Bradford Reporter.

LOCAL AND GENERAL.

☞ The Grand Division, S. of T., is in session at Easton to-day.

☞ E. T. Fox is building an addition to his house and putting in gas pipes.

☞ The fire department are to meet this (Wednesday) evening in uniform, for parade and exercise.

☞ Several car-loads of "shot and shell" passed this place last week. They were destined for Philadelphia.

☞ S. McKean Laporte, having sold his farm in Asylum, has purchased Buxbee's Livery Stable in this place.

☞ Mr. W. J. Delpeuch has shown us a letter written by Gen. LaFayette to Mr. D's grandfather, F. J. Pense, dated May 20, 1822.

☞ Northern Lodge of Good Templars of this place, intend visiting their sister Lodge at Wyalusing on Friday evening of this week. A good time is anticipated.

☞ A new post-office has been established at the coal mines in Sullivan county, with Chas. Henderson as postmaster. The office is called "Bernice."

☞ Capt. I. A. Park, of Herrick, and Geo. Humphrey, of Pike, have been summoned as Jurors to attend the U.S. Court at Pittsburg next week.

☞ The Y.M.C.A. of Bellefonte publish a very interesting monthly paper, entitled "*Christian Union Work.*" It is a paper which should be in every household.

The Charm.—We announce with satisfaction that the first ten thousand copies of Prof. P. P. Bliss' new singing-book for Sabbath-schools were ordered by the Methodist Book Concern of New York.

☞ The officers of Pleasant Mount Division, S. of T., Orwell, elected last term, have all been re-elected and installed for the current term. The night of meeting has been changed from Tuesday to Saturday.

☞ Denier's Comique Pantomime Troupe will appear at Mercur's Hall this evening and to-morrow evening. This is their first appearance here, and we have no doubt they will attract a large house.

☞ W. H. Shaw, for a long time connected with the Meat Market of Shaw, Brundge & Co., has sold out his interest to his partners. We do not know what Mr. S.'s purposes are, but hope he does not contemplate leaving us.

☞ The dwelling-house of G. Barnes, in Asylum township, was destroyed by fire on Wednesday evening last. The family were all absent at the time, and nearly everything was burned. Mr. B. is a poor man and has a large family.

☞ A match game of base ball was played on the grounds of the College nine, April 15th, between the College-nine, of the Susquehanna Collegiate Institute, and the Hornbrook nine, resulting in a score of 43 for the Hornbrook nine, to 37 for the College nine.

☞ The Sullivan County *Free Press* has been moved to Dushore, and makes its appearance much improved. Friend Barney knows how to edit a paper, and we are sure he can succeed. He certainly deserves the patronage of the people of Sullivan county.

☞ Henry Shaw has been appointed depot agent at Ulster. The appointment is a good one.

E. W. Elwell, ticket agent at this upper depot in this place, has gone to Mauch Chunk, and Frank Burbank has taken his place in the ticket office.

☞ F. J. Calkins has purchased from the Cash estate one of the finest building lots in town. It is just in front of Mrs. Cash's residence.

Austin Kingsbury has purchased a lot on Main street, nearly opposite Harry Mix's, and will put up a residence this summer.

☞ We are indebted to J. S. Seeley, late of Rome, this county, for a copy of the *Greeley Tribune*, published at Greeley, Colorado Territory. Judging from the advertising columns of the paper, we should say Greeley must be a flourishing town. Among the advertisers we notice John Higenbottom, formerly of Monroeton. There are several other Bradford county men in Greeley.

☞ Mr. Editor: Herewith is sent an egg—a hen's egg—shown me yesterday by Mr. James Cruttenden, of Orwell, which measures lengthwise around, 8 inches; crosswise around, 7 inches, and weighs 4 ounces standing weight. In presence of eight witnesses. Orwell, Pa., April 21, 1871. Yours truly, M. K. Taylor.

