☞ CHARLES LEONARD, of Smithfield, is now just recovering from a severe fit of apoplexy, being his third attack. He was attended by Dr. J. D. UNDERWOOD, of East Smithfield.

TEMPERANCE LECTURE.—Prof. J. H. WILSON will lecture before the Progressive Temperance Reform Society, at East Springhill, on Friday evening, Oct. 27, 1871. The public are invited to attend.

☞ Dr. T. B. JOHNSON has removed to his new office over Dr. PORTER, Son & Co.'s Drug Store. The Doctor has a very pleasant office, and may always be found there when not professionally engaged.

☞ Messrs. HUMPHREY BROS. have purchased Beaver's new building, and will convert it into a mammoth Boot and Shoe Manufactory. The building is one of the finest in the place, and has a capacity for accommodating several hundred workmen.

BASE BALL.—The third game of a series between the Veterans of Herrickville, and the Union club of Rome, was played on Saturday last, on the North Orwell ground, and resulted in favor of the Veterans nine by a score of 31 to 31.

☞ We are indebted to DAVENPORT CRAFTER for a bountiful slice from a mammoth Brazillian pumpkin, grown in his garden in Rome. This variety of pumpkin, although not generally known in this country, is far superior to the common pumpkin, and when manufactured into pies, is perfectly delicious.

☞ The I. O. of G. T. Lecture Course will open on Thursday evening next, at which time OLIVE LOGAN will deliver her celebrated lecture, entitled "Nice Young Men." We hope a full house will greet this distinguished lecturer on the occasion. Her subject is an interesting one, and she is certainly one of the most attractive speakers before the public.

PERSONAL.—JOHN MATHER, whose interesting Washington letters are copied by the readers of the Reporter, spent several days in this county previous to the election, and rendered valuable service to the republican party. Hon. J. K. P. Gibson, E. L. Scott and John H. Ransbury and A. J. Eastabrook came from Washington to vote.

☞ The Lecture Committee have secured some of the ablest lecturers in the field, and need but to speak for them the liberal support of this community. Public lectures have come to be a necessity in every intelligent community. In fact, lectures comprise the great method of popular educational and money invested in them will bring the best of interest. The committee should dispose of several hundred season tickets. Will not every citizen lend a helping one?

☞ Our matrimonial department lately chronicles the departure from single blessedness of two more of our enterprising young men. Yesterday morning Mr. C. T. KINGSBURY, of the firm of PORTER & KIRBY, took for better for worse, Miss HESTER M. ROGERS, of Utica, N. Y. At the same hour, Mr. A. INGLEY THOMAS led to the hymeneal altar Miss HARRIET ROGERS, of Asylum. We welcome both of these young ladies to our town, and congratulate them on their good fortune in securing good husbands.

BASE BALL.—A very interesting game was played on Saturday last, at Campbell's, between the Ford Street Club of Ira Raysville, and the Camptown Boys; the following is the score:

SCHOOL TIME.—The *Golden Age* has a leader, which is as full of truth that we like it. It is school time. Already the wheels are in full motion, the pupils in. The public spirited men and women can feel that the Republic and the race, is to do that a boy and girl between the ages of six and twenty have school regularly, and early enough in the beginning of vice, and the prevention of crime. The greatest danger and temptation is ignorance, and the only way to overcome it is to see that every child attends the good school. And the best time to do this duty, which is also a philanthropic one, is now. Every poor widow can ill afford to lose one child, and proposes to keep many to do chores, or turn them into the street to pick pockets and prepare for the future, there will be a splendid opportunity for a good deal without telling anybody.

GAME OF BASE BALL.—A match game of Base Ball was played between the Wilmot B. C., of Towanda, and the Sullivan B. C., of Dushore, on the grounds of the latter place, and resulted in the following score:

OBITUARY.—TIMOTHY BRADLEY died Sept. 21, 1871, in the township of Windham, Bradford Co., Pa. He was born July 27, 1770, being 101 years, 1 month and 29 days old. He had passed through four wars: the Revolution, the War of 1812, the Mexican War, and the late Rebellion. He had a distinct recollection of many interesting incidents that occurred during the Revolutionary war, and retained his physical strength until within two weeks of his death. He had not used any strong drink in twenty-five years, and never used tobacco in his life. He had had four children, twenty-three grand children, and thirty great grand children.

