavement on Main Street, between MONTANYES' corner and State Street, is being prepared.

☞ Work has again been commenced on the Episcopal Church. The walls are being laid up with white sandstone.

☞ We trust that persons who have interested themselves heretofore in getting up clubs for the REPORTER, will endeavor to increase their lists this fall.

☞ The new Atlas of Bradford County, published by BEERS, ELLIS & SOULE, will be delivered to the subscribers in a few days.

☞ H. D. V. PRATT, superintendent of the Susquehanna Division of the N. Y. & Erie R'R., has been appointed superintendent of the Towanda Coal Company.

☞ The Catholic Church is nearly enclosed. It will be one of the finest church edifices in this section. The cost of the building will reach about $50,000.

☞ Mr. BEECHER'S big beet is beaten. J. P. KIRBY, of Wysox, just brought one into our sanctum which weighs 15 pounds and measures 32 inches in circumference.

☞ The Scranton *Journal* says the stone gothic residence of GARDNER SANDERSON, at Green Ridge, now nearly completed, is one of the most beautiful in this section of the State.

☞ If any of our friends have a disposition to send us any more "big things," we beg leave, very modestly, to intimate that a nice turkey would be quite acceptable, if "handed in" about the 17th inst.

☞ The shooting match which took place at Greenwood, on Monday last, was quite largely attended. Mr. CLAUSON, of this office, succeeded in carrying off six "gobblers," and Mr. LAPLANT one.

☞ To any person who will send us one hundred subscribers before the first of January next, we will give forty dollars' worth of books, to be selected from the catalogue of J. B. LIPPINCOTT & Co.

☞ WICKHAM & BLACK are agents for the great Singer Sewing Machine. In another column may be found a testimonial from a lady who is well acquainted with machines of various manufacture. Read it.

☞ The Pa. & N.Y.R.R. Co. have have established a general business office in the Waverly Hotel, and appointed V.M. CARPENTER agent, and our friend CHAS. A. WARD, formerly brakeman on the Towanda train, assistant agent.—*Waverly Enterprise.*

☞ IRA W. CORBIN, of Potterville, says that he raised a blood beet this season which weighed eleven pounds, and a white turnip weighing 15½ pounds; and that his neighbor, Rev. Mr. CUSHMAN, raised cabbages weighing 32 pounds each. Potterville is ahead.

☞ Sack and frock overcoats are both fashionable this season. Single breasted sack coats are short, and with fly fronts, while the frock is shorter, double breasted, and without side pockets. The materials are meltons, beavers and rough materials of various shades.

☞ Rev. R. CRITTENDEN, S. W. ALWORD, C. D. HUMPHREY, J. V. CHURCHILL, D'A. OTTERSON, and G. H. WOOD, were elected delegates from this place to the State Convention of Young Men's Christian Associations, now in session at Williamsport.

☞ FOR YOU.—We this week commence sending bills to all subscribers who are in arrears for the REPORTER, and expect prompt answers. Those who neglect to send in the amount due before the first of January, will have their papers discontinued. The advance payment system will hereafter be invariably adhered to.

NATIONAL ORPHANS' HOMESTEAD.—A mass meeting of the several congregations of Towanda will be held on Sabbath evening next at the Presbyterian Church, and will be addressed by Mrs. M. H. BINGHAM, agent of the above institution, in behalf of this noble and patriotic charity. Services commence at 7 o'clock.

☞ No husband or lover can ever half appreciate the charms of his adored one, until he possess of her one of those exquisitely colored, velvet mounted, ivory miniatures. They rival nature in beauty, and exceed her in perfection: for like everything else obtained at HARDING & GUSTIN'S, they are without fault or defect.

☞ Gen. CAMERON, and other celebrities, recently visited Watkins Glen, and pronounced it a "big thing." Had these gentlemen extended their visit to this place and examined the extensive and attractive Hat, Cap and Fur Store of CLONNEY & AMBERY, we are sure they would have decided it a bigger thing than the Glen. If any one doubts this, let them call and examine for themselves. Their stock is now complete, and comprises everything in their line.

