# PITTSBURGH GAZETTE.

A Curious Trick.—Dr. Willcott, the celebrated Peter Pindar, was an eccentric character. A good story is told by one of his cotemporary publisher. The latter, wishing to secure a copyright of his works, offered him, in order to refer a life annuity of £200.

The doctor, conceiving that the publisher was very anxious to purchase, demanded £800. To reply the latter appointed a day on which he call on the doctor and talk the matter over. At the day assigned the doctor received him in entire dishabille, even to the night-cap; and having aggravated the sickly cadaverous face by purpose abstaining from the use of a razor for some days, he had the appearance of a candidate for quick consumption.

Added to this the crafty author assumed a hollow and most sepulchral cough, such as would excite the pity of even a sheriff's officer, and make a rich man's heir crazy with joy.

The publisher, however, refused giving more than £200, till suddenly the doctor broke out into a violent fit of coughing which produced at offer of £250.

This the doctor peremptorily refused, and was seized almost instantly with another even more frightful and tonger protracted attack, that nearly suffocated him—when the publisher, thinking it impossible that such a man could live long raised his offer, and closed with him at £300.—The old rogue lived some twenty years after wards.

## MEDICAL.

TO THE PUBLIC.

IMPORTANT ANNOUNCEMENT;

DISCOVERY OF PROF. JAMES McLINTOCK, M. D.

*From the Philadelphia Medical College...*

*A NEW ERA IN THE HISTORY OF MEDICINE!*

Popular Medicine for the first time sanctioned by the

HIGHEST AUTHORITY IN THE PROFESSION!

THE undersigned have the pleasure of informing the public that they have made arrangements with the eminent Professor JAMES McCLINTOCK, M. D., of Philadelphia, known for more than a quarter of a century past as one of the greatest Practitioners and Teachers of Medicine and Surgery in this country or in Europe, for the purchase of his recipes, and the preparation of series of FAMILY MEDICINES therefrom, which will be put up in a *cheap* and *popular* form, adapted for general use, and suited to the most prevalent diseases. These medicines embrace some of the most valuable discoveries and combinations ever *known* for the cure of disease. They are the fruits of the most profound investigation, the wide research, and the almost unequaled experience of one of the first physicians of the age. Each remedy is especially adapted to some *particular form of disease*, in accordance with the *highest principles of modern medical science*. Each of these remedies have been tried, improved, and finally perfected, in the course of a long, active and highly successful practice, not only in Philadelphia, but throughout many distant sections of the country to which his great reputation has called him. Their nature and effect are known and approved of by hundreds of regular physicians who have been his students and seen their beneficial results in Dr. McClintock's own hands, while they were under his tuition, in the College of Philadelphia, Castle on, Pittsfield, and elsewhere.

HAS THE FOLLOWING CERTIFICATE:

This is to certify that I have placed in the hands of Messrs. A. Cushman & Co., New York, the recipes of my "Family Medicine," with my full authority to prepare and offer them for popular use. They are such as I have been in the habit of recommending and prescribing for many years, and their composition is well known to hundreds of regular physicians, who have been my students, and who are many of them now practising with distinguished success in all parts of the country. My inducements for this step are numerous; one of the most urgent is, that the demand for my remedies has become so large, through private report of their success, as to make their preparation so great a draft upon my time, another is, the repeated solicitations of my friends and patients, in the belief that the general introduction of my remedies would be in many respects a public benefit; and finally, in securing the co-operation of Mr. Alexander Cushman, who is a thoroughly educated Chemist and practical Apothecary of many years experience, whereby I am enabled to assure the public that they will be prepared in the best, purest and most perfect form, regardless of expense.

JAMES McCLINTOCK, M. D., Late Professor of Anatomy and Surgery in the Philadelphia College of Medicine and Acting Professor of Midwifery, one of the Consulting Physicians of the Philadelphia Hospital, Honorary late member of the National Medical Association, member of the Philadelphia Medical Society, member of the Medico-Chirurgical College of Philadelphia; formerly President and Professor of Anatomy and Surgery in Castleton Medical College, Vermont, and also, late Professor of Anatomy and Physiology in Berkshire Medical Institution, Pittsfield, Mass., &c. &c. &c.