☞ The Division of S. of T. recently instituted at Standing Stone is entitled "Valley Star," No. 269. The following officers have been installed for the present term:

W.P., P. D. Vannest; W.A.—S. Vannest; R. S., T. E. Espy; A.R.S.—Eliza Depew; F.S.—Mary Prisbie; T.—B. S. Vannest; Chaplain—A. Taylor; Con.—S. Brown; A.C.—H. Brown; I.S.—A. Brown; O.S.—O. Sage.

What Whisky Will Do.—A man was ejected in this place a few days since for drunkenness and vagrancy, who was at one time an educated and talented minister in the Episcopal church. But for the accursed drink he might have been an honor to his Maker and a blessing to mankind. Yet *christian* people encourage the sale and use of that which they know to be the most deadly foe to the upbuilding of the Redeemer's kingdom.

☞ The organ concert given in the M.E. Church on Tuesday evening last was large attended, and proved highly satisfactory to all present. The new organ is pronounced by judges to be a superior instrument. It was played on the occasion by Mr. Knauff, agent of the builder. Miss Hattie Keene is the organist at the M.E. Church, and we congratulate her as well as the members of the congregation on their good fortune in securing a first-class instrument.

☞ The children practicing under the direction of Prof. Abney, will sing in concert on Friday evening, 28th instant, in the rooms at the Presbyterian church. The programme will embrace "*gems*" from "Pure Gold."

The Mason & Hamlin Organ used on this occasion is kindly tendered from Mr. Hulbert, of Elwell's Music Store.

An admission fee of 25 cents will be charged at the door. Friends of children and the Sabbath-school are particularly invited.

☞ We find the following recommendation for "Ingham's Water Wheel" in a recent number of the Tunkhannock *Republican*:

Mehoopany, Pa., March 24, 1871.

Mr. Editor: We last fall put in a circular saw-mill at Jenningsville, and for power we have a wheel cast and fitted up by Ingham & Wise of Mehoopany, which was invented and patented by R. Ingham, of Campbell. We consider it merely justice to say that in our opinion there is no wheel in use that is superior or equal to this wheel for power, durability, or in cost of putting in. We have had no little experience with mills and water-wheels of different kinds, and we are frank to say that we have never found any wheel, except the overshot, that is to be compared with this, and we fully believe that it is made preferable to an overshot wheel on any head less than sixteen feet. Persons using water-power would do well to see what it will do before using others.

We have written the above without the solicitation of any one, but believe it right to recognize deserving merit everywhere, besides giving information to parties using water power that might be beneficial to them.

Yours, Jennings & Bro.

☞ We are informed that the engineer on the up passenger train on the Pa. & N.Y. R.R., was fired at by a concealed party at a point somewhere below Wyalusing on Tuesday morning. The ball, we believe, passed through the windows of the locomotive, but fortunately without effect. The train was stopped, but the dastardly Kukluxian made his escape. No known reason is assigned for the act, except that a cow was run over in that vicinity at some time or other.

☞ As Mr. G. H. Eaton was driving Cowell & Myer's horse on Main street on Tuesday evening, some portion of the harness gave way, and the animal became unmanageable and ran down the street at furious speed. Mr. E. was thrown from the buggy near Mr. McCabe's house. He was considerably hurt, but not seriously. The horse proceeded unchecked until he reached the Wyckoff pavement, when a young colored man named Elias Powell, with the agility of an Indian, darted into the street and caught him by the head, stopping him almost instantly. The feat was witnessed and applauded by several gentlemen.

Personal.—Our old friend, J. R. Arnison, has removed from Washington, D.C., to Jersey City, where he is engaged in the real estate business.

—Hon. U. Mercur arrived at his home on Friday evening last.

—Worthy Patriarch Bronson, of Pleasant Mount Division, S. of T., Orwell, is attending the meeting of the Grand Division at Easton.

—Col. Jos. T. Horton, who has been in the office at the Ward House for the past year, has accepted a position at the Bernice Colliery. We congratulate Day, Huddell & Sanderson on their fortune in securing his services.