☞ SILAS H. SHORES, of Shesheequin township, has left at the REPORTER office two onions weighing 14 pounds each and measuring 19½ inches in circumference. The onions were grown from the seed this season. Mr. S. usually sows his onion seed the first week in April or May; after covering the seed he tramps the earth down solid, and that season fails of getting a good crop.

☞ A newspaper, in one year, is worth a quarter's schooling to a child, and every father must consider that a substantial information is connected with this advancement. How many parents who refuse or neglect to take into their family a sound, live newspaper, and cast twenty dollars in books of any kind for their families, would gladly have given thousands of dollars to reclaim a son or daughter who had ignorantly and thoughtlessly fell into temptation.

PERSONAL.—A number of Boston capitalists, among them the Hon. OLIVER ALLEN, were in town last week. They were on their way to Sullivan county to examine the coal lands.

H. H. WOOD has returned from Watkins, N.Y., with two hundred barrels fine apples.

We are gratified to notice that Hon. CHAS. GIBSON, the new District Attorney of Philadelphia, has appointed our old townsman, Major JOS. T. PRATT, one of his assistants. We congratulate Maj. P. on his good fortune in being called to so responsible a position, and Mr. GIBSON in securing a man so well fitted for the place.

Judge L. P. WILLISTON, of Wellsborough, is soon to become a resident of this place.

Superintendent COX has so far recovered from his illness as to be able to sit up. We hope to see him out soon.

W. H. SHAW, who has been ill for the past few weeks, is slowly recovering.

JOHN PAYNE, an old citizen of this place, is now employed as book-keeper and cashier at the Herdic House, Williamsport, at a salary of $1000 per annum. Mr. P. is an upright man, and is no superior as a book-keeper.

Prof. E. A. LUDWIG, at one time a professor in the Susquehanna Collegiate Institute, is now engaged in the State Normal School at Bloomsburg, Pa.

T. C. DELANO has gone West on a business trip.

"BUSH" DELANO is again employed in POWELL & CO.'S Store. We learn that he is soon to remove to Michigan, to take charge of a large mercantile establishment.

M. M. SPALDING, of the firm of TAYLOR & CO., is lying dangerously ill at the Means House.

Mr. and Mrs. CHAS. G. KELLUM, of this place, celebrated their tin wedding on Monday evening last. May they be permitted to celebrate their golden one.

☞ GRIFFITH & PATTON'S block, on Bridge Street, is receiving a coat of paint and sand, which will materially improve the appearance of one of the finest blocks in town.

☞ Parties wishing to join Prof. FRED. LAMORETE'S Dancing School, will please leave their names at CLONNEY & AMBERY'S Hat Store, MERCUR'S new block.

☞ HART, the candy man, has got fully established in the store formerly occupied by JOHN CARMAN. He keeps a fine assortment of confectionery and fruit. He also intends keeping up a first-class saloon, where ladies and gentlemen can always be accommodated with oysters in every style, and ice cream.

☞ To find a man "without spot or blemish" to wed the princess of Suffra, occupied six years' time, caused four civil wars and four hundred insurrections. The three million young men who wanted but failed to win her, all accounted for their disappointment from the fact that they could not reach HARDING & GUSTIN'S in time to be photographed, that being the only place where spots and blemishes are either obliterated or made to give additional charms to the features.

☞ Mr. EDITOR: The beet Mr. KILMER thinks he best everybody with, is a dwarf beside one my father raised. It weighed fourteen pounds. When Mr. KILMER beats that beet, I will try and beat his best. I have a cabbage which it weighs twenty-four and one-half pounds. I hope Mr. K. is not discouraged, and that we shall hear from him soon. I have some turnips you may hear from when gathered. Pike is not to be outdone in beets or cabbages, nor "tall briers." Yours to beat,

Pike, Oct. 30, 1869. S. M. BEECHER.

ANOTHER ACCIDENT ON THE PA. & N. Y. R.R.—The express freight train, which left Waverly on Monday morning, ran over a cow near Falls station, below Tunkhannock, about six o'clock in the evening. The engine and five cars were thrown from the track. The fireman, JOHN SCHAFER, was killed, and the engineer, ANDREW RODENBAUGH, had his limbs badly scalded. The conductor, MR. JONES, received several severe burns on his hands in attempting to extricate the engineer. No blame attaches to any one on the train. Acting Superintendent PACKER, with Dr. LADD and others of this place, immediately repaired to the scene of the disaster.

