Automobile Painting

The Martin-Alexander way of refinishing automobiles has proved the most economical. There is no question about the superior beauty of the finish by the baking process from the point of durability, preserving the deep, lustrous finish. The avoidance of cracking for an indefinite period justifies the increased cost of first-class work. We keep our promise as to delivery; our facilities insure prompt service.

It will prove an hour well spent to personally inspect our work.

BUSINESS OPPORTUNITIES

MAN with executive ability and $9500 to assume control and management, also a 1-3 interest in a close Penna. corp. manufacturing a steel product which is in great demand, the demand in this immediate locality being more than twice our capacity, which can be increased at a very small cost; very little competition; advertising unnecessary, as orders are secured upon the reputation of the goods themselves. To the man in position to accept the above and wanting a high-class, money-making manufacturing plant in our own building, full details will be given and a rigid investigation invited, both as to the business and its management.
