ABOLITIONISM IN KENTUCKY.—Rev. John G. Fee, a Presbyterian clergyman, in Lewis county of the most ultra Abolition stamp, writes to the American Missionary that there are now organized in that State twenty anti-slavery churches. Also that there is an increasing demand for Union or anti-slavery preachers and documents inculcating Abolitionism.

The trial of Capt. Samuel Montgomery, commander of the steamer Reindeer, at the time of her explosion on the Ohio, a few months since, resulted in his acquittal before the United States District Court at Frankfort, Ky., on the 8th.—The case was submitted to the Judge without argument by the counsel of either party, and the defendant was discharged.

MEDICAL.

TO THE PUBLIC.

MOST IMPORTANT ANNOUNCEMENT;

RETIREMENT OF PROF. JAMES McCLINTOCK, M. D.

From the Philadelphia Medical College.

A NEW ERA IN THE HISTORY OF MEDICINE!

Popular Medicine for the first time sanctioned by the

HIGHEST AUTHORITY IN THE PROFESSION!

THE undersigned, have the pleasure of informing the public that they have made arrangements with the eminent Professor JAMES McCLINTOCK M. D., of Philadelphia, formerly born for more than a quarter of a century past as one of the greatest Practitioners and Teachers of Medicine and Surgery in this country or in Europe, for the purchase of his recipes, and the preparation of a series of FAMILY MEDICINES therefrom, which will be put up in a cheap and *popular form*, adapted for general use, and suited to the most prevalent diseases. These remedies embrace some of the most valuable discoveries and combinations *ever known* for the cure of disease. They are the fruits of the most profound investigation, the wide est research, and the richest uncoupled experience of one the first physicians of the age. Each remedy is especially adapted to some *particular form of disease*, in accordance with the *highest principles of modern medical science*. Each of these remedies have been tried, improved, and finally perfected, in the course of a long, active and highly successful practice, not only in Philadelphia, but throughout many distant sections of the country to which his great reputation has rolled him. Their nature and effect are known and approved of by hundreds of regular physicians who have been his students and seen their beneficial results in Dr. McClintock's own hands, while they were under his tuition, in the Colleges of Philadelphia, Carlisle, Pittsfield, and elsewhere.

READ THE FOLLOWING CERTIFICATE:

This is to certify that I have placed in the hands of Messrs. A. Cushman & Co., New York, the recipes of my "Family Medicine," with my full authority to prepare and offer them for popular use. They are such as I have been in the habit of recommending and prescribing for many years, and their composition is well known to hundreds of regular physicians, who have been my students, and who use many of them now practising with distinguished success in all parts of the country. My indorsement for this step are numerous: one of the most urgent is, that the demand for my remedies has become so large, through private report of their success, as to make their preparation too great a draft upon my time; another is, the repeated solicitations of my friends and patients, in the belief that the general introduction of my remedies would be in many respects a public benefit; and finally, in securing the co-operation of Mr. Alexander Cushman, who is a thoroughly educated Chemist and practical Apothecary of many years experience, whereby I am enabled to assure the public that they will be prepared in the BEST, PUREST and most perfect form, regardless of expense.

JAMES McCLINTOCK, M. D., Late Professor of Anatomy and Surgery in the Philadelphia College of Medicine and Acting Professor of Midwifery; one of the Consulting Physicians of the Philadelphia Hospital, Blockley; late member of the National Medical Academy; member of the Philadelphia Medical Society; member of the Medico-Chirurgical College of Philadelphia; formerly President and Professor of Anatomy and Surgery in Charleston Medical College, Vermont; and also, late Professor of Anatomy and Physiology in Berkshire Medical Institution, Pittsfield, Mass., &c., &c., &c.

We need scarcely remind the intelligent public of the *great necessity* which exists for the introduction of a class of *good and reliable popular medicines* which may be confidently adopted into family use and *depended on at all times* in the absence of a physician, as being the legitimate productions of *Science, Study and Experience*. Nonsense and quackery have so long imposed the immense superiority of remedies over the dangerous compounds that are daily puffed into notice by ignorant and reckless men, solely for the purpose of enriching themselves at the expense of the lives and health of their fellow beings. We have confidently in the good sense of the community to support us in this effort to extirpate the great public evil of *Quackery* by giving a careful perusal to the following list, which embraces the first twelve numbers of the series, and which comprises some of the most valuable specifics ever discovered for the several complaints enumerated. If you or any of your friends are sufferers, one no time in procuring the aid of the *first medical authority of the day*, by obtaining and giving a trial to such of these medicines as are adapted to the case. We call special attention to the first on the list as being most generally demanded, at this season namely, the

The undersigned, in accepting the proprietorship of Dr James McClintock's Family Medicines, would respectfully state to the public, that in his profession as Dispensing Chemist, for nearly fifteen years past, during which time he has been actively connected with the best pharmaceutical establishments in this country, he has had constant occasion to see and prepare the prescriptions of the most eminent physicians, among whom he would name Dr. Mott Dr. Parker, Dr. Francis, Dr. Cheeseman, Dr. Reese, Dr. Whittaker, Dr. Schmidt, Dr. Hoesek, Dr. Kissam, Drs. Pratt and Young, Drs. Davis, Dr. Green; and many others in the city of New York.

