MEDICAL.

—TO THE PUBLIC.

MOST IMPORTANT ANNOUNCEMENT;
RETIREMENT OF PROF. JAMES McCLINTOCK, M. D.
From the Philadelphia Medical College.
A NEW ERA IN THE HISTORY OF MEDICINE!
Popular Medicine for the first time sanctioned by the
HIGHEST AUTHORITY IN THE PROFESSION!

THE undersigned have the pleasure of informing the public that they have made arrangements with the eminent Professor JAMES McCLINTOCK, M. D., of Philadelphia, known for more than a quarter of century past as one of the greatest Practitioners and Teachers of Medicine and Surgery in this country or in Europe, for the purchase of his recipes, and the preparation of series of FAMILY MEDICINES therefrom, which will be put up in a *cheap* and *popular* form, adapted for general use, and suited to the most prevalent diseases. These remedies embrace some of the most valuable discoveries and combinations ever known for the cure of disease. They are the fruits of the most profound investigation, the widest research, and the almost unequaled experience of one of the first physicians of the age. Each remedy is especially adapted to some *particular form of disease*, in accordance with the *highest principles of modern medical science*. Each of these remedies have been tried, improved, and finally perfected, in the course of a long, active and highly successful practice, not only in Philadelphia, but throughout many distant sections of the country to which his great reputation has called him. Their nature and effect are known and approved of by hundreds of regular physicians who have been his students and seen their beneficial results in Dr. McClintock's own hands, while they were under his tuition, in the Colleges of Philadelphia, Castleton, Pittsfield, and elsewhere.

READ THE FOLLOWING CERTIFICATE:

This is to certify that I have placed in the hands of Messrs. A. Cushman & Co., New York, the recipes of my "Family Medicine," with my full authority to prepare and offer them for popular use. They are such as I have been in the habit of recommending and prescribing for many years, and their composition is well known to hundreds of regular physicians, who have been my students, and who are many of them now practising with distinguished success in all parts of the country. My inducements for this step are numerous; one of the most urgent is, that the demand for my remedies has become so large, through private report of their success, as to make their preparation from my time and strength very time; another I have been solicitations of my friends and patients, in the belief that their more extensive introduction of my remedies would be in many respects a public benefit; and finally, in securing the co-operation of Mr. Alexander Cushman, who is a thoroughly educated Chemist and practical Apothecary of many years experience, whereby I am enabled to assure the public that they will be prepared in the best, purest and most perfect form, regardless of expense.

JAMES McCLINTOCK, M. D., Late Professor of Anatomy and Surgery in the Philadelphia College of Medicine and Acting Professor of Midwifery, one of the Consulting Physicians of the Philadelphia Hospital, Member; late member of the National Medical Association; member of the Philadelphia Medical Society; member of the Medico-Chirurgical College of Philadelphia; formerly President and Professor of Anatomy and Surgery in Castleton Medical College, Vermont; and also, late Professor of Anatomy and Physiology in Berkshire Medical Institution, Pittsfield, Mass. &c. &c. &c.

We need scarcely remind the intelligent public of the *great necessity* which exists for the introduction of a class of *good and reliable popular medicines* which may be confidently adopted into family use and *depended on at all times* in the absence of a physician, as being the legitimate productions of *Science, Study and Experience*. No argument is needed to prove the immense superiority of such a class of remedies over the dangerous compounds that are daily puffed into notice by ignorant and reckless men, solely for the purpose of enriching themselves at the expense of the lives and health of their fellow beings. We trust confidently in the good sense of the community to support us in this effort to extirpate the great public evil of Quackery by giving a careful perusal to the following list, which embraces the first twelve remedies of the series, and which comprises some of the most valuable specifics ever discovered for the several complaints enumerated. If you or any of your friends are sufferers, one no time in procuring the aid of the *first medical authority of the day*, by obtaining and giving a trial to one of these medicines as are adapted to the case. We call especial attention to the first of the list as being most generally demanded, at this season namely, the

The experience thus acquired enables him to dissuade with confidence between *legitimate medicines, combined scientifically*, and as to secure a harmonious chemical union in union with their highest therapeutical effects, an the inaccurate mixtures of quackery and ignorance; wherein, for want of proper knowledge in combining them, the best ingredients may neutralize and destroy each other, or result in a substance highly injurious, and contrary to its intended design. It is with pleasure, therefore, that he notices that the prescriptions of Dr. James McClintock are not only composed of the most valuable medical agents known to, and habitually employed by, our best practitioners in the treatment of the several diseases for which they are intended, but they are combined in such accurate proportions, in relation to their chemical and medicinal effects, as to secure the attainment of the utmost increase of their power and efficiency.

In conclusion, he will only add for himself, that he can refer with confidence to his past career, as his guarantee to the public that these *great remedies* in his hands will be *faithfully prepared* in strict accordance with the prescriptions of their distinguished originator.

SANDS' NEW YORK

SANDS' SARSAPARILLA
IN QUART BOTTLES.
For Purifying the Blood, and for the Cure
Of Scrofula, Rheumatism, Obstinate Ulcers, Dyspepsia, Salt Rheum, Fever Sores, Erysipelas, Pimples, Biles, Mercurial Diseases, Cutaneous Eruptions, Liver Complaint, Bronchitis, Costiveness, Female Complaints, Loss of Appetite, General Debility, &c. &c.