Southwestern Bradford. — *Mr. Printer:*

Which I want to resay—
And the talking is mine—
That for ways that are pay
And for turns that are fine,
The teaching type is peculiar—
Which the same I now write to define.

Writing was my forte,
And I shall now resay
In respect to my sport
What his words might convey:
Batt, my follower, edits a paper
O'er the bank northof Canton's highway.

Yankee Bradford has six—
It is papers I mean—
To relate any fix
Which is queerish when seen;
So if any of your ways are nimble,
Just oversee their column tureen.

Dull Joshua.

☞ Friend Alford: As we value a paper for the instructions we receive through its columns, whether political, religious or social, so we think it a duty of those that want instruction and those who can instruct, to communicate with each other through the columns of their county paper. Accordingly, I thought, it would not come amiss to me to endeavor to give the necessary information to friend "S." in your last issue, although I have no doubt but "P." will; but whether "P." or "Q.," it is but right that the inhabitants of the county should know the laws under which we live. But there are many like "S." that doubt even the existence of such a law as "P." mentioned in your paper in reference to horses, cattle, &c., running at large on the highways. Indeed, there are many that do not want to know. If others clear land and give part of it for roads, all right; it belongs to the public and cows, hogs, &c., whether two-legged or four-legged, have a right there. But, Sir, if those laws should be argued through the papers and farmers generally enforced them throughout the county, Mr. "S." and others would soon find out that there is a law in the statutes of Pennsylvania forbidding cattle, &c., to run at large on the public highway; and if "S." will condescend to go to the nearest J.P. in his township and call for the pamphlet laws of 1864, under the local items of Bradford county he will find the law and the time of its passage. Then he may inquire of A. Johnson or Nasby whether it is constitutional or not, or he may apply to the Supreme Court of Pennsylvania, leaving York State to take care of itself. Q.

The Big Steer will hang in their Market on next Monday. Call and see him.

☞ It is asserted, and the assertion is undoubtedly true, that there is not a single descendent of Christopher Columbus now living. It is also susceptible of proof that J. O. Frost & Sons, sell more furniture than any other establishment in Northern Pennsylvania; and the reason will explain: they keep a larger assortment and sell at lower prices.

☞ C. F. Cross says, and we believe it, that he has a larger and better assortment of wall paper, window shades and curtains, than has ever before been exhibited in this market; and we might add that he sells more goods in this line than any other establishment in this section. His store is also the place to buy school and miscellaneous books

☞ Maj. E. W. Hale has been appointed agent of the Connecticut Mutual Life Insurance Company for this county. No man in this section has given the subject of Life Insurance more careful attention than Maj. H., and the fact that he has been insured for a long time in the Connecticut Mutual is substantial evidence in favor of the advantages offered by this Company. We advise every man who has not already a life insurance policy, to consult with Maj. Hale and satisfy themselves in regard to this important matter.

☞ We have recently examined one of the most useful inventions we have ever seen. We refer to the "Keystone Churn Power," put up by Hawes Brothers, Monroeton, and for sale by Cobbing, Russell & Co. The machine is simple, not liable to get out of order, requires less power to work it, and is cheap. A common dog will do a large churning with ease. Farmers and dairymen should give it an examination.

Chickering & Sons.

DIED.

TELLIER.—At his residence in Easton, Pa., April 14, 1871, at 9 o'clock, a.m., after an illness of nine days, of congestion of the brain, Peter Tellier, an old and highly-esteemed citizen.

Deceased was born at San Juncan, near Bordeaux, France, in 1805, and came to America in 1825, landing at Wilmington, Del. He afterwards moved to Philadelphia, where he learned the confectionery business, and subsequently, in the year 1830, went to Easton and opened a confectionery store, in which business he was engaged until the time of his death. By the exercise of business qualities of a high order, together with a high-toned spirit of fairness in his dealings, he became quite successful in business and for a number of years enjoyed a handsome competency. His sympathetic nature and congenial disposition won for him many sincere friends. He was a worthy citizen, a faithful friend, and a kind and indulgent parent. His encouraging words and generous actions will ever live in the recollection of the many whom he has befriended. The remains of the deceased were consigned to their last resting-place on Monday, April 17. Com.

