PITTSBURGH GAZETTE.

Some months ago Dicken's Household Words boldly advocated the wearing of "beards," and advanced some excellent reasons in support of the recommendation. The suggestion soon found advocates in practice, and curiously enough, a set of staid Scotch railway directors were the first to move in the reform to any considerable extent. They advised their engineers, stokers and servants to "cultivate moustaches," and the thing was done. The example thus set was soon followed elsewhere on railways, and now the fashion is becoming very general among mechanics as well as persons in other and higher walks of life. It finds many advocates, and the ladies, in spite of what they say to the contrary like it. The "movement" is decidedly popular, and even boys are busy coaxing out the stubble on their upper lips. One champion says of the custom that, "Moses forbade shaving, and instituted a law against it, and the laws of Moses were the laws of God!" We all know that the Osmanlis take pride in his beard, and the French (the very people who originated the barbarous fashion of shaving) consider it disgraceful in a man to be without the moustache. A French king set the example of a smooth face to his courtiers, who were followed by the people at large, and then by those of the neighboring nations. As they introduced the folly, they have also discountenanced it, and if we followed their lead in shaving, it is not improper to ask—why not follow it in wearing the beard? John Bull has begun with spirit, and perseveres in the hairy cause with commendable zeal. Old and young alike approve the fashion, and the *snowy* cappillary ornament on some aged chins suggests thought of Lear and the appropriateness of his forcible exclamation—"Thou! Goneril! with a white beard!" As the custom becomes general men will sympathise, and cease to look with scorn on unfortunate ladies like Miss Sally Brass, who, although opposed to moustaches on men, wore them themselves.

MEDICAL.

TO THE PUBLIC.
MOST IMPORTANT ANNOUNCEMENT;
RETIREMENT OF PROF. JAMES McCLINTOCK, M. D.?
From the Philadelphia Medical College.
A NEW ERA IN THE HISTORY OF MEDICINE
Popular Medicine for the first time sanctioned by the
HIGHEST AUTHORITY IN THE PROFESSION!

THE undersigned have the pleasure of informing the public that they have made arrangements with the eminent Professor JAMES McCLINTOCK, M. D., of Philadelphia, known for more than a quarter of a century past as one of the greatest Practitioners and Teachers of Medicine and Surgery in this country or in Europe, for the purchase of his recipes, and the preparation of a series of FAMILY MEDICINES therefrom, which will be put up in a *cheap* and *popular* form, adapted for general use, and suited to the most prevalent diseases. These remedies embrace some of the most valuable discoveries and combinations *ever known* for the cure of disease. They are the fruits of the most profound investigation, the wide research, and the almost unequaled experience of one of the first physicians of the age. *Each remedy is especially adapted to some particular form of disease*, in accordance with the *highest principles of modern medical science*. Each of these remedies has been tried, improved, and finally perfected, in the course of a long, active and highly successful practice, not only in Philadelphia, but throughout many distant sections of the country to which his great reputation has rolled him. Their nature and effect are known and approved of by hundreds of regular physicians who have been his students and seen their beneficial results in Dr. McClintock's own hands, while they were used under his guidance in the Colleges of Philadelphia, Castleton, Pittsfield, and elsewhere.

READ THE FOLLOWING CERTIFICATE:

This is to certify that I have placed in the hands of Messrs. A. Cushman & Co., New York, the recipes of my "Family Medicines," with my full authority to prepare and offer them for popular use. They are such as I have been in the habit of recommending and prescribing for many years, and their composition is well known to hundreds of regular physicians, who have been my students, and who are many of them now practising with distinguished success in all parts of the country. My indorsements for this step are numerous one of the most urgent is, that the demand for my recipes has become so large, through private report of their success, as to make their preparation too great a draft upon my time; another is, the repeated solicitations of my friends and patients, in the belief that the general introduction of my remedies would be in many prospects a public benefit; and finally, in securing the co-operation of Dr. Alexander Cushman, who is a thoroughly educated chemist and practical apothecary of many years experience, whereby I am enabled to assure the public that they will be prepared in the NEAT, PURE AND most perfect form, regardless of expense.