IN this preparation all the restorative properties of the root are concentrated in their utmost strength and efficacy; but while Sarsaparilla Root formes an important part of its combination, it is at the same time compounded with other vegetable remedies of great power and it is in the peculiar combination and scientific manner of its preparation, that its remarkable success in the cure of disease depends. Its reputation is established upon its stock, the circulation of the bowels, and thus three process are, as it were ordinarily the result of three different kinds of medicine, viz: Alterative, Diaphoretic and Cathartic. Its instrumentality of this one remedial agent which situations with the blood, the pores of the skin and the bowels all that is irritating, and at the same time restores healthy tone and vigor to the system. Many preparations profitable in bearing the name of Sarsaparilla, are found to be mere nauseous ends, being often prepared from worthless and inert materials. Such preparations can be hardly cured of properties, and patients in making choice of which they will use should take care to ascertain by unexceptionable testimony of confidence, from the long list of cures it has effected on living witnesses, whose testimonials and residence has been published, and who are in the habit daily testifies to its worth.

ASTONISHING CURE!

PATTERSON, N. Y. Sept. 20th, 1851.

Messrs. A. B. & D. Sands—Gentlemen—Having witnessed the most beneficial effects from the use of your Sarsaparilla, it gives me pleasure to send you the following state ment of a recent cure. Mr. Jacob Ketcham, of this place, had a severe cold, and after 8 weeks of severe suffering the disease settled in his left leg and thigh, which swelled to twice the utmost. The swelling was lanced by his physician, and discharged most profusely; after that no less than seven ulcers broke out on the leg and thigh, and he was so bad five Physicians but none relieved him much; and the disease was so severe that he was confined to his bed and unable to leave his bed, suffering the most excruciating pain. Hearing this case, I recommended to him, and he effected that piece after piece came out, of which he has used more than twenty-five preserved in a bottle, varying from one to six inches in length. He is now able to leave his room up all hopes of his recovery, but at this time we were in doubt. Let every lover of Sarsaparilla, and with its use his health and appetite began immediately to improve, and so rapid was the change, that he was able to leave his room, effected a perfect cure. With gratitude, I remain truly yours,

DARIUS HALLIDAY.

We, the undersigned, neighbors of Mr. Ketcham, cheerfully subscribe to the facts of the above statement.

No. 120 ARCH STREET, PHILADELPHIA.

Their power over the above diseases is not excelled, if equalled, by any other preparation in the United States, as the cures attest, in many cases after skillful physicians had failed.

These Bitters are worth the attention of invalids. Possessing great virtues in the rectification of diseases of the Liver and Digestive Apparatus, they are decidedly the most powerful invigorant in weakness and affection of the digestive organs, they are without doubt, safe, certain and pleasant.

READ AND BE CONVINCED.

The following is a recent cure of the kind. Rev. J. W. Parker, D. D., writes the Christian Chronicle:

"MONTROSE, Susquehanna Co., Pa., Feb. 7th, 1852.

Dr. C. M. Jackson, Dear Sir—I think your Hoofland's German Bitters are what they are represented to be. For more than one year I have been troubled with Dyspepsia, and perhaps seven-eighths of the time, until about the middle of last November, when I became enfeebled, and finally prostrated by it. My friends thought I could not survive, and my bowels became dreadfully diseased and inactive. In this condition, I was induced to try your Hoofland's German Bitters. The bowels were aroused to healthy action, my case and cheeked the disease, and in a measure, restored health to the bowels. But still my stomach and bowels were not right, my tongue coated so as to be much nauseated, my stomach and the mucous membranes of the bowels were deranged, in the early stages of Asiatic Cholera it will be found invaluable. For Colic of Infants and Cholera Infantum it is a sovereign remedy. Full directions for use accompany each bottle. PRICE, per Bottle, 25 and 50 cents.

The undersigned, in accepting the proprietorship of Dr James McClintock's Family Medicines, would respectfully state to the public, that in his profession as Dispensing Chemist, for nearly fifteen years past, during which time he has been actively connected with the best pharmaceutical establishments in this country, he has had occasion to see and prepare the prescriptions of the most eminent physicians, among whom he would name Dr. Mott Dr. Parker, Dr. Francis, Dr. Cheeseman, Dr. Reese, Dr Whitaker, Dr. Schmidt, Dr. Hosack, Dr. Kissam, Dr. Pratt and Young, Dr. Beals, Dr. Green, and many others in the city of New York.

The experience thus acquired enables him to dissuade with confidence between *legitimate medicines, combined scientifically*, and as to secure a harmonious chemical union in union with their highest therapeutical effects, an the inaccurate mixtures of quackery and ignorance; wherein, for want of proper knowledge in combining them, the best ingredients may neutralize and destroy each other, or result in a substance highly injurious, and contrary to its intended design. It is with pleasure, therefore, that he notices that the prescriptions of Dr. James McClintock are not only composed of the most valuable medical agents known to, and habitually employed by, our best practitioners in the treatment of the several diseases for which they are intended, but they are combined in such accurate proportions, in relation to their chemical and medicinal effects, as to secure the attainment of the utmost increase of their power and efficiency.

In conclusion, he will only add for himself, that he can refer with confidence to his past career, as his guarantee to the public that these *great remedies* in his hands will be *faithfully prepared* in strict accordance with the prescriptions of their distinguished originator.