The experience thus acquired enables him to discriminate with confidence between *legitimate medicines, combined scientifically, and so as to secure a harmonious chemical action* in union with their highest therapeutical effects, and the inaccurate mixtures of quackery and ignorance; wherein, for want of proper knowledge in combining them, the best ingredients may neutralize and destroy each other, or result in a substance highly injurious, and consequently the reverse of the intended design. It is with pleasure, therefore, that he testifies that the prescriptions of Dr. James McClintock are not only composed of the most valuable medical agents known to, and habitually employed by, our best practitioners in the treatment of the several diseases for which they are intended, but they are combined in such accurate proportions, in relation to their chemical and medicinal effects, as to secure the attainment of the utmost increase of their power and efficiency.

In conclusion, he will only add for himself, that he can refer with confidence to his past career, as his guarantee to the public that these *great remedies* in his hands will be *faithfully prepared* in strict accordance with the prescriptions of their distinguished originator.

SANDS' SARSAPARILLA
IN QUART BOTTLES.

For Purifying the Blood, and for the Cure

Of Scrofula, Rheumatism, Cutaneous Eruptions, Dyspepsia, Salt Rheum, Pimples, Boils, Mercurial Diseases, Tetter, Ringworm, Erysipelas, Liver Complaint, Bronchitis, Coughs, Consumption, Female Complaints, Loss of Appetite, General Debility, &c. &c.

IN this preparation all the restorative properties of the root are concentrated in their utmost strength and efficacy; but while Sarsaparilla Root formsan important part of the combination, it is at the same time compounded with other vegetable remedies of great power and it is in the peculiar combination and scientific manner of its preparation, that its remarkable success in the cure of disease depends. It acts simultaneously upon the skin, the circulation of the bowels and those three processes, which are ordinarily the result of three different kinds of medicine, are carried on at the same time, through the instrumentality of one compound agent which alimentates while it disinfects and expels from the stomach and bowels all that is irritating, and at the same time restores their vigor and tone. Many other preparations imitate it in bearing the name of Sarsaparilla, and in that their resemblance ends, being often prepared from worthless and inert roots, and, of course, possessing no healing or curative powers, and patients in making choice of which they will use should take no other but the one possessing the first confidence, from the long list of cures it has effected on living witnesses, whose testimonials and residence have been published, and who are still bearing daily testimony to its worth.

ASTONISHING CURE.

PATTERSON, N. Y. Sept. 20th, 1851.

MESSRS. A. B. & D. SANDS: Gentlemen—Having witnessed the most beneficial effects from the use of your Sarsaparilla, it gives me pleasure to send you the following statement in regard to my son. In the spring of 1848, he took a severe cold, and after 8 weeks of severe suffering the disease settled in his left leg and foot, which soon swelled to the utmost. The swelling was lanced by his physician, and discharged most profusely; after that no less than eleven ulcerations broke out on the limb, and he was confined to his room for nine months. We had given up all hopes of his recovery, but at this time we were induced to try your Sarsaparilla, and with its use his health and appetite began immediately to improve, and from that time the change for the better was so decided that he soon recovered his health, and has enjoyed it ever since.

We, the undersigned, neighbors of Mr. Dorlon, cheerfully testify to the facts of the above statement.

DR. HOOFLAND'S GERMAN TONIC BITTERS.

PREPARED BY

DR. C. M. JACKSON

No. 120 Arch street, Philadelphia.

Their power over the above disease is not excelled, it effects, in the most decisive manner, the cures that are attested, in many cases after skillful physicians had failed.

These Bitters are worth the attention of invalids. Possessing great virtues in the rectification of diseases of the liver, they are a most valuable tonic, they invigorate persons in weakness and affection of the digestive organs, they are, withal, safe and pleasant.

READ AND BE CONVINCED.

The following account of the cure of the Rev. J. W. Fox, is extensively known in the Methodist Church.

☞ Morstown, Burgoshanna Co., Pa., Feb. 7th, 1852.

Dr. C. M. Jackson, Dear Sir—I believe your German Bitters are what they are represented to be. For more than one year I labored under a very severe Dyspepsia, perhaps seven-eighths of the time, unfitted for the duties of last September, when I became enfeebled, and finally confined to my room, and to my bed most of the time, through its instrumentality of one our remedial agent which alimentates while it disinfects and expels from the stomach and bowels all that is irritating, and at the same time restores their vigor and tone. Many other preparations imitate it in bearing the name of Sarsaparilla, and in that their resemblance ends, being often prepared from worthless and inert roots, and, of course, possessing no healing or curative powers, and patients in making choice of which they will use should take no other but the one possessing the first confidence, from the long list of cures it has effected on living witnesses, whose testimonials and residence have been published, and who are still bearing daily testimony to its worth.

ASTONISHING CURE.

PATTERSON, N. Y. Sept. 20th, 1851.

MESSRS. A. B. & D. SANDS: Gentlemen—Having witnessed the most beneficial effects from the use of your Sarsaparilla, it gives me pleasure to send you the following statement in regard to my son. In the spring of 1848, he took a severe cold, and after 8 weeks of severe suffering the disease settled in his left leg and foot, which soon swelled to the utmost. The swelling was lanced by his physician, and discharged most profusely; after that no less than eleven ulcerations broke out on the limb, and he was confined to his room for nine months. We had given up all hopes of his recovery, but at this time we were induced to try your Sarsaparilla, and with its use his health and appetite began immediately to improve, and from that time the change for the better was so decided that he soon recovered his health, and has enjoyed it ever since.

We, the undersigned, neighbors of Mr. Dorlon, cheerfully testify to the facts of the above statement.