JAMES McCLINTOCK, M. D., Late Professor of Anatomy and Surgery in the Philadelphia College of Medicine and Acting Professor of Midwifery, one of the Consulting Physicians of the Philadelphia Hospital, Blockley, late member of the National Medical Association; member of the Philadelphia Medical Society; member of the Medico-Chirurgical College of Philadelphia; formerly President and Professor of Anatomy and Surgery in Castleton Medical College, Vermont; and also, late Professor of Anatomy and Physiology in Berkshire Medical Institution, Pittsfield, Mass., &c., &c.

We need scarcely remind the intelligent public of the *great necessity* which exists for the introduction of a class of medicines of *reliable popular character*, which may be confidently adopted into family use and *depended on at all times* in the absence of a physician, as being the legitimate productions of *Science, Study and Experience*. Nonargument is needed to prove the immense superiority of such a class of remedies over the dangerous compounds that are daily puffed into notice by ignorant and reckless men, solely for the purpose of enriching themselves at the expense of the lives and health of their fellow beings. We trust confidently in the good sense of the community to support us in this effort to extirpate the great public evil of *Quackery* by giving a careful perusal to the following list, which embrace the first twelve remedies of the series, and which comprises some of the most valuable specifics ever discovered for the several complaints enumerated. If you or any of your friends are sufferers, one no time in procuring the aid of the *first medical authority of the day*, by obtaining and giving a trial to such of these medicines as are adapted to the case. We call especial attention to the first of the list as being most generally demanded, at this season namely, the

The undersigned, in accepting the proprietorship of Dr. James McClintock's Family Medicines, would respectfully state to the public, that, in his profession as Practical Chemist, for nearly fifteen years past, during which time he has been actively connected with the first pharmaceutical establishments in this country, he has had constant occasion to see and prepare the prescriptions of the most eminent physicians, among whom he would name Dr. Mott, Dr. Parker, Dr. Francis, Dr. Cheesman, Dr. Reese, Dr. Whittaker, Dr. Schmidt, Dr. Hosack, Dr. Hixson, Dr. Pyatt and Lyons, Dr. Beale, Dr. Green, and many others in the city of New York.

The experience thus acquired enables him to discriminate with confidence between *legitimate medicines, combined scientifically*, so as to secure a harmonious chemical action in union with their highest therapeutical effects, and the inaccurate mixtures of quackery and ignorance, wherein, for want of proper knowledge in combining them, the best ingredients may neutralize and destroy each other, or result in a substance highly injurious, and contrary to the intended design. It is with pleasure, therefore, that he testifies that the prescriptions of Dr. James McClintock are not only composed of the most valuable medical agents known to, and habitually employed by, our best practitioners in the treatment of the several diseases for which they are intended, but they are combined in such accurate proportions, in relation to their chemical and medicinal effects, as to secure the attainment of the utmost increase of their power and efficiency.

In conclusion, he will only add for himself, that he can refer with confidence to his past career, as his guarantee to the public that these *good remedies* in his hands will be *faithfully prepared* in strict accordance with the prescriptions of their distinguished originator.

TO LUMBER MERCHANTS—I will sell my Lease of four years of Lumber Yard, and five of Dwelling House, from the first of April next, unexpired.—It is situated on the Ninth Ward Pittsburgh, on the bank of the Allegheny river, with right of beach to low water mark; first rate beach for washing and drawing lumber, and water deep enough to load Flats at any stage of water. There is ground enough to pile from two to three millions of feet of lumber. The Dwelling House is large and comfortable; the garden of peaches, plums, grapes, currants, strawberries, and asparagus, and plenty of good water. This is, I presume, the most desirable place about the city for the purchase or sale of lumber, either for city use or for shipping. I will sell the yard and dwelling, or the yard to New Orleans with lumber, if I sell. I will give the purchaser a letter of introduction to the most responsible New Orleans house, some of whom I have supplied for nineteen years.—I have lived on the premises for nineteen years, and am willing to give every information in my power, and assist in forwarding it on in my advanced age. Possession can be given of most of the Lumber Yard this fall, and of the House and rest of the ground on the 1st of April next. To any gentleman applying in good faith, I will explain my business, showing my books, and make the trip to New Orleans if necessary, or by letter, to JAS. B. MORGAN,