☞ Now is the time to put in your cellars vegetables for winter's use. And you want a good and cheap article; in fact, you want your money's worth, and the place to get it is at MCCABE & MIX's Grocery Store. Anything in their line they keep constantly on hand (which by the way is some trouble, for the customers order by the wagon load). The best sugars, teas, coffees, spices, &c., canned preserves and fruits, cabbages, potatoes, cranberries, and—well, we haven't the room to spare to give even a partial list of the many articles that are necessary and must be had in keeping house, which can always be obtained at MCCABE & MIX'S. It is said that their flour trade is immense; and they never recommend an article that is not the best quality. Buy your groceries of MCCABE & MIX.

☞ Many of our young readers in this village remember EDDIE DITTRICH, who a few years since lost both his sight and his hearing. Below we print a letter recently written by him to a children's paper, *The Youth's Cabinet*, in Philadelphia, Pa. It will be read with interest by his former playmates:

PHILADELPHIA, Sept. 2, 1869.

ANOTHER "SHORT NOTE."

How do you do, little folks? I heard that you feel pleased to have this paper to yourselves, and that there are no big folks to read them.

Well, there was a long letter in the August paper that I had, written by a boy named "Bill Stone." He seemed to be a blockhead in his spelling! There is a boy in this Institution by the name of *Freshcorn*, do any of you think his ears are ears of corn? There are some boys here from Pittsburgh, one of them was once called by the boys, "Dirty Pitts."

Well, I must say good-bye. I am

E. K. DITTRICH,
Deaf and Blind.

SYRACUSE, N.Y.—EDITOR REPORTER—*Dear Sir:* Being one of the numerous subscribers to your valuable paper, I see that down your way people are inclined to boast of their long vines, large vegetables, &c. I suppose that is human nature the world over. Now, I live in Syracuse, N.Y., and do not know as I can enter for competition; but, nevertheless, I would like to have my say (with your permission).

I have in my garden a small pear tree, set out about five years ago, and on which grew 25 pears, which, thrown into the scales, weighed 18 pounds. The largest measured 11½ inches in circumference, and weighed 14½ ounces.

The pear is the *Bourre Diel* variety, a late standard. There are those who may not consider them of extra size, and all I have to say to such is, that when they pick the same number of pears from a small tree without sorting, and find them weigh more than mine, they will have an extra nice lot. Yours, &c.,

MAC.

WYALUSING.—*Mr. Editor:* "We come, come again," *not* "with songs to greet you," but with dull prose. The "internal improvements' in our town since my last, may be summed up about after this sort—T. I. LACEY, N. J. GAYLORD, and C. F. STEVENS, are each putting up a good frame dwelling.

The depot is up, but not enclosed. It is 86x32 feet, and will be covered with slate.

R. F. SULZER has moved into his new store room, where he looks as "happy as a clam."

The rod bridge across the Wyalusing has been improved *internally* by being replanked.

MESSRS. WELLES are at work with quite a force of men and teams, repairing the late damage to their mill-pond. They do not not intend to rebuild the dam this fall.

But the neatest improvement consists in a very beautiful new post-office which *one Nasby*—Mr. G. H. WELLES—has just completed for the delivery of the mails. It contains 184 boxes, including 28 lock boxes. For beauty of design, workmanship and finish, I have seen nothing of the kind that excels it in our larger towns.

Next week you may expect a little temperance.

Nov. 1, 1869. JAY BEE.

DOES IT PAY.—The intemperate youth of twenty has a chance of living 15½ years, while the temperate youth of the same age has a chance of living 41 years, or nearly three times as long. Think of this, you who drink; you give for the pleasures of dissipation two-thirds of your life. Will it pay to make such a sacrifice? But it is not merely the time that you lose. You lose a good name, you lose the comforts of health and influence and domestic happiness, the joys of a pure conscience and of God's favor—you lose the joys of an eternal heaven you might win but for drink. *Will it pay* to make such a sacrifice? Could you know that when a third of your future life shall be spent, some enemy would pursue you to death if you remain within his reach, would you not put impassable barriers of space and concealment between you and your deadly foe? The impassable barrier between man and his deadly foe, intemperance, is *total abstinence*. Will you not, my friend, interpose that barrier between yourself and the cup of death? Will you not lay aside this brief exhortation to take the solemn pledge? Will you sign the pledge with an earnest sense of its importance, and strive manfully and religiously to keep it?