AN APPEAL IN BEHALF OF A HOME FOR WIDOWS AND SINGLE WOMEN.—At the recent meeting of the Presbyterian Alliance of Philadelphia, the chief item of the year's report was of course the establishment of the Presbyterian Hospital, of which Dr. SAUNDERS is still the agent.

We notice by the *Presbyterian* of the 30th ult., that the following resolution presented by Rev. Dr. SAUNDERS was unanimously passed:

WHEREAS, A large number of goodly women have engaged with great enthusiasm in the work of providing a Presbyterian Home in Philadelphia, for aged and infirm sisters:

Resolved, That the Alliance cordially approve of their movement and commend it to the benevolent for such aid as under God will make it successful in relieving distress in the case of sufferers so sensitive, so helpless and so interesting.

Persons interested for this Home will please address the President, Mrs. SAMUEL MORROW, 142 South Front St., Philadelphia, Pa.

TOWANDA.—The town is well situated, it being the business centre of Bradford county. It has fine agricultural lands adjacent. The coals of Bradford and Sullivan counties centre here. The coal from the Towanda mountain is semi-bituminous, and well known in the market as being among the best for the locomotive and smith fire, and also for generating steam.

The Sullivan coal is of the first quality for domestic purposes, and generating steam; and there is no doubt of its being an excellent coal to use in the blast furnace.

In connection with these coals there is any quantity of iron ore, varying in quality from 30 to 60 per cent. of pure iron. We have nearly completed, a merchant, bar iron, and nail mill. We wish next to erect a good blast furnace, so as to be able to make all the pig-iron for use in this section of the State.

But there is one great drawback to the prosperity that the town might have; and that is the high rates for the use of money. The whole population, (so to speak), have become shylocks, and want from 10 to 20 per cent. It is a well known axiom that no business community can pay such rates and be successful. This is one of the causes of the present scarcity of money, and every well wisher of the prosperity of the town, should frown upon the men who are the drones, and who are a hinderance to its success.

I propose giving a series of articles upon this general subject, and in my next will give a description of a Yankee town, where the people act in unison, and give the result of their enterprise.

Towanda, Sept. 26, 1871. Co. Sup't.

TO NEBRASKA, CALIFORNIA, AND KANSAS, AND THE U. P. & M. R. R. LANDS.—The "Burlington Route," so called, lies right in the path of the Star of Empire. It runs almost immediately in the centre of the great westward movement of emigration. Crossing Illinois and Iowa, it strikes the Missouri river at three points.

These three points are the gateways into three great sections of the trans-Missouri region.

The Northern gate is Omaha, where the great Pacific road will take you to the land of gold and grapes, sunny mountains, and perpetual summer.

The middle gate is Plattsmouth, which opens upon the south half of Nebraska, south of the Platte river, a region unsurpassed on the continent for agriculture and grazing. Just here are the B. & M. Railroad lands, concerning which GEO. S. HARRIS, the land officer at Burlington, Iowa, can give you all information, and in the heart of them is Lincoln, the State Capital and present terminus of the road.

The Southern gate leads to Kansas, by connections with the St. Joe Road at Hamburg, running direct to St. Joe and Kansas City.

The trains of the Burlington run smoothly and safely, and make all connections. It runs the best of coaches, Pullman Palace and Pullman dining cars, and should you take the journey for the journey's sake alone, you will be repaid; or take it to find a home or a farm, and you cannot find either better than among the B. & M. lands, where you can buy on ten years' credit, and at a low price.

BAD DISLOCATION.—EDWARD MILLER of Webbs Mills, fell from a load of hay ten weeks ago, and dislocated both bones of his forearm backwards. The injury was at first thought to be a fracture, and was so treated. When the splints were removed his arm was found to be perfectly stiff and straight, and in this condition could be of no use to him. He applied to Dr. UR DEGARMY yesterday, who at once recognized a dislocation, and by aid of powerful implements used for such purposes, succeeded in reducing the dislocation and bending the arm to a right angle. The Dr. thinks Mr. MILLER will recover the use of his arm, notwithstanding the length of time that has elapsed since its injury.—*Elmira Advertiser.*

Our best wishes attend them.—*Neodesha (Kan.) Citizen.*