HILLS.—In Windham, April 4, 1871, of scarlet fever, Myron O., son of Rev. J. W. and R. A. Hills, aged 16 years, 7 months, 4 days.

Myron was a quiet and noble youth. His amiable character, retiring manners and good habits gave him many warm friends, who deeply feel the loss of his sudden and early departure from them. But he went down into the valley with no fear, saying, "All is pleasant! it is beautiful here, but it will be more beautiful if I don't live"; and reaching upward, said—"They are waiting for me!" None feel his loss more than his devoted parents;—although great and irreparable, yet we trust it will be his eternal gain. By his request, his remains were conveyed to Warren to be consigned to the narrow house appointed for all living, followed by a large number of sympathizing friends both from Windham and Warren, who joined to pay their respects to one greatly beloved and universally lamented. W. C. Peck.

HORTON.—In Shesbequin, March 31, 1871, Mary A., wife of E. A. Horton, aged 26 years, and 6 days.

Although youthful she was called away;
Her body will moulder back to clay;
Her memory will be cherished here,
By friends and neighbors far and near.

That cheerful voice and smiling face
From memory ne'er can be erased;
While here on earth we do remain,
We can't forget her dying pain.

Jesus in mercy from Heaven looked down,
Placed on her head the glittering crown—
"Come, dear sister, come!" said He,
And dwell in Heaven along with me."

May God protect her children dear!
That mother's voice they ne'er will hear—
That kind, consoling, soothing word,
In ills or griefs which they have heard.

Friends and relatives, every one,
We feel to say, "God's will be done!"—
To humbly kiss the chastening rod,
For now in Heaven she dwells with God.
I. J. Horton.

WELLS.—In Herrick, Feb. 3, 1871, at the house of Lyman Matson, after a lingering illness of nearly two years, of consumption, Miss Lophemie Wells, aged 18 years.

Her prayer was, "Lord, make me to know mine end, and the measure of my days, what it is; that I may know how frail I am." This was her funeral text. She died in hope of a blissful resurrection. E. Burroughs.

SMITH.—In Tuscarora, April 17, 1871, Albert S. Smith, aged 22 years.

A few days before his death he said, "I have never drank a glass of liquor, played a game at cards, or attended a dancing party." He trusted the only Savior, died in peace, and rests in hope. J. H. W.

HOLCOMB.—Fell asleep in Jesus, in LeRoy, April 6, 1871, of consumption, Louis O., youngest son of Leroy and Rhoda Holcomb, aged 17 months.

THE KIRBY
Two Wheel Mower.
A TRIUMPHANT SUCCESS!
This new machine is up with the times and ahead of all competitors in several of its leading points. It stands in the front rank among single mowers, and is of novel design, and possesses new and distinctive features which will commend themselves to the practical farmer upon examination. Among
ITS LEADING FEATURES
Are the following: A jointed connecting rod, or pitman that allows the free play of the knife in any position of the cutting apparatus; tilting guards; the side draft; no weight on the horses' necks; the Tongue is to be used lighter or rigid as may be desired, and the change made instantaneously, without stopping.
The cutting apparatus, or finger-bar, can be raised to any angle to pass trees, stumps, or other obstructions, or folded over for transportation, or unfolded, by the sole use of the lever, without throwing out of gear, stopping the team, or the driver leaving his seat. The driver's seat is accessible from the rest of the machine, is safe and comfortable, and is arranged on the principle of a lever, admitting of balancing the machine perfectly, and relieving the horses' necks of all weight.
It has many other valuable points too numerous to mention here. It is made of first-class materials, well made and finished in every part—rendering its durability unquestioned.
☞ It is light drafted, and is just the mower our farmers have been looking for; and is destined to be the leading Mowing Machine, being adapted for hilly or level land, and all kinds of surface.