"Where are you going so fast, young man?
Where are you going so fast,
With a cup in your hand, a flush on your brow?
Though pleasure and fun may accompany now,
It tells of a sorrow to come by-and-by,
It tells of a fang that is sealed with a sigh.
It tells of a shame at last, young man,
A withering shame that will last."

IMPORTANT.—Recent failures among importers of Dry Goods having thrown suddenly on the market large amounts of goods, great depression in prices has necessarily followed; and having availed ourselves of opportunities offered, to make large purchases at the reduction, we now offer

Dress Goods at 12½ cents per yard worth 25 cts
" " " 25 " " " " 50 "
French Merinos at 50 cents per yard worth $1.
25 pieces Poplins at 25 cents per yard worth 50 cents.
100 pieces Delaines at 15 cents per yard worth 20 and 25 cents.

Many other Dress Goods in same proportion. Also, 250 pieces East Colored Prints at 8 cents per yard.

We assure our customers that the above named goods are *great bargains*, and worthy their immediate attention.

Nov. 1, 1869. POWELL & CO.

WELLS.—A very unpleasant neglect of duty happened in our town on election day. The State and judicial tickets shortly previous were sent *via* South Creek to the residence of a well known Republican, expecting that they would be promptly delivered at the polls. On the morning of election they did not come; accordingly, one of our stirring politicians went to investigate the delay of their arrival. The gentleman in whose charge they were given had gone from home, and the lady of the house had entrusted them, just previous, to the care of a remarkable strong PACKER man on his way to the ballot-box. Our Republican had met the gentleman shortly after he received the package, and, hurrying back, overtook him and asked him to transfer it to his keeping. After demurring a few moments, and saying it was in his power to have destroyed them, they were given to our man and arrived at the polls at *ten o'clock, a.m.* We think the disappointment of an expected nomination to county office should never be allowed to interfere with party responsibility.

Quite an excitement has existed the past week in our vicinity, in consequence of a shooting affair. ED. ROBINSON, a malicious, bullying negro, working for SMITH FRENCH, and EDWARD PIERCE (white), also living near the village, have not of late been particularly fond of each other. PIERCE claimed extra muscle, and although often bullied by ROBINSON, could not sustain confidence sufficient to fight him even-handed. Lately, in the absence of MR. FRENCH and wife over night, the negro was left in charge of the premises, and told to see that everything was kept in snug condition. PIERCE and the hired girl at this place were quite intimate, and on the evening in question he called to see her. When the usual time of retiring came around, the negro insisted on having the lights put out according to orders, and removed the remaining one from the room. This was considered an unpardonable affront by PIERCE, and he swore vengeance; and the Sabbath succeeding procured a pistol and gave out threats of shooting the negro. A colored friend was informed of these threats, and immediately gave him proper warning; and when PIERCE came along towards evening, the negro stepped from the house towards the road, at the same time inquiring of his enemy the reason of his murderous intentions. By this time they were nearly together, and he was answered by oaths and a bullet which took effect in the right eye, passing below the brain and creating an aggravating and perhaps fatal wound. On Friday he was carried to Elmira, to receive the treatment of an experienced surgeon, Dr. SQUIRES, and is doing well. PIERCE was secured by MR. FRENCH, and the next day sent to your place for county rations.

French Mills has lately been visited by M. M. POMEROY, the redoubtable "Brick" democrat. His foster mother, Mrs. SETH M. WHITE, now from the West, but formerly of the State Line, is visiting at a brother's, JOHN A. ROY, and "POM" came up to see her and his boyhood home on Seely Creek, about two miles below French Mills. BRICK looks rugged and fully competent to turn *August* BELMONT into January.

