PROGRESS OF THE MANUFACTURING INTEREST.—A Lowell (Mass.) newspaper gives a list of the persons and corporations in that city, taxed over fifty dollars. This formidable array of figures gives an interesting insight into the progress of the manufacturing interests of America. It appears that in 1840, the population had reached twenty thousand, and the property valuation was over twelve millions; and in 1850 the population was set down at thirty-four thousand. At present it is probably nearly forty thousand. The valuation table this year of real and personal property foots up $21,077,072, being an increase of $718,550 since last year. The rate of taxation is 72 cents on the $100. The Merrimack company pays fourteen thousand dollars taxes; the Massachusetts ten thousand; the Lowell nine thousand; the Lawrence eight thousand, and the "Mills," as they are called, pay altogether about seventy thousand dollars. The highest tax paid by a resident is twelve hundred and thirty-eight dollars, by William Livingston; John Nesmith pays $984, and various others sums ranging from $616 down to $203. Lowell has thus in twenty years become the second city in the State in population, and third in valuation.

MEDICAL.

TO THE PUBLIC.

MOST IMPORTANT ANNOUNCEMENT;
RETIREMENT OF PROF. JAMES McCLINTOCK, M. D
From the Philadelphia Medical College.
A NEW ERA IN THE HISTORY OF MEDICINE!
Popular Medicine for the first time sanctioned by the
HIGHEST AUTHORITY IN THE PROFESSION!

THE undersigned have the pleasure of informing the public that they have made arrangements with the eminent Professor JAMES McCLINTOCK M. D., of Philadelphia, known for more than a quarter of a century past as one of the greatest Practitioners and Teachers of Medicine and Surgery in this country or in Europe, for the purchase of his recipes, and the preparation of a series of FAMILY MEDICINES therefrom, which will be put up in a *cheap and popular* form, adapted for general use, and suited to the most prevalent diseases. These remedies embrace some of the most valuable discoveries and combinations *ever known* for the cure of disease. They are the fruits of the most profound investigation, the wide est research, and the almost unequaled experience of one of the first physicians of the age. Each remedy is especially adapted to some *particular form of disease*, in accordance with the *highest principles of modern medical science*. Each of these remedies have been tried, improved, and finally *perfected*, in the course of a long, active and highly successful practice, not only in Philadelphia, but throughout many distant sections of the country to which his great reputation has called him. Their nature and effect are known and approved of by hundreds of regular physicians who have been his students and seen their beneficial results in Dr. McClintock's own hands, while they were under his tuition, in the Colleges of Philadelphia, Castleton, Pittsfield, and elsewhere.

READ THE FOLLOWING CERTIFICATE:

This is to certify that I have placed in the hands of James Armstrong & Co., New York, the recipes of my "Family Medicine," with my full authority to prepare and offer them for public use. They are such as I have been in the habit of recommending and prescribing for many years, and their composition is well known to many regular physicians, who have been my students, and who are many of them now practising with distinguished success in all parts of the country. The improvements in these recipes are numerous; one of the most urgent is, that the demand for my remedies has become so great, that it is a matter of their success, as to make their preparation too great a draft upon my time, as another is, the multiplications of my friends and patients, in the belief that the general introduction of my remedies would be in many cases a public benefit, and finally, in the following from my cooperation of Mr. Alexander Cushman, who is a thoroughly educated Chemist and practical Apothecary of many years experience, whereby I am enabled to assure the public that they will be prepared in the very, FINEST AND MOST perfect form. JAMES McCLINTOCK, M. D.

Late Professor of Anatomy and Surgery in the Philadelphia College of Medicine and Acting Professor of Midwifery, one of the Consulting Physicians of the Philadelphia Hospital, Author of the Medical Jurisprudence, Member of the National Medical Association; member of the Philadelphia Medical Society; member of the Medico-Chirurgical College of Philadelphia; Vice President and Professor of Anatomy and Surgery in Castleton Medical College, Vermont; Lecturer on Anatomy, Physiology in Berkshire Medical Institution, Pittsfield, Mass., &c., &c.

We need scarcely remind the intelligent public of the *great necessity* which exists for the introduction of a class of *good and reliable popular medicines* which may be confidently adopted into family use and *depended on at all times* in the absence of a physician, as being the legitimate productions of *Science, Study and Experience*. No argument is needed to prove the immense superiority of such a class of remedies over the dangerous compounds that are daily puffed into notice by ignorant and reckless pretenders, for the purpose of enriching themselves at the expense of the lives and health of their fellow beings. By trust confidently in the good sense of the community to support us in this effort to extirpate the great public evil of Quackery, by giving a careful perusal to the following list, which embraces the first twelve remedies of the series, and which comprises some of the most valuable specifics ever discovered for the several complaints enumerated. If you or any of your friends are sufferers, one or more of these remedies, at the *first medical authority of the day*, by obtaining and giving a trial to such of these medicines as are adapted to the case. We call especial attention to the first of the list as being most generally demanded, at this season namely, the

The undersigned, in accepting the proprietorship of Dr. James McClintock's Family Medicines, would respectfully state to the public, that in his profession as Dispensing Chemist, for nearly fifteen years past, during which time he has been actively connected with the best pharmaceutical establishments in this country, he has had constant occasion to see and prepare the prescriptions of the most eminent physicians, among whom he would name Dr. Mott Dr. Parker, Dr. Francis, Dr. Cheesman, Dr. Hosack, Dr. Whittaker, Dr. Hosack, Dr. Kissam, Dr. Rodman and Young, Dr. Beals, Dr. Green, and many others in the city of New York.