We need scarcely remind the intelligent public of the *great necessity* which exists for the introduction of a class of *good and reliable popular medicines* which may be confidently adopted into family use and *depended on* of ease in the absence of a physician, as being the legitimate productions of *Science, Study and Experience*. No argument is needed to prove the immense superiority of such a class of remedies over the dangerous compounds that are daily offered into notice by ignorant and reckless men, solely for the purpose of enriching themselves at the expense of the lives and health of their fellow beings. We trust confidently in the good sense of the community to secure for this effort to extend to the great public evil of *Quackery* by giving a careful perusal to the following list, which embrace the first twelve remedies of the series, and which comprise some of the most valuable specifics ever discovered for the several complaints enumerated. If you or any of your friends are sufferers, see no time in procuring the aid of the *first medical authority of the day*, by obtaining and giving a trial to such of these medicines as are adapted to the case. We call especial attention to the first on the list as being most generally demanded, at this season, namely, the

The undersigned, in accepting the proprietorship of Dr James McClintock's Family Medicines, would respectfully state to the public, that in his profession as Dispensing Chemist, for nearly fifteen years past, during which time he has been actively connected with the best pharmaceutical establishments in this country, he has had constant occasion to see and prepare the prescriptions of the most eminent physicians, among whom he would name Dr. Mott, Dr. Parker, Dr. Francis, Dr. Cheesman, Dr. Reese, Dr. Whittaker, Dr. Schmidt, Dr. Horack, Dr. Kissam, Drs. Pratt and Young, Dr. Beals, Dr. Green, and many others in the city of New York.

The experience thus acquired enables him to discriminate with confidence between *legitimate medicines, combined scientifically*, so as to secure a harmonious chemical action in union with their highest therapeutical effects, and the inaccurate mixtures of quackery and ignorance where, for want of proper knowledge in combining them, the best ingredients may neutralise and destroy each other, or result in a substance highly injurious, and contrary to the intended design. It is with pleasure, therefore, that he notifies that the prescriptions of Dr. James McClintock are not only composed of the most valuable medical agents known to, and habitually employed by, our best practitioners in the treatment of the several diseases for which they are intended, but they are combined in such accurate proportions, in relation to their chemical and medicinal force, as to secure the attainment of the utmost increase of their power and efficacy.

In conclusion, he will only add for himself, that he can offer with confidence to his past career, as his guarantor to the public that *these great remedies* in his hands will be *faithfully prepared* in strict accordance with the prescriptions of their distinguished originator.

SANDS' SARSAPARILLA
IN QUART BOTTLES,

For Purifying the Blood, and for the Cure of *Scrofula, Rheumatism, Stubborn Ulcers, Dyspepsia, Salt Rheum, Fever Sores, Eruptions, Pimples, Blotches, Mercurial Diseases, Cutaneous Eruptions, Tetter, Scald Head, Chronic Rheumatism, Female Complaints, Loss of Appetite, Gravel, Debility, &c. &c.*

IN this preparation all the restorative properties of the root are concentrated in their utmost strength and efficacy; but while Sarsaparilla Root forms important part of its combination, it is at the same time compounded with other vegetable remedies of great power and it is in the peculiar combination and scientific manner of its preparation, that its remarkable success in the cure of disease depends. It acts simultaneously upon the stomach, the circulation of the bowels and through three processes, which are ordinarily the result of three different kinds of medicine, are carried on at the same time, through the instrumentality of rare and remedial agent which stimulates while it disinfects and expels from the stomach and bowels all that is irritating, and at the same time restores their vigor and tone. Many other preparations imitate it in bearing the name of Sarsaparilla, and in that their respective introduction of my remedies would be in many respects a public benefit; and finally, in securing the co-operation of Mr. Alexander Cushman, who is a thoroughly educated Chemist and practical Apothecary of many years experience, whereby I am enabled to assure the public that they will be prepared in the best, purest and most perfect form, regardless of expense.

FRAUD.—All Persons who want AXES of the real COLLINS & CO. make, should be particular to notice the stamp, as there are various counterfeit and imitations stamped Collins, and issued much like ours, which are fraudulently sold in some parts of the United States as our manufacture. They are made in all great parts of the country by various axe-makers and of quality of very inferior quality. The genuine Collins axes, which have acquired such an extensive reputation, are stamped "COLLINS & CO., HARTFORD," and each axe has a printed label with my signature. It is now more than TWENTY-FIVE YEARS since we commenced to stamp our goods with the stamp of "Collins & Co." and I do not know of any other axe-maker by the name of Collins in the United States.
ANSON W. COLLINS.