Dr. ELDRIDGE, of Elmira, has a large farm in the centre of our town, on which are beautiful living springs of water. Near one of these, and nearly adjoining the farm-house, he had a trout pond constructed last season. This proved deficient in size, and this fall it has been enlarged to nearly twice its former capacity. About 300 brook trout now comprise the floating stock; a few are of quite an eatable size, many small and others little.

The clouds seem to carry an unusual surplus of rain-water this fall. The huskers of corn and buckwheat flatters have been greatly interrupted by the general dampness.

We have had some plagued cold nights too, notwithstanding the farmer has said—"Boys, when you come from the barn, just bring an armful of straw for the hogs." The ground has been frozen to quite a thick crust where uncovered.

The squirrel tribes are making themselves unusually scarce in our region this autumn—so are the pigeons; but we are not particularly fond of the latter bird; their meat and skin is too dark—the former, especially. The black and gray species are splendid game, and we wish they might come around.

Cider making has commenced, and the mill runs briskly round. See those good Templars! how they go for the press! They call it apple juice three days old, and rejoice in the delusion.

Some of our citizens are agitating the idea of changing the name of our village from French Mills, the common, to Wellsville, proper; and as OBRIN STONE has already so lettered his hotel, the place will probably in due time assume the name suggested. JOE CUMMINGS.

Oct. 23, 1869.

INCIDENT OF 1850.

HON. P. J——s, member from Chemung Co., N.Y., to the Assembly of 1850, lately related to us the following incident, which one evening made the house lively, and at that early date evinced that factious spirit which ultimately ripened into full-blown rebellion: SILAS M. BURROUGHS, democratic member from Orleans county, like Mr. J——s, was of the progressive anti-slavery stamp, fearless in debate, and gifted with those fine, statesmanlike qualities which has since become the bone and sinew of our Republican party. One evening Mr. BURROUGHS arose to address the House upon an exciting question then at issue, and by his thrilling style was commanding the rapt attention of the whole body, when a Mr. STORY (pro-slavery), taking exceptions to his argument, arose and walking down the aisle occupied the third seat front of the speaker, and turning, looked him angrily in the face, and exclaimed, "You lie, sir!" On the desk by Mr. BURROUGHS sat a tumbler, and catching it up he hurled it full tilt at Mr. STORY, just grazing his head and nearly making a long Story short. As may be expected, this retort was unexpected, and the excitement intense for a few moments. The sergeant-at-arms was called, order again restored, and the gentlemen apologized to the House.

When returning home from the store the other evening, we met two men in a buggy. One was loaded with whisky and leaning upon the form of the other, who seemed anything but pleased with his double burden. Too many we notice who lean from the same cause, and just by reason of encouragement from friends. Whisky and beer drinking is looked upon with too much of indifference by many who are otherwise exemplary. Respectable young men are continually exposed to the influence of these *gentlemen* who occasionally "take a drink," merely to seem independent and prolong the existence of an old-time custom (mostly *cuss*). They want people to understand that *they* are their own masters, and not to be identified with those known as working temperance people. This good and liberal citizen who indulges *occasionally* in strong drink, as an example for the rising youth, is the most subtle and dangerous foe which attends the cause of temperance. When entreated to give a portion of their money and labor towards a practical effort for the good cause, they are not sure as that would be a good way to effect the desired reform, and wind up with the (to them) comforting assurance that a drink of Old Rye *now and then* don't hurt any one. This now and then drinking would seem rather figurative, and those who listen to such arguments are encouraged to indulge, and being unreproved by these *patters* men, soon lose all shame, squander their last dime for whisky and its slaves, and become ere they are aware a confirmed, brutalized sot and clog to their former friends, and the disappointment of parental hope and affection.

The negro shot by ED. PIERCE, died in Elmira on Thursday last. JOE CUMMINGS.

Nov. 1, 1869.

☞ "The melancholy days have come, the saddest of the year," and yet they are the pleasantest and most invigorating of all the seasons. He who cannot enter into the spirit of autumn has something wanting in his composition to make him truly appreciative and happy. The only unpleasant thing about the season is, to know that it is so soon to be followed by the rude and piercing blasts of winter.