The experience thus acquired enables him to discriminate with confidence between *legitimate medicines, combined scientifically*, so as to secure a harmonious chemical action in union with their highest therapeutical effects, and the inaccurate mixtures of quackery and ignorance; wherein, for want of proper knowledge in combining them, the best ingredients may neutralize and destroy each other, or result in a substance highly injurious, and contrary to its intended design. It is with pleasure, therefore, that he testifies that the prescriptions of Dr. James McClintock are not only composed of the most valuable medicinal agents known to, and habitually employed by, our best practitioners in the treatment of the several diseases for which they are intended, but they are combined in such accurate proportions, in relation to their chemical and medicinal effects, as to secure the attainment of the utmost increase of their power and efficiency.

In conclusion, he will only add for himself, that he can refer with confidence to his past career, as his guarantee to the public that these *great remedies* in his hands will be *faithfully prepared* in strict accordance with the prescriptions of their distinguished originator.

SANDS' SARSAPARILLA
IN QUART BOTTLES.
For Purifying the Blood, and for the Cure
Of Scrofula, Rheumatism, Stubborn Ulcers, Dyspepsia, Salt Rheum, Fever Sores, Eruptions, Pimples, Blotches, Mercurial Diseases, Mercurial Eruptions, Liver Complaint, Brown Scaly Venereal pitch, Female Complaints, Loss of Appetite, General Debility, &c. &c.

IN this preparation all the restorative properties of the root are concentrated in their utmost strength and efficacy; but while Sarsaparilla Root forms an important part of its combination, it is at the same time compounded with other vegetable remedies of great power and it is in the peculiar combination of these with Sarsaparilla, that its remarkable success in the cure of these diseases. It acts simultaneously on the stomach, the digestive organs, the liver, the kidneys, thus three powerful, which are cordially the result of three different kinds of medicine, which by their combined action, form an instrumentality of truth and power, which no other remedial agent which claims will be distinctly and at the same time restore the vigor and tone. Many other preparations imitate the outside appearance, and pretend to the same remembrance only, being often prepared from worthless and inert roots, and, of course, possessing no virtue or curative powers. Care should be taken in making choice of which they will use should take no other but that genuine article which has been tried by time, and which has effected on living witnesses, whose testimonials and residence have been published, and who are daily offering, testimony to its worth.

ASTONISHING CURE.

JEFFERSON, N. Y. Sept. 20th, 1851.

Messrs. A. B. & D. SANDS Gentlemen—Having witnessed the great benefit which your Sarsaparilla has done in this place, I gives me pleasure to send you the following statement in regard to my son. He was taken with a bad humor when he was but a few weeks of severe suffering the disease settled in his left leg and foot, which was so bad that he was pronounced by his physician, incurable, and discharged most profusely after that no less than eleven ulcers formed on his leg and foot, which, at times always formed a most offensive discharge. Finally, he was bedridden, and has suffered long and painfully, and has tried every known remedy, without effecting the most excruciating pain. During this time the bone had become so much eaten that it was pronounced by the attending physicians, more than twenty-five preserved in a bottle, varying from one-half to one inch in length, and in fact, there was but little or no hope of his recovery, but at this time we were induced to try your Sarsaparilla, and with the use of one bottle a decided improvement began to improve, and so rapid was the change that less than a dozen bottles effected a perfect cure. With gratitude I remain, Yours, &c.

That power over its above diseases is not excelled, it is acknowledged by thousands throughout the United States, who have tested its virtues, in many cases after skilled physicians had failed.

These Bitters are worth the attention of invalids. The following account of the cure of Mr. Page, is taken from an extracted from the Baltimore Chronicle:

MONUMENT, Susquehanna Co., Pa., Feb. 8, 1853.

Dr. C. M. JACKSON, Dear Sir—Hearing your German Bitters are what they are represented to be. For more than one year I have been afflicted with a bad liver complaint, the symptoms of which are too numerous to mention. After trying most of the popular remedies of the day, without the middle of last September, when I became satisfied, from the symptoms, that the mucous membrane of my bowels became dreadfully diseased and inactive. Consulting a friend, he advised me to try your celebrated Bitters, which I did, and in a few days noticed a decided change in my case, and checked the disease, as in a measure, restored action to my bowels. But still to a considerable extent I continued to suffer, and as my tongue continued to be much coated the relapse frequently checked my powers of digestion, I was induced to try your Liver Pills, which I did, and found that the coating was but being removed from my tongue, and the bowels and stomach became much better working so long, and I was brought to a state of convalescence, when I thought I would try the bottle I had used, and I was soon fully satisfied that I was cured. As a testimony of my gratitude, I have sent you a letter of Elder C. M. Page, of this place, who is well known in this region.

Now, sir, I am aware that but few, at least in this section, know anything about Dr. Hoofland's German Bitters, but I know there are hundreds in this region who might be cured by the use of these Bitters.