☞ The New Empire Cook Stove, on exhibition at MARSHALL BROS. & CO.'S Hardware Store is indeed a novelty. This Stove has many new and valuable improvements that no other stove in the market has ever had. All those who intend to invest in a stove, should carefully examine the Empire before purchasing any other.

☞ WOODFORD & CLARK, south end of Ward House, have opened an extensive assortment of Boots and Shoes suitable for fall and winter wear. Persons desiring to make good bargains, should not fail to visit this establishment. All the latest styles kept on hand, or made to order.

WYOMING COMMERCIAL COLLEGE.—"A Business Education will be of advantage to every man, whatever his future occupation may be."—*Freedley.*

The Wyoming Commercial College, established in 1863, and connected with Wyoming Seminary, offers a thorough and complete course of instruction for those desiring a commercial education.

Its location in the beautiful and historic Valley of Wyoming, with its canal, three lines of railroads, and immense coal and other business operations, afford rare opportunities for young men desiring situations.

Our graduates are filling positions of trust all over the country. Young men have attended this Institution from Mississippi, Kansas, Minnesota, and nearly every State in the Union.

Our tuition for the regular Business Course is from fifteen to twenty dollars less than at other Commercial Colleges, and *yet advantages here are in every respect unsurpassed.*

We offer all the aid extended by any Commercial College in the country to graduates in obtaining situations.

Students of the College have all the advantages of the Seminary in regard to library, literary societies, &c.

Tuition for the regular Business Course, $25. Telegraphing in connection therewith, $10.00. Telegraphing alone, $25.00. Stationery for full Business Course, $15.00. Board per week, $4.

Send for Catalogue and specimens of Penmanship. Address S. S. SPRAGUE,

Prin. Wyoming Commercial College,

PIANOS, ORGANS AND MELODEONS.—It always gives us pleasure to call the attention of our readers to articles of real merit. In this co nection, we advise our patrons who are about to purchase a Piano, Organ or Melodeon, to call at W. DITTRICH & Co.'s Music Store, at Towanda, before buying elsewhere, as the instruments sold by W. D. & Co. are really the only first-class in every respect. The Decker Brothers, Hallet & Cumston, and Conrad Myers' Pianos have now been before the public for twenty years and more. The Pelaubet & Co. and Shaninger Organs and Melodeons for sixteen years. All of them are known to be as near perfection as it is possible to make them, and are giving the most entire satisfaction to all who have used them. Our prices are low, and will sell Pianos from $200 to $1,500; Organs from $80 to $1,000; Melodeons from $75 to $300. Sheet Music, and Instruction Books for Pianos, Organs, Melodeons, and Violins, always on hand. To those who would like instruments from other makers not mentioned above, we say, give us your orders, and you shall have them on short notice. Recollect, ladies and gentlemen, that Professor W. DITTRICH has had experience for over twenty years in the above business. Tuning and repairing done, if wanted.

Those who have waited so long for the celebrated "Briefmarken Polka," may have it now at our Store for 62 cents per copy. It is a good piece of music, besides having a collection of 42 foreign postage stamps printed on the outside. W. DITTRICH & Co.

CONSUMERS OF CONFECTIONERY!

COME,

LET US REASON TOGETHER!

How can any person manufacture Confectionery, and sell it at 15 cents a pound, when sugar is worth 15 cents at the Refinery, (unless it is terribly adulterated)?

How can any dealer retail such a vile compound to his customers and have a conscience void of offence?

How can any consumer expect to purchase pure Confectionery at twenty-five and thirty cents per pound when a pure article cannot be manufactured less than thirty to forty cents per pound, consisting of cassia buds, burnt almonds, and such class of goods?

Within a few days we have been offered cassia buds, etc., for fifteen cents per pound, and Chocolate Creams at twenty cents, and the agent acknowledged that they were adulterated ten per cent, with Terra Alba; and it is a fact that tons of this cheap Confectionery are made and sold in this country every year, and the consumers are the only persons injured by it.

Now, for the benefit of those who wish a Pure article of Confectionery, we will warrant every article of our manufacture Strictly Pure and free from every ingredient deleterious to health.
